CONTENTS

Volume 1

Session 1 1 A  Monohulls I

Blount, D.L.
Factors influencing the Selection of a Hard Chine or Round-Bilge Hull for High Froude Numbers 3

Hellström, S.A., Blount, D.L.
The Influence of Aft Buttock Shape on High-Speed Hull Performance 21

Grigoropoulos, G.J., Loukakis, T.A.
Effect of Spray Rails on the Resistance of Planing Hulls 33

Radojcic, D.
Performance Predictions and Parametric Studies for Small High-Speed Displacement and Semidisplacement Vessels with Shallow Draft 45

Session 1 1 B  Catamarans I

Basin, M.A., Lyakhovitsky, A.G., Shur, S.B., Zelensky, B.M.
Hydrodynamics of Fast Catamarans 57

Zips, J.M.
Numerical Resistance Prediction based on the Results of the VWS Hard Chine Catamaran Hull Series '89 67

Patrakka, K., Arjava, J.-P., Enlund, H., Kyyrö, K., Lausmaa, J.
Influence of the Distance between Demihulls on the Characteristics of a Big, High Speed Catamaran 75

van 't Veer, A.P., Siregar, F.R.T.
The Interaction Effects on a Catamaran Traveling with Forward Speed in Waves 87

Session 1 1 C  Structural Design I

Cheng, Y. F., Turnbull, W.
Some Considerations on the Structural Requirement for the Classification of High Speed Craft 99
Petersen, U., Securius, J.P.
Introduction of Systematic and Probabilistic Safety Assessment Methods for the Classification of High Speed Craft  

Pinon, H.
New Rules for High Speed Craft  

Fan, M., Mazonakis, C.
Structural Design Philosophies and Classification Requirements for High Speed Craft  

Session 1 2 A  Monohulls II

Fung, S.C., Leibman, L.
Revised Speed-Dependent Powering Predictions for High-Speed Transom Stern Hull Forms  

Boote, D., Ragone, M., Sculati, A.
Seaworthiness of Aquastrada Class of Ships  

Keuning, J.A., Pinkster, J.
Optimisation of the Seakeeping Behaviour of a Fast Monohull  

Session 1 2 B  Catamarans II

Helasharju, H., Sundell, T., Rintala, S., Karppinen, T.
Resistance and Seakeeping Characteristics of Fast and Large Multihull Vessels  

Hearn, G.E., Wright, P.N.H., Hills, W.
Seakeeping for Design: Balancing the Vertical and Horizontal Motions of a Catamaran  

Arai, M., Cheng, L.-Y., Inoue, Y., Miyauchi, T.
Numerical Study of Water Impact Loads on Catamarans with Asymmetric Hulls  

Session 1 2 C  Structural Design II

McGeorge, D., Echtermeyer, A.T., Hayman, B.
Local Strength of Plating in High Speed Craft  

Chan, H.-S., Incenik, A.
Structural Load Predictions in the Design of High Speed Vehicles  
Zhu, L., Faulkner, D.
Design Pressure for the Wet-Deck Structure of Twin-Hull Ships 257

Session 13 A Monohulls III

Dussert-Vidalet, R., Gaudin, C., Galtier, B., Adams, J.
CORSAIRE 11 000 – Optimization and Contractual Validation of the Seakeeping Performance of the New Fast Ferry Ship for SNCM 271

Langenberg, H.
Fast Displacement Ships – An Economical Option for High Speed Transportation 283

Lindström, J., Sirviö, J., Yli-Rantala, A.
Superslender Monohull with Outriggers 295

Session 13 B Catamarans III

Hoppe, K.-G.
Optimisation of Hydrofoil-Supported Planing Catamarans 307

Trincas, G., Biriaco, A., Grubišić, I., Ponomarev, A.
Feasibility Study on a High-Speed Catamaran: Comparison with Aquastraada 319

Lewthwaite, J.C., Oehlmann, H.
Predicted Performance and Seakeeping of the Semi-Planing Ship 331

Session 13 C Structural Design III

The Behaviour of Single-Skin FRP Plate Structures under Extreme Lateral Pressure Loading 341

Herrmann, A.S., Delius, K.
Strength Aspects of Sandwich Panels with Foam Core 353

Hentinen, M., Hildebrand, M.
How to Efficiently Join FRP Structures to Metal Ships? 365

Session 21 A Aspects of Operation

Kaplan, P., Römeling, J.U., Tveit, T.
A Hydrodynamics-Based Simulator for Fast Ship Manoeuvrability Assessment and Training 379
Imazu, H.
The Effect of Ship's Speed on Collision Avoidance 393

Dand, I.W., Cripps, R.M.
Calm Water Handling Qualities in High Speed Rescue Craft 405

Smith, R.C., Koss, L.L.
Motion Sickness Incidence Study on Rottnest Island High Speed Ferries 417

Session 2 1 B  Catamarans IV

Kamoi, N., Saito, Y., Nishimura, S., Miyamoto, S., Kawajiri, K.
Wave-Piercing Catamaran Type High-Speed Car Ferry “HAYABUSA” 429

Grosjean, P., Marchal, J.L.J., Rodriguez, S.
Optimum Design of a High Speed Ferry-Passengers Catamaran Vessel taking into account Operational Criteria and Cost 441

Development of a 1200 DWT High-Speed Container Ship 453

Session 2 1 C  Structural Response

Vada, T.
Hydroelastic Response of Ships with Forward Speed in Waves 463

Hansen, P.F., Jensen, J.J., Pedersen, P.T.
Long Term Springing and Whipping Stresses in High Speed Vessels 473

Hermundstad, O.A., Aarsnes, J.V., Moan, T.
Hydroelastic Analysis of a Flexible Catamaran and Comparison with Experiments 487

Sueoka, H., Tozawa, S., Sakai, F., Kabata, T.
Structural Responses of Mitsubishi Super-Shuttle 400 “Rainbow” in Seaways 501

Session 2 2 A  SWATH I

Schenzle, P.
The HSVA Systematic SWATH Model Series 515

Schack, C.
Research on Semi-SWATH Hull Form 527
Oehlmann, H., Pereira, R.  
Comparison of Seakeeping Performance of a Monohull and a SWATH Design for a new Naval Research Vessel  539

Atlar, M., Wang, D., Guner, M.  
Energy Efficient Propulsors for SWATH Ships  551

Session 22 B  Hybrids

Jons, O.P., Schaffer, R.L.  
Virtual Prototyping of Advanced Marine Vehicles  563

Bertram, V., Schmidt, H.J., Marzi, J.  
Hybrid Hydrofoil Monohulls  575

Mori, K., Ninomiya, S., Doi, Y., Nagaya, S., Fujii, Y.  
Free-Running Turning Tests of a New Displacement-Type High Speed Semi-Submersible Ship with Wings  587

Session 22 C  WIG

Kühmstedt, T., Milbradt, G.  
Aerodynamic Design of Wing In Ground Effect Craft  597

Fuwa, T., Hirata, N., Minami, Y., Yamaguchi, M.  
Simulation Study on the Behaviour of Wing-In-Surface Effect Ships  609

Rozhdestvensky, K.V.  
Nonlinear Aerodynamics of Ekranoplan in Strong Ground Effect  621

Bogdanov, A.I.  
Development of IMO Safety Requirements for a New High Speed Seagoing Transportation-WIG Craft – Present State  631
