<GENERIC TECHNOLOGICAL ISSUES>

T12: Communication and Broadcasting Techniques/ Systems

T12.1-1: Communication for Traveler Information (1)
GSM Based Traveller Information Services Offered with Portable and In-Car Terminals 1489
Hakala J., Vehviläinen K., Lehto M., Turunen S.
Implementation of ITS Applications using Cellular Radio 1494
Rigby M.
Bandwidth and Power Management Issues in SWIFT 1499
Tantawi A.N., Doganata Y.N.
DARC: High Speed FM Multiplex Broadcasting System 1504
Isobe T., Kuroda T., Takada M., Yamada O.
Millimeter-Wave Road and Traffic Information Systems 1510
Fukuhara H.

T12.1-2: Communication for Traveler Information (2)
Traffic Telematics in Europe - With a Blanket Coverage but without Special Roadside Infrastructure 1516
Mertens R.
Design of a Motorway Information System and Network that Enables ATT Applications 1522
Christillin M., Davoli F., Giordano A., Maryni P., Vernazza T.
A Radio Beacon Receiver for Vehicle Information and Communication System 1527
Takahashi J., Hatashita H., Nagashima T., Abe K., Horii S.
Road Traffic Information Communication System at the Metropolitan Expressway 1532
Honda K., Yoneyama M.
Designing a National Datacommunication Infrastructure for Traffic Applications 1538
Troost E., Kroon J.G.M.

T12.2: Communication for AVI / AEI
Infrared Vehicle Detector (IRVD) System Design 1545
Ando M., Takeuchi K.
A Road Pricing System Based on Infrared Short Range Communication 1551
Wurzenberger R.
Microwave ID Tag for Electronic Toll and Traffic Management Systems 1555
Tanahashi I., Nishimura Y., Taniguchi S., Matsumoto N.
Circularly Polarized Microstrip Antenna Having Sector Beam for the Automatic Vehicle Identification System 1561
Watanabe T., Kumamoto T., Miyano N.
Automatic Passenger Gate System Using Wireless IC Card 1567
Matsukawa K., Konno K.
Japanese Electronic Toll Collection System Research and Development Project 1575
Iida A., Tanaka H., Iwata T.

T12.3: Special Communication
Multimedia Data Transfer System Using In-Car LAN 1580
Kaneita A., Kawasaki W., Takano T.
The Modelling of Realistic Automatic Vehicle Locationing Systems for Service and Traffic Control 1584
Nelson J.D., Smith M.W., Bell M.G.H.
Highway System and Vehicle Communication with Laser Optics 1590
Chang S.S.L.
Autonomous Decentralized Synchronization System for Inter-Vehicle Communication Network 1596
Akazawa H., Nakagawa M.
Experimental Research on Protocol of Inter-Vehicle Communication for Vehicle Control and Driver Support
Fujii H., Seki K., Nakagata N.
Vehicle to Vehicle Communications: Experimental Results and Implementation Perspectives
Valade J-M.

T13: Database and Information Network

T13.1-1: Map Database (1)
New Applications for Navigable Map Databases
Scott S., Hart A.
Map Database Quality Measurement
Jakubs B., Angwin G.
Digital Road Map Application in Road Administration
Ikemura M., Kanazawa F.
Progress of Traffic Regulations Digital Database in Japan
Saka A., Naitoh S., Okamoto H.
Developments in the Realization of a Pan-European Digital Street Map for ITS Applications in Europe
Bastiassen A.
GDF Works! - The Validation of the Digital Map Standard
Claussen H., Hiestermann V.

T13.1-2: Map Database (2)
Management and Operation of Road Facilities Database
Takahashi H.
Applications of Geographic Databases in ITS Operational Tests
Refeld J., Sweeney L.E.
Intelligent Support Tools for the Exploitation of a Network Referenced Database System for Urban Highways
Fletcher E.J., Busby I., Wheatley D.
Resolving the Integration of Traffic Message Location Code and Navigable Road Network Databases
Sena M.L.

