Measurement of Toxic and Related Air Pollutants

VIP-50

The Proceedings of an International Symposium Sponsored by the Air & Waste Management Association and the U.S. Environmental Protection Agency
TABLE OF CONTENTS

CONFERENCE CHAIRS xi

LIST OF EXHIBITORS xii

Session 1: North Carolina 0, SIP Measurement and Modeling Studies
Co-chairs: Viney Aneja, North Carolina State University, Raleigh, NC;
and Bruce Gay, U.S. EPA, Research Triangle Park, NC

Multi-Elevation Ozone Study Near Raleigh, North Carolina 3
George C. Murray, Jr., Thomas L. Manuszak, Wayne L. Cornelius, Robert S. Graves,
M. Jeffrey Gobel, Hoke Kimball, George Stinagle, and Wade Daniel

Vertical Distribution of Oxides of Nitrogen in the Semi-Urban Planetary
Boundary Layer: Mixing Ratios, Sources and Transport
Thomas Clark Moore, Lee Jay Sullivan, and Viney Pal Aneja 10

Non-Methane Hydrocarbons Over Urban North Carolina 16
Viney P. Aneja, Jay Lawrimore, Mita Das, R. Oommen, and G. Murray

Measurement, Characterization, and Parameterization of Nitric Oxide Fluxes from
Agriculturally Managed Soil in Clayton, NC
Lee Jay Sullivan, Thomas Clark Moore, and Viney P. Aneja 22

Session 2: VOC Measurements
Chair: William McClenny, U.S. EPA, NERL, Research Triangle Park, NC

Field Study Results for VOCs with the Perkin-Elmer Sequential Tube Sampler 31
Maribel Colón, William A. McClenny, Keith G. Kronmiller, Christopher R. Fortune,
and E. Hunter Daughtrey, Jr.

Changes in VOC Emission Rate Model Performance with Changes in
Downwind Sampling Distance 40
Ray E. Carter, Jr., Dennis D. Lane, Glen A. Marotz, Michael F. Davis,
Charles T. Chaffin, Tim L. Marshall, Robert M. Hammaker, and William G. Fateley

An Improved Test Atmosphere Generation System (TAGS) 46
Hang Li, Rein Otson, and Philip Fellin

Improving Compound Identification and Quantification in VOC Monitoring Networks 52
Jean-Claude Wippler

#### TABLE OF CONTENTS (Continued)

**Poster Session**

- A Portable Wind Tunnel System for Determination of VOCs from Areal Sources  
  *Kaiyun Jiang and Ralph Kaye*  
  Page 129

- Retention Time Precision in Gas Chromatographic Methods Employing Cryogenic Preconcentration for Analysis of Whole Air Samples  
  *Robert L. Seila*  
  Page 135

- Comparison of Hydrocarbon Concentrations for 1981 and 1990 in Atlanta  
  *Robert L. Seila*  
  Page 141

- Analysis of Jet Fuel Air Releases by a Solid Adsorbent and Noncryogenic Concentration System  
  *Alan Zaffiro*  
  Page 147

- Photochemical Assessment Monitoring: Overview and Current Status  
  *Nash O. Gerald and Geri Dorosz-Stargardt*  
  Page 156

**Session 7: Indoor Air Pollutants Measurements**  
Chair: Ross Highsmith, U.S. EPA, NERL, Research Triangle Park, NC

- Personal Exposure to Environmental Tobacco Smoke in Workplace and Away from Work Settings: A 16 City Case Study  
  Page 165

- Evaluation of Electrochemical Monitors for Measuring Carbon Monoxide Concentrations in Indoor, In- Transit, and Outdoor Microenvironments  
  *Wayne R. Ott, Hendrik J. Vreman, Paul Switzer, and David K. Stevenson*  
  Page 172

- Residential Exposure to Polychlorinated Biphenyls (PCBs) in the Greater New Bedford, Massachusetts Area  
  *Donna J. Vorhees, Alison C. Cullen, and Larisa M. Altshul*  
  Page 178

- Measurement of Deep Dust and Lead in Old Carpets  
  *John W. Roberts, Gregory L. Glass, and Thomas M. Spittler*  
  Page 186

**Session 8: Source Sampling Methodology**  
Cohairs: Merrill Jackson, U.S. EPA, NERL, Research Triangle Park, NC; and Raymond Merrill, Radian Corp., Research Triangle Park, NC

