

**16th Annual International Conference
of the International Association for Energy Economics**

**ENERGY, ENVIRONMENT AND
SUSTAINABLE DEVELOPMENT :
CHALLENGES FOR THEM 21st
CENTURY**

VOLUME III

**Nusa Dua-Bali, Indonesia
July 27-29, 1993**

Population-Environmental Linkages : The Case of Ethiopia	8 - 77
<i>Sverre Grepperud</i>	
<i>Research Fellow, Department of Economics at the University of Oslo</i>	
Environmental Externalities International : Valuation Results and Policy Implications	8 - 89
<i>Amit Bando and Carolyn Lang</i>	
<i>RCG/Hagler, Baily, Inc. USA</i>	
Costs of Reducing CO2 Emissions in Norway	8 - 99
<i>Hans Terje Mysen, Tor Arnt Johnsen, Bodil M. Larsen</i>	
<i>Central Bureau of Statistics, Norway</i>	
Environmental Costs in Capital Budgeting (Abstract)	8 - 111
<i>Kjell Sunnevag, Dag Tjostheim</i>	
<i>Foundation for Research in Economics and Business Administration</i>	
Clean Fuel Technology: The Contribution of K-Fuel	8 - 113
<i>Robert Gentile</i>	
<i>Managing Partner Atlantic Partners, USA</i>	

Volume III

PART 9: ENERGY AND ECONOMICS DEVELOPMENT

Whence the Construction Fund for Energy Exploitation in Developing Countries	9 - 1
<i>Hung Mou Chen, Cao Zhi-Ying</i>	
<i>The Regional Energy Research Branch of China</i>	
Decline and Rebirth: Energy Demand in the Former Soviet Union in 2010 (Abstract)	9 - 9
<i>Lee Schipper and Eric Martinot</i>	
<i>International Energy Studies, Lawrence Berkeley, USA</i>	
Analysis of the Norwegian Energy System: Comparison of Results from a System Engineering and a Macroeconomic Model	9 - 11
<i>Fridtjof E. Unander</i>	
<i>Institutt for Energiteknikk, Kjeller, Norway</i>	
<i>Tor Arnt Johnsen</i>	
<i>Central Bureau of Statistics, Oslo, Norway</i>	
Energy Intensity in Taiwan's Industrial Sectors:	9 - 23

Energy Intensity in Taiwan's Industrial Sectors: Divisia Index vs. Laspeyres Index	9 - 23
<i>George J.Y. Hsu, Ai-Chi Hsu Chung-Hua Institution for Economic Research, Republic of China</i>	
The Economics of Major Energy Development in Indonesia	9 - 41
<i>Widjajono Partowidagdo Center for Research on Energy, Institute of Technology Bandung, Indonesia</i>	
The Energy Situation in Baltic States: Possibilities for Cooperation	9 - 53
<i>Karl Jaanimagi Institute of Thermophysics and Electrophysics of the Estonian Academy of Sciences, EAEE, Estonia</i>	
Energy Integration in Latin America: Trends and Prospects	9 - 59
<i>Uziel Noguera, PhD. Inter American Development bank Washington D.C.</i>	
On Modelling Energy Crisis in the Ukraine	9 - 71
<i>Dimitry V. Krisanov and Boris A.Kostyukovsky Institute of Energy Saving Problems, KIEV Ukraine</i>	
Strategy for Development with Clean and Less Energy Consumption: a Case of Indonesia	9 - 77
<i>Muhammad Tasrif and Saswinadi Center for Research on Energy, Institute of Technology Bandung, Indonesia</i>	
The Energy Policy Act of 1992: Implications for U.S. Energy Policy	9 - 95
<i>Leonard L. Coburn, Deputy Director, Office of Oil and Natural Gas Policy, USA</i>	
Energy-Economy Planning for India: A Systems Approach	9 - 101
<i>S. Majumdar and J. Parikh Indira Gandhi Institute of Development Research</i>	
Modelling Energy Demand in the LDC's: Learning Curve Approach (Abstract)	9 - 111
<i>Cristhophe Barret Associate, International Energy Services, Paris, France</i>	

**PART 10 : ENERGY MANAGEMENT AND
SUSTAINABLE DEVELOPMENT**

- Malaysian Energy R & D Strategy Towards Sustainable
Development** 10 - 1
Adilah Abdul Hamid and Malcolm Pereira
PETRONAS, Malaysia
- The Role of Utilities in Sustainable Economic Development (Abstract)** 10 - 13
Tapan Munroe,
Chief Economist, Pacific Gas and Electric Co.
- The Energy-Income-Population Conflict in the Debate on
Sustainability: Can We Identify the Right Enemy ?** 10 - 15
Enzo Di Giulio, Paolo Pizzoli
ENI-Scuola Superiore Enrico Mattei, Italy
- Effects of Demand-Side Management Programs on SO₂ and
CO₂ Emissions: A Case Study for Wisconsin Electric
Power Company (Abstract)** 10 - 25
Anita E. Fenichel,
Alliance to Save Energy, Washington D.C., USA
- Designing and Evaluating Demand Side Management Programs** 10 - 27
Stanford L. Levin
*Chairman and Professor, Depart. of Economics Southern Illinois
University at Edwardsville, USA*
Louise McCarren V
Consultant, New York, USA
- Natural Resource Accounting and Sustainable Development:
The Case of Coal (Abstract)** 10 - 39
Meeta Mehra and Preeti M. Bhandari

