Passivation of Metals and Semiconductors

Proceedings of the
Seventh International Symposium on Passivity
Passivation of Metals and Semiconductors

Technical University of Clausthal, Germany
August 21-26, 1994

Editor:
K.E. Heusler

TRANS TECH PUBLICATIONS
Switzerland - Germany - UK - USA
# Table of Contents

Preface vii

## INTRODUCTION

**A summary of the passivity symposium**  
H.L. Hartnagel and W.J. Plieth 3

**Fundamental aspects of the passivation of metals and semiconductors**  
K.E. Heusler 9

## THE PASSIVATION OF SEMICONDUCTORS

### General Aspects

**Passivation and control of semiconductor interfaces by interface control layers**  
H. Hasegawa 23

**A comparison of the oxidation and passivation of Si, Ge and InP**  
E.A. Irene 37

**Laser interferometry and SXM-techniques for thermal characterization of thin films**  
E. Oesterschulze, L. Hadjiiski, M. Stopka and R. Kassing 43

**Determination of interface state density distribution and surface recombination velocity on passivated semiconductor surfaces by photoluminescence surface state spectroscopy**  
T. Saitoh and H. Hasegawa 53

**Non-steady state C-V methods for determination of interface state parameters**  
K.L. Temnikov and I.A. Uritskaya 59

### Elemental Semiconductors

**Composition, structure and modification of passivating films on semiconductors deposited at low temperatures**  
M.R. Baklanov and L.L. Vasilyeva 65

**Passivity and electronic properties of the silicon/silicon dioxide interface**  
H. Flietner 73
Electrochemical and electronic passivation by hydrogenation of n-Si(111)
J. Rappich and H.J. Leverenz 83

Influence of tunneling on trapping kinetics in thin layers
S. Scharf, M. Schmidt and D. Bräunig 91

On the nature of the radiation-induced failure of Si-SiO₂ structures annealed in hydrogen
S.N. Kuznetsov and V.A. Gurtov 99

Characteristics of Si-SiO₂ systems obtained by thermal oxidation of silicon surface covered with silicon-hydrogen layers
V.Y. Uritsky and B.B. Loginov 105

Passivation and depassivation of electrically active centers in the polysilicon-oxide-silicon structures
I.A. Uritskaya and V.Y. Uritsky 109

Role of electron / hole processes in the initial stage of silicon anodization
V. Uritsky 115

Effect of structure of hydrogenated SiNₓ:H films on the dissociation mechanism of Si-H and N-H bonds

Stress generation and relaxation in passivating films and its new application in nanolithography
E.B. Gorokhov, A.G. Noskov and V.Ya. Prinz 129

Compound Semiconductors

High resolution surface characterization using STM light emission techniques
J. Horn, N. Marx, B.L. Weiss, H.L. Hartnagel, M. Stehle, M. Bischoff and H. Pagnia 145

Passivation of semiconductors by the remote plasma technique
W. Kulisch, F. Kiel, M. Schiller, S. Reinke and R. Kassing 155

AES study of the GaAs-germanium oxynitride interface
D. Jishiashvili, R. Dzhanelidze, Z. Shioliashvili and I. Nakhutsrishvili 165

Passivation studies of Se/GaAs interface using X-ray photoelectron and photoluminescence spectroscopy
B.A. Kuruvilla, A. Datta and S.K. Kulkarni 171
Passivation of GaAs with sulphur surface treatment and UVCVD silicon nitride cap layer
   H. Sik, J.L. Courant and B. Sermage 179

Silicon nitride and oxide deposited by direct photolysis on sulfur treated GaAs and InP: Application to III-V Passivation
   N. Proust, E. Guillot, M. Petitjean, M. Beguet, J.F. Chapeaublanc and J. Perrin 185

Surface passivation of III-V compound semiconductors with chalcogen atoms
   H. Oigawa, H. Shigekawa and Y. Nannichi 191

Passivation of InP for optoelectronics
   H. Kräutle 199

Formation of oxide films on HgCdTe after fluorine-consist rinsing
   L. Romashko, A. Myasnikov, V. Ovsyuk, V. Vasilyev and T. Zemtsova 209

THE PASSIVITY OF METALS

Structure and Composition

STM and AFM studies of passive films
   P. Marcus and V. Mauiive 221

Disorder and structural relaxation in passive films on Fe-Cr alloys

Atomic structure and mechanical behaviour of passive film formed on stainless steels
   J.M. Olive, V. Vignal and D. Desjardins 241

AFM observations of the breakdown damage in anodic Ta$_2$O$_5$ films
   I. Montero, J.M. Albella and L. Vázquez 251

STM images of material surfaces deformed by impingement of a solid ball and characterizations of their passive films
   H. Nanjo, N. Sanada and K. Koike 261

Structure of galvanostatic anodic TiO$_2$ films: Comparison of microscopies
   J-L. Delplancke, M-P. Delplancke and R. Winand 267

