HYDROCARBON PROCESSING
SYMPOSIUM – 1987

presented at
THE TENTH ANNUAL
ENERGY-SOURCES TECHNOLOGY
CONFERENCE AND EXHIBITION
DALLAS, TEXAS
FEBRUARY 15–18, 1987

sponsored by
THE PETROLEUM DIVISION, ASME
AIR POLLUTION CONTROL DIVISION, ASME
SOCIETY OF PIPING ENGINEERS AND DESIGNERS

edited by
YORAM (JERRY) ARNONI
WALK, HAYDEL AND ASSOCIATES, INC.
NEW ORLEANS, LOUISIANA

THE AMERICAN SOCIETY OF MECHANICAL ENGINEERS
United Engineering Center 345 East 47th Street New York, N.Y. 10017
CONTENTS

The Dynamics of Re-circulation in Centrifugal Pumps
   W. H. Fraser .......................................................... 1
Safety and Security Audits of Operating LNG/LPG Export Facilities
   J. L. Lott .................................................................. 7
Effects of Flames Trailing in Prestressed Concrete LNG Storage Tank and High Dike Fires
   H. R. Wesson and A. L. Wesson ................................. 13
Prestressed Concrete Refrigerated Liquified Gas Storage — A Status Report
   J. J. Closner ............................................................. 23
Thermodynamic Assessment of the Possibility of Hydrogen-Assisted Failure in Petroleum Equipment
   I. A. Shparber .......................................................... 33
Recovery of Light Hydrocarbons From Refinery Off-Gases
   H. C. Bauer ............................................................... 39
Cryogenic Nitrogen Rejection
   J. B. Saunders, R. F. Pahade, and W. V. Delnicki ............ 43
The Use of Immiscible Refrigerants to Provide Low Temperatures
   D. J. Mawer and J. W. Kippax .................................... 51
An Integrated System to Support Plant Operations
   E. T. Kahan and X. H. Madrid .................................... 55
Software Systems for Computer-Aided Plant Design: Capabilities and Case Histories
   A. B. Cleveland, Jr. .................................................. 61
Pipe Vibration Reducer
   R. J. Kucera ........................................................... 69
