Trace Element Metabolism in Man and Animals - 3

Proceedings of the 3rd International Symposium
Freising, Fed. Rep. of Germany
July 77

General Editor
M. Kirchgessner

Institut für Ernährungsphysiologie
Technische Universität München
Freising-Weihenstephan
# Contents

## Introductory Lecture

**Trace Element Research - An Expanding Field of Efforts in Human and Animal Nutrition**  
M. KIRCHGESSNER ................................................................. 1

## Biochemical Functions of Trace Elements

**Modes of Metal Metabolism in Mammals**  
E. FRIEDEN ................................................................. 8

**Physiologically Active Amounts of Trace Elements**  
A.I. VENCHIKOV ............................................................. 15

**Action of Some Trace Elements on Pepsin Activity**  
M. KIRCHGESSNER, H. STEINHART and M.G. BEYER .................... 18

**Regulatory Aspects of Copper in Metabolism**  
E.D. HARRIS and J.K. RAYTON ........................................... 19

**A Role for Copper in Microsomal Mixed Function Oxidases**  
N.T. DAVIES and K.W.J. WAHLE ........................................ 23

**Microbial and Hepatic Copper-Sulphur Proteins**  
H.J. HARTMANN, G.J. STROBEL and U. WESER ......................... 28

**Ceruloplasmin, a Multifunctional Metalloprotein**  
E. FRIEDEN ................................................................. 36

**Assignment of the Correct Oxidation State of Biochemically Active Copper**  
U. WESER and H. RUPP .................................................... 40

**Renal Accumulation of (Copper, Zinc)-Thioneins in Physiological and Pathological States**  
I. BREMNER, W.G. HOEKSTRA, N.T. DAVIES and R.B. WILLIAMS .... 44

**Effect of Zinc Status of Rats on the Synthesis and Degradation of Copper-induced Thioneins**  
W.G. HOEKSTRA, I. BREMNER and N.T. DAVIES ...................... 52

**Synthesis and Degradation of Hepatic Zinc-Thionein and Its Role in Zinc Metabolism**  
R.J. COUSINS .............................................................. 57

**Effect of Age and Diet on Delta-Aminolevulinic Acid Dehydratase - A Zinc Dependent Enzyme**  
M. ABDULLA, S. SVENSSON, A. MATHUR and K. WALLENIUS .......... 64

**Zinc and Copper Metabolism in Rats Administered Alpha-Mercapto-beta-arylacrylic Acids**  
E. GIROUX, N.J. PRAKASH, P.J. SCHECHTER and J. WAGNER .......... 68

**Structural Studies on the Selenoenzyme Glutathione Peroxidase**  
R. LADENSTEIN, O. EPP, Almuth RÖMISCH and A. WENDEL .......... 72

**The Labile Nature of Selenium in Oxidized Glutathione Peroxidase**  
H.E. GANTHER, J.R. PROHASKA, S.-H. OH and W.G. HOEKSTRA .... 77

**Distribution of Selenium and Glutathione Peroxidases in Ovine Tissue Cytosols**  
P.D. WHANGER, M.J. TRIPP, R.S. BLACK and P.H. WESWIG .......... 85

**The Influence of Dietary Vitamin E and Selenium on the Metabolism of Selenium by Rat Liver**  
O.E. COKER and A.T. DIPLOCK ........................................ 89
Effects of Fluoride on Cultured Cell Metabolism
J. W. SUTTIE and M. G. REPASKE ............................................. 93

Absorption and Excretion of Trace Elements

Copper- and Zinc-Binding Ligands in the Intestinal Mucosa
G. W. EVANS and P. E. JOHNSON .............................................. 98

Homeostatic Adaptation of Zn Absorption and Endogenous Zn Excretion over
a Wide Range of Dietary Zn Supply
E. WEIGAND and M. KIRCHGESSNER ........................................ 106

Studies on the Regulation of the Intestinal Absorption of Zinc
F. J. SCHWARZ and M. KIRCHGESSNER .................................... 110

Homeostasis of Zn Metabolism in Experimentally Induced Zn Deficiency of
Dairy Cows
M. KIRCHGESSNER, W. A. SCHWARZ and H. -P. ROTH ...................... 116

The Effect of Injected Zinc on the Paneth Cell Population of the Rat Small
Intestine
Margaret E. ELMES ......................................................... 122

Effects of Protein, Amino Acids, Phytate and Cadmium on Zinc Absorption in
Rats
J. HATHCOCK and C. ABRAHAM ........................................... 126

Zinc Absorption from Bread Meals
Brittmarie SANDSTRÖM, B. ARVIDSSON, E. BJÖRN-RASMUSSEN and
A. CEDERBLAD .............................................................. 129

Age and Sex Effects on Trace Element Absorption from the Alimentary Tract
W. H. STRAIN, W. J. PORIES, E. MICHAEL, R. M. PEER and S. A.
ZARESKY ................................................................. 132

Endogenous Copper Loss in Cows: Its Origin Mainly in the Stomach System
W. T. BINNERTS ........................................................... 136

