PROCEEDINGS

European Petroleum Conference

Volume 1

25–27 October 1994
London, U.K.

SOCIETY OF PETROLEUM ENGINEERS (SPE), INC.
SPE 28303 Implementing Residual Bend in a Tubing Forces Model ......................... 11
K. Bhalla, Schlumberger Dowell

SPE 28445 The Effects of Sedimentary Heterogeneities on Production From a Shallow
Marine Reservoir—What Really Matters? ................................................ 27
D. Kjonsvik, J. Doyle, T. Jacobsen, and A. Jones, BP/Statoil Alliance

SPE 28528 Operating Experience With ESP’s and Permanent Downhole Flowmeters in
Wytch Farm Extended Reach Wells .......................................................... 41
A. Brodie, BP Exploration Operating Co. Ltd.; J. Allan, Exal Ltd.; and G. Hill,
BP Exploration Operating Co. Ltd.

SPE 28558 The Use of Colied Tubing During the Wytch Farm Extended Reach Drilling
Project ........................................................................................................ 55
T. Summers, BP Exploration Operating Co. Ltd.; H.A. Larsen and M. Redway, Schlumberger
Dowell; and G. Hill, BP Exploration Operating Co. Ltd.

SPE 28569 Use of Partial Perforations in Oseberg Horizontal Wells ......................... 69
S. Sognesand, P. Skotner, and J. Hauge, Norsk Hydro a.s.

SPE 28585 Combined Stochastic and Deterministic Reservoir Characterization Leads to
Faster History Matching of a Horizontal Well in a Complex Fluvio .................. 83
P.M. Calatayud, F.M. Petit, P. Tessier, R.J. Norris, P. Coffin, and F.G. Alabert,
Elf Aquitaine Production

SPE 28817 From Disposal at Sea to Distribution of Oil-Based Cuttings .................... 101
J.T.C. Bohm and L.V.D. Laan, Nederlandse Aardolie Mij. B.V.

SPE 28818 Water-Based Glycol Drilling Muds: Shale Inhibition Mechanisms ............. 107
M.S. Aston and G.P. Elliott, BP Exploration

SPE 28819 The Formulation of Milling Fluids for Efficient Hole Cleaning: An Experimental Investigation ...................................................... 115
J.T. Ford and M.B. Oyeneyin, Heriot-Watt U.; E. Gao, Anchor Drilling Fluids Ltd.;
R.S. Williamson and L.C. Peel, Mobil North Sea Ltd.

SPE 28820 A Unique Experience With Foam Cement ......................................... 127
B.M. Piot, R. Ferriere, and B.J. Fraboulet, Schlumberger Dowell

SPE 28821 The Use of Blast Furnace Slag in North Sea Cementing Applications ........ 143
A. Saasen, Rogaland Research; B. Salmelid, Rogaland U.; N. Blomberg, Consultant;
K. Hansen, BJ Services; S.P. Young, Anchor Drilling Fluids Ltd.; and H. Justnes,
SINTEF Structures & Concrete

SPE 28822 Temperature Field Measurements and Computer Program Predictions Under
Cementing Operation Conditions ................................................................. 155
A. Merlo and R. Maglione, AGIP SpA, and F. Guillot and D. Bodin, Dowell Schlumberger

SPE 28823 A New Correlation for Sedimentation of Concentrated Suspensions in
Shear-Thinning Fluids .................................................................................. 165
E. Allen, Rogaland Research

SPE 28824 Predicting the Quality and Performance of Oilfield Cements Using Artificial
Neural Networks and FTIR Spectroscopy .................................................... 177
P. Fletcher, Dowell Schlumberger, and P.V. Coveney, T.L. Hughes, and C.M. Methven,
Schlumberger Cambridge Research

SPE 28825 In-Situ Wettability Determination: Field Data Analysis ....................... 189
E. Causin and N. Bona, AGIP SpA

SPE 28826 Relative Permeability Measurements: An Inter-Laboratory Comparison ...... 199
C.A. McPhee and K.G. Arthur, Edinburgh Petroleum Services Ltd.

