New Trends in Coal Preparation Technologies and Equipment

Proceedings of the 12th International Coal Preparation Congress
Cracow, Poland, May 23–27, 1994

Edited by

Wieslaw S. Blaschke
The Mineral Energy Economy Research Centre
Polish Academy of Sciences
Cracow, Poland

Gordon and Breach Publishers

The Netherlands • Russia • Singapore • Switzerland • Thailand • United Kingdom
Contents

Foreword 1

OPENING CEREMONY 3

Coal Quality Improvement in Preparation Plants against the Background of the Hard Coal Mining Sector’s Restructuring in Poland

A. Karbownik (Poland) 15

SESSION A: Coal Handling, Blending and Sizing

Classification and Crushing Techniques Used in Coal Preparation

T. Banaszewski (Poland) 25

Fundamentals on Evaluation of Efficiency for Stabilization of Feed Quality

J.T. Martyniak (Poland) 31

The Influence of Screen Motion on Performance Characteristics

A. Apling, T. Brereton, and R. Wang (U.K.) 37

The Effect of Coal Composition on the Particle-Size Distribution Required for Slurry Fuel Application

J.E. Pulido-Flórez (Colombia) 45

Relationship Between the Size Distributions of Feed and Product for Coal Crushers

S. Bhattacharya, and D.D. Misra (India) 49

Improvement of Wet Grinding and Simultaneous De-ashing of Coal Assisted by the Addition of Supercritical CO₂

K. Masuda, H. Iwata, and A. Kimura (Japan) 57

Selective Breakage of Coal for Yield Enhancement, Ash Reduction, or Fines Minimisation

R. Chamberlain, N.C. Lockhart, and M. Smyth (Australia) 63

Some Theoretical Aspects of the Classification Process in Lamella Classifiers

J. Marciniak-Kowalska (Poland) 71

Discussion 81
SESSION B: Thickening and Dewatering

International State of the Art and Tendencies in the Fields of Thickening and Dewatering

Improving the Dewatering of Fine Coal and Tailings

An Innovative Approach for Dewatering of Ultra-Fine Clean Coal Slurry

Simultaneous Fine Coal Dewatering and Reconstitution via the U.S. Department of Energy’s in Situ Cake Hardening Process

Research on Electroosmotic Dewatering of Fine Flotation Concentrate

Operating Results of the Andritz Hyperbaric Pressure Filtration Plants in Coal Dressing

New Concepts in Dewatering and Thickener Control

Discussion

SESSION C: Gravity Concentration

The Present State of the Hard Coal Gravity Cleaning Process

The Relationship Between the Density Composition of the Feed and Jigging Imperfection

Theoretical Model of the Curve Concerning Separation of the Jig

Aspects on the Plant-Scale Experiments of “Variwave” Air-Pulsated Jig at Mitsui Miike Coal Preparation Plant

Fuzzy Control of the Wave Pattern of Pulsation in Air-Pulsated Jig

Separation of Fine Particles in Dense Medium Cyclone: the Effect of the Medium Yield Stress

Fine and Ultrafine Coal Particles in Float/Sink Separations

Development of an Airflow Sorter for Coal Cleaning

Discussion
SESSION D: Removal of Ash and Sulphur by Advanced Physical, Chemical and Biological Methods

Removal of Ash and Sulphur by Advanced Physical, Chemical and Biological Methods
A. Siwiec, and S. Sanak-Rydlewksa (Poland) 205

Development of a Combined Flotation/Gravity Separation Circuit for Fine Coal Cleaning
G.H. Luttrell, P. Venkatraman, and R.-H. Yoon (USA) 217

Desulphurisation of Coal in Intensified Magnetic, Electrostatic and Gravitational Fields
D.A. Butcher, and N.A. Rowson (U.K.) 223

Application of Radiation Pretreatment in the Course of Coal Desulphurization
I. Florek, and I. Murová (Slovakia) 229

Model Investigation for Ultra Clean Coal Preparation by an Isodynamic Magnetohydrostatic Sluice
B. Csőke, G. Schultz, L. Bokányi, and J. Takács (Hungary) 235