Role of Bile and Diet on $^{54}$Mn Metabolism in Animals
J. W. LASSITER, E. ABRAMS, W. J. MILLER, M. W. NEATHERY and
R. P. GENTRY ............................................................ 140

Intestinal Absorption of $^{75}$Se from Sodium Selenite and L-Selenomethionine in
Growing Poultry
H. STANCHEV ............................................................... 144

Cobalt Excretion Test of Iron Bioavailability in Man and Mouse
P. SALTMAN, J. HEGENAUER, L. RIPLEY and J. MORRISON ................. 145

Cadmium and Zinc Bioavailability to Rats from Lettuce Leaves and Sulfate
Salts
R. M. WELCH and W. A. HOUSE ....................................... 148

Distribution, Storage and Interactions of Trace Elements

Mechanisms of the Molybdenum/Sulphur Antagonism of Copper Utilisation by
Ruminants
C. F. MILLS, I. BREMNER, T. T. EL-GALLAD, A. C. DALGARNO and
B. W. YOUNG ........................................................... 150

A Study of the Effects of Dietary Sulphate on Molybdenum Metabolism in Sheep
Using $^{99}$Mo
N. D. GRACE and N. F. SUTTLE ......................................... 159

Effects of Low and High Copper Intake on Copper Metabolism in Pigs
Monika SKALICKY, A. KMENT, I. HAIDER and J. LEIBETSDERER .............. 163
On the Basic Mechanisms of Bone Tissue Participation in the Regulation of Blood Trace Element Levels  
N. M. LJUBASHEVSKY .................................................. 167

Mathematical Model of Zinc Metabolism in Rat. Imitation of Zinc Deficient and Zinc Excessive Diets  
B. V. POPOV and V. S. BESEL ........................................ 168

Zinc Kinetics and Metabolism in Rats Fed Diets with or without Phytic Acid  
W. A. HOUSE, R. M. WELCH and D. R. Van CAMPEN .................. 171

Zinc Metabolism in Calves, Cows, Rats and Chicks Fed High Dietary Zinc  
W. J. MILLER, R. L. KINCAID, M. W. NEATHERY, R. P. GENTRY, M. S. ANSARI and J. W. LASSITER .................. 175

Evaluation of Therapeutical Chelating Agents Using Computer Simulation  
P. M. MAY and D. R. WILLIAMS ........................................ 179

Autoradiographic Zn Localization in Laboratory Animals  
C. GARCÍA-AMO, M. PEÑAS-AMO, S. JUNQUERA and A. SANTOS-RUIZ .... 182

Adverse Effects of Copper, and to a Lesser Extent Iron, when Administered to Selenium-deficient Rats  
K. O. GODWIN, E. J. PARTICK and C. N. FUSS .......................... 185

Trace Element Concentrations in Eight Organs of Five Inbred Strains of Mice  
M. P. SIEGERS, K. KASPÉREK, H. J. HEINIGER, G. V. IYENGAR and L. E. FEINENDEGEN .................. 188

Trace Element Deficiency and Physiological Consequences  
Zinc Dependent Control of Food Intake, Taste and Smell Function  
R. I. HENKIN ........................................................... 190

The Combined Effects of Two Kinds of Metals Administered to Mice upon their Bitter Tasting and their Spontaneous Activity  
K. HOSHISHIMA, H. TSUJII and S. AOTA .............................. 199

Zinc: Brain and Behavioral Development  
H. SANDSTEAD, G. FOSMIRE, E. HALAS, D. STROBEL and J. DUERRE .... 203

Effect of Magnesium Depletion and Repletion on the Behavior of Growing Rats  
D. OBERLEAS, D. F. CALDWELL, M. K. FROST, C. HOFER and J. J. CLANCY ............................................................ 207

Erythrocyte Zn Uptake In Vitro as an Aid to Diagnosing Zinc Deficiency  
J. K. CHESTERS and Marie WILL ........................................ 211

Aspects of the Histology of Zinc Deficiency in Domestic Birds  
P. A. L. WIGHT and W. A. DEWAR ...................................... 215

Effect of Zinc Deficiency on Digestibility and Utilization of Nutrients  
J. PALLAUF .............................................................. 218

Zinc - An Essential Element for Hair Growth  
J. M. HSU and W. L. ANTHONY ........................................... 222

Accelerated Hepatic Heme Synthesis and Degradation in Selenium Deficiency  
R. F. BURK and Maria A. CORREIA ...................................... 226

Molybdenum Deficiency in Ruminants  
M. ANKE, M. GRÜN, M. PARTSCHEFELD and B. GROPPEL ................ 230

Progress in Research with Newer Trace Elements  
Ni Deficiency and its Effects on Metabolism  
A. SCHNEGG and M. KIRCHGESSNER ...................................... 236

