Contents

Special Foreword iii

Foreword iv

Preface v

ONE : TECHNOLOGY

1. The Use of Cognition For Natural Language Analysis
   T.V. Geetha and R.K. Subramanian 3

2. Managing the Test Phase using Reliability Models
   Shobha Agarwal and S. Muralidharan 11

3. A Reuse Framework for Organising Software Development Experience
   Babu Thomas 15

4. Software Quality Assurance : A Practical Approach
   Sudipta Sinha Majumdar and Rajeshri Somaiya 22

5. Managing Large Software Projects - an overview
   Saroj K. Kolay and Debanjan Dutta 32

6. Tuning the Performance of a Folan Ethernet
   Anindya Kr. Biswas and Gora Sengupta 44

7. An Efficient Algorithm for X Mod Y
   B. Chandra and A.K. Bhateja 48

8. A Computer Language for Carnatic Music
   B. Sankarnarayanan, V.K. Raju, K. Gopinath and R. Dasarathy 51

9. Data Encryption : Time Reversal Transformations
   Sidhartha Sahoo, Soumitra Ghosh and Alok Kumar 58

10. Form Analysis and Database Design through View Integration
    B.C. Dhoundial and B.D. Chaudhary 62

11. Q : A Simulator for Stochastic Queuing Networks
    P. Sundar Rajan, S. Ramany and K. Gopinath 71

    S. Srikumar, R. Anandha and K. Gopinath 85
## Contents

13. A Brief Discussion on the join and update Operations on Databases containing Indefinite & May-be Information  
   R.B. Mahapatra  
   103

14. A flexible Sorting Algorithm  
   Vijay Ramaswamy  
   115

### TWO: MANAGEMENT

1. Computerisation of High Powered Office An Experiment at Haryana C.M. Office  
   NavNeet Kukreja and Ghan Shyam Bansal  
   133

2. A Computer Based Crew Management System for Freight Trains in South Central Railway  
   S. Manikutty, G. Raghuram, V. Venkata Rao and T.A. Roy  
   144

3. Computerization in Government  
   Dinesh Kumar  
   158

   Satish P.V.  
   172

5. I.T in Production Management A Study (Preliminary Analysis of The Survey Findings)  
   M V S Peri Sastry  
   183

6. EMMS - An MIS For Equipment Maintenance Management  
   N.V. Satyanarayana and M. Sampath Kumar  
   196

7. Towards Higher Process Maturity  
   S. Mahalingam and V.S. Sankar  
   206

8. A Reverse Engineering System  
   Shailaja Gupta, Mukta Bihari and A.K. Vanwasi  
   215

9. Neural Networks for Mobile Robot Control  
   Ajay Yadav, Kishen Manjunath, G.T. Janarthanam, Abraham Joshua and Dr. N. Premakumaran  
   226

10. Management of Large Software Projects through Program Information Abstraction Systems  
    K.R.S. Iyengar, R. Srinivasan, S. Ganesan and D. Ramamani  
    233

11. Information Technology in Control Systems  
    Ruma Sen  
    244