Electrochemical and surface analytical characterization of hot water oxide layers on iron-chromium alloys
   F. Schneider, M. Herrich, A. John, J. Engelmann and K. Mummert 275
Short-range order and structure of silicon dioxide and silicon nitride layers
E.A. Repnikova and V.A. Gurtov 285

Structure of aluminium oxide films and its changes due to thermal and electrochemical processes
N.M. Yakovleva and A.N. Yakovlev 293

EXAFS analysis of passivating films
H-H. Strehblow and P. Borthen 301

Methods to determine the composition of passive films: Recent trends in XPS, AES and SIMS
D. Landolt, P. Schmutz and H.J. Mathieu 313

XPS analysis of passive films formed on chromium in acidic solution without and with chloride ions
D. Costa, W.P. Yang and P. Marcus 325

Ageing of passive films on stainless steels in sulfate solutions - XPS analysis
A. Rossi and B. Elsener 337

Dissolution and passivation of stainless steels exposed to hydrochloric acid
L. Wegrelius and I. Olefjord 347

Study of corrosion protective layers on iron surfaces by X-ray photoelectron- and Mössbauer-spectroscopic methods
F.H. Kármán, Cs. Vértes and E. Kálmán 357

Film Properties and their Modification

Passivity of metals and alloys and its breakdown - New results from new non-electrochemical techniques

Microscopic modification of passive films on metals: Preparation of defined profiles and their analysis
J.W. Schultze 377

Electronic structure of the passivation layer: New computational methods and results
N. Yu and J.W. Halley 389

Physical concept of single electrode potential
N. Sato 397

Stress generation during anodic oxidation of tungsten
Contents

Physical-mechanical and electrical properties of aluminum anodic films
L. Dima and L. Anicai 419

Laserphotoelectrochemical investigation of TiO$_2$ passive films
H. Gräfe and W. Plieth 425

A photoelectrochemical study of passivating layers on nickel
C. Sunseri, S. Piazza and F. Di Quarto 435

Photoelectrochemical analysis of the hydroxide surface films on aluminum and its alloys
T. D. Burleigh 447

In-situ ellipsometric studies of the passivation of Fe-Cr-Ni steel in acid solution
W. Kozlowski 457

Passivation of (Fe$_{1-x}$Cr$_x$)$_{83}$B$_{17}$ glassy metals studied by ellipsoreflectometry
D. Huerta and K.E. Heusler 465

Ellipsometric determination of the density of TiO$_2$ passive films on Ti single crystals: Combination of ellipsometry and coulometry
A. Michaelis, J.L. Delplancke and J.W. Schultze 471

Potential modulated ellipsometric measurements on the Fe$_{17}$Cr alloy in sulphuric acid

Analysis of electrochemically coloured aluminum anodic films by diffuse reflectance spectra
L. Anicai, A. Meghea, C. Sirean and L. Dima 489

Strong acid- and alkali-resistant ZrO$_2$-TiO$_2$ composite oxide thin films formed by low-pressure MOCVD
S. Kikkawa, N. Hara and K. Sugimoto 497

Passive rust layer on low-alloy steel exposed in atmospheric environment
M. Yamashita, H. Miyuki, H. Nagano and T. Misawa 505

Kelvin probe measurements of the corrosion potential of low-alloy steels in dry-wet cycles
M. Yamashita, H. Nagano, F. Guillaume and R.A. Oriani 515
Charge Transport in Passivating Films and Electrical Breakdown

Dielectric breakdown processes in anodic films under high electric fields
  J.M. Albella, I. Montero and J.M. Martinez-Duart 527

Study of the anodic silicon oxide transformation during the breakdown process
  O. Najmi, I. Montero, L. Galán and J.M. Albella 535

Basic laws of electrical breakdown of thin dielectric layers
  V.A. Gurtov, N.Yu. Ershova and P.A. Raikerus 543

A new model of ionic and electronic processes during anodic oxidation of valve metals
  L.L. Odynets 553

Kinetic electronic phenomena in metal oxide dielectric films
  S.D. Khanin 563

Structure inhomogeneities of the oxide dielectric and the properties of tantalum capacitors
  S.D. Khanin 573

Preparation and properties of ultra thin anodic valve metal oxide films
  A.W. Hassel and M.M. Lohrengel 581

Logarithmic kinetics of the ion charge accumulation in the SiO₂ dielectric layers
  V.N. Ovsyuk 591

A surface charge approach to the growth and relaxation in anodic passive films on metals
  M. Bojinov 601

Transient ionic space charges in thin oxide films: Determination of thickness distribution, temperature, and localized phenomena
  M.M. Lohrengel and S. Rüsse 611

A new electrochemical technique for in situ measurement of electric resistance and semiconductor characteristics of surface films on metals
  T. Saario and J. Piippo 621

Kinetics

Investigations of the anodic behaviour of iron in sulfuric medium by the electrochemical quartz crystal microbalance under AC regime
  C. Gabrielli, M. Keddam, F. Minouflet and H. Perrot 631