Advanced Physical Coal Cleaning for Controlling Acid Rain Emissions
T.J. Feeley, W.P. Barnett, and R.E. Hucko (USA) 241

Bioextraction of Sulphur and Metals from Coal and Coal Pyrites
B. Cwalina, T. Wilczok, Z. Dzierżewicz, and T. Farbiszewska (Poland) 249

Desulphurization of Coal with Bacteria *Thiobacillus Ferrooxidans*
P. Fečko, R. Kučerová, H. Raclavská, and M. Bielesz (Czech Republic) 257

Leaching of Coal Pyrite in Acidic Solutions under Reductive Conditions
W. Mulak (Poland) 263

Development of the Molten-Caustic Leaching (MCL) Process
M.A. Nowak, R.A. Meyers, E.I. Wan, and R.E. Hucko (USA) 269

Tests on Demineralization of High Sulfur Steam Coal Fines in TRW Gravimelt Process
J. Hycnar, K. Rondio, and M. Ściążko (Poland) 277

Decomposition Process of Mineral Matters in Japanese High Sulfur Coal during Aqueous and Molten Caustic Leaching
T. Oki, T. Harada, S. Owada, and H. Ohbayashi (Japan) 283

A Novel Precombustion Desulfurization Process
S. Lee, and C. Kulik (USA) 293

Discussion
299

SESSION E: Interaction of Preparation and Utilization

Interaction of Mining and Preparation
H.-Z. Zhou, and Z.-Y. Chen (China) 311

The Initiation of Research in the U.S. Department of Energy’s Coal Preparation Process Research Facility
R.P. Killmeyer, C.P. Maronde, B.R. Utz, and R.E. Hucko (USA) 313

Processing of Low-Rank Coals for Application in Pulverized Coal Power Plants
Y.K. Ahn (USA) 319
The Influence of Coal Quality on Efficiency of Preparation, Pipe Transport and Burning of Highly Concentrated Water-Coal Suspensions at Thermal Power Stations  
VA. Zaidenvarg, K.N. Trubetskoy, VA. Chanturia, I.Kh. Nekhoroshy, and Y.V. Demidov (Russia) 327

Discussion 333

SESSION F: Processing of Coal for Innovative Usage 337

Coal for Innovative Usage  
D.W. Horsfall, and A. Ślączka (South Africa/Poland) 339

Maceral Analysis by Automatic Image Analysis Techniques  
E. Lester, M. Allen, M. Cloke, and N.J. Miles (U.K.) 347

Petrographic Constitution, Physical, Chemical and Technological Properties of the Fractions Isolated from Gas-Coking and Orthocoking Coal by the Method of Separation in Heavy Liquids  
S. Jasieńko, and L. Róg (Poland) 353

Study of the Ion Exchange Properties of Hungarian Coals  
J. Lakatos (Hungary) 361

Counteracting the Spontaneous Heating of Coal and Coal Wastes  
J. Bereš, J. Chowaniec, S. Deja, J. Hyncar, and J. Kałuża (Poland) 369

Discussion 373

SESSION G: Briquetting 375

A New Approach to Brown Coal Binderless Briquetting  
Z. Drzymała, and M. Hryniewicz (Poland) 377

Briquetting of Hard Brown Coal without a Binding Agent  
J. Lukáč (Slovakia) 385

New Developments in Coal Briquetting Technology  
P.V. Tucker, G.B. Bosworth, and G.W. Kalb (Canada/USA) 389

Industrial Introduction of Thermal Methods of Kansk-Achinsk Brown Coal Preparation  
G.S. Golovin, A.P. Fomin, O.G. Potapenko, Yu.V. Ivanov, and I.Kh. Nekhoroshy (Russia) 399

Discussion 403

SESSION H: New Coal Preparation Equipment 407

New Coal Preparation Equipment  
W. Jachna (Poland) 409

The Theoretical Basics and Exemplary Units of Four-Walled Screening Machines  
T. Banaszewski, W. Jachna, H. Skirło, and W. Solik (Poland) 417
CONTENTS

Increase of Preparation Operations' Efficiency by Means of Effective Screens Application

