1994
PROCEEDINGS
BELTWIDE
COTTON
CONFERENCES

VOLUME 1
- Pictorial Highlights
- Beltwide Cotton Production Conference
- New Developments from Industry
- Workshop: PIMA Production
- Workshop: Conservation Tillage Systems
- Workshop: Management of Aphids and Whiteflies
- Workshop: Insecticide Resistance Management
- Workshop: Ginning Technology
- Cotton Physiology Seminar
- 54th Cotton Disease Council
- 18th Cotton Dust Research Conference
- 18th Cotton Economics and Marketing Conference
- 23rd Cotton Engineering-Systems Conference
- 10th Cotton Ginning Conference

VOLUME 2
- 46th Cotton Improvement Conference
- 47th Cotton Insect Research and Control Conference

VOLUME 3
- 48th Cotton Physiology Conference
- 6th Cotton Quality Measurement Conference
- 11th Cotton Soil Management and Plant Nutrition Conference
- Cotton Textile Processing Conference
- 18th Cotton Weed Science Research Conference
- Joint Meeting: Cotton Engineering-Systems Conference/Cotton Ginning Conference

Editorial Coordinator: Douglas J. Herber
Asst. Editorial Coordinator: Deborah A. Richter

MEASUREMENT OF COTTON LEAF AREA WITH THE LAI 2000 CANOPY ANALYZER ............................................. S. K. Hicks, R. J. Lascano
NITROGEN FERTILITY INFLUENCE ON ETHYLENE PRODUCTION AND LEAF WATER POTENTIAL IN COTTON .......................................................... Ken E. Lege, Richard L. Jasoni, J. Tom Cothren
MANAGEMENT STRATEGIES TO MAXIMIZE PRODUCTIVITY AND WATER USE EFFICIENCY .................................................. D. R. Kreig
USE OF LEAF WATER POTENTIALS TO DETERMINE TIMING OF FIRST POST-PLANT IRRIGATION ................................................ A. J. Steger, J. C. Silvertout, P. W. Brown
SOURCE-SINK MANIPULATION EFFECTS ON COTTON LINT YIELD AND FIBER QUALITY .................................................. W. T. Pettigrew
MTE DETECTION IN COTTON OVULE CULTURE ...................................................................................... Gayle H. Davidson
INFLUENCE OF FRUIT REMOVAL ON THE STARCH AND SUGAR DYNAMICS OF COTTON .................................................................................................. Richard L. Jasoni, J. Tom Cothren, C. J. Fernandez
DIURNAL CHANGES IN ABA DURING GROWTH AND DEVELOPMENT OF COTTON AT HIGH CO₂ AND TEMPERATURE ...................... N. C. Bhattacharya, John W. Radin, B. A. Kimball, D. L. Brummett, David H. Akey
RAPID AND INEXPENSIVE METHODS FOR DETERMINING GLUCOSE AND POTASSIUM LEVELS IN COTTON BOLLS ................................................. J. D. Timpa, A. M. Striegel, A. L. Abellanosa, B. A. Triplett
EXPRESSION OF TUBULIN PROTEINS IN COTTON: A COMPARISON IN DEVELOPING FIBERS AND OTHER TISSUES .................................................................. David C. Dixon, Robert W. Seagull, Barbara A. Triplett
TEMPORAL CHANGES IN PROTEIN AND PROTEOLYTIC ENZYME ACTIVITIES IN GERMINATING COTTON AXES ........................................................................ Eugene L. Vigil, Tung K. Fang

Posters
LEAF MORPHOLOGY AND PHOTOSYNTHESIS OF COTTON SEEDLINGS AS INFLUENCED BY SPECTRAL BALANCE OF LIGHT REFLECTED FROM THE SOIL SURFACE ......................................................................................................................... P. J. Bauer, M. J. Kasperbauer
EFFECT OF METHANOL APPLICATIONS ON ACALA COTTON IN NEW MEXICO ................................................................. Carl E. Barnes, Woods E. Houghton
EFFECTS OF NATURAL BIOREGULATORS ON COTTON PRODUCTION ..................................................... Paul A. Hedin, Jack C. McCarty, Jr.
ENHANCED ROOT GROWTH WITH PGR-IV ............................................................................. D. M. Oosterhuis, D. Zhao
FRUITING SITE PRODUCTION AND FRUIT SIZE RESPONSES OF COTTON TO WATER SUPPLY PER PLANT ...................................................................................... S. A. Staggenborg, D. R. Krieg
ACALA AND PIMA COTTON WATER RELATIONS AND NUTRIENT MANAGEMENT UNDER SUBSURFACE DRIP IRRIGATION ............................................... A. D. Bravo, C. A. Hawk, D. Clark, D. A. Ballard, N. Hudson, T. A. Kerby, M. Keeley
NUTRIENT UPTAKE AND PLANT PHYSIOLOGY ENHANCEMENT BY PHCA TREATMENTS ON COTTON PLANTS ................................................... Salvador C. Munoz
RESPONSE OF THE COTTON VARIETIES, CIAN 95 AND CIAN PRECOZ TO DEFOLIANTS APPLICATION IN THE NORTHERN OF MEXICO ................................................. A. S. Godoy, A.L.E. Moreno, C.E.A. Garcia
EFFECTS OF TIMING OF APPLICATION OF DIFFERENT DEFOLIANTS ON THE NEW COTTON VARIETY LAGUNA 89 ................................................................. A. S. Godoy, A.L.E. Moreno, C.E.A. Garcia
COTTON FIBER CHARACTERISTICS IN RESPONSE TO SHORT SEASON ENVIRONMENTS AND HARVEST AID MATERIALS ......................................................... D. W. Albers, J. B. Mobley, J. N. Ward

