CONTENTS

SPE 29246 Applications of Exploration Technologies to Reservoir Prediction and Management—Field Examples of South-East Asia .............................................. 9
B.C. Duval, G. Allen, and K. Madaoui, Total S.A.; J. Gouadain, Total E&P Thailand; and Y. Kremer, Total Myanmar

SPE 29247 Cost and Resolution in 3D Surveys for Stratigraphic Traps ........................... 21
J.A. McDonald, U. of Houston; N. Tyler, U. of Texas; and N.F. Uren, Curtin U. of Technology

SPE 29252 How to Organise Mud Logging Data for Modelling Rate of Penetration ........ 31
Hong Xu, Heriot-Watt U.; M.J. Fear and O.P. Whelehan, BP Exploration Ltd.; and J.T. Ford and J.L. Jensen, Heriot-Watt U.

SPE 29253 Integrated Approach to Natural Gas Utilisation in the Asia Pacific Region .......... 39

SPE 29255 Commercial Valuation of Hydocarbon Resources .................................... 55
J.S. Boardman, Resource Investment Strategy Consultants Pty Ltd

SPE 29258 Prediction of Minimum Principal In-Situ Stress by Comparison and Verification of Four Methods ................................................................. 69
R. Harikrishnan and G. Hareland, New Mexico Inst. of Mining & Technology

SPE 29259 An Innovative Model for Drilling Fluid Hydraulics .................................... 77
A. Merlo, R. Maglione, and C. Piatti, AGIP SpA

SPE 29260 The Application of a New Polymer Mud to Horizontal Drilling in the Dagang Oilfield ................................................................. 95
Jienian Yan and Guancheng Jiang, U. of Petroleum, China, and Ruiguo Zong, Dagang Oil Bureau

SPE 29262 Core-Log Data Integration for Improved Formation Evaluation in the Dulang Field, Offshore Peninsular Malaysia ............................................. 107

SPE 29263 Application of Resistivity Inversion Software to Thin-Bed Evaluation .......... 123

SPE 29266 The Use of Coiled Tubing During Matrix Acidizing of Carbonate Reservoirs ... 139
R.L. Thomas and A.W. Milne, Schlumberger Technical Services

SPE 29267 Two New Design Tools Maximize Safety and Efficiency for Coiled Tubing Pumping Treatments ................................................................. 151
S.C. Gary, I.C. Walton, and Hongren Gu, Schlumberger Dowell

SPE 29268 Development of Coated Tubing for Oil/Gas Production in Sour Environment ...... 163

SPE 29269 New Cement Additives That Eliminate Cement Body Permeability .......... 169
S. Talabani and G. Hareland, New Mexico Inst. of Mining & Technology

SPE 29270 Optimized Exploration Resource Evaluation Using the MDT* Tool ............... 177
K. Zainun and M.L. Trice Jr., Esso Production Malaysia Inc.

SPE 29273 Predicting Compaction and Subsidence for an Immature Gas Bearing Carbonate Field ................................................................. 195
M. Prins, Sarawak Shell Berhad, and B.R.M. Smits and P.M.T. Schutjens, Shell Research B.V.

SPE 29274 Optimal Design of Perforation Completion for a Gas Well ......................... 203
Yula Tang, Yinde Pan, and Yongqing Wang, Southwest China Petroleum Inst.

SPE 29275 Determination of Perforation Schemes to Control Production and Injection Profiles Along Horizontal Wells ........................................ 221
H. Asheim, Norwegian Inst. of Technology, and P. Oudeman, Koninklijke/Shell E&P Laboratorium

SPE 29276 New Tool Designs for High Rate Gravel Pack Operations ......................... 227
C.M. Ross, Halliburton Energy Services