- Analysis of Modified Method Five Train Samples for Multiple Pollutant Classes  
  *Larry D. Johnson*  
  Page 195
**TABLE OF CONTENTS (Continued)**

Effect of High-Levels of SO$_2$ Emissions on the Analysis of Polycyclic Aromatic Hydrocarbons (PAHs) from Coal-Fired Utilities  
*Hani S. Karam*  
201

A Test Method for the Measurement of Acrylics in Stationary Source Emissions  
*B.A. Pate, M.R. Peterson, R.K.M. Jayanty, and J.E. Knoll*  
209

Validation of an Extractive Fourier Transform Infrared (FTIR) Method for the Analysis of Aldehydes in Natural Gas Fired Stationary Engine Exhaust  
*Larry D. Ogle, Jeffrey P. LaCosse, Gunesli S. Shareef, Walter C. Gray, Larry A. Rohlack, James M. McCarthy and James M. Evans*  
215

Investigation of an Alternative to EPA Reference Method 25 for Measuring Total Volatile Organic Compound Emissions from Stationary Sources  
*Gary B. Howe, R.K.M. Jayanty, and Gary D. McAlister*  
221

An Evaluation of the SemiVOST Method for Halogenated Compounds at a Chemical Manufacturing Facility  
*Merrill D. Jackson, Joan T. Bursey, James F. McGaughy, and Raymond G. Merrill*  
227

Application of VOST and SemiVOST to Nonhalogenated CAAA Compounds  
*Merrill D. Jackson, Joan T. Bursey, James F. McGaughy, and Raymond G. Merrill*  
233

**Session 9: Quality Assurance/Quality Control**  
Chair: Shrikant Kulkarni, Research Triangle Institute, Research Triangle Park, NC

Quality Assurance for FTIR Measurements  
*Thomas C. Gruber, Jr., Larry B. Grim, and John Ditillo*  
241

Maximum Achievable Control Technology Standard Setting Using the Data Quality Objectives Process  
*Michael J. Messner and Ed McCarley*  
253

Quality Assurance for Environmental Information Systems  
*James Flanagan*  
260

Future Directions of the Agency-Wide QA Program  
*Nancy W. Wentworth*  
267

Using a Quality Systems and Implementation Plan (QSIP) to Integrate All Planning Efforts for a Multi-Agency, Multi-Media Human Exposure Assessment Study  
*Monica Nees, Ramana V. Kuchibhatla, Howard L. Crist, David O. Hinton, and Andrew E. Bond*  
272
TABLE OF CONTENTS (Continued)

Session 10: Carbonyls
Chair: Carmo Fernandez, AZ Department of Environmental Quality, Phoenix, AZ

Monitoring Carbonyls in Ambient Air Using the New Supelclean™ Low Pressure Drop (LPD) DNPH Cartridge
Lydia Nolan, Irene DeGraff, and B. Bartley

Philadelphia Air Management Lab, Summary of Procedures and Analytical Data for Enhanced Ambient Monitoring of PAMS Carbonyls
Edward Chasz and Dennis Sosna

Measurement of C₁ - C₄ Carbonyls on DNPH-Coated Silica Gel and C₁₈ Cartridges in the Presence of Ozone
T.E. Kleindienst, F.T. Blanchard, E.W. Corse, and W.A. Lonneman

A Study of Ozone Interferences in Carbonyl Monitoring Using DNPH Coated C₁₈ and Silica Cartridges
Sucha S. Parmar and Luda Ugarova

Carbonyl Products Analysis in the OH Radical Oxidation of Toluene, p-Xylene, and 1,3,5-Trimethylbenzene under Simulated Atmospheric Conditions
Jianzhen Yu and Harvey E. Jeffries

Session 11: Global Climate Change
Chair: V. Saxena, Dept. of Marine, Earth & Atmospheric Studies, NC State University, Raleigh, NC

A Comparative Study of Cloud-Modified Aerosols: Anthropogenic versus Natural Sources
C.K. Deininger and V.K. Saxena

The Attenuation of Ultraviolet-B Radiation by Clouds
Joel S. Schafer, V.K. Saxena, and William Barnard

The Investigation of the Impact of Variations in Aerosol Characteristics and Cloud Cover on the Transmission of UV-B Radiation through the Troposphere
Brian N. Wenny, V.K. Saxena, Joel S. Schafer, and William Barnard

