1. Investigation of Leaf Biochemistry by Statistics
   Jacquemoud, S., J. Verdebout, G. Schmuck, G. Andreoli, B. Hosgood and S.E. Hornig

2. Imaging Spectrometer Measured Leaf Water and Cellulose in the San Gabriel Mountains
   Prior to the 1993 Altadena Fire
   van den Bosch, J., and R.O. Green

3. Considerations in Using Spectral Vegetation Indices to Determine Biophysical Variables in
   the Boreal Forest
   Kuemmerich, K.F., and F.G. Hall

4. Linear Mixture Modelling Applied to AVHRR Data for Monitoring Vegetation
   Cherchali, S., and G. Flouzat

5. Estimation of Forest Stand Structure From Landsat TM Through Inversion of the Li-Strahler
   Model
   Woodcock, C.E.

6. Analysis of Main Driving Factors in Successional Changes of Reflectance in Northern
   Temperate Forests
   Nilson, T., and U. Peterson

7. An Unmanned Aircraft Vehicle System for Boundary-Layer Flux Measurements Over Forest
   Canopies
   Daida, J.M., P.B. Russell, T.L. Crawford and J.F. Vesecky

8. Laser Altimetry Waveform Measurement of Vegetation Canopy Structure
   Harding, D.J., J.B. Blair, J.B. Garvin and W.T. Lawrence

9. A Continental Instrumented Ground Site Network (CIGSN, Australia): A Prerequisite for the
   Detection, Interpretation and Quantification of Global Change
   Graetz, R.D., M.A. Wilson, A.J. Prata, I.J. Barton and R.M. Mitchell

---

WP.ES -- Ocean Instruments and Techniques

1. Determination of Wind Speed, Wind Direction and Atmospheric Structure Using ERS-1 SAR
   Data During NORCSEX'91
   Shuchman, R., J. Johannessen, C. Rufenach, K. Davidson and C. Wackerman

2. Microwave Backscatter, Surface Fluxes, and Infrared Imagery Measured From a Blimp Over
   the Ocean

   Haimov, S., B. Gotwols, W. Plant and R.K. Moore

4. Analysis of Multi-Incidence Angle Satellite Microwave Radiometer Data From the DMSP
   SSM/I
   Gasster, S.D., D. Rudy, D.L. Glackin, M. Colton and G. Poe

5. Results From the 1993 LOGAN (Low Grazing Angle) Radar Experiment
   Ochadlick, A., Jr., J. Davis, W. Everett, J. Kraus, M. Rankin, A. Siegel,
   T. Webster, J. Morrison, J. Lyden, C. Rino and E. Mebus

6. Measurements of Surface Wind on the Ocean Using an Airborne Radar Looking at Small
   Incidence Angles
   Hauser, D.
7. Angle and Polarization Dependent Microwave Backscatter From Ocean Waves
   Lee, P.H.Y., J.D. Barter, D.L. Hindman, B.M. Lake and H. Rungaldier
   1272
8. Using Cross-Image Spectra in a SAR Ocean Wave Inversion Scheme
   Engen, G., H. Johnsen and E. Korsbakken
   1275
9. Hull Characteristics From SAR Images of Ship Wakes
   Wang, H.T., O.M. Griffin and G.A. Meadows
   1278
10. SST and Wind Velocity Estimation Using the AVHRR Data for the Black Sea Aquatory
    Stanichny, S.V., I.L. Dergileva and D.M. Solov’ev
    NA

---

WP.H -- Use of Radar & Microwave Radiometry for Mapping Snow & Sea Ice Cover

1. Capability of Radar and Microwave Radiometer to Classify Snow Types in Forested Areas
   Koskinen, J., L. Kurvonen, V. Jaaskelainen and M. Hallikainen
   1283
2. Classification of Baltic Sea Ice with Airborne Radiometer
   Kurvonen, L., M. Toikka and M. Hallikainen
   1287
3. Retrieval of Snow and Sea Ice Parameters From SSM/I Data
   Grandell, J., and M. Hallikainen
   1291
4. Backscattering From Sea Ice With Vertical Structural Variation: A Model Analysis
   Tjuatja, S., and A.K. Fung
   1294
5. Discrimination Between Young Sea Ice Types From Single Look SAR Image Data
   Collins, M.J., C. Livingstone and R.K. Raney
   NA
6. The Influence of Layering and Grain Size on Microwave Emission From Polar Firn
   West, R., D.P. Winebrenner and L. Tsang
   1297
7. Sea-Ice Velocity Fields Estimation on Ross Sea AVHRR Images
   Moctezuma-Flores, M., H. Maitre, and F. Parmiggiani
   1300
8. Intercomparison of Observed and Simulated Ice Motion for a One Year Time Series
   Fowler, C., J. Maslanik and W. Emery
   1303
9. Assimilating Remotely Sensed Data Into a Dynamic-Thermodynamic Ice Model
   Maslanik, J., and H. Maybee
   1306

