PROCEEDINGS

SECOND
INTERNATIONAL CONFERENCE
ON
WILDLIFE BIOTELEMETRY

JULY 30, 31, AUGUST 1, 1979

UNIVERSITY OF WYOMING
LARAMIE, WYOMING
USA

EDITED BY
FRANCIS M. LONG
ELECTRICAL ENGINEERING DEPARTMENT
UNIVERSITY OF WYOMING
LARAMIE, WYOMING

PUBLISHED BY
INTERNATIONAL CONFERENCE ON WILDLIFE BIOTELEMETRY
SECOND
INTERNATIONAL CONFERENCE ON WILDLIFE BIOTELEMETRY

CONTENTS

TUTORIAL - On the Method of Using Heart Rate to Index Energy Expenditures of Free-ranging Animals.
G. F. Lund (NASA-AMES Research Center) ......... 1

BIOENERGETICS

Heart Rate and Body Temperature of Free Roaming Badger.
(University of Wyoming) ................. 14

Biotelemetric Monitoring of Heart Rate and Activity in Elk.
J. W. Lieb and C. L. Marcum (University of Montana) .... 21

MICROPROCESSOR BASED SYSTEMS

Use of a Microprocessor to Locate Fish in Experimental Channels. V. B. Kuechle, R. A. Reichle, K. E. Zinnel and M. J. Ross (University of Minnesota) ....... 33

Notepad: A Multievent Time-Tagged Observational Data Accumulator for Field Use. N. K. Jacobsen (University of California) and J. L. Stuart (J. Stuart Enterprises) ... 40

ACTIVITY PATTERNS

Use of Activity Monitors in Telemetry Studies.
H. B. Quigley, D. L. Garshelis, M. R. Pelton, C. I. Taylor and C. R. Villarrubia (University of Tennessee) .... 48

Individual Differences in Summer Activity Patterns of Beaver Determined by a Continuous-Monitoring, Radio-Tracking System. R. W. Lancia, J. S. Larson (University of Massachusetts) and W. E. Dodge (Massachusetts Cooperative Wildlife Research Unit) ..... 57

Territorial Behaviour in the Roe Deer (Capreolus capreolus L) as Determined by Automatic and Continuous Radiotracking System: An Ethophysiological Analysis. A. Sempere (Centre d'Etudes Biologiques des Animaux Sauvages) ....... 67

A System for the Telemetry of Activity-Related Information From Free-Swimming Fish. D. M. Luke (University of New Brunswick), D. G. Pincock (Nova Scotia Technical College), P. D. Sayre (Bell Northern Research) and A. L. Weatherly (Scarborough College) ......... 77
TUTORIAL ABSTRACT - Microelectronics in Biotelemetry.
J. W. Knutti, H. V. Allen and J. D. Meindl (Stanford University) 86

A Radiotracking Emitter-Responder. J. L. Aucouturier, E. Garnier, A Chaillou, G. Nicolas (Universite de Bordeaux I), R. Govaerts, (Katholieke Universiteit Leuven) and R. Canivenc (Universite de Bordeaux II) 87

Development of a Seven Channel Telemetry Transmitter.
R. L. Seeley (Naval Ocean Systems Center), J. D. Pauley (University of Colorado Medical Center), F. M. Long and R. W. Weeks (University of Wyoming) 94

IMPLANTED TRANSMITTERS
Development and Use of a Telemetry Technique for Studying River Otter. W. E. Melquist and M. G. Hornocker (University of Idaho) 104

Effects of External and Internal Radio Transmitter Attachment on Movement of Adult Chinook Salmon. J. M. Haynes (State University College) and R. H. Gray (Batelle) 115

The Use of Radio Transmitters for Field Study of Eastern Indigo Snakes. D. W. Speake, J. A. McGlincy (Auburn University), and R. E. Hawkings (Wildlife Materials, Inc.) 128

MONITORING PHYSIOLOGY
EKG Electrode Implacement and Signal Filtering for Heart Rate Monitoring. J. D. Pauley (University of Colorado Medical Center), C. Kaltenback, R. W. Weeks, F. M. Long and W. Marshall (University of Wyoming) 135

Measuring Heart Rates of Mule Deer Using a Repeater-Type Telemetry System. D. J. Freddy (Colorado Division of Wildlife) 144

A Tutorial Overview of a Heart Rate and Multiple Body Temperature, Long-Range and Long-life Telemetry System and Its Experimental Applications to Free-Ranging Animals. G. F. Lund (NASA-AMES Research Center) 156
STATISTICAL ANALYSIS TECHNIQUES

A Complete Test for Dynamic Territorial Interaction.
J. E. Dunn (University of Arkansas) ........................................ 159

A Computer Algorithm for Determining Home Range Size

Ungulate Habitat Selection Determined by Location Telemetry: An Approach. J. W. Schoen, G. N. Thornburgh and R. D. Taber (Alaska Department of Fish and Game) ........................................ 178

NEW TRACKING TECHNIQUES

U.H.F. System for Radio-tracking Wild Animals. K. W. Newgrain (CSIRO) and C. M. Horwitz (Sydney University) ........................................ 187

A Radar-Transponder Telemetry System for Tracking Wildlife.
R. P. Davison and E. F. Pound (Utah State University) ........................................ 193

Optical Aids for Nocturnal Telemetry Studies: A Mini-Review
R. P. Brooks (University of Massachusetts) ........................................ 200

Computer Generated Movies to Display Biotelemetry Data
G. C. White (Los Alamos Scientific Laboratory) ........................................ 210

BIRD MONITORING

Telemetry Investigations of Sage Grouse in North Park, Colorado. S. R. Emmons and B. E. Petersen (Colorado State University) ........................................ 215

FISH MONITORING

An Investigation of the Loss Mechanisms Encountered in Propagation From a Submerged Fish Telemetry Transmitter. J. I. Velle, J. E. Lindsay, R. W. Weeks and F. M. Long (University of Wyoming) ........................................ 228

Automatic Radio Telemetry Recording of Fish Temperature and Depth. M. J. Ross, V. B. Kuechle, R. A. Reichle and D. B. Siniff (University of Minnesota) ........................................ 238