Climate Impact of the 1991 Eruption of Mt. Pinatubo Inferred from SAGE II Based Aerosol Extinction Measurements over the Antarctic Stratosphere
John Anderson and V.K. Saxena
TABLE OF CONTENTS (Continued)

Session 12: Commercial Instrumentation Development
Chair: Thomas Logan, U.S. EPA, NERL, Research Triangle Park, NC

PAMS Carbonyl/VOC Sampling Technology Advancements
Dwight L. Patterson

Design of Experiments for a TO-14 Mixture Preparation and Stability Study
D. Bartel, T. Zaicow, M. Guido, and T. Novick

On-Line Monitoring of Toxic Gases for Process Control
O.J. Prohaska, J.A. Kosek, L.L. Swette, and A.B. LaConti

Session 13: Ambient Monitoring
Cohairs: Jimmy Hodgeson, U.S. EPA, NERL, Research Triangle Park, NC;
Delbert Eatough, Department of Chemistry, Brigham Young University, Provo, UT;
and Joachim Pleil, U.S. EPA, NERL, Research Triangle Park, NC

A Comparison of NO\textsubscript{y} and Conventional "NO\textsubscript{x}" Measurements at a Rural Site in Pennsylvania
Thomas J. Kelly, Gerald F. Ward, and Jan Satola

Generic and Species-Specific EPA Test Methods for Extractive FTIR (Fourier Transform Infrared) Measurement of Hazardous Air Pollutants at Stationary Sources
Thomas A. Dunder, Thomas J. Geyer, Craig D. Stone, and Grant M. Plummer

Application of Multisorbent Traps to Characterization and Quantification of Workplace Exposure Source Terms

Improved Sorbent Based Methodology for the Analysis of CAAA Hazardous Air Pollutants
William F. Boehler, Joette Campo Pavelka, Kenneth M. Hill, and Paul R. Ames

Ambient Monitoring of Carbon Disulfide with Carbon Tubes and Gas Chromatography
Timothy S. Owen

Measurement of Biogenic Hydrocarbon Emissions in Tree Seedlings
Yadong Qi, Dasheng Chu, and Catalino A. Blanche

Identification of Unsaturated Airborne Carbonyls
Lisa Borbridge, Jianzhen Yu, Harvey Jeffries

Vehicle Emissions and Air Quality in Underground Parking Garages
Lisa A. Graham, Peter J. Barton, and Deborah Rosenblatt

TABLE OF CONTENTS (Continued)

Session 16: Exposure Assessment: Pesticides

A Multiresidue GC/MS Method for the Determination of Pesticides in Environmental Media
Paul W. Geno, Tapan K. Majumdar, David E. Camann, and Andrew E. Bond

Farmer Hand Pesticide Residues and Farm Equipment Surface Pesticide Loadings
H. Jac Harding, Jacquelyn M. Clothier, David E. Camann, Ramana V. Kuchibhatla, and Andrew E. Bond

Dermal and In-Home Exposure of the Farm Family to Agricultural Pesticides
David E. Camann, H. Jac Harding, Jacquelyn M. Clothier, Ramana V. Kuchibhatla, and Andrew E. Bond

Use of the Internet to Disseminate an Overview of the Agricultural Health Study (AHS) Pilot Project and Summary Data Describing Analytical Results
N. Karasek, M. Nees, and A. Bond

A Database Management System Providing Access to the Analytical Data Acquired from the Agricultural Health Study (AHS) Pilot Project
N. Karasek, M. Nees, R. Kuchibhatla, and A. Bond

Determination of Pesticides from Salivary Matrices
Tapan K. Majumdar, David E. Camann, William D. Ellenson, and Robert G. Lewis

Session 17: General
Chair: William Gutknecht, Research Triangle Institute, Research Triangle Park, NC

Analysis of Volatile Trace Sulfur Compounds in Water with GC-SCD by Direct Aqueous Injection
Hongmao Tang and Phil Heaton

Improvements to the Industrial Source Complex Model: Application to Surface Coal Mining Operations
Jayant A. Hardikar, Roger W. Brode, Jawad S. Touma, and John S. Irwin

Thoughts on Predictive Emissions Monitoring from a Regulatory Perspective
Gus Eghneim
