List of contents

Oral Presentations

Foreword
Prof. Dr.-Ing. Alfons Vogelpohl, Germany

Introduction & Fundamentals

Moderation
Prof. Dr.-Ing. Alfons Vogelpohl, Germany

The Chemistry of OH Radical Based AOPs: Intercalibration of OH Sources and Water Quality Parameters
Prof. Dr. Jürg Hoigne, Switzerland

Chemical Models

Moderation
Prof. Dr. Erginii N. Savinov, Russia

How to Evaluate Photochemical Methods for Water Treatment
Prof. Dr. André M. Braun, Germany

Some Molecular Aspects of the Photocatalytic Degradation of Aromatic and Saturated Cyclic Pollutants in Water
Prof. Dr. Pierre Pichat, French

The Fate of Peroxyl Radicals in Aqueous Solution
Prof. Dr. Clemens von Sonntag, Germany

Selective Ozonation of Polycyclic Aromatic Hydrocarbons in Oil / Water-Emulsions
Anja Kornmüller, Germany
Reaction Mechanisms and Kinetics of Chemical Pretreatment of Bioresistant Organic Molecules by Wet Air Oxidation

*Rolf Hellenbrand, Great Britain*

**Innovation**

*Moderation*
Dr. *Tai Kyu Lee*, Korea

Photocatalytic Water Treatment: Chances and Limitations
Dr. *Detlef Bahnemann*, Germany

Electrohydraulic Discharge Treatment of Water and Wastewater
Prof. Dr. *Michael R. Hoffmann*, United States of America

Incidence of Wave-Frequency on the Reaction Rates during Ultrasonic Wastewater Treatment
Dr. *Christian Pétrier*, French

*Poster Session and Exhibition: Introduction*
Prof. Dr. *Udo Wiesmann*, Germany

**Application**

*Moderation*
Dr. *Antonio Lopez*, Italy

The Industrial Applications of Oxidation Technologies for Water Treatment: Present Experiences and Behavior
Prof. Dr. *Jean-Pierre Duguet*, French

VerTech-Aqueous Phase Oxidation of Sewage Sludge - Processes and Experiences
Dr.-Ing. *Manfred Daun*, Germany
Large Scale Development of a Light-Enhanced Fenton Reaction by Optimal Experimental Design
Dr. Esther Oliveros, Germany

Destruction of Photographic Developer Solutions by a UV / H₂O₂ Oxidation Process
Dr. Phillipe Strauel, French

Wet Air Oxidation: Carbon Dioxide Equilibrium, Kinetics of Nitrogen Removal and Reactor Design. An Overview
Prof. Dr. Hubert Debellefontaine, French

Reactor Engineering

Moderation
Prof. Dr. David F. Ollis, United States of America

Oxidation Reactors for Water and Wastewater Treatment
Prof. Dr. Po Lock Yue, Hong Kong

Photochemical Decomposition of 2,4-Dichlorophenoxyacetic Acid (2,4-D) in Aqueous Solution. II. Reactor Modeling Verification.
Prof. Dr. Alberto Cassano, Argentine

A New Photochemical Reactor Design for the Treatment of Absorbing Solutions
Dr. Nathalie Karpel Vel Leitner, French
Combined Processes

Moderation
Prof. Dr.-Ing. K.-H. Rosenwinkel, Germany

Wastewater Treatment by Combination of Chemical Oxidation and Biological Processes
Prof. Dr.-Ing. R. Kayser, Germany

How and Why Combine Chemical and Biological Processes for Wastewater Treatment
Prof. Dr. Santiago Esplugas, Spain

Chemical Oxidation for the Treatment of Leachate - Process Comparison and Results from Fullscale Plants
Martin Steensen, Germany

Partial Oxidation Effects during the Combined Oxidative and Biological Treatment of Separated Streams of Tannery Wastewater
Jan C. Jochimsen, Germany

Removal of Substituted Pyridines by Combined Ozonation / Fluidized Bed Biofilm Treatment
PD Dr. Elmar Heinzle, Switzerland

Commercialized Processes

Moderation
Prof. Dr.-Ing. Alfons Vogelpohl, Germany

Water Treatment with a Fixed Bed Catalytic Ozonation Process
Fried Logemann, EPS BV, Netherlands

