29th ADCIS CONFERENCE PROCEEDINGS

Association for the Development of Computer-Based Instructional Systems

OAKLAND, CALIFORNIA
NOVEMBER 9 thru 12, 1987

Copyright ADCIS 1987
ADCIS, MILLER HALL 409
WESTERN WASHINGTON UNIVERSITY
BELLINGHAM, WASHINGTON 98225
# TABLE OF CONTENTS

## COMPUTER BASED TRAINING (CBT)

- Computerized Environment for Instructional Design: Developing CBT with Artificial Intelligence-Based Workstation
  - Avshalom Aderet
  - An Integrated CBI Authoring and Hardware System
  - Ann Brebner
  - Toward an Ideal Visual Interface for Computer-Based Authoring Systems
    - Dan G. Friedrich
  - Journaling Systems: Integrating Computer-Based Learning Activities with Applications Software
    - Shirley F. Gresham, Leslie R. Ferguson, Brockenbrough S. Allen
  - Introducing CHEMLEARN: Microcomputer-Based Training for CHEMLINE
    - Miriam L. Perkins, Melvin L. Spann, Michelle M. Geasler
  - What’s Your CAI MO - Mainframe or Micro?
    - Barbara Hershey Handler
  - Training Videotape Production as a Means of Student Consultant Training
    - Joan Lauer Hayes
  - The Impact of Training in Enlightened Countries
    - John J. Hirschbuhl
  - Hidden Decisions in the CBT Design Process
    - Adele Suchinsky, David Losleben
  - Designing Software for Easy Translation Into Other Languages
    - Stanley R. Trollip, Gary Brown
  - Development of a Micro-Computer Based Knowledge System: An Overview
    - Alan D. White
  - On-Line Tools for 3-D Graphics Programming
    - Mason Woo

## ELEMENTARY, SECONDARY, JUNIOR COLLEGE EDUCATORS (ELSECJC)

- Teachers’ Perceptions of Needs Related to Implementing Computer-Based Instruction
  - David W. Dalton
- Computers in Education: What’s Really Keeping Them Out?
  - Michael J. Hannafin, David W. Dalton, Simon R. Hooper
- The Effects of Individualistic Versus Cooperative Computer-Assisted Instruction on Student Performance and Attitudes
  - David W. Dalton, Michael J. Hannafin
- Using Computer Simulated Base Ten Blocks to Teach Double-Digit Addition and Subtraction
  - Gary A. Deatsman
- Effects of Unit Test Item Feedback on Final Exam Scores for Computer Administered Exams
  - D. L. Jelden
- The Computer Environment and the Teaching of Writing
  - Pam McRae, Mark Sherman
- Technology and Group Instruction: A Communication and Management Tool for Teachers
  - Steven L. Robinson
- Young Children and Computers: A LOGO Project Revisited
  - Charlotte Scherer
- Teaching Modular Hierarchical Programming Using LogoWriter™
  - Sylvia A. Shafto, John D. Lawson

## EDUCATORS OF THE HANDICAPPED (SIGHAN)

- Computer Applications for Transition Programs
  - Joseph P. DeMarsh, Pamela J. Zrihen
# TABLE OF CONTENTS (cont.)

## HEALTH EDUCATION (HESIG)

- Developing a Knowledge-Based Simulation for Microcomputers  
  **Thomas McFarland, Mary McFarland, Stephen Ragan, Diana Kottkey**  
  101

- An Evaluation System in Dental Hygiene Clinical Education  
  **Michael W. Sachon, Patricia-Damon Johnson**  
  107

## HOME ECONOMICS CONSORTIUM (HOMECE)

- Innovative Use of Plato Notefile in Dietetic Clinical Simulation  
  **Leta P. Aljadir, Evelyn V. Stevens**  
  117

- Implementation of a Three Dimensional Animation Module in Designers Spatial Skills Educational Process  
  **Susan Harshbarger**  
  121

- Utilizing an Interactive Computer-Based Approach for Enhancing the Study of Family Financial Planning  
  **James L. Morrison**  
  124

- Addressing the Computer Literacy Needs of Home Economics Educators in Hawaii  
  **Cecelia Thompson**  
  127

- What Can I Do With a Videodisc?  
  **Clo Wiltse**  
  129

## IMPLEMENTATION (ISIG)

- Human Related Factors in Implementing a Management Information System  
  **Patricia V. D'Souza**  
  132

- Test Design for Computer Managed Instruction Systems  
  **Robert L. Jorczak, Franklin C. Roberts**  
  135

- LADAR: A Language for Describing Anticipated Responses in CAI Answer Judging  
  **Hiroshi Kato, Yasuhiro Morimoto**  
  142

- Space Requirements for Computer-Assisted Instruction  
  **Frederick G. Knirk, Daniel Christinaz**  
  147

- A Naturalistic Framework for the Development of a Computer Ethics  
  **Donald Scherer**  
  156

