Proceedings of the second international symposium, organized by the Institution of Mining and Metallurgy, with the cooperation of the British Tunnelling Society, the Institution of Mining Engineers and the Transport and Road Research Laboratory, held in London from 12 to 16 March, 1979

Edited by M. J. Jones
Contents

Foreword v
Professor Robert N. Pryor vi
Organizing Committee vii
Official Opening x
Ground behaviour and support for mining and tunnelling: The Fourteenth Sir Julius Wernher Memorial Lecture
A. M. Muir Wood xi

Session 1
Tunnel portals at Dinorwic, North Wales
T. Paterson and L. J. Arthur 3
Dinorwic power station, North Wales: design and construction of tunnels and shafts
I. T. Ellis, T. H. Douglas and B. G. T. Copeland 15
Fréjus motorway tunnel: Italian side
L. Canobbio, U. Scavia, P. Lunardi, L. Stragiotti and S. Pelizza 30
Discussion 40
Authors’ replies 40

Session 2
Geotechnical aspects of shallow tunnel construction in Belfast estuarine deposits
N. H. Glossop, D. R. Saville, J. S. Moore, A. P. Benson and I. W. Farmer 45
Geological-geotechnical experience in the construction of the Seelisberg tunnel, Switzerland
T. R. Schneider 51
Effects of tunnelling on the bearing capacity and settlement of piled foundations
J. D. Morton and K. H. King 57
Discussion 65
Authors’ replies 66

Session 3
Experimental criteria for design and control of grouting in sandy-gravelly soils
Renato Tomaghi 71
Site investigation procedures adopted for the Northumbrian Water Authority’s Tyneside Sewerage Scheme, with special reference to settlement prediction when tunnelling through urban areas
W. B. Norgrove, I. Cooper and P. B. Attewell 79
Performance of a shallow tunnel in a shaly rock with high horizontal stresses
K. Y. Lo, M. Devata and C. M. K. Yuen 105
Discussion 120
Authors’ replies 121

Session 4
Drivage of Jubilee surface drift
J. H. Northard and R. Englert 127
Results from a case study of ground freezing at Du Toitskloof tunnel, South Africa
T. N. Cockcroft and D. R. Graham 138
Discussion 149
Authors’ reply 149

viii
Session 5
The Lewes road tunnel, Sussex, England  
R. N. Craig 153
The Bolmen tunnel, Sweden  
C. Sylvan 158
Long-term performance of a machine-bored tunnel with use of an unreinforced, precast, segmented concrete lining in soft clay  
J. H. L. Palmer and D. J. Belshaw 165
Discussion 171
Authors’ reply 171

Session 6
Rockbolting and time-dependent behaviour of strata  
J. F. Raffoux and M. J. Dejean 175
Lining, support and instrumentation of the cavern for the Paulo Afonso IV power station, Brazil  
F. C. V. Freire and R. J. B. Souza 182
Excavation and support of the Padriin tunnel, Spain  
F. Mendaña and J. A. del Rio 193
Discussion 200
Authors’ replies 200

Session 7
Road tunnel in very soft soil in terrace deposits in the Harz Mountains, Germany  
H. Duddeck, D. Meister, E. Werner, R. Schlegel and M. Theurer 205
Two new methods of tunnelling through poor ground in built-up areas  
J. F. Bougard 216
Excavation of expansive ground formation for the Seikan undersea tunnel project  
Yutaka Mochida 220
Discussion 240
Authors’ replies 240

Session 8
Ground freezing for the construction of the three-lane Milchbuck road tunnel, Zurich, Switzerland  
P. C. Bebi and K. R. Mettier 245
Hydrogeological analysis, ground treatment and special construction techniques at Selby: Gascoigne Wood surface drift mine  
W. Forrest and J. C. Black 256
Large-diameter shield-driven tunnel in thick water-bearing sand strata: use of pilot tunnel for ground dewatering  
M. Miyoshi and K. Okuzono 264
Discussion 269
Authors’ replies 269

Session 9
Understanding the burn cut — a key to greater advance rates  
T. N. Hagan 273
Design of tunnel perimeter blasthole patterns to prevent rock damage  
Roger Holmberg and Per-Anders Persson 280
Drillability predictions in hard rock tunnelling
O. T. Blindheim  284
Discussion  290
Authors’ replies  291

Session 10
Driving an 8.48-m diameter sewer tunnel by use of an earth-pressure balancing shield
T. Saito and T. Kobayashi  295
The New Silverdale colliery project
A. J. Hill  305
Strata bunkers: design and construction in the Western Area of the National Coal Board
D. Grime  316
Discussion  327
Authors’ replies  327

Session 11
Design and construction of the second Dartford tunnel
G. B. Shutter and G. A. Bell  331
Wyresdale tunnel: design, the contract and construction
J. L. Boyd and J. R. Stacey  338
Discussion  347
Authors’ replies  349

Session 12
Tunnels for the Hong Kong mass transit railway
C. K. Haswell and A. R. Umney  355
28 km of rock tunnel for Kielder water scheme
N. S. M. Berry and E. Fink  366
Excavation and support of the Norad expansion project
A. G. Provost and G. G. Griswold  379
Discussion  391
Authors’ replies  394
Closing session  397
Name index  403
Subject index  405