J. Ćwikliński, and J. Sitko (Poland) 425

Coal Grinding Plants with LOESCHE Roller Grinding Mills for the Iron and Steel Industry

K. Kasseck (Germany) 429

Modernization of the Technique and the Technology of Water-Slime Cyclones at Coal Preparation Plants in Russia

J.N. Bochkov, A.R. Molyavko, A.I. Sipotenko, and A.V. Shlau (Russia) 437

New Type Three-Product Dense-Medium Cyclone

Z. Shuyan, L. Hui, and L. Xiuli (China) 441

The Automedium Cyclone Bed

J. Visman (Canada) 447

Some New Developments on Bucket Elevators for Jigs

D. Fuchs, H. Husmann, H. Joppien, and F. Verfuß (Germany) 455

New Generation of Flotation Equipment

L.A. Antipenko, Y.B. Rubinstein, L.P. Ilyuchenko, and L.P. Kravchenko (Russia) 461

Prospects for Dry Beneficiation Technologies

J.C. Donnelly, N.C. Lockhart, G.H. Hart, and R. Merwin (Australia/USA) 469

Discussion

SESSION I: Flocculation and Agglomeration

Oil Agglomeration and Selective Flocculation of Coal Slurries

Z. Blaschke (Poland) 483

Enhancement of the Efficiency of Polymeric Flocculants in Dewatering and Clarification

M. Kaiser, and H. Latsch (Germany) 493

Investigations on Flocculation Activity and Adsorption Behaviour of Ampholytic Polymers with Coal, Quarz, Iron-Ore and Clay Minerals

Ch. Schäfer, H. Hoberg, and F.U. Schneider (Germany) 501

Utilization of the Biomass of Selected Micro-organisms Flocculant in Selective Flocculation

Z. Blaschke, E. Kisielowska, E. Konopka, and Z. Gladysz (Poland) 511

Engineering Development of Selective Agglomeration Technology

L. Ignasiak, K. Szymocha, W. Pawlak, and J. Kramer (Canada) 515

Discussion

SESSION K: Related Aspects of Coal Preparation

Optimum Beneficiation Routes for Waterberg Coal

D.W. Horsfall, and B. Eroglu (South Africa) 527

The Results of Work of the Industrial System for the Gravity Concentration and Flotation of the Coal from Vrška Čuka – Avramica

R.B. Ignjatović, N.M. Magdalinović, M.R. Ignjatović, and Z.S. Marković (Yugoslavia) 537

Brazilian Coal Industry: State of Art and Future Perspectives

C.H. Sampaio, A.C.F. Vilela, and G.L. Miltzarek (Brazil) 541
### CONTENTS

Irui Coal Field, Brazil: Characterization to Coal Preparation  
**C.H. Sampaio, N.I.W. Silva, and G.L. Miltzarek** (Brazil) 547

Problems of Benefication in Coal Preparation Plants in Vietnam  
**D. Le Viet** (Vietnam) 553

Discussion 557

### SESSION L: Surface Chemistry as a Basis for Separation Processes 561

<table>

</tbody>
</table>
Control Test of Coal Dressing by Using the Magnetogravimetric Method of Separation  
M. Lovás, S. Hredzák, Š. Jakabský, and P. Baník (Slovakia) 671

Application of the Characteristics of the Kinetics of the Batch Flotation of Coal with the Purpose of Determining the Optimal Conditions of Its Enrichment in Industrial Flotation Machines  
K. Kalinowski (Poland) 677

Application of Image Analysis in Coal Flotation  
M.J. Hargrave, N.J. Miles, and S.T. Hall (U.K.) 683

Optimization of Continuous Pressure Filtration of Hard Coal Flotation Concentrate by Extended Process Control Technology  
R.G. Jung, W. Erdmann, R. Janitschek, and I. Nicolaou (Germany) 687

Process and Quality Control in Coal Preparation Plants Using On-Line Measuring Devices  
C. Bachmann (Germany) 693

Rapid Quality Analyzers for Coals and Coal Preparation Products  
B. Czerw, and T. Sikora (Poland) 699

