URANIUM MILL TAILINGS
MANAGEMENT

PROCEEDINGS
OF THE
FIFTH SYMPOSIUM
December 9-10, 1982

Organized by the
Geotechnical Engineering Program
Civil Engineering Department
Colorado State University
Fort Collins, Colorado 80523
TABLE OF CONTENTS

SESSION 1 - TAILINGS MANAGEMENT AND DESIGN

Matthews, Mark L.
Department of Energy
"Status of the Uranium Mill Tailings Remedial Action Project (UMTRAP)
.................................................. 3

Leiter, Andrew J.
U.S. Environmental Protection Agency
"A Benefit-Cost Methodology for Developing Environmental Standards for Uranium Mill Tailings Disposal"
.................................................. 11

Brookins, Douglas, Longmire, Patrick, Thomson, Bruce
University of New Mexico
"Early Diagenesis of Uranium Mine Stope Backfill" ................................ 27

Jeyapalan, Jey K.
Texas A&M University
"Dam-Break Studies for Uranium Mill Tailings Impoundments"
.................................................. 39

Robertson, A. Mac G., Fisher, J. W. and van Zyl, Dirk
Steffen, Robertson and Kirsten, Vancouver
"The Production and Handling of Dry Uranium and Other Tailings"
.................................................. 55

SESSION 2: SURFACE STABILIZATION

Mishima, J.
Pacific Northwest Laboratories
"Long Term Stabilization of Uranium Mill Tailings Pile Surfaces, Project Overview"
......................... 73

Lindsey, C. G., Mishima, J. and King, S. E.
Pacific Northwest Laboratories
"Evidence for the Long-Term Stability of Uranium Mill Tailings: Survivability of Large Ancient Man-Made Earthen Structures" .................. 77

Elmore, M. R.; Li, C. T.; and Hartley, J. N.
Pacific Northwest Laboratories
"Interim Stabilization of Uranium Mill Tailings" .................. 91
Lindsey, C. G.; Doesburg, J. M. and Vallario, R. W.
Pacific Northwest Laboratories
"A Review of Long-Term Rock Durability: Implications for Survivability of Riprap Used to Protect Uranium Mill Tailings" 101

Walters, W. H.
Pacific Northwest Laboratories
"Riprap Design Considerations for Long-Term Protection of Uranium Mill Tailings" 117

Parker, Graham B.
Pacific Northwest Laboratories

SESSION 3: RADIOLOGICAL ASPECTS

Smith, W. J. II and Schiager, K. J.
Colorado State University
"Simple Field Method for Determining Compliance with EPA Land Cleanup Standards" 135

Ibrahim, Shawki; Flot, Shawna and Whicker, F. Ward
Colorado State University
"Concentrations and Biological Availability of 238U and 230Th in the Environ of a Uranium Milling Operation" 149

Yuan, Y. C. and Chee, P. C.
Argonne National Laboratory
"Estimation of Radiological Impact from Transportation of Uranium Mill Tailings. Part II. Dispersion and Dosimetry" 165

Fontana, Perry H.
Woodward Clyde Consultants
"Acquiring Metrological Data for Siting and Licensing of Uranium Mills and Tailings Disposal Facilities" 175

Van De Steeg, G. E.; Coe, M. D.; Shelley, W. J. and Cleveland, J. E.
Kerr-McGee Corporation
Kerr-McGee Nuclear Corporation
"Radioactive Composition of Airborne Particulates at Ambrosia Lake, New Mexico" 187

Smith, A. and Moed, B.
Lawrence Berkeley Laboratories
"Recent Radiochemistry Data from the Riverton and the Maybell Tailings Pile" 205
SESSION 4: CONTAMINANT MIGRATION

Bush, Kathryn J. and Markos, Gergely
GEC Research, Inc.
"Statistical Evaluation of Contamination from Uranium Mill Tailings by Physical Transport and Chemical Migration". 225

Shepherd, Thomas A. and Brown, Stephen E.
Water, Waste and Land, Inc. and Colorado State University
"A Generic Model of Contaminant Migration from Uranium Tailings Impoundments". 241

Markos, Gergely and Bush, Kathryn J.
GEC Research, Inc.
"Thermodynamic Calculations and Phase Diagrams In Evaluating Tailings-Soil-Water Interactions". 259

Colbert, Thomas and Kleesman, Ronald W.
Gibbs and Hill Inc.
"Evaluation of Radionuclide and Trace Metal Migration Beneath an Inactive Tailing Impoundment". 275

White, A. F. and Delaney, J.
Lawrence Berkeley Laboratories
"Chemical Transport Beneath a Uranium Mill Tailings Pile, Riverton, Wyoming". 295

Longmire, Patrick and Brookins, Douglas
New Mexico Environmental Improvements University of New Mexico
"Trace Metal, Major Element, and Radionuclide Migration in Groundwater from an Acid Leaching Uranium Tailings in the Grants Mineral Belt, New Mexico". 315

Erikson, R. L. and Sherwood, D. R.
Pacific Northwest Laboratory
"Interaction of Acidic Leachate with Soils Materials at Lucky Mc Pathfinder Mill, Gas Hills, Wyoming". 335

SESSION 5: RADON CONTROL AND COVERS

Nielson, K. K., Rogers, V. C. and Mauch, M. L.
Hartley, J. N. and Freeman, H. O.
Rogers & Associates Engineering Corp.
Pacific Northwest Laboratory
"Radon Emanation Characteristics of Uranium Mill Tailings". 355
Rogers, V. C., Nielson, K. K., and Rich, D. C.
Rogers & Associates Engineering Corp.
"Measurements and Calculations of Radon Flux Attenuation by Western U.S. Soils" 369

Baker, E. G., Freeman, H. D. and Hartley, N. J.
Pacific Northwest Laboratory
"Cost and Effectiveness of Radon Barrier Systems" 383

Beedlow, P. A.; Cadwell, L. W. and McShane, M. C.
Pacific Northwest Laboratory
"A Systematic Approach to Designing Surface Covers for Inactive Uranium Mill Tailings" 397

Kirham, R. R.; Beedlow, P.A.; and Gee, G. W.
Pacific Northwest Laboratory
"Effect of Rock Cover on Multilayer Radon Barrier Effectiveness" 409

Hinton, T. and Whicker, F. W.
Pathfinder Mines Corporation
"A Field Experiment on Tailings Reclamation: Radon Flux versus Earthen Cover Depth" 421

Barnes, S. M. and Buelt, J. L.
Pacific Northwest Laboratory
"Accelerated Aging of Catalytically Airblown Asphalt Membranes Under Simulated Uranium Mill Tailings Impoundment Conditions" 433

SESSION 6: SEEPAGE AND LINERS I

Champlin, Jerry B. F.
Woodward-Clyde Consultants
"Use of Scientific Calculators and Pocket Computers for Evaluation of Seepage and Contaminant Transport" 443

Tokunaga, T. and Narasimhan, T. N.
Lawrence Berkeley Laboratories
"Recent Hydrologic Observations from the Riverton and the Maybell Tailings Piles" 463

Winter, Gerry V., Bloomsburg, George, Williams, Roy E., and Stewart, Bill
Roy E. Williams & Associates, Inc.
University of Idaho
U.S. Bureau of Mines
"Horizontal Pipe Drain Design for Existing Mill Tailings Embankments" 475
The following paper, presented in Session 1, Tailings Management and Design, was received too late for inclusion with the papers in that session:

Taylor, Michael J.; Ng-A-Qui, Norman T. and Jenkins, W. E.
D'Appolonia Consulting Engineers
"Reclamation of Uranium Tailings - A Critical Assessment of Current Practice".
