# TABLE OF CONTENTS

## KEYNOTE

## COAL CLEANING I

Coal Preparation in the Optimisation of Middelburg Mine Services. Peter Hand and Kevin Gallagher, Ingwe Coal Corporation. ......................... 47

Hindered-Bed Classifiers for Fine Coal Cleaning. Ricky Q. Honaker, Southern Illinois University. ........................................... 59

High Capacity Heavy Media Processing. David G. Chedgy and Shaning Yu, CLI Corporation and Frank Addison and Fred Stanley, Pittston Coal Management Company. .......................................................... 71

## OPERATIONS AND CONTROL

Mining, Processing and Reclamation of Waste Banks. David M. Carris, John T. Boyd Company. ........................................... 87

Maximizing Productivity & Profitability Through Best Cost Shift Schedules. Richard Coleman, Coleman Consulting Group, Inc. .............. 105

ISO-9002 Registration for a Metallurgical Coal Processing Plant. G.J. Hatfield, Eastern Associated Coal Corporation. .................................. 113

The Development and Principles for Quality Assurance. Jon Evans, NOREC. ................................................................. 121

## THERMAL DRYING AND RECONSTITUTION OF FINE COAL I

Briquetting of Fine Coal with a Binder. Brian C. Young, University of North Dakota. .................................................. 129

Optimizing The Performance and Control of Thermal Dryer at B.O.C. Plant. Lumi F. Bakota, Bullmoose Operating Corporation. .................... 137

Binderless Briquetting-An Economic Approach to Restructuring and Enhancing The Market Value of Bituminous Coal Fines. Keith Clark, CSIRO, and Joseph Davidson, TraDet Inc. ............................... 149

The Briquetting of Coal in Europe. Wolfgang Pietsch, Maschinenfabrik Koppern Gmbh & Co.KG. ............................................ 167

## THERMAL DRYING AND RECONSTITUTION OF FINE COAL II

Pulverized Coal Injection Systems at Blast Furnaces and Their Desired Coal Feedstock. Ronald R. Landreth, Inland Steel Company. ..................... 185

Gas Recirculation Flash Drying of Filtercake as a Safe and Economic Alternative to Fluidized Bed Drying. G. William Kalb, TraDet, Inc. and Dom Sisti, Consultant. .................................................... 215

Binderless Lignite Briquetting. Lothar Mall, MIBRAG mbH. ......................... 279

Binderless Briquetting of Coals and Biomass in Roll Press. Richard K. Komarek, K.R. Komarek, Inc. ........................................ 301

## COAL CLEANING II

Controlling Abrasion in Coal Prep Plants. William Schumacher, Armaco Research & Technology. ........................................ 227

The Development of New MiccelTM Column Flotation Circuit for BHP Australia Coal's Peak Downs Coal Preparation Plant. Ian R. Brake, BHP Australia Coal and Greg Eldridge, Bulk Materials Coal Handling Pty. Ltd. .................................................................. 237

On Site Testing of the Compound Spiral. Liam MacNamara and N.J. Miles, University of Nottingham, T. Anthony Toney, Cyprus Amex, Robert G. Moorhead, Krebs Engineers, P. Davies, South West Metallurgical Services Ltd., P. Bethell, Cyprus Amex Coal Corporation, and B. Everitt, RJB Mining (UK) Ltd. .............................................. 253