---

WP.S -- Synthetic Aperture Radiometry for Earth Remote Sensing

1. L-Band Synthetic Aperture Radiometers for Earth Remote Sensing
   Gaiser, P.W., C.T. Swift and D.M. Le Vine
   1311
2. A Spaceborne Synthetic Aperture Radiometer Simulated by the TUD Demonstration Model
   Laursen, B., and N. Skou
   1314
3. Digital Correlator Performance Analysis for a Synthetic Aperture Imaging Radiometer
   Ruf, C.S., W.J. Wilson, K.M. Chandra and A.B. Tanner
   1317
4. Status of ESTAR Validation: Results From Washita-92
   Le Vine, D., T.J. Jackson, M. Kao, A. Griffis and C.T. Swift
   1320
5. MIRAS, A Two-Dimensional Aperture Synthesis Radiometer
   Martin-Neira, M., Y. Menard, J.M. Goutoule and U. Kraft
   1323
   Tanner, A.B., W.J. Wilson and S.S. Saatchi

7. Applications of Synthetic Aperture Radiometry
   Edelsohn, C.R.

8. A Conceptual Design of an Aircraft-Based Synthetic Aperture Millimeter Wave Radiometer

9. Results of a Laboratory Synthetic Aperture Millimeter Wave Radiometer
   Davidheiser, R.A., K.E. Yokoyama and B.H. Stark

10. Indoor Experiment of Two-Dimensional Supersynthesis Radiometer
    Komiyama, K., Y. Kato and T. Iwasaki

WP.T -- Investigation of the Middle Atmosphere I

1. Microwave Limb Sounding of the Earth's Atmosphere: UARS Results and EOS Plans
   Flower, D.A., R.F. Jarnot and J.W. Waters

2. Pressure Profiles of the Middle Atmosphere Retrieved From Millimeter Wave Atmospheric Sounder (MAS) Onboard the Space Shuttle Mission ATLAS-1
   Langen, J., A. Berg, H.D. Dicken, T. Wehr, W. Degenhardt, N. Kaempfer and R. Bevilacqua

3. Zeeman Splitting of the 61 GHz (9+) O2 Line in the Upper Atmosphere Measured by MAS
   Hartmann, G.K., W. Degenhardt, R. Zwick, H.J. Liebe, G.A. Hufford and M.G. Cotton

4. Middle Atmospheric Water Vapor and Ozone Retrievals From the MM-Wave Atmospheric Sounder (MAS) Shuttle Experiment

5. First Results of Zonally Averaged ClO Concentrations as Measured by MAS on ATLAS-1
   Kampfer, N., C. Aellig, C. Rudin, W. Degenhardt, G. Hartmann, R. Bevilacqua, Ph. Schwartz, J. Langen, K. Kunzi and J. Olivero

6. Calibration of MAS Antenna Using Radiation of the Lunar Surface
   Dicken, H.D., A. Berg and J. Langen

7. Detection of Atmospheric Chlorine-Compounds with an Airborne Submillimeter Receiver
   Wehr, T., S. Crewell, K. Kunzi, J. Urban and H. Nett

8. Stratospheric and Mesospheric Water Vapor Distribution Over Northern Europe Measured With an Airborne mm-Wave Sensor
   Peter, R., and N. Kampfer

9. Ground-Based Monitoring of Water Vapor in the Middle Atmosphere
   Nedoluha, G.E., R.M. Bevilacqua, W.B. Waltman, R.M. Gomez and D.L. Thacker

10. Latitudinal Structure of Middle Atmospheric Water Vapor Revealed by Shipboard Microwave Spectroscopy
    Schrader, M., C. Croskey, and J. Olivero