T13.2: Information Service Network
The Establishment of the Information Infrastructure in Japan
Yamamoto K.
Development and Use of a Mobile Geographic Information System
Kotsubo H., Akita Y., Sato H.
A Road Trip Down the Infobahn: Transportation Resources on the Information Highway
McGurrin M.F., Patel V.
Construction of Integrated Road Information System in Kagoshima
Yamakawa T.
Planning Highways Supported by Advanced Information System for Regional Urban Centers
Kojima S.

T14: Human Factor

T14.1: Man-Machine Interface
Canceled

T14.2-1: Driving Behavior (1)
Lighted Guidance Devices (3): Environmental Modulation of Drivers’ Perception of Vehicle Speed Through Work Zones
Vercruysse M., Hancock P.A., Williams G., Olofinboba O., Nookala M., Foderberg D.
Microscopic Analyses of Driver Behavior at Signalized Intersection
Shigeta K., Tsugawa S.
A Driver Decision Model at Unsignalized Intersections: Application of Fuzzy Sets
Kagolanu K.
A Model of Human Behavior during Traffic Signal Clearance Intervals

Okura I., Hasegawa M.

Safety Implications of In-Vehicle Devices: Risk Assessment of In-Car Radiotelephone Use

Petica S.

Human Factors Design of In-Vehicle Traveler Information Systems

Campbell J.L., Kantowitz B.H., Hanowski R.J.

T14.2-2: Driving Behavior (2)

Assistance of Drivers to Mitigate Highway Capacity Problem

Ozaki H.

Evaluation of Human Factors and Safety Performance in the Longitudinal Control of Headway

Fancher P.S., Bareket Z., Johnson G., Sayer J.

A Parameter Identification of a Car-following Model

Xing J.

Rulebased Cognitive Animation Simulator for Current Lane and Lane Change Drivers

Kumamoto H., Nishi K., Tenmoku K., Shimoura H.

T14.2-3: Driving Behavior (3)

Evaluation of Driving Skill from Estimated Curvature of Driving Loci

Abe K., Munekata F., Goto H., Kobayashi K., Watanabe K.

Estimation of Model Parameters for Reconstructing Traffic Accidents

Hosseinlou M.H., Nakatsuji T., Hagiwara T., Fujiwara T., Onodera Y.

Learning Transfer Function of a Driver Using Genetic Algorithm in Collision Avoidance

Nagai M., Katagiri T., Onda M.

An Extended Evaluation of Driving a Prototype Intelligent Vehicle

Janssen W.

An Application of Traffic Simulation to Co-Driver System Development

Maemura T., Miichi Y., Mimuro T., Kimura K.

T14.3-1: Driver's Response to Dynamic Information (1)

Analysis of Information Needs for Community-Level Travelers

Monji T., Kubota H., Sakamoto K., Sugiura T.

Psychological Analysis of Drivers' Congestion Consciousness on a Freeway for Providing Useful Traffic Information

Matsui H., Fujita M., Mukai H.

A Driver Interface for a Road Hazard Warning System: Development and Preliminary Evaluation

Green P.

Traffic Simulator for Evaluation of Traffic Accident Information Systems

Mori H., Tsuji H., Ohno H., Kamiya K., Goto K.

A Study of Collision Warning System Using a Moving-Base Driving Simulator

Suetomi T., Kido K., Yamamoto Y., Hata S.

T14.3-2: Driver's Response to Dynamic Information (2)

Driver's Response to Parking Information System: Empirical Study in Matsuyama City

Asakura Y., Kashiwadani M., Nishii K., Furuya H.

User Evaluation and Response to Parking Guidance and Information System in Central City Shopping Area in Japan

Furuya H., Nishii K., Asakura Y.

A Dynamic Analysis on Driver's Response to the Parking Guidance and Information System

Muromachi Y., Harata N., Ohta K.