Application of Microwave Attenuation to the Determination of the Moisture Content of Coal  
T. Inoue, and S. Matsuo (Japan) 703

Discussion 709

SESSION N: Flotation 717

Recent Scientific and Technological Advances in Coal Flotation  
J. Sablik, and S.K. Nicol (Poland/Australia) 719

Kinetic Model for Flotation Systems with Particle Interaction  
L. Bokányi (Hungary) 731

A Verification Method of Coal Flotation Kinetic Models  
K. Kalinowski, and R. Kaula (Poland) 737

Measurement of Coal Flotation Efficiency Using the Tree Flotation Technique  
S.K. Nicol, J.B. Smitham, and J.T. Hinkley (Australia) 741

Effect of Weathering on the Wetting Behavior and Flotation Response of Coal  
D.W. Fuerstenau, J. Diao, J.S. Hanson, F. Sotillo, and P. Somasundaran (USA) 747

The Synergistic Effect of Frother and Promoter in the Flotation of Low Rank Coal  
A. Saleh, and J. Iskra (Egypt/Poland) 755

Possibilities for Expressing Coal Flotability Rates  
J. Vidlář, B. Šnyta, and M. Chromečka (Czech Republic) 761

Recovery and Selectivity Improvements in Fine Coal Cleaning  
W.-Z. Choi, H.-S. Jeon, and J.-I. Yang (Korea) 765

Fine Coal Flotation in the Microcel™ Column  
J.E. Gebhardt, M.J. Mankosa, K.Y. Lee, and A. Broussaud (USA/France) 773
CONTENTS

The "FLOKOB" Column Flotation Machine

R. Brzezina, and J. Sablik (Poland) 779

Use of Horizontal Baffles to Reduce Axial Mixing in Coal Flotation Columns

S.K. Kawatra, and T.C. Eisele (USA) 787

Possibilities to Control Aeration Conditions in Froth Flotation

R. Lach, and J. Kaczmarczyk (Poland) 795

Bubble Size Distribution in Air-Sparged Hydrocyclone

J. Hupka, R.P. Bokotko, D. Leliński, and J.D. Miller (Poland/USA) 801

Discussion 805

SESSION O: Design and Construction of Coal Preparation Plants 813

Coal Preparation Plant Design

Z. Broma (Poland) 815

Designing and Construction of Coal Washing Plants

V.I. Cheskidov, G.P. Sazykin, B.A. Sineoky, and A.E. Molchanov (Russia) 819

State and Tendencies in the Planning and Construction of Preparation Plants for Steam Coal in Poland Demonstrated by the Jaworzno and Janina Collieries

Z. Broma, P. Wilczyński, and M. Schütze (Poland/Germany) 821

The Principles of Designing Polish Plants for Cleaning and Desulphurizing of Steam Coal Fines

W.Z. Drogoni (Poland) 829

The Design of the Landau Coal Processing Plant

I.W. Boyd, and T. England (South Africa) 835

Dense Medium Cyclones on Fine Coal. The Australian Experience

R.J. Kempnich, S. van Barneveld, and A. Lusan (Australia) 843

Micro-Hydrocyclones' Utilization in Coal Processing Technology

J.R. Papée, and F. Weber (Brazil/Poland) 851

Discussion 859

SESSION P: Coal Preparation Economics, Ecology and Waste Treatment 865

Coal Preparation Economics

W. Blaschke, E. Mokrzycki, and Z. Shan (Poland/China) 867

Waste Treatment versus Ecology

E. Mokrzycki, W. Blaschke, and Z. Shan (Poland/China) 879

Discards and Fines in the Republic of South Africa

C.J. Grobbelaar, and D.W. Horsfall (South Africa) 889

A Techno-Economic Evaluation of the Beneficiation of Washing Plant Discards Currently Arising from the Witbank Coalfield

F.B.J.M. Burks, and G.M. Cresswell (South Africa) 897

Modern Ecological Techniques in the Coal Preparation

H. Hoelter, and A. Weber (Germany) 907

Coal-Derived Ecological Fuels

H. Zieliński, M. Ściążko, and A. Tramer (Poland) 913
