CONTENTS

1. Keynote Address
   Paolo Forlin, Sr. Vice President, Consumer Business - Europe
   Scott Paper Co., Italy

Session 1: Market trends and developments

2. Consumer tissue in Western Europe
   Mark Payne, Consultant, United Kingdom

3. Tissue market growth in Eastern and Southern Europe
   Esko Uutela, Vice President, Jaakko Pöyry Deutschland GmbH, Germany

4. Outlook for the Away-From-Home tissue market
   William L. New, Chairman, President & CEO, Encore Paper Co., USA

5. Outlook for the consumer tissue industry in the USA
   Jeanne K. Carroll, Security Analyst, Morgan Stanley & Co., USA

6. Chlorine in paper: Look at the product not the process
   Alf R. de Ruvo, President, SCA Research AB, Sweden

Session 2: Environmental/recycling trends

7. EC Environmental legislation and the impact on tissue
   Martin Kybert, Environmental Affairs Manager, Scott Ltd., UK

8. Environmentally friendly production of chemical pulp
   for the tissue industry
   Hans-Peter Böttcher, Manager, Process & Quality Security, PWA Waldhof GmbH, Germany
9. Chlorine-free bleaching of chemical pulp by the use of enzymes
Vidar Grönberg, Group Leader, Pulp Application Group in Biochemicals
Sandoz Chemicals (UK) Ltd., United Kingdom

10. Modern recycled fiber lines for tissue production
Dipl. Ing. Jörg Fischer, Member of the Management Board
J.M. Voith AG, Austria

11. Neutral pH pulping of wastepaper for tissue
Philip Bunce, Technical Sales Manager
B.D.L. Specialist Products Ltd., UK

Session 3: Raw materials and auxiliary products

12. Considerations in the usage of high yield pulps in the manufacture of tissue/towel
William L. Bohn, Vice President - Technology
Andritz Sprout-Bauer, USA

13. Cylinder coating chemicals
Dr. Paul Knight, Sr. Technical Consultant
Grace Dearborn Ltd., UK

14. Practical experience with forming fabrics on TISCO and Crescent formers
Dipl. Ing. (FH) Peter Villforth, Managing Director
Peter Villforth GmbH & Co. KG, Germany

15. Evolution of new pick-up felts in Europe
Kurt Mrkor, Area Manager, SNA - International, Austria

16. The influence of roll cover upon tissue quality
Dr. Ing. Michel Beltzung, Manager, Rubber Division and
Dipl. Ing. (FH) Walter Reichel, Sales Manager, Central Europe
Scapa-Kern GmbH, Austria
Session 4: Paper machine operations

17. Causes of vibrations on tissue machines
   Dipl. Ing. (FH) Eberhard Schief, Service & Sales,
   Württ. Filztuchfabrik D. Geschmay, Germany

18. Ceramic creping blades
   Yves Garnier, Business Development Manager
   BTG Eclépens SA, Switzerland

19. Yankee Hood development
   Ian Lang, Sales Manager - Tissue
   ABB Industrial Drying, Canada

20. Infrared drying for improved quality and increased
capacity in tissue production
   Jan Robertsson, Director, Marketing & Sales and
   Leif Johansson, Director, R&D
   Infrarödteknik AB, Sweden

21. Tissue machines - Past, present and future
   Merle G. Linkletter, Sales Manager - Tissue Grades
   Beloit Corp., USA

22. The first superwide tissue machine in Europe
    at PWA Ortmann: Design and operation
   Ralph Darbyshire, Sr. Product Manager, Beloit Walmsley Ltd., UK &
   Dipl. Ing. Gerhard Teufel, President, PWA Ortmann, Austria

23. The dry end - New developments and process
control possibilities
   Ingvar Klerelid, R&D Manager, Tissue machines &
   Tord Svanqvist, R&D Engineer
   Valmet-Karlstad AB, Sweden

24. New results with the TISCO former
   Reinhard Bluhm, Sr. Development Engineer,
   Sulzer-Escher Wyss GmbH, Germany
Session 5: Converting - Basic operations

25. Superwide tissue combining systems  
   Rainer K. Pempelfort, Sales & Project Manager  
   Jagenberg AG, Germany

26. Production of soft tissue with a M-O-L calender  
   Ferdinand Dargent, Division Manager, Paper Machinery Division  
   Eduard Küsters GmbH & Co., Germany

27. Embossing - New practical results about ply bonding  
   Artur Koslowski, Sales Manager  
   Jean Hiedemann GmbH & Co. KG, Germany

28. Flexibility in converting to meet changing market trends  
   Erik Espelund, General Director, Perini International, Italy

Session 6: Converting - Wrapping and logistics

29. Overwrapping of folded tissue and paper products  
   Dieter Marx, Sales Manager & Assistant to Director  
   Chr. Senning Verpackungsmaschinen GmbH & Co., Germany

30. Wrapping with paper: A possible way to reduce waste  
    Paolo Cassoli, President  
    Cassoli Macchine Automatiche Confezionatrici Srl, Italy

31. Technological advances in high speed overwrapping machinery for toilet tissue and towel rolls  
    Charles Conover, Vice President / General Manager -  
    Paper Packaging Machinery Division  
    Hayssen, USA

32. Wrapping machine flexibility for tissue paper rolls  
    Andrea Cinotti, Technical Director, Wrapmatic SpA, Italy

33. Tissue display pallets without transport wrapping  
    Barry M. Dobson, Export Sales Manager  
    Langhammer Maschinenbau GmbH, Germany