WP.V -- Polarimetric Metrology, Calibration, and Signature Analyses

9. A Comparative Study of Conventional and Neural Network Classification of Multispectral Data
   Solaiman, B., and M.C. Mouchot 1413

10. A Fuzzy Neural Network Model (FNN Model) for Classification Using LANDSAT-TM Image Data
    Zhang, L., and T. Hoshi 1416

Interactive Presentations -- Thursday, August 11, 1994

Th.II -- Soil Moisture and Flooding

2. Bayesian Estimation of Soil Parameters From Remote Sensing Data
   Haddad, Z.S., and P. Dubois 1421

3. Evaluation of an Australian ERS-1 SAR Scene Pertaining to Soil Moisture Measurement
   Sabburg, J.M. 1424

4. Segmentation of Polarimetric AIRSAR-Data and SIR-C/X-SAR-Data for Soil Moisture Determination in an Agricultural Area
   Prietzsch, C., and H. Groß 1427

5. SAR Terrain Correction for Improved Soil Moisture Estimation in a Mountain Watershed
   O'Neill, P.E., A.Y. Hsu and M.S. Seyfried 1429

6. Analysis of Soil Physical Parameters and Their Influence on ERS-1 Backscatter
   Poncet, F.V., and M. Tapkenhinrichs 1432

7. Deriving Antecedent Moisture Conditions From Airborne SAR for Input Into a Flood Forecasting Model
   Pietroniro, A., E.D. Soulsis and N. Kouwen 1435

8. Delineation of 1993 Midwest Flooding Using ERS-1 SAR, SPOT and Landsat Imagery
   Sivaprasad, K., and R.L. Bolus 1439

10. Laboratory Investigation of Agreement Between Dielectrical and Radiation Properties of Frozen Sand
    Ilyin, V.A., S.V. Slobodchikova and V.S. Etkin NA

11. Characterization of Soil Moisture Using a Microstrip Resonator
    Sarabandi, K., and R.S. Li 1445

Th.II -- Bidirectional Reflectance/Topography and Tectonics

1. Spectral Scattering Properties of Scots Pine Shoots and Needles
   Ross, J., O. Meinander and M. Sulev 1451

2. Influence of Sun-View Geometries on the Relationships Among Vegetation Indices, LAI, and Absorbed PAR
   Epiphanio, J.C.N., A.R. Huete and H. Liu 1455
3. Biophysical Interpretation of a Spectral Mixture Model Based on a Radiative Transfer Model and Observational Data
   van Leeuwen, W.J.D., A.R. Huete and C.L. Walthall

4. Using Remotely Sensed Data to Estimate Surface Albedo and Absorbed Photosynthetic Active Radiation
   Toll, D.L., D. Shirey and D. Kimes

5. Optimization Method for B/H Ratio Determination Taking Occlusion Effect and MTF Degradation Due to Atmosphere into Account
   Arai, K., M. Ozawa and Y. Terayama

6. Improving DEM Generation With Additional Constraint Information
   McNeill, S.

7. Measurement of Topographic Surface Slopes Using Polarimetric SAR Images
   Schuler, D.L., J.S. Lee and G. De Grandi

8. Automatic DEM Generation Using Magellan Stereo Data
   Hensley, S., and S. Shaffer

   Yutsis, V.V., M.K. Ivanov and A.F. Limonov

10. Earth Crust Tension and Recent Geodynamics Activity of the Strait of Sicily
    Kuzmina, A.M., and V.V. Yutsis

Th.I3 -- Environmental Monitoring Using ERS-1 Data

1. Radar Backscattering Studies of Rice Fields Using ERS-1 SAR Data

2. Effects of Variation in Soil Moisture on ERS-1 SAR Backscatter
   Wang, Y., F.W. Davis, and E.S. Kasischke

3. Multitemporal Analysis of ERS-1 and Landsat TM Data for Geologic Studies
   Loizzo, R., M. Pappalepore, P. Pieri, G. Pasquariello and M. Antoninetti

4. Application of ERS-1 SAR for Coastal Inundation
   Tanis, F.J., L.L. Bourgeau-Chavez and M.C. Dobson

5. Evaluation of a Multitemporal ERS-1 Dataset for Hydrologic Applications
   Mullins, D.W., T.J. Pultz and T.I. Lukowski