Posters-Abstracts
IRRIGATION EFFECTS ON COTTON FIBER AND SEED QUALITY, I. FIELD STUDIES ................................................................. J. M. Bradow, P. J. Bauer, C. R. Camp, P. G. Hunt
COTTON PLANT GROWTH AND FIBER DEVELOPMENT RESPONSES TO LIGHT REFLECTED FROM DIFFERENT SOIL SURFACE COLORS ........................................................................ M. J. Kasperbauer
COTTON RESPONSE TO PIX AFTER EARLY-SEASON SQUARE LOSS ........................................................................ D. R. Cook, C. W. Kennedy
THE ROLE OF LIGHT AND LEAF AGING IN DETERMINING PHOTOSYNTHETIC EFFICIENCY AND CAPACITY ................................................................. C. F. Sassenrath-Cole, Guilyu Lu, H. F. Hodges
EFFECTS OF LEAF AGE ON PHOTOSYNTHESIS, EPICUTICULAR WAX, AND ³¹⁹N UPTAKE IN COTTON (GOSSYPIUM HIRSUTUM L.) ........................................................................... B. R. Bondada, D. M. Oosterhuis, R. J. Norman
PHYSIOLOGICAL RESPONSES OF COTTON PLANTS TO PGRIV APPLICATION UNDER WATER STRESS ................................................ Duli Zhao, D. M. Oosterhuis
CROP MONITORING SYSTEM USING A WEATHER STATION NETWORK, PLANT MAPPING AND CROP SIMULATION ............................................................................. J. A. Landivar, Y. Guo, D. Locke, D. Moseley, D. Dromgoole
POTASSIUM NUTRITION IN COTTON: GENOTYPES, BOLL LOAD, AND ROOT GROWTH ................................................................. J. D. Janes, D. M. Oosterhuis, F. M. Bourland, R. W. McNew
COTTON REGROWTH POTENTIAL FOLLOWING PARTIAL AND COMPLETE SEEDLING DEFOILIATION ................................................................. D. E. Longer, D. M. Oosterhuis, M. Withrow
SELECTION OF COLD TOLERANT LINES OF COTTON BASED ON SEEDLING RESPONSE

RELATIONSHIP OF DROPLET SIZE AND LEAF SPOTTING OF PROFENOFOS TREATED COTTON ...... W. C. Robertson, J. T. Cothren

EFFECT OF OVEREXPRESSION OF SOD ON GROWTH OF TRANSGENIC PLANTS UNDER DROUGHT AND LOW TEMPERATURE ................................................................. Norma L. Trolinder, Randy D. Allen

A 14 KDA POLYPEPTIDE IS INDUCED IN ROOTS OF A ROOT-KNOT NEMATODE RESISTANT ISOLINE OF COTTON SOON AFTER INFECTION ................................................. F. E. Callahan, R. G. Creech, B. Tang, J. N. Jenkins

SPECIFIC RIBOSOMAL PROTEINS OF COTTON ARE ENCODED BY MULTIGENE FAMILIES ................................................................. R. B. Turley, D. L. Ferguson, W. R. Meredith, Jr.

COTTON YIELD ENHANCEMENT AS AFFECTED BY THE USE OF CARBOHYDRATE-BASED FERTILIZERS ................................................................. Stephen D. Livingston, Buford J. Creech

RESPONSES OF COTTON TO APPLICATIONS OF METHANOL SOLUTIONS IN ARIZONA AND MISSISSIPPI ........ Jack R. Mauney

TOTAL AND (+) AND (-)-GOSSYPOL IN SEED OF OBSOLETE AND CURRENT CULTIVARS OF Gossypium hirsutum ................................................................. M. C. Calhoun, W. R. Meredith, Jr., S. W. Kuhlmann, H. L. Kim, E. McDonald

THE ENZYMATIC CONVERSION OF FARNESYL-PPTO DESOXYHEMIGOSSYPOL AND HEMIGOSSYPOL IN STEM HOMOGENATES OF COTTON PLANTS INFECTED WITH VERTICILLIU Dhaliae ................................. C. R. Benedict, C. W. Magill, A. A. Bell, R. D. Stipanovic

