Second Workshop On
Bridge Engineering
Research in Progress

PROCEEDINGS

Sponsored by the
National Science Foundation and
Civil Engineering Department
University of Nevada, Reno

Reno, Nevada
October 29-30, 1990

Workshop Directors:
Dr. Bruce M. Douglas and Dr. M. "Saiid" Saiidi
University of Nevada, Reno
Reno, Nevada 89557
# TABLE OF CONTENTS

## PREFACE

Page | iii
---|---

## SESSION I - KEYNOTE PRESENTATIONS

**NCHRP Bridge Engineering Research**  
by I. Friedland  
Page 1

**A New Era in Bridge Engineering Research**  
by J. Cooper  
Page 5

## SESSION II - LONG-SPAN BRIDGES

**Nonlinear Analysis of Segmentally Erected Reinforced and Prestressed Concrete Cable-Stayed Bridges**  
by S. Abbas and A. Scordelis  
Page 11

**Performance of Suspension Bridges Subjected to Strong Earthquakes**  
by A. Abdel-Ghaffar, S. Masri, H. Sayed, and A. Niazy  
Page 15

**Stay Cable Friction in Curved Pipe Saddles**  
by W. D. Domico  
Page 19

**Computer Modeling of the Sunshine Skyway Cable-Stayed Bridge**  
by H. Farran and M. Robben  
Page 23

**Investigation of Bridge Vehicle/Superstructure Interaction**  
by T. Fenske and J. Yang  
Page 27

**Active Wind Control of Bridges Using Winglets**  
by D. Huston  
Page 31

**Aerelastic Effects of Proposed Changes to the Golden Gate Bridge**  
by N. Jones, R. Scanlan, and J. Raggett  
Page 35

**Computational Aspects of Cable-Stayed Bridge Analyses**  
by A. Namini  
Page 39

**Time-Dependent Behavior of Cable-Stayed Bridges**  
by A. Shaukat, W. Gamble, and D. Foutch  
Page 43

**Response Prediction of Bridge Buffeting**  
by H. Tanaka, K. Kimura, and R. Wardlaw  
Page 47

**A Study on the Effectiveness of Structural Control for Cable-Stayed Bridges**  
by S. Unjoh, A. Abdel-Ghaffar, and S. Masri  
Page 51

**A Study on Seismic Response of a Cable-Stayed Bridge**  
by J. Wilson  
Page 55
## SESSION III - LOADS, FATIGUE, AND RATING

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Investigation of Fatigue Life Assessment of Railway Bridges</td>
<td>59</td>
</tr>
<tr>
<td>by S. Dick and S. McCabe</td>
<td></td>
</tr>
<tr>
<td>Rating of Steel Railway Bridges</td>
<td>63</td>
</tr>
<tr>
<td>by A. Ebrahimpour, E. Maragakis, and D. O'Connor</td>
<td></td>
</tr>
<tr>
<td>Inelastic Rating Procedures for Steel Beam and Girder Bridges</td>
<td>67</td>
</tr>
<tr>
<td>by T. Galambos, B. Dishongh, M. Barker, R. Leon, and C. French</td>
<td></td>
</tr>
<tr>
<td>Truck Data for Bridge Load Modeling</td>
<td>71</td>
</tr>
<tr>
<td>by M. Ghosn, F. Moses, and F. Gabriel</td>
<td></td>
</tr>
<tr>
<td>Simulation of Rolling Traffic Loads on Bridge Structures</td>
<td>75</td>
</tr>
<tr>
<td>by F. Seible, K. Krishnan, N. Sharabi, and G. Nagy</td>
<td></td>
</tr>
<tr>
<td>Inspection of Suspender Rope Sockets Using a Portable Linear Accelerator</td>
<td>79</td>

</tbody>
</table>
SESSION V - EXPERIMENTAL AND ANALYTICAL INVESTIGATIONS

Lateral Load Resistance of Diaphragms in Prestressed Concrete Girder Bridges
by R. Abendroth, F. Klaiber, and M. Shafer

Rigid Frame Reinforced Concrete Skewed Slab Bridges
by H. Dagher, M. Elgaaly, and J. Kankam

Crash Worthiness of Bridge Rails
by M. Elgaaly and H. Dagher

Experimental Investigation of a Segmental Shell Bridge
by F. Fanous, F. Klaiber, and W. Wassef

A Dynamic Method for the Safety Inspection of Large Prestressed Bridges
by R. Flesch

University of Colorado Bridge Research
by G. Goble, B. Commander, D. Frangopol, and J. O’Fallon

Testing of Continuous Posttensioned Voided Slab Bridges
by M. Issa, R. Sen, and L. Oline