6. Global Land Surface Monitoring Using the ERS-1 Scatterometer
   Wismann, V.R., K. Boehnke and C. Schmullius

7. The Alaska SAR Facility: An Introduction
   Wales, C.

Th.I4 -- Optical Infrared Sensor Calibration and Validation

1. Aerosol Optical Thickness Retrieval From Sun Photometer Measurements
   Ignatov, A.M., I.L. Dergileva, Yu.B. Ratner, S.M. Sakerin and D.M. Kabanov
2. In Field Characterization of Saharian Sites Reflectances for the Calibration of Optical Satellite Sensors
   Cosnefroy, H., X. Briottet, M. Leroy, P. Lecomte and R. Santer

3. Acquisition of In-Situ Surface and Atmospheric Measurements for AVIRIS Data Validation and Analysis
   Helmlinger, M., R. Green, J. Conel and J. van den Bosch

4. A System for Geometric and Radiometric Correction of Airborne Imaging Spectrometer Data
   Makisara, K., A. Lohi and J.P. Karna

5. NDVI Sensitivity to Atmospheric Water Vapor as a Function of Spectral Bandwidth
   Kerekes, J.P.

   Fujimoto, T., M. Tanaka and I. Takanami

7. Phase Correction Algorithms for the Airborne Emissions Spectrometer (AES)
   Worden, H., J. Fanselow and R. Beer

8. A Quick Access Data Management System for In-Situ Data for EOS AIRS Product Validation
   Granger, S.L, R.D. Haskins and A.J. Pursch

   Cooley, T.W., J.A. Reagan, J. Bufton and B. Minster

10. NIST Traceable Calibration System for Surface and Submersible Sensors
    Austin, R.L.

---

Th.I5 -- Spaceborne Instrument and Mission Development I

1. The ERS-1 Payload After 3 Years in Orbit: A Health and Performance Assessment
   Dieterle, G.

2. The French Contribution to TRMM Follow-On Mission
   Mavrocordatos, C., J. Richard, N. Suinot and E. Thouvenot

3. The Seawinds Scatterometer Instrument
   Wu, C., J. Graf, M. Freilich, D. Long, M. Spencer, W. Tsai, D. Lisman and C. Winn

   Hauser, D.

5. The Influence of Altitude and Look Angle on SAR Ocean Wave Imaging: A Practical Compromise
   Monaldo, F.

6. Simulation of RADARSAT ScanSAR for Sea Ice Applications
   Manore, M., T. Heacock, K. Porter and T. Bretz

7. The Canadian GlobeSAR Program
   Campbell, F.H.A., R.J. Brown, M. Kirby, D. Benmouffok and D. Lapp

8. A SAR Instrument for Global Monitoring of Land Surfaces and Polar Ice
   Lin, C.C., and P.L. Mancini
9. High Resolution Multifrequency SAR System for Spaceborne Applications  
   Dionisio, C., and A. Torre  
   1529

10. On Minimizing Imaging Latency Time for RADARSAT III  
    Saper, R.H., R.A. Neville and S.J. d'Apollonia  
    1535

Th.I6 -- Spaceborne Instrument and Mission Development II

1. A Study of the Microwave Sounding Unit On the NOAA-12 Satellite  
   Mo, T.  
   1535

   Yueh, S.H., W.J. Wilson, F.K. Li and S.V. Nghiem  
   1538

3. Imaging Radiometer Scan Simulation Results  
   Kemppinen, M., and M. Hallikainen  
   1543

4. A Simulation of EOS MISR Data and Geometric Processing for the Prototyping of the MISR Ground Data System  
   1546

5. Simulation of Visible and IR Imagery for GOES  
   Hsu, S.S., and S. Ashton  
   1549

6. Design and Implementation of the GOME Data Processor  
   Balzer, W.  
   1553

7. How to Double the Spatial Resolution of a Push-Broom Instrument  
   Hagolle, O., J.M. Martinuzzi and C. Latry  
   1556

8. Horizon Sensor-Based 14-16 Micron Radiation Measurements From IRS-1B  
   Seshamani, R., M. Shashikala, T.K. Alex, Y.K. Jain and K. Kasturirangan  
   1559

9. Emissions From Orbiting Tethered Satellite Systems to the Earth's Surface: Data Analysis  
   Minna, L., C. Ottonello, S. Pagnan and G. Tacconi  
   1562