**PART 11: ENERGY AND ENVIRONMENTAL POLICIES
IN ECONOMIC PLANNING**

- An Assessment on the Strategy of Environment Quality Improvement
Related with Energy Consumption in Indonesia (Abstract)** 11 - 1
Retno Gumilang Dewi and Arsegianto
*Center for Research on Energy, Institute of Technology Bandung,
Indonesia*

Integrated Economy-Energy-Environment Policy in Poland	11 - 3
<i>N.H. Van der Linden, W. Pellekaan</i>	
<i>Netherlands Energy Research Foundation, Netherlands</i>	
Planning and Assessment of R & D on Energy (Abstract)	11 - 15
<i>Arsegianto,</i>	
<i>Center for Research on Energy, Institute of Technology Bandung,</i>	
<i>Indonesia</i>	
Environmental Repercussion and the Energy Economy of India	11 - 17
<i>Shibani Maity, and Debesh Chakraborty</i>	
<i>Jadaupur University, Calcuta</i>	
Analysing the Strong Growth in Transportation Fuel Demand for Developing Asian Economies (Abstract)	11 - 27
<i>Nadir Guerer and Fatih Birol</i>	
<i>OPEC, Research Division, Vienna, Austria</i>	
Incorporating Environmental Externalities into Natural Monopoly Regulation	11 - 29
<i>Garry E. Vollans</i>	
<i>Director, Energy Mines and Resources Government of Canada</i>	
Criticality of a Comprehensive Database in the Context of Formulation of Economic Policies, the Indian Case	11 - 39
<i>Maithili Iyer, and Sharmila Barathan</i>	
<i>Research Associates Tata Energy Research Institute, New Delhi, India</i>	
Demand for Motor Gasoline in Developing Asian Countries (Abstract)	11 - 49
<i>Robert McRae,</i>	
<i>University of Calgary, Alberta, Canada</i>	
Variations in Energy-Related Environmental Priorities at Different Levels of Development	11 - 51
<i>Peter J.G. Pearson,</i>	
<i>Director, Surrey Energy Economics Centre, University of Surrey United Kingdom</i>	

PART 12: RENEWABLE ENERGY ISSUES

An Economic Justification for the Energy Policy Acts's Investment Credits for Renewable Energy Technology Projects	12 - 1
<i>Daniel J. Packey, K. Pohle</i>	
<i>Analytical Studies Division National Renewable Energy Laboratory.</i>	

Photovoltaic Energy: Solar Home System (Abstract)	12 - 9
R. de Lange	
Using Renewable Energy in Latvia (Abstract)	12 - 11
Peteris Shipkovs, Galina Kashkarova, Agris Shipkovs	
<i>Institute of Physical Energetics Latvian Academy of Sciences, Latvia</i>	
Firewood as an Energy Source of India - An Overview	12 - 13
Sethumadhavan R., Vasudevan R., Murali R., Sekar T.	
<i>School of Energy, Bharathidasan University Tiruchirapalli, Tamilnadu, India</i>	
Biogas from Human Excreta of Public Toilet Complex and Mixed Feed	12 - 23
Bindeshwar Pathak	
<i>Founder, Sulabh International</i>	
Pawan Kumar Jha	
<i>Sulabh International Institute of Technical Research and Training</i>	
PART 13: NUCLEAR POWER	
Overcoming the Challenges Facing the Development of Nuclear Power-The Role of the CANDU Reactor	13 - 1
M.L. McAskie	
<i>Manager of Market Development AECL-Canada</i>	
Nuclear Technology Transfer: an Avenue to Economic and Industrial Development	13 - 13
John Boulton	
<i>Executive Director, International Marketing AECL Research, Ontario, Canada</i>	
Nuclear Power Prospects up to 2020 in Global Energy Context	13 - 23
G. Naudet, J.M. Capron	
<i>Direction de la Strategie et de l'Evaluation Commissariat a l'Energie Atomique, France</i>	
De-enrichment of Weapons Grade Uranium: Implications for the World Uranium Market (Abstract)	13 - 33
Tony Beck,	
<i>Energy Economic Branch ABARE, Australia</i>	

**The Contribution of Environmental Costing to the Nuclear
Power Debate (Abstract)** 13 - 35

Mitchell P. Rothman,
Chief Economist Ontario Hydro, Toronto, Canada

Stresses of Increasing Reliance on Nuclear and Renewables (Abstract) 13 - 37

S. William Gouse, David Gray, Glen C. Tomcinson
The MITRE Corporation, Virginia, USA