Twenty-Year-Old Prestressed Bridge Girders: Assessment of Current Condition and Evaluation of Impact Damage Repair
by R. Leon, S. Olson, and C. French

SESSION VI - MATERIALS, LRFD, AND DESIGN CONSIDERATIONS

Characterization and Modelling of Glass Fiber Reinforced Structural Components and Systems
by E. Barbero and H. GangaRao

Artificial Intelligence in Bridge Management System
by J. Bien and S. Rewinski

Behavior of Fiber Reinforced Plastic Rebar Under Bending and Bond
by S. Faza and H. GangaRao

Bridge Redundancy Assessment
by D. Frangopol, R. Nakib, and B. P. Shing

Reliability Basis for LRFD Bridge Codes
by A. Nowak

Thermal Movements in Bridges
by C. Roeder
Development of Load Factor Design Criteria for Highway Bridge Foundations
by K. Rojiani

A Study of Stress Distribution in Concrete Slabs of I-Girder Highway Bridges
Using Finite Element Analysis
by K. Tarhini and G. Frederick

SESSION VII - SEISMIC RESPONSE

Seismic Retrofit of Bridge Columns
by L. Bernards, D. McLean, and E. Henley Jr.

The Preliminary Screening of Bridges for Seismic Retrofit
by I. Buckle

ERBS - Earthquake Resistant Bridge Systems - A Coordinated Research Initiative
by J. Mander

Analysis of the Effects of the Impact Energy Losses Occurring Between the
Bridge Deck and Abutments
by E. Maragakis, B.M. Douglas, and S. Vrontinos

Steel Jacketing of Bridge Columns for Enhanced Flexural Performance
by M.J.N. Priestley, F. Seible, Y. Chai, and Z. Sun

Determining Parameter Sensitivity in Bridge Response Models
by J. Richardson

Response of Struve-Slough Bridge Under the Loma Prieta Earthquake
by M. Saadeghvaiziri

Strengthening of RC Bridge Structures
by F. Seible, M.J.N. Priestley, and K. Krishnan

SESSION VIII - BEARINGS AND FOUNDATIONS

Energy Dissipation Devices for Cable-Stayed Bridges
by A. Abdel-Ghaffar and H. Ali

Combined Teflon Disc Bearing and Displacement Control Device
Isolation System for Bridges
by M. Constantinou, A. Reinhorn, and R. Watson

Composite Bridges on Flexible Supports in Cold Regions
by J.L. Hulsey and D. Powell

Bridge Bearings
by C. Roeder, J. Stanton, and T. Campbell

Anchorage Zone Design for Post-Tensioned Concrete Bridges
by D. Sanders, C. Roberts, and G. Wollmann

Mathematical Modeling of Laminated Bearings
by R. Shepherd and L. Billings
POSTER SESSION

Continuity in Pretensioned I-Beam Bridges
by O. Abdalla, K. Schmid, J. Ramirez, and R. Lee

Response of Cable-Stayed Bridges to Moving Loads
by A. Abdel-Ghaflar and M. Khalifa

Seismic Classification, Modelling, and Testing of Existing Bridge Systems
by S. Chen and J. Mander

Seismic Retrofit of Bridge Pier Walls
by A. Costley, S. Ficcadenti, N. Flynn, R. Kazanjy, S. Mourad, M. Haroun, G. Paroien, and R. Shepherd

Design of CCA-Treated Stressed Timber Decks
by H. Dagher, V. Caccese, R. Hebert, and D. Schwartz

Finite Element Modelling of Corrosion-Induced Cracking in Bridge Decks
by H. Dagher, W. Hamilton, and S. Kulendran

Evaluation of Dynamic Test Data from the Meloland Road Overcrossing
by B.M. Douglas, E. Maragakis, S. Vrontinos, and B.J. Douglas

Behavior of Reinforced Concrete One-Way Bridge Pier Hinges
by Y. Jiang, M. Saidi, and D. Straw

Equivalent Load Approach For Friction Losses in Prestressing Steel
by E. Keyder

Analysis of Approaches to Bridges
by L. Moumena, A. Wolde-Tinsae, and S. Aggour

Bridges Constructed from Railroad Cars
by T. Parsons

An Effective Method for Linking Computer Aided Engineering Procedures with Computer Drafting
by J. Puckett, C. Clancey, and D. Pope

Bridge Systems Made of FRP Components
by S. Sotiropoulos and H. GangaRao

Serviceability Analysis of Spliced Girder Bridges Using PC's
by M. Tadros and A. Abdel-Karim

A New Folded-Plate Bridge/Culvert System
by M. Tadros, A. Aleineaa, and A. Abdel-Karim

ADDENDUM

The following papers are not included in this Proceedings but will be presented at the conference and will be included in the final, hardbound Proceedings edition.