CP/MAS HIGH RESOLUTION SOLID-STATE NMR SPECTRA OF CRYSTALLINE CELLULOSE IN COTTON FIBERS ................................................................. C. R. Benedict, H. Pan, R. J. Kohel

GENE EXPRESSION IN FIBER: STRUCTURAL CHARACTERIZATION OF mRNAs ......................................................... M. E. John

GENETIC DETERMINANTS OF FIBER LENGTH IN UPLAND AND PIMA COTTON ......................................................... Thea A. Wilkins

COTTON QUALITY MEASUREMENTS CONFERENCE

Formal Papers

FIBER LENGTH MEASUREMENTS AND DISTRIBUTION OF EGYPTIAN, PIMA AND UPLAND COTTONS AS MEASURED BY HVI, AFIS, PEYER AND SUTER WEBB METHODS ................................................................. Monir G. Sief

A REFERENCE METHOD TO MEASURE BUNDLE STRENGTH - PROBLEMS WITH ITS DEVELOPMENT ........ H. Harig, R. Baumer

HVI VERSUS INDIVIDUAL INSTRUMENTS: FIBER QUALITY EVALUATIONS .... J. C. Palmer, H. B. Cooper, J. Pellow, K. McRae, D. Anderson

SHORT FIBER MEASUREMENT FROM HVI ........................................................................ C. Roger Riley, Youe-T. Chu

EFFECTS OF FIBER GEOMETRY AND NUMBER DENSITY ON THE OPTICAL ATTENUATION BY HVI COTTON TEST SPECIMENS ................................................................. K. E. Duckett, Z. Zhou, R. S. Krowicki, P. E. Sasser

COTTON SHORT FIBER: MEASUREMENT PROBLEMS ................................................................. J. D. Bargeron

NEW UNDERSTANDING ON HVI TENSILE DATA BASED ON MANTIS SINGLE FIBER TEST RESULTS ................................................................. Moon W. Suh, Xiaoliang Cui, Preston Sasser

EVALUATIONS OF THE COTTON SAMPLE OPENER FOR HVI TESTING OF ROLLER GINNED COTTON ................................................................. James L. Knowlton

CHARACTERIZATION OF SUGARS FROM HONEYDEW CONTAMINATED AND NORMAL COTTONS ......................................................................................... Donald E. Brushwood, Henry H. Perkins, Jr.

COTTON STICKINESS DETERMINED BY THE THERMODETECTOR METHOD ........... Henry H. Perkins, Jr., Donald E. Brushwood

NEW DEVELOPMENTS IN TESTING OF HONEYDEW ......................................................................................... R. Frydrych, E. Hequet, G. Comuejols

OVERVIEW IF NIR USE IN CORRECTING HVI STRENGTH MEASUREMENTS .......... Ron Williams, Eric Setzer

EVALUATION OF HIGH SPEED METHODS TO MEASURE COTTON MOISTURE FOR HVI TESTING .......... R. A. Taylor, L. C. Godfrey

THE EFFECT OF COTTON MOISTURE AND LABORATORY HUMIDITY ON HVI STRENGTH ................................................................. R. A. Taylor, L. C. Godfrey

HVI STRENGTH CORRECTION FOR MEASURED MOISTURE CONTENT: TESTING ................................................................. Richard Byler, W. Stanley Anthony, Paul B. Beaton, H. H. Ramey, Jerome Boyd

AFIS ADVANCEMENT IN NEPS AND LENGTH MEASUREMENTS ......................................................................................... Hossein M. Ghorashi, Joseph C. Baldwin, Massod A. Khan

WHY WE NEED A STANDARD METHOD FOR STRENGTH TESTING, AND WHAT IT WILL TAKE TO GET ONE ....... David L. Adams

METHODS FOR THE EVALUATION OF SEED COAT FRAGMENTS .... H. B. Cooper, K. McRae, D. Anderson, J. Palmer, J. Pellow

FIBER FRICTION IN NATURAL AND CHEMICALLY TREATED COTTON ................................................................. R. M. Broughton, Y. E. ElMobahzy, Q. Wang

FIBER FINENESS AND MATURITY EVALUATION ................................................................. John Pellow, H. B. Cooper, John Palmer, David Anderson

INTERACTIVE EFFECTS OF WATER-STRESS, CO2, AND O3 ON UPLAND COTTON. I. PLANT GROWTH AND BIOMASS PARTITIONING ................................................................. Mohamed I. Zakaria, Charles L. Mulchi, Edward H. Lee

INTERACTIVE EFFECTS OF WATER-STRESS, CO2, AND O3 ON UPLAND COTTON. II. YIELD AND YIELD COMPONENTS ......................................................................................... Mohamed I. Zakaria, Charles L. Mulchi, Edward H. Lee

INTERACTIVE EFFECTS OF WATER STRESS, CO2, AND OZONE ON UPLAND COTTON. III. FIBER QUALITY CHARACTERISTICS ......................................................................................... Mohamed I. Zakaria, Charles L. Mulchi, Eugene L. Vigil, Devon P. Thibodeaux