AOX and COD Removal from Landfill Leachates with Ozone and Radical Reactions
Dr. Rüdiger Kaulbach, Ozonia AG, Switzerland
Wastewater Treatment with the Combination of Biology and Ozonization
Dr. Ortwin Leitzke, WEDECO, Germany

CHEMOX™: Advanced Wastewater Treatment with the Impinging Zone Reactor
Arne Baumgartl, Air-Products Plc, Great Britain

Process Integrated Water Technology using Ozone for Car Repair Spraying
Dr. H.-J. Schmidt, Berkefeld Filter-Anlagenbau GmbH, Germany

Poster Presentation

**Fundamental Oxidation Processes**

The Impact of Pre-Treatment with Ozone on Biodegradation of Natural Organic Matter - Case Study
Dr. Sergei Preis, Estonia

Photochemical Decomposition of 2,4-Dichlorophenoxyacetic Acid (2,4-D) in Aqueous Solution. 1. Kinetic Study
Prof. Dr. Alberto E. Cassano, Argentine

The Effect of the Water Depth on the Inactivation and Photoreactivation of Coliform Bacteria in the Tray Type Reactor
Prof. Dr. Hashan Zuhuri Sarikaya, Turkey

Kinetical and Mechanistical Aspects of the Oxidation of Chlorophenols by Ozone
Marc Boncz, Netherlands

Dynamics of Oxidant Addition as an Important Parameter in the Modellization of Dye Mineralization (Orange II) via Advanced Oxidation Technologies
Dr. John Kiwi, Switzerland
Oxidative Degradation of AOX and COD 
by Different Advanced Oxidation Processes: 
A Comparative Study with Two Charges of a Pharmaceutical Wastewater 
Dr. Ilse Wurdack, Germany

Advanced Oxidation Processes without heterogeneous Catalysis

Spatial Resolution of Oxygen Measurements during VUV Photolysis 
of Aqueous Systems 
Gernot Heit, Germany

Kinetics of $\text{O}^-$ and $\text{O}_3^-$ in Alkaline Aqueous Solution 
Dr. Mónica C. Gonzalez, Argentine

The Mineralisation of Organic Pollutants in Water with VUV - Irradiation. 
- A Comparison between Excimer- and Mercury Lamp 
Prof. Dr. Dieter Kreysig, Germany

Removal of an Azo Dye, Reactive Black 5, by UV / $\text{H}_2\text{O}_2$ Treatment 
Derya T. Gönenc, Turkey

Laser-Assisted Photochemical Wastewater Treatment 
Dr. Angela Unkroth, Germany

Simultaneous Photochemical Generation of Ozone in the Gas Phase 
and Photolysis of Liquid Water using One Light Source: 
Technical Considerations and Applications 
Tarek M. Hashem, Germany

Oxidation of Aromatic Compounds 
with UV Radiation / Ozone / Hydrogen Peroxide 
Prof. Dr. Santiago Esplugas, Spain

Landfill Leachate Treatment by a Photoassisted Fenton Reaction 
Soo-Myung Kim, Germany
Advanced Oxidation Processes with heterogeneous Catalysis

Low-Concentrating CPC Collectors for Photocatalytic Water Detoxification. 
Comparison with a Medium Concentrating Solar Collector.
Sixto Malato, Spain

Removal of Natural Organic Matter in Water by Heterogeneous 
Photocatalytic Oxidation Process
Prof. Dr. Miray Bekbolet, Turkey

Parameters for Photocatalytic Reactor Design.
Absorption and Scattering Coefficients of Titanium Dioxide Suspensions
Prof. Dr. Alberto E. Cassano, Argentine

Photocatalytic Degradation of Organic Compounds: 
Accelerating the Process Efficiency
Martin Lindner, Germany

Solar Water Treatment
Dr. Roland Goslich, Germany

Photocatalytic Treatment of TNT-Polluted Water
Dr. Ralf Dillert, Germany

Optical Fiber Bundled Array Reactors for Heterogeneous Photocatalysis
Prof. Dr. Michael R. Hoffmann, United States of America

Homogeneous and Heterogeneous Advanced Oxidation of a Bleaching Effluent from the Pulp and Paper Industry
Dr. Héctor D. Mansilla, Chile