- Bar Code Applications in an Academic Environment  
  **Charles A. Schneebeck, Co-Nghiep Ho**  
  163

- The Application of Technology to a Basic Photography Class  
  **Merton E. Thompson**  
  170

## INTERACTIVE VIDEO-AUDIO (SIGIVA)

- Is There an Expert System in Your IV/A Future?  
  **Greg Baur**  
  174

- Using Patient Simulations to Teach Problem-Solving  
  **Lynn Johnson, Michael W. Finkelstein**  
  185

- Design Parameters for Video/Graphics Overlay Applications  
  **D. V. Pigford**  
  191

## MINI/MICRO COMPUTER USERS (MINI/MICRO)

- Statistics From the Top Down  
  **Susan Athey**  
  196

- Authoring System Evaluation Package  
  **Emile Attala, Marsha Epstein**  
  201

- An Evaluation of the Teaching Effectiveness of a PC-Based Emulation Program for Production Courses  
  **K. Kern Kwong, C. Hirayavasit, S. Moon**  
  207

- Simulating an Army Aviator Qualification Course: Resource Allocation Model  
  **Carol A. W. Sprunger, Paul J. Tremont**  
  210

- A Computer Augmented Curriculum  
  **B. Wayne Walters**  
  218
**TABLE OF CONTENTS (cont.)**

**MUSIC EDUCATORS CONSORTIUM (MUSIC)**

Improving the Measurement of Musical Ability Through Adaptive Testing ........................................... 221  
Walter P. Vispoel

**PILOT**

Origins and Early Development of PILOT ................................................................. 226  
John A. Starkweather

**PLATO USERS GROUP (PUG)**

Generative CAI for Latin: Assessing a Ten-Year Project ........................................... 229  
Gerald R. Culley

**THEORY AND RESEARCH (SIGTAR)**

Integrating Problem Solving and Tutorial Strategies: Extending the Genetic Graph ................. 234  
Garland Bayley, William S. Bregar, Arthur M. Farley
An Electronic Coaching System to Teach Concepts of Personal Causation and Symbol Use to Severely Handicapped Learners ........................................... 239  
Gaye V. Fedorchak, Steven E. Nantz
A Cognitive Method for Designing Computer-Based Training ........................................... 245  
Veli-Pekka Liflander
Principles of Feedback and Related Variables in Computer-Assisted Instruction ................. 253  
Joseph S. Mattoon

**SHUFFLE: An Intelligent System for Teaching Procedural Knowledge** ........................................... 256  
Walter Maner
The Effects of Textual, Graphic and Animated Graphic Elaboration Strategies and Practice on Learning from Computer-Based Instruction ........................................... 263  
Lloyd P. Rieber
Online Training for Trainers: A Working Model Based on UNIX* ........................................... 268  
John A. Sciglimano, Barry A. Centini, Jacques Levin, Alan White  
*Unix is a Trademark of AT&T Bell Laboratories
Children Using Educational Software: An Observational Study ........................................... 271  
Rosemary E. Sutton
Measurement of Spatial-Symbolic Information Processing Skills ........................................... 276  
Arthur L. White, Donna F. Berlin

**200 WORD ABSTRACTS (No Formal Papers)**

**COMPUTER BASED TRAINING (CBT)**

Using a Workbook/On-Line Tutorial as a Starting Point for CBT Development with an Authoring Language ........................................... 291  
Martha R. Atwater
The Development of an Instructional Planner for an Intelligent Tutoring System ................. 292  
Melissa Berkowitz, David Emme, Stuart Macmillan
Computer-Generated Video Slides and Storyboards: Alternatives to Computer-Based Training ........................................... 293  
David W. Dalton, David Goodrum
Authoring System Evaluation Strategies ................................................................. 294  
Daniel V. Eastmond
Adapting Object-Oriented Database Systems for Use as Automated Job-Aids ................. 295  
Shirley Gresham, Leslie Ferguson, Brockenbrough S. Allen
Software Tools for Training Developers ................................................................. 296  
Greg Kearsley
Audio-Based CBT ................................................................. 297  
James M. Kraatz, Jolanta Percy
Model Training Program for Reserve Component: A Pilot Study ........................................... 298  
Mahima R. Kundu
# TABLE OF CONTENTS (cont.)

SIMUEDIT: Courseware Authoring Tool ................................. 299  
*Dave Lohn-Wiley, Zandria Merrill*

Designing a Computer-Based Criterion Referenced Test ............. 300  
*Francine Manna*

Courseware Development for the Insurance Industry .................. 301  
*John A. Merrill*

Training the Microcomputer Illiterate to be Productive  
Users of the Technology in a One-Semester Experience .............. 302  
*Richard L. Patterson*

Learner Control: Where Do We Go From Here? ....................... 303  
*Joellyn Pollock, Cindy Leshin*

Problems and Strategies for Developing CBI to Mirror a Mainframe System  
*Mary Riley, Shelley L. Morse*

Corporate-Wide Computer Managed Instruction (CMI) ................. 305  
*Joan Rogalska Saz, David F. Stevens*