PRACTICAL ASPECTS OF MATURITY MEASUREMENTS USING THE NEAR-IR SPECTROSCOPY METHOD ................................................................. Subhas Ghosh

HIGH SPEED MEASUREMENTS OF SUGAR AND STICKINESS IN COTTON ......................................................................................... R. A. Taylor, Jim Psotka, Scott Reed

ELECTROMAGNETIC REFLECTANCE ON COTTON: A REVIEW OF THEORY AND EXPERIMENTS ......................... J. Alex Thomasson

USE OF NIR TO INCREASE REPEATABILITY IN COTTON STRENGTH MEASUREMENTS .......... Ron Williams, Eric Setzer, Robert Taylor
Abstracts

**ON-FARM TESTING OF WATER STRESS-FIBER QUALITY THEORIES** ........................................ F. D. Whisler, H. F. Hodges 1486

**EFFECT OF DROUGHT STRESS ON COTTON FIBER QUALITY** .................................................. E. L. Vigil, O. Hinojosa, D. P. Thibodeaux 1487

**WATER DEFICIT EFFECTS ON COTTON FIBER ELONGATION, MOTE PRODUCTION, AND NET PHOTOSYNTHEIS** .................................................. G. F. Sassenrath-Cole, K. R. Reddy, H. F. Hodges 1488

**MOTE CHARACTERISTICS IN TEXAS COTTON** ................................................................. G. H. Davdondis, J. Landivar 1489

**IRRIGATION EFFECTS ON COTTON FIBER AND SEED QUALITY. II. FIBer QUALITY STUDIES USING AFIS** .................................................. J. M. Bradow, P. J. Bauer, O. Hinojosa 1489

**COTTON GENOTYPE RESPONSES TO SUBOPTIMAL TEMPERATURE AND RELATED DYEING CHARACTERISTICS** .................................................. J. M. Bradow, P. J. Bauer 1490

**WHITE SPECKS: A MICROSCOPIC PROFILE** ................................................................. W. R. Goynes, B. F. Ingber, D. P. Thibodeaux 1490

**APPLICATIONS OF AFIS TO MEASURING QUALITY CHARACTERISTICS OF COTTON** .................. O. Hinojosa, D. P. Thibodeaux 1491

**USING FUNDAMENTAL FIBER PROPERTIES DATA AND STELOMETER DATA OBTAINED AT EACH OF FOUR GAUGE LENGTHS TO ANALYZE, INTERPRET, AND PREDICT YARN DATA. PART I. METHOD OF DETERMINING THE ACTUAL GAUGE LENGTH OF THE NOMINAL ZERO GAUGE LENGTH USED FOR COTTON BUNDLE BREAKS** .................................................. L. B. De Luca, D. P. Thibodeaux 1492

**USING FUNDAMENTAL FIBER PROPERTIES DATA AND STELOMETER DATA OBTAINED AT EACH OF FOUR GAUGE LENGTHS TO ANALYZE, INTERPRET, AND PREDICT YARN DATA. PART II. THE EFFECT OF BUNDLE DATA FROM DIFFERENT GAUGE LENGTHS ON COMPARISONS OF FIBER PROPERTIES WITH YARN DATA** .................................................. L. B. De Luca, D. P. Thibodeaux 1492

**HVI STRENGTH CORRECTION FOR MEASURED MOISTURE CONTENT: DEVELOPMENT** ........ Richard Byler, W. Stanley Anthony, James L Knowlton, H. H. Ramey, Jr., Jerome Boyd 1493

**TRACKING WHITE SPECK NEPS AND FIBER PROPERTIES FROM BALE TO FINISHED FABRIC** ........ P. D. Bel-Berger, W. R. Goynes, Jr., O. Hinojosa, Phiroze Dastoor 1496

**QUANTITATIVE MEASUREMENT OF FIBER MATURITY BY X-RAY FLUORESCENCE SPECTROSCOPY** .... P. Dastooy, L. H. Wartelle, A. B. Pepperman 1501

Manuscripts Not Submitted by Author(s)

**YARN QUALITY MEASUREMENT (NEW PERSPECTIVES)** .......................................................... Shahram Peykamian, Jon Rust

**FACTORS INFLUENCING A REFERENCE METHOD FOR HVI STRENGTH MEASUREMENTS** ................ C. K. Bragg, C. L. Simpson

**POSSIBILITIES FOR INTERNATIONAL STANDARDS FOR HVI-MEASUREMENTS** .......................... Anton Schenek

**DOES THE UNIVERSAL SPECIMEN SAMPLER IMPROVE HVI 3500 MEASUREMENTS** ..................... Eric Hequet, J. P. Gourlot

**MODULE AVERAGING: 1993 CROP RESULTS** ........................................................................... Jesse F. Moore