The Effects of a Weather and Road Condition Warnings on Driver Behaviour

Kulmala R., Rämä P.

Provision of Road Information Acting on Human Subconscious

Takinami S.
Fujiwara A., Sugie Y.
An Analysis of Drivers’ Behavior Considering the Influence of Traffic Information 1848

Morichi S., Meguro K., Ogawa K.
Drivers Route Selection Based on Fuzzy-Neural Approaches 1854

Takahashi K., Pang G., Takenaga H., Yokota T.
Commuter Pre-Trip Decisions Route Choices and En-Route Path Selection Under Real-Time Information: Experimental Results 1860

Mahmassani H.S., Liu Y.-H.
Simulation System for Predicting Influences of Driver Reaction to Real-Time Information on Network Performance 1865

Hato E., Taniguchi M., Katsuki S., Morita I., Sugie Y.

T14.3-4: Driver's Response to Dynamic Information (4)
Analysis of the Effects of Traffic Information on Driver's Behavior 1871
Yoshizaki A.
Motorist Perception of Information Services 1878

Matsuo T., Ebara T.
Socio-Economic Benefits of the Paris Region Policy, Balanced between Traffic Management and Information 1883
Durand-Raucher Y., Santucci J.-C.
The Effects of Alternative Travel Time Information Presentation Strategy on Driver Behavior 1888
Zhao S., Muromachi Y., Harata N., Ohta K.
Can We Protect Our Neighborhood from "Intelligent Rat-Runners"? 1894
Kubota H., Koyama S., Iwazaki N., Monji T.

T15: Traffic Modeling

T15.1-1: Traffic Simulation (1)
ARCHISIM: Multi-Actor Parallel Architecture for Traffic Simulation 1900
Espié S.
A Microscopic Traffic Flow Simulator 1905
Goto Y., Corrado F., Komaya K., Fukuda T., Furusawa H.
Appearance of Moving Local Clusters of Vehicles on Highway with Bottlenecks 1911
Kerner B.S., Konhäuser P., Rödiger M.
On the Use of Neural Network Techniques for Traffic Flow Modelling 1915
Ledoux C., Boillot F., Sellam S., Gallinari P.
Development of Microscopic Simulation Model for Traffic Network (MICSTRAN-II) and Traffic Flow Simulator for Evaluation of Traffic Signal Control (TRAS-TSC) 1920
Saito T., Yasui K., Fujii S., Itakura S.
Micro Simulation for Traffic Assignment Model Applicable to On-Trip Driver Information System: Tiss-NETWIN 1926
Sakamoto K., Kubota H., Takahashi N., Sugiiura T., Iwazaki N.

T15.1-2: Traffic Simulation (2)
Traffic Simulations on Parallel Computers Using Domain Decomposition Techniques 1934
Hanebute U.R., Tentner A.M.
Microscopic View Traffic Flow Simulation on Expressways using Spiral Function 1940
Nakayama H., Ichikawa K., Fujimoto S., Miura N.
Analysis of Traffic Flow on a Network Assuming Dynamic Route Guidance System 1950
Sugiura T., Kawashima K., Kojima M.
A Decentralized Scheme for Real-Time Route Guidance in Vehicular Traffic Networks 1956
Hawas Y.E., Mahmassani H.S.
Traffic Simulation System Advanced Traffic Control System: of Tokyo Metropolitan Police Department 1964
Yokoi A., Kasawugi K., Saito T., Tamura K.