    Borgarelli, L., and E. Zampolini Faustini  
    1567

    Im, E., W.T.K. Johnson and K. Wheeler  
    1570

Oral Presentations -- Thursday, August 11, 1994

Th.A -- Soil Moisture

1. On the Effect of Soil Surface Roughness on the Radar Backscatter Responses to Soil Moisture  
   Smacchia, P., D. Casarano, G. de Carolis and F. Posa  
   1567

2. Diurnal Observations of Soil Moisture With Passive Microwave Radiometers  
   Jackson, T.J., J. Alekza, C.T. Swift, P.E. O'Neill and K. Kostov  
   1570

3. An Empirical Soil Moisture Estimation Algorithm Using Imaging Radars  
   Dubois, P.C., and J. van Zyl  
   1573

4. Soil Moisture Profile Remote Sensing: Stability and Observability of the Inverse-Problem  
   Nakamura, H., D. Entekhabi and E. Njoku  
   1576
5. Model of Complex Dielectric Constant of Wet and Frozen Soil in the 1-40 GHz Frequency Range
   Tikhonov, V.V. 1576

6. Microwave Radiometry on Bare Soils: Comparison of Various Emission Models of Layered Media With Measurements
   Costes, F., S. Raju, A. Chanzy, I. Chenerie and J. Lemorton 1579

7. An Inversion Algorithm for Retrieving Soil Moisture and Surface Roughness From Polarimetric Radar Observation
   Oh, Y., K. Sarabandi and F.T. Ulaby 1582

8. Microwave Soil Moisture Prediction Through Corn in Washita '92

   Lin, D.S., E.F. Wood and B. Yang 1588

10. Estimation of A Real Soil Water Content During HAPEX-Sahel and EFEDA-Spain
    van Oevelen, P.J., and D.H. Hoekman 1591

**Th.AA -- Image Processing and Classification: Radar**

1. Classification of the Amazon Rain Forest Using JERS-1 SAR Data
   Freeman, A., C. Kramer and B. Chapman 1595

2. Monitoring Agricultural Surfaces Using ERS-1 Multitemporal SAR Data
   Kohl, H.G., E. Nezry, H. de Groof and G. Kattasborn 1598

3. Knowledge-Based Land-Cover Classification Using ERS-1/JERS-1 Composites
   Pierce, L.E., M.C. Dobson and F.T. Ulaby 1599

4. Land Cover Classification by SAR
   Ulaby, F.T., L. Pierce, C. Dobson, S. Chacon and K. Sarabandi 1602

5. Multi-Temporal Comparisons of ERS-1 and JERS-1 SAR Data for Land Applications
   Borgeaud, M., J. Noll and A. Bellini 1603

6. Contribution of Multi-Temporal Data to Improve the Radiometric Resolution of SAR Images
   Bruniquel, J., and A. Lopes 1606

7. A Multifractal Approach for Terrain Characterization and Classification on SAR Images
   Bourissou, A., K. Pham and J. Levy-Vehel 1609

8. A Knowledge Based Classification of Multitemporal ERS-1 and JERS-1 SAR Images Over the Tropics
   Paudyal, D.R., A. Eiumnoh, J. Aschbacher and R. Schumann 1612

9. Classification of Remotely Sensed Images Using Mathematical Morphology
   Wang, D., D.C. He and D. Moran 1615

10. Comparison of Segmentation Methodologies Applied to ERS-1 SAR Images
    Caves, R.G., S. Quegan, R.G. White and R. Cook 1618
ThA.CP -- Radiative Transfer and Scattering

1. Understanding the Radiation Regime of a Crop Canopy: Monte Carlo Ray Tracing Simulations
   Lewis, P. NA

2. Multi-Dimensional Radiative Transfer Computations Using a Scalable Parallel Implementation of the Discrete-Ordinates Method
   Haferman, J.L., T.F. Smith and W.F. Krajewski 1623

3. A Stochastic Radiative Transfer Model of a Discontinuous Vegetation Canopy
   Liang, S., and A.H. Strahler 1626

4. The Reflection for Dense Plant Canopies From the One-Angle Radiative Transfer Equation
   Ganapol, B.D. 1629

5. A Formulation of Millimeter Wave Scattering Amplitude Matrices for Ice Crystals
   Tang, C., and K. Aydin NA

6. Comparison of Measured and Predicted Scattering Coefficients at 94 GHz
   Axelsson, S.R.J., K.G. Johnsson, B.E. Tullson, A. Carlstrom and J. Kjellgren 1631