**COTTON SOIL MANAGEMENT AND PLANT NUTRITION CONFERENCE**

**NITROGEN STATUS OF COTTON FOLLOWING WINTER COVER CROPS** .................................. G. A. Breitenbeck, R. L. Hutchinson, D. J. Boquet 1505

**COTTON RESPONSE TO CONVENTIONAL TILLAGE AND NO-TILL COVER CROP SYSTEM** .... N. W. Buehring, W. F. Jones, G. A. Jones 1508

**FARM-SCALE VALIDATION OF CONSERVATION TILLAGE CROPPING SYSTEMS FOR SANDY SOILS** .................................................. J. W. Keeling, W. M. Lyle, J. R. Abernathy 1511

**COTTON YIELD AND GROWTH ON CLAY SOIL UNDER DIFFERENT LEVELS OF TILLAGE, NITROGEN AND COVER CROP** .................................................. D. J. Boquet, G. A. Breitenbeck, A. B. Coco 1513

**ROW-SPACING EFFECTS ON YIELD AND EARLINESS** ............................................................ E. D. Vories, J. S. McConnect, R. E. Glover 1516

**PROVISION OF MID-SEASON K REQUIREMENTS IN COTTON WITH SLOW RELEASE K APPLIED PRE-PLANT** .................................................. Jessica Davis 1519

**A BASIC STUDY OF POTASSIUM FERTILIZER PLACEMENT EFFECTS ON POTASSIUM UPTAKE BY COTTON** .................................................. G. L. Pate, G. L. Mullins, C. H. Burmester 1520

**RESULTS OF CORRECTING SUBSOIL PROBLEMS** ............................................................ Gordon R. Tupper, M. Wayne Ebelhar 1524

**EFFECTS OF SOIL AND FOLIAR K ON COTTON YIELD IN SOILS OF GEORGIA AND NORTH CAROLINA** .................................................. Steve C. Hodges 1527

**FOLIAR APPLIED K AND RESIDUAL SOIL K INTERACTIONS IN FIVE LONG-TERM STUDIES** .... C. C. Mitchell, G. L. Mullins, C. H. Burmester 1529

THREE-YEAR COMPARISON OF FOLIAR FEEDING OF COTTON WITH FIVE POTASSIUM SOURCES ........................................ W. N. Miley, D. M. Oosterhuis 1534
COTTON RESPONSE TO THE SOURCE OF FOLIAR POTASSIUM .................................................................................. G. L. Mullins, C. H. Burmester 1537
EFFECT OF FOLIAR APPLICATIONS OF METHANOL, UREA AND IRON ON COTTON YIELD IN LOUISIANA .................. E. R. Funderburg, R. L. Hutchinson, T. A. Burch 1540
COTTON RESPONSE TO NITROGEN ON A RED RIVER ALLUVIAL SOIL ................................................................. S. H. Moore, J. Caylor, J. Beauboeuf 1545
NITROGEN INFLUENCE ON POSITION AND FATE OF COTTON BOLLS ........................................................................... S. H. Moore, J. Caylor 1547
LONG TERM NITROGEN FERTILIZATION EFFECTS ON LINT YIELDS AND CERTAIN SOIL PROPERTIES IN THE TEXAS COASTAL BEND ......................................................................................................................... J. E. Matocha, Dennis L. Coker, Fred L. Hopper 1549
NITROGEN AND POTASSIUM NUTRITION OF COTTON GROWN IN THE TEXAS BLACKLAND.............................................................................................................................. T. C. Knowles, B. W. Hipp, W. C. Langston 1552
EFFECT OF STARTER FERTILIZER RATE AND PLACEMENT ON COTTON ROOT GROWTH AND LINT YIELD IN TWO TILLAGE SYSTEMS ............................................................................... J. L. Kovar, R. L. Hutchinson, E. R. Funderburg 1559
EFFECT OF NON-COMPOSTED ORGANIC WASTE AS RESIDUES ON COTTON YIELDS ........................................ J. H. Edwards, R. H. Walker, W. B. Webster 1561
EFFECTS OF REPEATED APPLICATION OF NONCOMPOSTED ORGANIC WASTE ON COTTON YIELD ......................... J. H. Edwards, R. H. Walker, J. S. Bannon 1564
NITROGEN FERTILIZATION OF CIAN 95 - A NEW VARIETY FOR THE COMARCA LAGUNERA, MEXICO ...................... A. S. Godoy, F. G. Chavez, G. A. Palomo 1568
EFFECT OF INTERCROPPING COTTON WITH MAIZE UNDER DIFFERENT NITROGEN RATE AND DIFFERENT HILL SPACING OF MAIZE ........................................................................................................... H.M.H. Mohamed, M.I.M. Salwau 1570