Computer Based Training (CBT) Cost Estimating Algorithm for Courseware (CEAC)  
*Ralph E. Schooley*

Corporate Challenge: Computer-Based Instructional Gaming ....... 307  
*Linda Shatzer*

Checking Vendor Support ........................................... 308  
*Timothy W. Spannaus*

Learning Styles, Computer Attitudes and Preference for Instructional Delivery Methods  
*Charles J. Stanley, John C. LeDoux*

An Authoring System Selection Guide  
*David F. Stevens, Joan Rogalska Saz, Marjorie Pomper*

## ELEMENTARY, SECONDARY, JUNIOR COLLEGE EDUCATORS (ELSECJC)

Interactive Video on a Shoestring — Revisited .................... 311  
*L. Boyer, L. West*

A Features Comparison of Print Shop for the Apple II, Macintosh and IBM  
*B. Clark, W. Clark, N. Higgins*

Effectiveness of Writing to Read Program in Phoenix Public Schools in Arizona  
*Patricia Alba Mulligan*

Computer-Based Testing in Schools  
*James R. Okey, Chris L. Peters, William H. Brittain*

High Tech’s Real Place - What Will It Take? ....................... 315  
*Dan Schwartz*

Implementing an Applications Program Database .................... 316  
*Scott D. Shoemaker, Norman C. Higgins*

Validation of a Computer Administered Rhythm Tapping Skill Test for Elementary School Students  
*Aaron L. Spaulding, Gerald J. Blumenfeld, Ted Malcom*

The Effectiveness of Using Computers in Developmental Writing Classes  
*Gary Vaughn*

Electronic Support Networks for Improving Preservice and Inservice Teacher Training  
*Micahel Waugh, James A. Levin*

Effective Use of PLATO in the K-12 School System ................ 320  
*Tom Williams, Marieanne Perrault, Mike Pineda, Lee Becea*

Computer Based Education in California Public Schools ........... 321  
*Pamela A. Wright*

## EDUCATORS OF THE HANDICAPPED (SIGHAN)

Educating Special Learners: A College Course ...................... 322  
*G. Phillip Cartwright*

Computer Projects and Products for Hearing Impaired Populations  
*Phil Mackall*

TABLE OF CONTENTS (cont.)

PILOT USERS GROUP (PILOT)
Using Special Graphic Effects in Instruction .................................................. 372  
  Susanne M. Behe, Bradley K. Schaublin, Norman C. Higgins
Integration of CD-ROM and Optical Videodisc via PC PILOT in a Medical Application Program .......... 374  
  Richard J. O'Connor
Souped-Up SuperPILOT Programming .......................................................... 375  
  Marianne E. Yoder

PLATO USERS GROUP (PUG)
U.S. Army Need for PLATO-Delivered Courses ............................................. 376  
  Clinton L. Anderson
  Owen F. Gaede
Teaching Exotic Languages with PLATO ..................................................... 378  
  Celia D. Kraatz, James M. Kraatz
CERL’s “Colossal” Computer-Based Education System .................................... 379  
  Sam A. Falk Milosevich
The Effect of Immediate and Delayed Feedback on Retention in a Computer-Based Training Program .......... 380  
  Susan D. Moisey
Development of PLATO Usage Among Faculty .............................................. 381  
  Deborah Ouellette

THEORY AND RESEARCH (SIGTAR)
The Use of Knowledge-Based Microworlds in an Intelligent Tutoring System for Physics .................. 382  
  Steven F. Brown
Simulation in Program Management Education .............................................. 383  
  Forrest C. Gale
Feedback and Transfer with an Instructional Expert System ................................ 384  
  Scott Grabinger, Joellyn Pollock
The Effects of Ability-Based Grouping Strategies on Learning from the Computer ......................... 385  
  Simon Hooper, Michael J. Hannafin
Applying AI to Instruction ........................................................................... 386  
  Greg Kearsley
Conditions Affecting the Effectiveness of Animated and Non-Animated Displays in Computer-Based Instruction ................................................................. 387  
  Dan Klein
Toward the Redefinition of Knowledge as Design: Implications for the Development of Computer-Based Learning Environments .................................................. 388  
  Vincent E. Lasnik, Frederick C. Whiteman
The Computerized Advisory Service for Horticulture (CASH): Educating the Agricultural Community in the Field ................................................................. 389  
  Vincent E. Lasnik
Computer-Based Precollege Economic Education: An Imperative Need for Courseware Research and Development ................................................................. 390  
  Vincent E. Lasnik
Evaluating Courseware for Instructional Effectiveness ..................................... 391  
  Cindy B. Leshin
Language and Thinking: A Computer-Mediated Critical Thinking Course ......................... 392  
  Denise E. Murray
The Computer as “Persona” in CBI .................................................................. 393  
  Henrietta N. Shirk
When CBT Is the Choice But Not the Solution .............................................. 394  
  John Vukelich