Effects of Selenium, Arsenic and Zinc on the Genesis of Spontaneous
Mammary Tumors in Inbred Female C, H Mice
G.N. SCHRAUZER, D. A. WHITE and C. J. SCHNEIDER ................. 387
Antioxidants and Cancer VIII. Cadmium-Selenium Levels in Kidneys
R.J. SHAMBERGER ........................................... 391
Genetic Disorders In Trace Element Metabolism
Results of a $^{64}$ Cu-Loading Test Applied to Patients with an Inherited Defect
in their Cu Metabolism (Menkes' Disease)
C.J.A. Van den HAMER and H.W. PRINS ............................ 394
Cu Content of the Liver or Young Mice in Relation to a Defect in the Cu
Metabolism
H.W. PRINS and C.J.A. Van den HAMER ................................ 397
The Cellular Defect in Menkes' Syndrome and in Mottled Mice
D. M. DANKS, J. CAMAKARIS and B. J. STEVENS ..................... 401
Trichopoliodystrophy (TPD): New Aspects of Pathology and Treatment
R.I. HENKIN and W.D. GROVER .................................. 405
The Urinary Excretion of Copper During D-Penicillamine Therapy
P.J.M. W. L. BIRKER, H. C. FREEMAN and J. A. M. RAMSHAW ........ 409
Zinc, Copper and Fatty Acids in Acrodermatitis Enteropathica
K.M. HAMBIDGE, P.A. WALRAVENS, K.H. NELDNER and N.A.
DAUGHERTY ...................................................... 413
Studies in Acrodermatitis Enteropathica
P.J. AGGETT, D. J. ATHERTON, H. T. DELVES, J.M. THORN, A.
BANGHAM, B. E. CLAYTON and J. T. HARRIES ....................... 418
The Influence of Oxychinolines on Intestinal Zinc Absorption and on Zinc
Transport in Serum in Cattle
T. FLAGSTAD .................................................... 423
Trace Elements in Gravidity and Lactation
Zinc Metabolism in Swine with Special Emphasis on Reproduction
Inger WEGGER and Birthe PALLUDAN ................................. 428
Effect of Zinc Repletion for Limited Times on Parturition in Rats
Jean APGAR ...................................................... 436
Studies on the Superretention of Trace Elements (Cu, Zn, Mn, Ni, Fe) during
Gravidity
M. KIRCHGESSNER, R. SPOERL and Ursula A. SCHNEIDER ............ 440
$^{75}$ Se-Selenite Tracer Study in Rats During Pregnancy and Lactation and a
Comparison with Selenium Metabolism
D. BEHNE, P. BRÄTTER, D. GAWLIK, U. RÖSICK and W. WOLTERS .... 444
The Effect of Milk Enriched with Zinc, Iron and Copper on 65-Zn Retention in Newborn Rats
B. MOMČILOVIĆ

Zinc Binding Ligands in Milk and their Relationship to Neonatal Nutrition
Lucille S. HURLEY, J. R. DUNCAN, C. D. ECKERT and M. V. SLOAN

Relationship Between the Trace Mineral Content of Lactating Women's Milk, Serum and Dietary Intake
L. A. VAUGHAN, C. W. WEBER and S. R. KEMBERLING

Trace Elements in Animal Nutrition

A New Method for Estimation of Zn and Cu Status by Chelating Agents
K. H. MENKE, H. -J. LANTZSCH and H. SCHENKEL

Zn Availability in Grains and Legumes
H. -J. LANTZSCH, H. SCHENKEL and Ingrid NICKERL

Relationship between Different Criteria of Nutritional Quality and Availability of Trace Elements of Forages in Sheep
M. LAMAND

The Trace Elements in Game as an Indicator for Some Disturbances and Diseases with Farm Animals in Bulgaria
P. GABRIASCHANSKY and L. NEDKOVA

Maternal and Lamb Breed Interactions in the Concentration of Copper in Tissues and Plasma of Sheep
G. WIENER, I. WILMUT and A. C. FIELD

Determining the Copper Requirements of Cattle by Means of an Intravenous Repletion Technique
N. F. SUTTLE

Comparisons of the Efficacy of Copper Injections of Different Compounds in Cattle with "Low Copper Status"
J. J. KOOPMAN and A. WIJBENGA

The Effects of Cu-EDTA Injection on Weight Gain and Copper Status of Calves and Fattening Cattle
P. A. M. ROGERS and D. B. R. POOLE

The Copper Status of Ruminant Animals in Northern Ireland in Relation to the Usage of Copper Compounds in Agriculture
J. R. TODD

The Response of Young Growing Calves to Supplementation with Copper, Cobalt and Vitamin B12
A. MACPHERSON, R. C. VOSS and J. DIXON

Effect of Soil Ingestion on Copper and Manganese Utilization by Swine
J. K. MILLER, C. E. TYSINGER and S. L. HANSARD

Effect of Soil Ingestion on Cobalt Deficiency in Sheep
A. MACPHERSON, R. C. VOSS and J. DIXON

Intake of Lead, Copper and Zinc by Cattle from Soil and Pasture
I. THORNTON and D. G. KINNIBURGH

Some Factors Affecting the Incidence of Swayback in Lambs
S. GHERGARIU

Studies on Iron, Manganese, Zinc, Copper and Selenium Retention and Interaction in Horses
A. G. SPAIS, A. PAPASTERIADIS, N. ROUBIÈS, A. AGIANNIDIS, N. YANTZIS and S. ARGYROUDIS