Abstracts

EFFECTS OF COVER CROPS AND N RATES ON GROWTH AND YIELD OF NO-TILL AND CONVENTIONAL-TILL COTTON .................................................................................................................. R. L. Hutchinson, G. A. Breitenbeck, R. A. Brown, W. J. Thomas 1573
FERTILIZER K MANAGEMENT EFFECTS ON COTTON YIELD AND NUTRITION ............................................................... Anthony Bland, J. J. Varco 1573
EVALUATION OF A COMPACT ION METER FOR IN-FIELD MEASUREMENT OF POTASSIUM IN COTTON PETIOLES .................................................................................................................. C. H. Burmester, G. L. Mullins 1574
SOIL AND FOLIAR APPLIED K FOR CONVENTIONAL-AND NO-TILL COTTON IN TENNESSEE ..................................... D. D. Howard, P. E. Hoskinson, R. C. Gerstenecker 1575
EVALUATION OF SURFACTANTS IN FOLIAR FEEDING COTTON WITH KNO ................................................................ D. D. Howard, P. E. Hoskinson, R. C. Gerstenecker 1575
ROOT AND SHOOT RESPONSE OF SIX COTTON CULTIVARS TO WATER MANAGEMENT ........................................ J. Keino, C. A. Beyrouty, D. M. Oosterhuis 1576
STARTER FERTILIZER APPLICATIONS RATES AND METHODS FOR CONVENTIONAL AND NO-TILLAGE COTTON. 1993 TENNESSEE AND LOUISIANA DATA ................................................................................. D. D. Howard, R. L. Hutchinson 1576
INTERACTION OF NITROGEN RATES AND MECIPUAT CHLORIDE-EFFECTS ON YIELD AND QUALITY ......................... M. W. Ebelhar, W. R. Meredith, Jr., R. A. Welch 1577
LEAF NITROGEN EFFECTS ON GROWTH AND DEVELOPMENT OF COTTON ................................................................. P. Rusnadi, K. R. Reddy, H. F. Hodges 1578
VARYING SOIL TEST K LEVEL EFFECTS ON COTTON YIELD AND NUTRITION .......................................................... J. J. Varco, W. E. Batson, A. Bland 1578
FIELD VALIDATION OF SIMULATED DISTRIBUTION OF SOIL NITRATES IN AN IRRIGATED COTTON PRODUCTION SYSTEM ........................................................................................................... J. C. Silvertooth, E. R. Norton, B. L. Unruh 1579
EFFECT OF SOIL AND FOLIAR APPLIED POTASSIUM FERTILIZER ON UPLAND AND PIMA COTTON IN SONORAN DESERT SOILS OF ARIZONA .......................................................... A. Galadima, J. C. Silvertooth, B. L. Unruh, E. R. Norton 1579

Posters

COTTON PRODUCTION IN A TWO-YEAR CORN-WHEAT-COTTON ROTATION WITH CONSERVATION TILLAGE ................................................................................................................................. P. G. Hunt, P. J. Bauer, T. A. Matheny 1580
OPTIMUM IRRIGATION SCHEDULING FOR CIAN PRECOZ, A NEW COTTON VARIETY .................................................... A. S. Godoy, A. C. Godoy, G. A. Palomo, C. E. Garcia 1582
THE FATE OF NITROGEN IN A DRIP IRRIGATED COTTON STUDY WITH SIX LEVELS OF WATER AND FIVE LEVELS OF NITROGEN ................................................................................................................. J. C. Henggeler, M. G. Hickey, W. L. Muter, R. Harston, D. L. Reddell 1583
CHRONOLOGICAL RESULTS OF FOLIAR K-POWER RESEARCH ON COTTON IN THE U.S. ................................................. J. P. O'Connor, S. G. Morse 1586
ESP™ K-SULFATE - A MORE SOLUBLE FORM OF POTASSIUM SULFATE FOR FOLIAR APPLICATION TO COTTON ...... Dan Nason 1589
TILLAGE ALTERNATIVES FOR COTTON PRODUCTION IN THE LOWER RIO GRANDE VALLEY .................................................. J. R. Smart, J. M. Bradford, R. J. Rektorik, J. Robinson, D. A. Wolfenbarger 1591
COTTON YIELD AND SOIL PROPERTIES FOLLOWING THIRTY-FIVE YEARS OF WINTER COVER CROP ROTATION .......................................................................................................................... E. P. Millhollon, T. M. Moreau 1595
POTASSIUM FERTILIZATION EFFECTS ON COTTON YIELDS AND FIBER PROPERTIES .................................................. J. E. Matocha, Dennis L. Coker, Fred L. Hopper 1597

Posters - Abstracts

INFLUENCE OF PREPLANT, SPLIT SOIL APPLIED AND FOLIAR APPLIED POTASSIUM FERTILIZER ON YIELD AND QUALITY OF COTTON IN VIRGINIA ................................................................................... A. Ozzi Abaye, K. E. Edmisten, G. L. Heuberger, J. C. Maitland, W. B. Wilkinson, J. L. Jones, J. W. Parker 1601
COTTON RESPONSE TO TILLAGE AND COVER CROPS ................................................................................................. H. Bloodworth, J. R. Johnson 1601
ASSessing the potassium status of cotton using tissue tests