A Flat Plate Reactor for Photocatalytic Reactions.
Evaluation of Radiation Absorption using Titanium Dioxide Suspensions
Prof. Dr. Alberto E. Cassano, Argentine

Photocatalytic Degradation of Chlorinated Hydrocarbons.
A General Model Accounting for Radiation Energy Absorption Effects
Prof. Dr. Alberto E. Cassano, Argentine
Reactor Modeling in the Photocatalytic Oxidation of Wastewater
Dr. Jaime Giménez-Farreras, Spain

Detoxification and Recycling of Wastewater by Solar-Catalytic Treatment
Dr. Ahmed Ghrabi, Tunisia

Accelerated Photocatalytic Mineralization of Organic Pollutants in Suspensions of TiO₂
Prof. Dr. Isil Balcioglu, Turkey

Wet Oxidation of Phenol by Hydrogen Peroxide using Heterogeneous Catalysis. A Promising Catalyst: <Fe-ZSM-5>
K. Fajerwerg, French

The Elimination of Phenols and COD in Industrial Wastewater using Photochemical Methods
Jian Chen, Netherlands

Destruction of Pollutants in Industrial Rinse Waters by Advanced Oxidation Processes
Dr. Malik Djafer, French

Photocatalytical Oxidation of Aromatic Aminocompounds in Aquatic Solutions and Groundwater from Abandoned Military Base
Dr. Sergei Pteis, Estonia

Photocatalytic Treatment of Real Wastewater with Pt-doped ZnO and Pd-doped ZnO
Dr. Tai Kyu Lee, Korea

Heterogeneous Photocatalytic Degradation of Ethylene Glycol and Propylene Glycol
Dr. Tai Kyu Lee, Korea

The Enhancement of Redox Reactions with Mixed Oxide Catalysts by the Sol Gel Process
Dr. Tai Kyu Lee, Korea
Chemical Oxidation and Bio-Degradation

Ozonation of Azo Dyes
Spyridoula Liakou, Greece

Photocatalytical Oxidation of Phenolic Compounds in Wastewater from Oil Shale Treatment
Dr. Sergei Preis, Estonia

Pretreatment of Wastewater from Tankcleaning Industry by Chemical Oxidation
Gerhard Harmsen, Netherlands

Pilot Plant Test Results of Chemical Oxidation with Ozone and Adsorption with Activated Carbon for the Second Step of Leachate Treatment
Dr.-Ing. Henning Albers, Germany

The Combination of PUV®-Oxidation and Biological Technologies for Cleaning of High Contaminated Wastewater
Dr. Klaus Ritter, Germany

Electrochemical vs. Photochemical Pretreatment of Industrial Wastewaters
Dr. Cesar Pulgarin, Switzerland

Other Oxidation Processes

Degradation of Herbicides (Ametryn and Isoproturon) during Water Disinfection by Means of Two Oxidants (Hypochlorite and Chlorine Dioxide)
Dr. Antonio Lopez, Italy

A New Advanced Oxidation Process:
Photoassisted Oxidation of Triethanolamine by Periodate
Prof. Dr. Michael R. Hoffmann, United States of America

Polycrystalline TiO₂ Electrodes Production of •OH and Oxidation of Aqueous Organic Pollutants
Prof. Dr. Michael R. Hoffmann, United States of America
An Experimental Study on the Catalytic Effects of Fe(3) in Continuous Flow Iron Removal Systems
Prof. Dr. Hashan Zuhuri Sarikaya, Turkey

The Sonochemical Degradation of P-Nitrophenol in a Parallel-Plate Near Field Acoustical Processor
Prof. Dr. Michael R. Hoffmann, United States of America

Aquasonolytical Decomposition of Halogenated Hydrocarbons: Mechanistic Studies
Dr. Jörg Hofmann, Germany

Operation of the First Commercial Supercritical Water Oxidation Industrial Waste Facility
Anders Gidner, Sweden

Catalytic Wet Air Oxidation of Dyeing and Printing Wastewater
Prof. Dr. Po Lock Yue, Hong Kong

The Use of Oxidation and Other Processes for the Treatment of Liquid Organic Waste at BNFL, Sellafield
Dr. Graham V. Hutson, Great Britain

Exhibition
List of Exhibitors
List of CUTEC-Schriftenreihe
