PROCEEDINGS OF THE
IV. INTERNATIONAL MINERAL PROCESSING
SYMPOSIUM

IV. ULUSLARARASI CEVHER HAZIRLAMA
SEMPOZYUMU
BİLDİRİ KİTABI

VOLUME 1 / CİLT 1

20-22.10.1992
ANTALYA, TÜRKİYE

Edited by
Prof.Dr. Gülhan ÖZBAYOĞLU
Middle East Technical University, Ankara, TÜRKİYE

Co-Edited by
Assoc.Prof.Dr. Ali İhsan AROL
Middle East Technical University, Ankara, TÜRKİYE
CONTENTS/İÇİNDEKİLER

VOLUME I / CİLT 1

COMMINUTION AND SIZING
(UFALAMA VE BOYUTLANDIRMA)

Autogenous Grinding of SiC in Stirred Mills.......................................................... 3
H.Schubert and L. Huan

Study of Comminution Kinetics in Stamp Mill Grinding System............................. 19
A.M. Saleh, M.R. Moharam and M.Z. Hathut

A Comminution Study for Reduction of Grinding Energy Cost.................................. 29
M.Kaya and R.E. McLvor

Performance Evaluation at the Grinding Circuit of Gümüşköy Silver Plant.................. 42
S. Ersayın, B. Aksan, L. Ergün, F. Erkal, Ö. Gürsoy and
B. Sönmez

Benzetşim Kullanılarak Bond Öğütülebilirlik Testinin Basitleştirilmesi........................ 56
B. Sönmez and H. Demirel

Breakage Power in a Grinding Process................................................................. 66
B.B. Lira and A. Kavetsky

The Entered Energy as a Quantitative Determination of Mill
in Micronization Process......................................................................................... 83
M. Petrov, P. Krstovic and L. C. Vrznia
MAGNETIC, GRAVITY AND DENSE MEDIUM SEPARATION  
(MANYETIK, GRAVİTE VE AĞIR ORTAM AYIRIMI)

New Developments in Multi-Stage and Multi-Density Dynamic Dense Medium Separation Circuits ................................................. 96  
G. Ferrara, G. Machiavelli and P. Bevilacqua

Mechanism of Reverse Stratification in Vibrational Enhanced Gravity Separation Processes ........................................................................ 110  
S. Stoev

Influence of Hydrodynamic Conditions on the Magnetic-Gravity Detention of Fine Heavy Particles .................................................. 120  
B. Patchejieff, I. Nishkov and E. Milera

Low-Magnetic and Complicated Mineralogic Composition Iron Ore Dressing in High Gradient Magnetic Separators .......................... 130  
G. Klisuranov and K. Ionkov

Barit Cevherinin Havali Gravite Yöntemiyle Zenginleștirilmesi ................................................................................................. 141  
R. Atademir and M. Lekili

Recent Developments in Magnetic Separation of Industrial Minerals By Rare Earth Permanent and Electromagnetic Open Gradient Magnetic Separators ........................................................................ 149  
H.D. Wasmuth and K.H. Unkelbach

Upgrading Phosphate Ores by Non-conventional Three-outlet Hydrocyclones .................................................................................. 159  
I.J. Lin and M. Liberman

The Influence of Surfactants in Gravity Concentration Processing of Mineral Raw Materials ......................................................... 167  
M. Ignjatovic, Dj. Skendaic, R. Ignjatovic and Lj. Andric
FLOTATION AND FLOCCULATION
FLOTASYON VE FLOKÜLASYON

Activation of Quartz and Feldspar with Metal Ions in Flotation
M.S. El-Salmawy, Y. Nakahiro and T. Wakamatsu

Influence of Multivalent Cations on the Flotation Behaviour and Surface Chemistry of CaF$_2$, CaWO$_4$ and CaCO$_3$ and the Role of Aided Zeolites
S. Raatz

Activation Mechanisms of Barium Ions in Colemanite Flotation
M.S. Çelik, H. Sağlam and M. Hancer

A Contribution to Understanding Oleate Flotation of Minerals
J. Drzymala and J. Lekki

The Role of Structure and Impurities on Oleate Flotation of Magnesites
S. Atak, N. Çoruhlu and A. Altaş

The Mechanism of Oxihydric Collector Action in Apatite Flotation
A.A. Abramov and Al.Al Abramov

Further Studies with 8-Hydroxyquinoline for the Selective Flotation of Scheelite
O. Özcan, N. Bulutcu, O. Recепoğlu and R. Tolun

Investigation of Natural Oleophilicity of Sulphide Minerals with Fluidised Bed Electrodes
D. Kocabağ and G.H. Kelsall

The Effect of Corn Starch on Foams and Flotation Froths
I.D. Neves, S.M. De Assis and A.E.C. Peres
The Floatability of Manganosite in Anionic and Cationic Circuits
M.A. Arafa

Shear Flocculation of Fine Cassiterite
S. Bilgen and B.A. Wills

A Flotation Model for the Prediction of Grade and Recovery
A.C. Apling and J. Zhang

Modelling of Negative Bias Column for Coarse Particles Flotation
B. Öteyaka and H. Soto

Electrochemistry of Sulphide Minerals: Carrollite in the Presence of Potassium
Ethyl Xanthate and Sodium Cyanide
L.K. Witika

Device and System for Producing Electrochemically Activated Water and Its Usage in Lead-Zinc Ores Flotation
T. Penzov, K. Dobreva and Z. Kovacheva

Flotation of an Auriferous Arsenical Pyrite Concentrate By a Non-Thio Anionic Collector
K.A. Kydros, P. Mavros and K.A. Matis

Elementary Steps of Mineral and Deinking Flotation
H.J. Schulze

Laboratory and Industrial Investigations for Establishment of the Optimum Action of Instrument for Mass-Transfer Processes
S. Djendova, V. Mchandjiisky, N. Georgieva and K. Kuzov

The Comparison of Chemical and Biological Suppression on Pyrite Surfaces During Coal Flotation
Y.I. Tosun, N.A. Rowson and T.J. Veasey
Improving the Flotability of Low Grade Coal

Microflotation
A.I.A. Baichenko

On the Application of TEM and Electron Diffraction to the Study of Surface Changes on Sulphide Minerals Caused By Flotation Reagents
M. Manojlovic-Gifing, R. Milinkovic and V. Salatic

Correlation Between the Recovery, the Degree of Hydro-Phobization and the Rotation Velocity in a Flotation Cell
L.B. Alexandrova and B.P. Radoev

Effect of the Use of Potassium Oleate on Precipitate and Adsorbing-Colloid Flotation of Heavy Metals Ions from Waste Waters
S. Miloshev and I. Nishkov

Selective Flotation of Pb-Zn Ore with Sulphur Dioxide Depression
G. Savov, R. Varbanov and L. Alexandrova

Influence of Sonic Treatment on the Kinetics of Electro-Chemical Oxidation of Sodium Butyl-Xanthate
T. Tzonkov, M. Partapanski and S. Djendova

Prediction of Locked Cycle Flotation Test Results from Batch Data for Kutlular Copper Ore
Ü. Akdemir and Ü. Atalay

An Investigation on Evaluation of Tailings of Keçiborlu Sulphur Plant
A. Yamik and E.C. Çilek

Upgrading of a Low Rank Egyptian Kaolin Ore
A.M. Abouzeid and S.E. Elmofty