7. Radar Scattering by Volcanic Debris Flow Surface Analogues
   Austin, R.T., and A.W. England 1635

8. Full Wave Scatter Cross Sections for Two-Dimensional Random Rough Surfaces Using Joint Conditional Surface Height Characteristic Functions
   Bahar, E., and B.S. Lee 1638

9. A Fractal-Based Approach to Electromagnetic Modelling
   Franceschetti, G., M. Migliaccio and D. Riccio 1641

10. Electromagnetic Scattering Model for a Tree Trunk Above a Ground Plane
    Lin, Y.Ch., and K. Sarabandi 1644

ThA.E -- Applications and Analyses of Multiple View Angle VIS/NIR Digital Imagery I

1. Impact of Recent Enhancements and Upgrades of the Advanced Solid-State Array Spectroradiometer (ASAS)
   Dabney, P.W., J.R. Irons, J.W. Travis, M.S. Kasten and S. Bhardwaj 1649

2. Data Processing and Calibration of the Advanced Solid-State Array Spectroradiometer
   Kovalick, W., D. Graham and M. Bur 1652

3. Precise Geometric Registration of ASAS Airborne Data for Land Surface BRDF Studies
   Allison, D., M.J. Barnsley, P. Lewis, N. Dyble and J.P. Muller 1655

4. A New Registration Algorithm for of ASAS Multi-Angle Images
   Chong-Guang, Z., W. Jun and A.H. Strahler 1658

5. Retrieval of Surface Reflectance and Atmospheric Properties Using ASAS Imagery
   Martonchik, J.V., and J.E. Conel 1661

6. Development of an Aerosol Opacity Retrieval Algorithm for Use With Multi-Angle Land Surface Images
   Diner, D.J., S.R. Paradise and J.V. Martonchik 1664
7. Radiosity Based Model for Terrain Effects on Multi-Angular Views
   Borel, C.C., and S.A.W. Gerstl 1667

8. On the Information Content of Multiple View Angle (MVA) ASAS Images for Land Cover
   Mapping
   Barnsley, M.J., and D. Allison NA

9. Classification of Multiangle and Multispectral ASAS Using a Hybrid Neural Network Model
   Abuelgasim, A.A., and S. Gopal 1670

---

**ThA.ES -- Investigation of the Middle Atmosphere II**

1. Ground Based Millimeter Wave System for ClO and Other Minor Constituents Observation
   Developed in CRL
   Ochiai, S., Y. Irimajiri and H. Masuko 1675

2. mm-Wave Spectroscopy of Stratospheric Trace Gases at the South Pole Over an 11-Month
   Cycle: O3, N2O, HNO3, NO2 and ClO
   de Zafra, R.L., C. Trimble, J.M. Reeves, D. Cheng and D Shindell 1678

3. Preliminary Analysis of Chlorine Monoxide Measurements Made by the Ground-Based
   Microwave Receiver of the Plateau De Bure, France
   Ricaud, Ph., J. de La Noe, R. Lauque, A. Parrish, J.W. Barrett and P.M. Solomon 1681

4. Accuracy of Profile Retrievals From mm-Wave Spectra of ClO and N2O
   Emmons, L.K., and R. de Zafra 1684

5. Millimeterwave Measurements of Stratospheric ClO at the Jungfraujoch Station
   Gerber, L, and N. Kampfer 1687

6. Remote Sensing of Stratospheric Ozone by Ground-Based Microwave Radiometers
   de La Noe, J. NA

7. Millimeter-Wave Measurements at the Arctic NDSC-Station NY - Alesund in the Winters
   Schwaab, G.W., U. Klein, K. Kunzi and U. Raffalski 1690

8. Stratospheric Ozone Measurements Made by a Ground-Based Microwave Radiometer at the
   Bordeaux Observatory, France
   Guillemoin, G., P. Ricaud, J. de La Noe and R. Lauque 1693

9. Monitoring the Stratospheric Ozone Profile With Ground-Based Microwave Radiometer
   Heilimo, J., J. Talvela and M. Hallikainen 1696

