THE FUTURE OF ENDOSCOPY

Proceedings of the 2nd
European Architectural Endoscopy Association
Conference in Vienna, Austria,
August 30th - September 1st 1995

EDITED BY BOB MARTENS

VIENNA UNIVERSITY OF TECHNOLOGY
DEPARTMENT FOR SPATIAL SIMULATION
IN COLLABORATION WITH THE
INSTITUTE FOR SPATIAL INTERACTION
AND SIMULATION (ISIS)
CONTENTS

I  THE RE-DESIGN OF SPATIAL EXPERIENCE

Michael Kwartler:
Beyond the Adversarial: Conflict Resolution, Simulation
and Community Design ........................................... 3

Manfred Walz:
User’s View and Utilization Process in Urban Space ............ 7

Arne Branzell:
Management of Sequential Space Experiences .................... 17

Peter Kardos:
The Role of Spatial Experience Anticipation in
Architectural Education and Urban Design ..................... 21

II  THE CHOICE OF APPROPRIATE TECHNOLOGY

Jan van der Does:
A Student’s Project: Choices in Media for
Communication and Presentation .................................. 27

Jack Breen:
Dynamic Perspective: The Media Research Program ............. 37

Alexander G. Keul and Bob Martens:
Simulation - How Does it Shape the Message? ................. 47

Martijn Stellingwerff and Jack Breen:
Applications of Optical and Digital Endoscopy ................ 55

Petri Siitonen:
Future of Endoscopy, Updated .................................. 69
III WORKSHOP ASPERN: THE (IN-) VISIBLE CITY

Bob Martens:
Introduction to Workshop Aspern ........................................ 77

Hildebrand Frey
Workshop Aspern: Strathclyde Approach .................................. 80

Aleksander Asanowicz et. al.
(In-) Visible City - In The Mood ............................................ 91

Martijn Stellingwerff and Jack Breen
Dynamic Perspective: Workshop Aspern .................................. 93

Wolfgang Thomas
A Didactic Drama ................................................................. 94

Gerhard Fast et. al.
Visit at Aspern ................................................................. 98

Wolf-Michael Tschuppik
Languages - Final Settlement: Discussion ................................ 100

Thomas Zwiefelhofer
Living in (In-) Visible City .................................................. 104

Bob Martens:
Pictures of a City: an Attempted Summary ............................... 106

IV THE IMPLEMENTATION OF APPLICATIONS

Ryuzo Ohno, Koichi Sonoda and Masashi Soida:
Street-scape and Way-finding Performance ............................ 111

Wolfgang Thomas:
Implementation of Endoscopic Model Simulation: Essen-Centre .... 121

Michael Matalasov:
Optimal Choice of the Equipment
Depending on the Requirements of Educational Projecting .......... 127

Ranulph Glanville:
Creativity and Media in Architecture ................................. 133