COTTON TEXTILE PROCESSING CONFERENCE

CLEANING COTTON FOR EFFECTIVE ROTOR SPINNING

NEW FEATURES OF A HIGH-TECH CARD

IMPROVED COTTON FIBER QUALITY AND IMPROVED SPINNING TECHNOLOGY-A PROFITABLE MARRIAGE

SCI APPLICATION IN A COTTON YARN SPINNING MILL

THE AMTEX PARTNERSHIP

THE USE OF CLUSTER ANALYSIS FOR GRADING TEXTILE YARNS

IMPROVING YARN AND FABRIC STRENGTHS BY HVI AND SINGLE FIBER TEST DATA - A MILL EXPERIMENT

STATISTICAL MODELS FOR DIMENSIONAL AND MECHANICAL CHARACTERISTICS OF KNIT FABRICS

THE MECHANICAL BEHAVIOR OF POLYESTER/COTTON YARNS AND FABRICS REPRESENTING DIFFERENCES IN FIBER DISTRIBUTION WITHIN THE YARN

WEIGHT AND TRANSPORT PROPERTIES OF COTTON ASSEMBLIES

-effects of laundering on the colorfastness of fiber reactive dyed cotton

COLORIMETER MEASUREMENTS AND COLOR DIFFERENCES IN FABRIC

THE AMTEX PARTNERSHIP

FIBER BREAKAGE IN COTTON PROCESSING: PART II - LENGTH VARIATION UNDER DIFFERENT DEGREES OF RANDOM BREAKAGE

SELECTED PROPERTIES OF PREDOMINANTLY-COTTON STAPLE-CORE KNITTED FABRICS

PHYSICAL PROPERTY VARIATION IN FABRICS WOVEN FROM TOPICALLY TREATED YARNS

THE AMTEX PARTNERSHIP

EFFECTS OF AGING ON PHYSICAL PROPERTIES OF COTTON FIBER

ECONOMICS OF THE USE OF NATURALLY COLORED COTTON AND ORGANICALLY GROWN NATURALLY COLORED COTTON

CONTRIBUTION TO THE THEORY OF COTTON FIBER SELECTION AND BLENDING

CORE-WRAP SPINNING TECHNOLOGY (AN UPDATE ON THE TECHNOLOGY AND ITS TRANSFER TO INDUSTRY)

