Sixth International Conference on Low-Volume Roads

Volume 2

Minneapolis, Minnesota
June 25–29, 1995

Sponsored by
Forest Service, U.S. Department of Agriculture
Federal Highway Administration, U.S. Department of Transportation
Bureau of Indian Affairs, U.S. Department of the Interior
Agricultural Marketing Service, U.S. Department of Agriculture
Kuwait Fund for Arab Economic Development
TECHNOLOGY TRANSFER

Transportation Technology Transfer in the Caribbean Community ............................................. 309
Michael E. Bienvenu and John R. Stone

Technology Transfer Among Centers in the United States, FinnT$^2$ in Finland, and the Baltic Countries .......................................................... 320
Jarmo Ikonen

Research Implementation: Putting Research into Practice .......................................................... 324
Michael M. Marti

Approach Toward Provision of Low-Volume Rural Roads in Emerging Countries: South African Experience ................................................................. 330
P.W. Jordaan and M.F. Mitchell

Application of Technology Transfer Principles to Minnesota T$^2$ Program ................................ 340
Cheri F. Trenda and Robert C. Johns

VOLUME 2

MATERIALS

Prevention of Salt Damage to Thin Bituminous Surfacings: Design Guidelines ...................... 3
B. Obika, R.J. Freer-Hewish, M. Woodbridge, and D. Newill

Improving Bitumen-Stabilized Mixtures ....................................................................................... 13
Anne Valkonen and Pertti Nieminen

Granulated Blast Furnace Slag in Base Course of Low-Volume Roads ..................................... 17
Kari Pylkkänen

Granular Base Failures in Low-Volume Roads in Ontario, Canada .......................................... 23
C.A. Rogers, S.I. Szoke, and R.G. Gorman

Recycling of Road Surfaces with the Roto Trimmer Mobile Rock Processor .......................... 33
Donna McConnaha Sheehy

WASTE MATERIALS

Tire Chips in the Base Course of a Local Road .......................................................................... 47
Ronald I. Frascoia and Robert F. Cauley

Use of Woodwaste for Road Construction in Southeast Alaska ............................................ 53
Cole F. Mullis and John K. Bowman

Waste Products in Highway Construction .................................................................................. 62
Chunhua Han and Ann M. Johnson

</table>
CONTENTS

Evaluation of Cold In-Place Recycling in Kansas .......................................................... 195
Stephen A. Cross and Bala M. Ramaya

Prolonging Haul Over Frozen Roads ................................................................. 207
Joe Barcomb

STABILIZATION

Performance Evaluation of Tall Oil Pitch Emulsion for Stabilizing Unpaved Forest Road Surfaces .......................................................... 213
D.M. Bennett and K. Gleeson

Calcium Chloride in Road Construction .......................................................... 225
Pirjo Kuula-Väisänne, Hanna-Liisa Järvinen, and Pertti Nieminen

Field Studies on the Mechanical Behavior of Geosynthetic-Reinforced Unpaved Roads .......................................................... 234
Jacques Méry

Launched Soil Nails: New Method for Rapid Low-Impact Slope Repairs .......................................................... 240
John E. Steward and J. Mauricio Ribera

Stabilizer Mechanisms in Nonstandard Stabilizers ............................................. 252
Douglas E. Scholen

Bentonite Treatment for Fugitive Dust Control .................................................. 261
K.L. Bergeson and S.G. Brocka

SURFACING

Bituminous Pavement Design and Construction for Low-Volume Roads in Cold Climates .......................................................... 275
Alan Forsberg

Reevaluation of Seal Coating Practices in Minnesota .......................................... 284
David W. Janisch

Effects of Vehicle Type and Tire Pressure on Dry-Weather Road Maintenance .......................................................... 291
Paul H. Greenfield and S. Colin Ashmore

Open-Graded Emulsion Mixtures: 25 Years of Experience .................................. 302
R.G. Hicks, Emory S. Richardson, I.J. Huddleston, and Newton C. Jackson

BRIDGES

Modular Timber T-Beam Bridges for Low-Volume Roads ........................................ 319
Barry Dickson

Portable Glulam Timber Bridge Design for Low-Volume Forest Roads ..................... 328
S.E. Taylor, K.P. Keliher, J.D. Thompson, M.A. Ritter, and G.L. Murphy
Low-Level Stream Crossings in Developing Areas .................................................. 339
Eddie Otte and Andries J. Pienaar

Watershed Management with Respect to Low-Volume Road Drainage Detention Structures .... 343
Thomas L. Behm

Field Performance of Stress-Laminated Timber Bridges on Low-Volume Roads .................. 347
Michael A. Ritter, James P. Wacker, and Sheila Rimal Duwadi

Design and Evaluation of Two Bridge Railings for Low-Volume Roads .......................... 357
Ronald K. Faller, Barry T. Rosson, Dean L. Sicking, Michael A. Ritter, and Steve Bunnell