T15.1-3: Traffic Simulation (3)
A Route Based Variant of the AIMSUN2 Microsimulation Model 1971
Barceló J., Ferrer J.L., Grau R., Florian M., Chabini I., Le Saux E.
The Model Validation of Traffic Simulation System for Urban Road Networks: ‘AVENUE’

Horiguchi R., Kuwahara M., Nishikawa I. 1977

Stochastic Simulation for Integration of Traffic Assignment and Traffic Signal Operations

Elefteriadou L., Goulias K. 1983

Evaluation of the Effect of DRGS Using Traffic Flow Simulation System

Shimoura H., Nishimura S., Nagao M., Tenmoku K. 1989

An Evaluation of Effects of Dynamic Route Guidance on an Urban Expressway Network

Yoshii T., Akahane H., Kuwahara M. 1995

T15.2: Dynamic Traffic Assignment / O-D Estimation

Predicting Urban Arterial Origin-Destination Trip Tables

Hamed M.M. 2001

Dynamic Estimation of Origin-Destination Flows from Link Traffic Counts

Matsui H., Matsumoto Y. 2007

Modeling Dynamic Traffic Assignment Model to Satisfy FIFO (First-In-First-Out) with Two Vehicle Class

Transport Networks

Kawakami S., Tachie H., Liu Z. 2015

High Performance Computation of Shortest Routes for Intelligent Transportation Systems Applications

Chabini I., Florian M., LeSaux E. 2021

T15.3: Routing / Scheduling

Transportation Scheduling System Based on Evolution Algorithm and Super Parallel Computer

Hamaguchi Y., Inoue H., Jingui T., Yoshida H., Shiozawa M. 2027

“Head Start” Route Selecting Algorithm for Reducing Driver’s Waiting Time

Nakamura T., Nakayama O., Iwasaki M., Grom B.R. 2031

Finding a Realistic Detour by AI Search Techniques

Shibuya T., Ikeda T., Imai H., Nishimura S., Shimoura H., Tenmoku K. 2037

An Optimal Route Guidance Algorithm of a Traffic Network

Shimizu H., Kobayashi M., Yonezawa Y. 2045

Vehicle Routing Problem in Physical Distribution using Genetic Search

Uchimura K., Sakaguchi H. 2051

T15.4: Evaluation of Dynamic Information / Control

Shortcomings of User Optimal Control Schemes and their Solutions

Cremer M., Schrieber S. 2056

Congestion Analysis and Evaluation by Traffic Simulation

Hotta M., Yokota T., Nagai T., Inoue T. 2062

Evaluation of Network Conditions With Advanced Information Systems in a Day-to-Day Framework

Mahmassani H.S., Hu T-Y. 2068

Traffic Control for Freeways with Real-Time Model Comparison

Kühne R.D., Csallner A. 2074

T16: Method of Evaluation

T16.1-1: Impact Analysis

Stated Preferences in Value of Time Study for Perishable Goods in Bangladesh

Alam M.J.B., Muromachi Y., Harata N., Ohta K. 2082

Evaluation of Public Transport Telematics: The Method Used in the PHOEBUS; the Case of the Passenger

Information in Brussels

Aron M., Cabie A., Gold A., Sellam S. 2088

Cross-Site Collaborative Evaluation of Key Transport Telematics Applications

Zhang X., Kompfner P., Sexton B. 2094

T16.1-2: Impact Analysis

Dynamic Modelling of Vehicle Emissions Generated on the Urban and Suburban Freeways of Paris Region

Brabant J-M., Laterrasse J. 2100
Chevreuil M., Nouvier J.
A Method to Calculate Vehicle Fuel Consumption Allowing for Traffic Stream Fluctuation

Oguchi T., Taniguchi M., Morita H.
A Synopsis of the ITS AMERICA/NHTSA ITS Safety Evaluations Workshop

Tijerina L., Freedman M., Farber E.

T16.2: Field Operational Test
FAST-TRAC at the World Cup
Barbaresco J.C., Relyea D.P.
Results of UTMS Experiment
Oda T., Takeuchi K., Ohmura M., Niikura S.
TRANSGUIDE - Technology in Motion
McGowan P.F., Irwin P.L.
SWIFT: Technical and Institutional Issues of an Operational Test from a Public Sector Perspective
Dailey D.J., Haselkorn M.P.