10. Retrieval of Mesospheric Ozone From Groundbased Millimeter Wave Observations
    Jarchow, C., and P. Hartogh 1700

---

**ThA.H -- Future Space Missions**

1. NOAA Missions
   Wood, H. NA

2. NASA Missions
   Asrar, G. NA

3. ESA's Future Plans for Earth Observation from Polar Orbit
   Rast, M. 1705
4. Japanese Missions

5. RADARSAT Program

6. Brazilian Missions

7. Australian Missions

ThA.S -- Ocean Wave-Current Interactions

1. On the Dependence of Radar Signatures of Surface Current Variations on the Azimuthal Radar Look Direction
   Romeiser, R. 1717

2. INSAR Imagery of Surface Currents, Wave Fields and Fronts

   Allan, N., D. McLaughlin, E. Twarog, I. Leykin, D. Trizna, L. Martin and M. Sletten 1723

5. Backscatter Modelling of Ship-Generated Internal Wave Wakes Observed During the Loch Linnhe Series of Experiments
   Stapleton, N.R. 1732

6. Sunlight Radiance Modulation of Submarine Sand Waves and Internal Waves
   Hennings, I., M. Metzner and J. Matthews 1735

7. Wave-Current Interaction Modeling Incorporating Wave Blocking
   Greidanus, H. 1739

8. Mapping of Sea Bottom Topography in a Multi-Sensor Approach

9. Wind Waves in the Gulf Stream Frontal Zone: Observations and Analysis
   Dulov, V., S. Grodsky and V. Kudryavtsev NA

ThA.T -- Arctic Sea Ice Studies

1. The Utilization of Modeled Salinity and Temperature Profiles in the Estimation of SAR Backscatter From First Year Arctic Sea Ice
   Wade, R.H., and W.F. Weeks NA

2. Ice Lead Orientation Characteristics in the Winter Beaufort Sea
   Cunningham, G.F., R. Kwok and J. Banfield 1747
3. Determination of Ice Age: A Proposed Scheme for a RADARSAT Sea Ice Geophysical Processor System

Kwok, R., D.A. Rothrock, G.F. Cunningham and H. Stern

4. Utilizing the Dynamic Behavior of Sea Ice for Determining Ice Thickness Distributions in SAR Imagery

Havercamp, D., and C. Tsatsoulis

5. SAR Derived Sea Ice Thickness During ICEX'92

Malinas, N.P., C.C. Wackerman and R.A. Shuchman

6. Using ERS-1 SAR Data to Monitor the State of the Arctic Ocean Sea Ice Surface Between Spring and Autumn, 1992

Schwartz, K.R., M.O. Jeffries and S. Li

7. Observing Seasonal Transitions on Sea Ice in the Arctic Using the ERS-1 SAR

Winebrenner, D.P., B. Holt and E.D. Nelson

8. Height and Large-Scale Height Roughness Information From CCRS Interferometric SAR Data of Arctic Sea Ice

van der Kooij, M.W.A., A.L. Gray, M. Manore, K.E. Mattar, C.E. Livingstone, and P.J. Farris-Manning

9. Wave Evolution in the Marginal Ice Zone Using ERS-1 SAR

Liu, A.K., and C.Y. Peng

ThA.V -- Precipitation Studies

1. Description of a Radar/Radiometer Method and Its Application to Airborne Measurements Over Stratiform Rain

Meneghini, R., J. Wang, H. Kumagai and T. Iguchi

2. Origin of Storm Footprints of Storms on the Sea Seen by SAR

Atlas, D.

3. Rain Rate Estimation From Attenuation Measurements Using a 35 GHz Dual Polarization Propagation Link

Ruf, C.S, K. Aydin and S. Mathur

4. Investigation of the Vertical Profiles of Linear Depolarization Ratio and Reflectivity at S, X and K Band Wavelengths

Raghavan, R., J. Turk and J. Vivekanandan

5. Optimal Estimation of Rain Rate Profiles From Single-Frequency Radar Echoes

Haddrad, Z.S., E. Im and S.L. Durden

6. Retrieval of Rainrate Over Rough Sea Surfaces as Measured by the Advanced Microwave Precipitation Radiometer (AMPR)

Wu, S.T.S.

Skofronick-Jackson, G.M., and A.J. Gasiewski

8. Spatial Inhomogeneities of Rain Brightness Temperature and Averaging Effect for Satellite Microwave Radiometer Observations

Kutuza, B.G., A. Hornbostel and A. Schroth