COTTON WEED SCIENCE RESEARCH CONFERENCE

REPORT OF THE 1993 COTTON WEED LOSS COMMITTEE

A SUMMARY OF COTTON-PRO AND METURON AS A PRE-PLANT BURNDOWN IN COTTON

PREEMERGENCE WEED MANAGEMENT WITH COMMAND IN COTTON

EFFICACY OF CLOMAZONE WITH DISULFOTON AND ALDICARB

NIGHTSHADE CONTROL WITH PHRITHIOBACE (STAPLE) IN CALIFORNIA

POSTEMERGENCE GRASS CONTROL IN COTTON USING CLETHODIM PLUS DPX-PE350 TANK MIX COMBINATIONS

WEED CONTROL PROGRAMS IN COTTON USING COMBINATIONS OF BUCTRIL AND STAPLE

WEED CONTROL SYSTEMS FOR CONSERVATION-TILLAGE COTTON

PREPLANT WEEDS IN STALE SEEDBED AND NO-TILL COTTON

Abstracts

CORE-WRAP SPINNING TECHNOLOGY (AN UPDATE ON THE TECHNOLOGY AND ITS TRANSFER TO INDUSTRY)
A BURNING INTEREST IN THE OLD WAYS: A REVIEW OF INFORMATION ON FLAME CULTIVATION........S. M. Brown, J. D. Byrd, Jr.
TAKING TRANSGENIC COTTON TO THE FARM.................................................................Dearl Sanders, Thomas Burch
NUTSEDGE MANAGEMENT SYSTEMS IN COTTON..............................................................A. C. York
PREEMERGENCE GRASS CONTROL IN CONSERVATION TILLAGE COTTON....................M. G. Patterson, B. E. Norris, C. J. Zom
REDUCED TILLAGE WEED MANAGEMENT IN GEORGIA COTTON.........................................J. W. Wilcut, J. S. Richburg, III, L. R. Hawf
ZORIAL MIXTURES WITH COTORAN OR KARMEX FOR WEED CONTROL IN GEORGIA COTTON..................T. J. Holt, J. W. Wilcut, H. S. McLean, J. S. Richburg, III
PREPLANT WEED CONTROL WITH HARMONY EXTRA TANK MIXTURES .... D. B. Reynolds, P. R. Vidrine, D. E. Fairbanks, J. L. Griffin
WEED CONTROL IN BROMOXYNIL-TOLERANT COTTON.....................................................E. C. Murdoch
COTTON RESPONSE TO PREPLANT APPLICATIONS OF QUINCHLORAC....................................H. R. Hurst
AN EVALUATION OF CLOMAZONE SYSTEMS IN GEORGIA COTTON.......................................J. W. Wilcut, J. S. Richburg, III
WEED EFFICACY WITH BUCTRIL AND ROUNDUP................................................................John S. Richburg, III, John W. Wilcut, E. G. Ingram
INTERACTIONS OF POSTEMERGENCE HERBICIDES WITH STAPLE......................................P. R. Vidrine, D. B. Reynolds
COTTON INJURY AND THrips CONTROL WITH SOIL INSECTICIDE-CLOMAZONE COMBINATIONS....R. M. Hayes, G. L. Lentz
INTERACTIONS OF FOLIAR INSECTICIDES APPLIED WITH DPX-PE350..............................R. L. Allen, C. E. Snipes
RESPONSE OF BROADLEAF WEEDS TO STAPLE (DPX-PE350), BROMOXYNIL, AND GLYPHOSATE.................................................................................................................A. Keeton, E. C. Murdock, G. S. Stapleton, J. E. Toler
WEED AND ROTATIONAL CROP RESPONSE TO STAPLE IN THE TEXAS SOUTHERN HIGH PLAINS..........................................................................................................................P. A. Dotray, J. W. Keeling, C. G. Henniger, J. R. Abernathy
NORFLURAZON FOR WEED CONTROL IN ARIZONA COTTON.................................................W. B. McCloskey, L. J. Russo
OFFSTATION ASSESSMENT OF STAPLE (DPX-PE350) IN LOUISIANA....................................Paul Bergeron, Dearl Sanders
SUNFLOWER RESIDUE MANAGEMENT IN NO-TILL COTTON................................................R. C. Chavez, R. E. Frans
CONTROL OF COFFEE SENNA (CASSIA OCCIDENTALIS) IN COTTON......................................A. Keeton, E. C. Murdock, G. S. Stapleton, J. E. Toler
REDUCED INPUT SYSTEMS FOR COTTON PRODUCTION IN NORTH CAROLINA...K. L. Edmisten, A. C. York, J. S. Bachelor, D. S. Guthrie
EXTENSION/RESEARCH EFFORTS REGARDING DINITROANILINE-RESISTANT PALMER AMARANTH (AMARANTHUS PALMERI) IN COTTON..........................................................W. M. Hair, E. C. Murdock, G. S. Stapleton, J. E. Toler
NEW HERBICIDES FOR STALE SEEDBED WEED CONTROL.............................................Eric P. Webster, David R. Shaw, C. E. Snipes

JOINT: COTTON ENGINEERING-SYSTEMS CONFERENCE AND COTTON GINNING CONFERENCE
Formal Papers
EFS* COTTON FIBER MANAGEMENT SYSTEM GINNet..............................................................Charles Chewning, John Zeplin
THE IMPACT OF MODULE HAULING SYSTEMS ON OPTIMAL GIN LOCATION.........................Phil Kenkel, Tommy Eshleman, Dan Tilley
THE ECONOMIC FEASIBILITY OF INSTALLING A UNIVERSAL DENSITY COTTON BALE PRESS.................................................................C. Kevin Brinkley, William D. Mayfield, Douglas J. Herber
KILL OF PINK BOLLWORMS WITH LARGE DIAMETER FANS..................................................S. E. Hughes, R. T. Staten
QUALITY ASPECTS OF BELT CONVEYOR DRYER USE ON SEED COTTON..............................Weldon Laird, Milton Smith, Gary Barker
RELATIONSHIP OF COTTONSEED MOISTURE TO SEED DAMAGE AT GINS..............................E. P. Columbus, G. J. Mangialardi
DEVELOPMENT OF A LINT-CLEANING CONCEPT TO PRESERVE FIBER QUALITY.......................Gino J. Mangialardi, Jr.
DESIGN OF PRE-COLLECTORS FOR CYCLONE COLLECTORS.............................................Karl Mihaikos, Paul Kaspar, Calvin B. Parnell, Jr.
A PRE-SEPARATOR FOR CYCLONES AT COTTON GINS......................................................Eugene P. Columbus
EVALUATION OF FIBER SEED DETACHING STRENGTH AND FRICTION PARAMETERS IN CAGE GINNING.................................................................................................................J. M. Cabrera Sixto, W. A. LePori
CLEANING COTTON FOR EFFECT ROTOR SPINNING.........................................................Roy V. Baker, J. B. Price, K. Q. Robert (See Cotton Textile Conf.)

Abstracts
COMPARISON OF LINT CLEANER COMBING AND CARDING PRINCIPLES..............................Gino J. Mangialardi, Jr.
STRUCTURAL ANALYSIS OF FIBER ATTACHMENT TO SEED COAT: RESTRICTIVE BARRIERS TO FIBER REMOVAL DURING SAW GINNING.........................................................E. L. Vigil, W. S. Anthony, E. P. Columbus, E. Erbe, W. P. Wergin
