HISTORICAL

- Early Industrial Development of the Powder River Basin — John Paul Gries .......... 21

TECTONIC HISTORY AND STRUCTURAL ANALYSIS

- Tectonic History of the Black Hills Uplift — Alvis L. Lisenbee .......... 45
- Igneous-related Structure of the Southeastern Bear Lodge Dome, Crook County, Wyoming — Alvis L. Lisenbee and James E. Martin .......... 67
- Gravity and Magnetic Models of the Tomahawk Diatreme, Northern Black Hills, South Dakota — D.D. Everson and W.M. Roggenthen .......... 77

OIL-FIELD GEOLOGY AND HYDRODYNAMICS

- Integration of Stratigraphic High Resolution Dipmeter Data into the Development of the Minnelusa "B" Sand Reservoir in Hawk Point Field, Campbell County, Wyoming — Steven D. Jorgensen and Susan W. James .......... 105
- Exploration and Development History of Shippy Field: A Minnelusa Formation Wildcat Fringe Discovery — Ralph W. Specht .......... 117
- Geologic and Seismic Models, Muddy Sandstone, Lower Cretaceous, Bell Creek - Rocky Point Area, Powder River Basin, Montana and Wyoming — Robert J. Weimer, Claudia A. Rebne, and Thomas L. Davis .......... 161
- The Integration of Hydrodynamics and Stratigraphy, Muddy Sandstone, Northern Powder River Basin, Wyoming and Montana — David A. Smith .......... 179
STRATIGRAPHY AND SEDIMENTATION

Geology of the Northern Portion of the Simons' Ranch Anticline, Crook County, Wyoming, with Special Reference to the Depositional History of the Upper Minnelusa Formation (Permian, Wolfcampian) — James E. Martin, A. Glenn Motes III, and James E. Fox .................................................. 191

COAL

Peat Forming Wetlands and the Thick Powder River Basin Coals — James E. McClurg .......................... 229

Sedimentology, Petrography, and Paleoeconomy of the Cambria Coal, Weston County, Wyoming — Fredrick J. Rich, Timothy A. Pish, and Gregory W. Knell .............................................. 249

URANIUM

Geology and Production History of the Uranium Deposits in the Northern Black Hills, Wyoming - South Dakota — William L. Chenoweth ................................................................. 263

Relationship Between Groundwater Flow and Uranium Mineralization in the Chadron Formation, Northwest Nebraska — Thor W. Gjelsteen and Stephen P. Collings ........................................... 271

METALLIC AND INDUSTRIAL MINERALS

The Geology and Metal Resources of the Black Hills Uplift, Wyoming — W. Dan Hausel and Wayne M. Sutherland .......................................................................................... 285

Bentonite Mining in the Black Hills Region — Eldon L. Allison, Jr ....................................................... 305

Industrial Minerals of Northeastern Wyoming — Ray E. Harris .......................................................... 315

ABSTRACTS

Regional Pennsylvanian and Permian Tectonic Movements and Their Effect on Correlation of Upper Paleozoic Strata in the Powder River Basin and Black Hills — Edwin K. Maughan .......................... 322

Applications of Surface Geochemical Techniques for Mapping Methane Associated with Near-Surface Coal Deposits — Walter R. Merschat ......................................................... 322