SPE 28827 Simultaneous Determination of Capillary Pressure and Relative Permeability
of a Displaced Phase .................................................................................... 213
J.A. Kohhedee, Koninklikjhe/Shell E&P Laboratorium
SPE 28828 Well Test Interpretation in a Heterogeneous Braided Fluvial Reservoir .......... 223

SPE 28829 Accurate In-Situ Compositions in Petroleum Reservoirs ......................... 239
Ø. Fenvang and C.H. Whitson, U. Trondheim

SPE 28830 Biologically Controlled Water Diversion Demonstrated by New Visual Experimental Technique .................................................. 255
J.E. Paulsen, E. Oppen, A. Vatland, and J.E. Hanssen, Rogaland Research

SPE 28831 Analysis of Limited Entry Welltests in Layared Reservoirs ...................... 271
M.R. Hayes and J.D.A. Naismith, Enterprise Oil plc, and D.L. Gunasekera and A.J. Fitzpatrick, Intera Information Technologies

SPE 28832 Rate Dependent Skin From Afterflow ................................................. 285
P.L. Lingen, Shell Intl. Petroleum Mij. B.V.

SPE 28833 Drilling to the Limit, Long Reach Oil Strike ...................................... 297
R. Meertens, T. van der Harst, and P. Kloss, Shell U.K. E&P

SPE 28834 Development of a Thin Oil Rim With Horizontal Wells in a Low Relief Chalk Gas Field, Tyra Field, Danish North Sea ......................... 299
O. Nykjaer, Maersk Oil & Gas A.S.

SPE 28835 Gannet C—Geological Risks in a Marginal Field Development ................. 307
R.H-J. Oppermann and C.J. Grant, Shell U.K. E&P

SPE 28836 Montrose: A Case Study of Innovative, Cost Effective Field Rejuvenation ...... 319

SPE 28838 Rob Roy Reservoir Management—Old Field, More Oil, Same Data! ............ 327
S. Currie, R.L. Lane, and J.S. Woods, Amerada Hess Ltd.

SPE 28839 The Markham Field, a Trans-Median Development ................................ 339
D.M. Sharples, J.C. Myres, N.C.J. Kuzemko, and C.L. Morgan, LASMO plc

SPE 28841 IOR Potential With Updip Water Injection in the Statfjord Field ................ 347
E. Hegre, V. Dalen, and H.O. Strandenaes, Statoil A/S

SPE 28842 Predicting Gas Saturation Build-Up During Depressuristion of a North Sea Oil Reservoir ............................................................... 361
W. Scherpenisse, K. Wit, A.E. Zweers, G. Snoei, and A. van Wolfswinkel, Koninklijke/Shell E&P Laboratorium

SPE 28843 Oil Fields Waterflooding With the Help of Water-Gas Micronucleoud Solutions .......................................................... 375
I.M. Ametov and A.O. Bogopolosky, Russian Interbranch Scientific Tech. Complex

SPE 28844 Risk Assessment and Management in IOR Projects ................................. 381

SPE 28845 Productivity of Multifractured Horizontal Wells .................................. 393
T.M. Hegre, Petec A.S., and L. Larsen, Statoil

SPE 28847 SAG Injection in a North Sea Stratified Reservoir: Flow Experiment and Simulation ................................................................. 405

B.J. Bourbiaux, Inst. Français du Pétrole

SPE 28849 Reservoir Geochemistry: A Link Between Reservoir Geology and Engineering? ................................................................. 441
S.R. Larter and A.C. Aplin, U. of Newcastle-upon-Tyne, and P. Corbett and N. Ementon, Heriot-Watt U.

SPE 28850 Estimation of Water Saturation From Clay Microporosity Data ................... 451
A. Hurst, U. of Aberdeen, and P. Nadeau, Statoil A/S

SPE 28851 Wellbore Failure Mechanisms in Shales, Prediction, and Prevention .......... 459
D.F. Gazaniol, T. Forsans, M.J.F. Boisson, and J-M. Piau, Elf Aquitaine Production
