PROCEEDINGS
of the Second International
Conference
on
Information Systems

December 7-9, 1981 • Cambridge, Ma.

Catherine A. Ross
Editor

Sponsored by
Research and Education in Information Systems, The Society for Management Information Systems
in cooperation with
Special Interest Group on Business Data Processing, Association for Computing Machinery
and
College on Information Systems, The Institute of Management Sciences
and
Association for Systems Management
CONTENTS

FOREWORD vii

INTRODUCTION TO TRACK I: Research in the Art of Developing and Implementing Computer Based Information Systems 1
Alan G. Merten

TRACK I: COGNITIVE PROCESSES AND IS DESIGN

Paul R. Watkins

Cognitive Style Research: A Perspective for Integration 21
Peter Keen and Gloria Bronsema

Information Processing in a Simulated Stock Market Environment 53
Miklos Vasarhelyi

TRACK I: ELICITING INFORMATION REQUIREMENTS

Information Deficiency: Implications for Information System Design 77
Amanth Srinivasan and Kate M. Kaiser

Eliciting User Feedback During System Development 89
Gail Salaway

A Methodology for Eliciting Information Relevant to Decision Makers 105
Gary Grudnitski

TRACK I: DEVELOPING DSS

The Effect of Color-enhanced Information Presentations 121
Lee L. Gremillion and A. Milton Jenkins

Procedural Decision Support Through the Use of Prodemo 135
R. Maes, J. Vanthienen, M. Verhelst, and K. U. Leiven

Database Design: A DSS Approach 153
J. R. Carlis, S. T. March, and G. W. Dickson

TRACK I: DEVELOPMENT AND IMPLEMENTATION OF IS

Complexity Measures in System Development 173
Benn Konsynski and Jeff Kottemann

Toward an Axiomatic Approach to Productivity in Information Systems Development 201
John Donovan and Steven Kim
INTRODUCTION TO TRACK 2: Information Systems and the Public Sector and Measurement in Information Systems
Dennis Galletta and James C. Wetherbe

The Political Character of Computing Developments: Citizens' Interests and Government Services
Rob Kling and Kenneth Kraemer

PATRIC at the L.A.P.D.
Joyce Glasser

TRACK 2: MEASUREMENT IN IS

Toward a Behaviorally-Grounded Theory of Information Value
Michael Treacy

A Method for Measuring the Properties of Information Systems
Jon Turner

Toward a Formal Definition of Task Representation
Richard D. Hackathorn and Robert Fetter

INTRODUCTION TO TRACK 3: Managing Information Systems: Policy Planning, Strategic Planning and Operational Planning
William R. King and Robert W. Zmud

TRACK 3: ORGANIZATIONAL VARIABLES AFFECTING IS

The Stage Hypothesis and Data Administration
Robert Goldstein and Ian McCririk

Diffusion of Modern Software Practices: Influences of Organizational Process Variables
Robert Zmud

Firm Size and the Characteristics of Computer Use
William DeLone

TRACK 3: PLANNING FOR IS

Merging of the Islands of Information Service
James L. McKenney and Warren McFarlan

The Management of End User Computing
John F. Rockart and Lauren S. Flannery
Technology is Not Enough
Brandt Allen

TRACK 3: THE CHANGING IS MANAGERIAL JOB

A Study of the Computer Software Products Industry
Ellis Horowitz and Robert Hollies

Manager or Technician: The Nature of the Information Systems Manager's Job
Blake Ives and Margrethe H. Olson

Environmental Scanning: The Impact of Stockholder Concept
Aubrey Mendelow
