CONTENTS

SPE 36417 Optimum Fractures in High Permeability Formations .......................... 9
R.H. Morales and W.D. Norman, Schlumberger Dowell; Syed Ali, Chevron U.S.A.; and
C. Castille, Freeport McMoran

SPE 36418 A New Concept of Sand Production Prediction: Theory and
Laboratory Experiments ........................................... 19
P.J. van den Hoek, G.M.M. Hertogh, A.P. Kooijman, Ph. de Bree, and C.J. Kenter,
Shell Intl. E&P B.V., and E. Papamichos, IKU Petroleum Research

SPE 36419 Horizontal Wellbore Stability and Sand Production in Weakly
Consolidated Sandstones ........................................... 35
A.P. Kooijman, P.J. van den Hoek, Ph. de Bree, and C.J. Kenter, Shell Intl. E&P B.V., and
Z. Zheng and M. Khodaverdian, TerraTek Inc.

SPE 36420 Laboratory Studies of Fines Movement in Gravel Packs ....................... 49
A.R. Jennings Jr., Enhanced Well Stimulation Inc.

SPE 36421 Fracture Width and Embedment Testing in Soft Reservoir Sandstone .......... 63
L.L. Lacy, Allan Rickards, and D.M. Bilden, BJ Services Co.

SPE 36423 Use of Frac-Pack Pressure Data To Determine Breakdown Conditions and
Reservoir Properties .................................................. 75
R.D. Barree, B.A. Rogers, and W.C. Chu, Marathon Oil Co.

SPE 36424 Determination of Pressure Dependent Leakoff and Its Effect
on Fracture Geometry ................................................. 85
R.D. Barree, Marathon Oil Co., and H. Mukherjee, Dowell Schlumberger

SPE 36425 Cesium Formate: Results and Analysis of Drilling With a New High Density
Unweighted Brine ..................................................... 95
M.S. Ramsey, Texas Drilling Assocs.; J.A. Shipp, Cabot Specialty Fluids; B.J. Lang,
Baker-Hughes INTEQ; and Alan Black and D.A. Curry, TerraTek

SPE 36426 Scleroglucan Biopolymer Enhances WBM Performances ......................... 105
G. Gallino, Agip SpA, San Donato Milanese; A. Guarneri and G. Poli, Agip SpA, Ortona; and
L. Xiao, Agip SpA, San Donato Milanese

SPE 36428 Laboratory Development and Field Application of a Novel Water-Based
Drill-In Fluid for Geopressured Horizontal Wells ................................ 121
J.M. Kiely, and M.S. Albrecht, Shell E&P Technology Co.; and S.D. Bruner, Shell Offshore Inc.

SPE 36429 Evaluation of a New Technique for Removing Horizontal Wellbore Damage
Attributable to Drill-In Filter Cake .................................. 133

SPE 36430 Drilling Fluid Design to Prevent Formation Damage in High Permeability
Quartz Arenite Sandstones ............................................ 147
P.S. Smith and S.V. Browne, BP Exploration; T.J. Heinz, M-I Drilling Fluids L.L.C.; and
W.V. Wise, Baker Hughes INTEQ

SPE 36431 MATQUS, A Survey Quality System for Solid State Magnetic Survey Tools ........ 155
R.A. Hartmann, Shell Intl. E&P B.V.

SPE 36432 Development of the First Commercial Hot Hole MWD System ................ 167
J.K. Brady and T. Galley, Sperry-Sun Drilling Services Inc.

SPE 36433 Acoustic Telemetry: The New MWD System .................................... 173
T. Tochikawa and T. Sakai, Japan Natl. Oil Corp., and R. Taniguchi and T. Shimada,
Mitsubishi Electric Corp.

SPE 36434 The Effects of Pressure and Rotary Speed on the Drag Bit Drilling Strength
of Deep Formations .................................................. 181
J.J. Kolle, Waterjet Technology Inc.

SPE 36435 High Penetration Rates and Extended Bit Life Through Revolutionary Hydraulic
and Mechanical Design in PDC Drill Bit Development ................................ 191
M.R. Taylor, A.D. Murdock, and S.M. Evans, Hycalog
SPE 36436 Purpose-Built PDC Bit Successfully Drills 7-in. Liner Equipment and Formation: An Integrated Solution .......................... 205
J.G.A. Pünnel, NAM-Pro-Star; A. Huppertz, Hughes Christensen-Pro-Star; J.B. van Gellekom, Baker Oil Tools; and J. Huizing, Hughes Christensen

SPE 36437 Complications With Stress Tests—Insights From a Fracture Experiment in the Ultra-Deep KTB Borehole ..................... 213
C.J. de Pater, Delft U. of Technology; M.D. Zoback, Stanford U.; C.A. Wright, Pinnacle Technologies; and Bernard Engeser, Niedersächsisches Landesamt für Bodenforschung

SPE 36438 Equilibrium Minifracturing Test and Analysis .................. 225
D.K. Poulsen, Poulsen Intl.

SPE 36439 Pressure History Inversion for Interpretation of Fracture Treatments ................... 235
S.N. Gulrajani, M.G. Mack, and Jack Elbel, Schlumberger Dowell

SPE 36440 Qualitative Pressure Profiling to Determine Wellbore Contacts With Hydraulic Fractures ......................... 251
D.G. Nelson, Chevron U.S.A. Production Co., and M.J. Economides, Texas A&M U.

SPE 36441 Far-Field Hydraulic Fracture Geometry: A Changing Paradigm .................. 261

SPE 36442 A New Hydraulic Fracture Tip Mechanism in a Statistically Homogeneous Medium ........................................ 275

SPE 36443 Mechanical Stability Analysis From Drilling Data Alone ........................................ 287
J.F. Jones and R.D. Barree, Marathon Oil Co.

SPE 36444 Applications of Pseudo-3D Stress Analysis Programs for Predicting Borehole Collapse and Formation Breakdown ............ 295
G.G. Ramos, Arco E&P Technology; Adolfo Polillo, Petrobras; and B.S. Wilton, Arco E&P Technology

SPE 36448 Minimum Cost Casing Design ........................................... 303
A.S. Halal, D.J. Warling, and R.R. Wagner, Enertech Engineering & Research Co.

SPE 36449 Fracture Diagnostics Research at the GRI/DOE Multi-Site Project: Overview of the Concept and Results ........................ 315

SPE 36450 Microseismic Monitoring of the B-Sand Hydraulic Fracture Experiment at the DOE/GRI Multi-Site Project .................. 327
N.R. Warpinski, Sandia Natl. Laboratories; T.B. Wright, Resources Engineering Systems; J.E. Uhl, B.P. Engler; and P.M. Drozda, Sandia Natl. Laboratories; and R.E. Peterson and P.T. Branagan, Branagan & Assocs.

SPE 36451 Measuring the Hydraulic Fracture-Induced Deformation of Reservoirs and Adjacent Rocks Employing a Deeply Buried Inclinometer Array: GRI/DOE Multi-Site Project ........................................... 337

SPE 36452 Characterization of a Remotely Intersected Set of Hydraulic Fractures: Results of Intersection Well No. 1-B, GRI/DOE Multi-Site Project ............... 351
P.T. Branagan and R.E. Peterson, Branagan & Assocs.; N.R. Warpinski, Sandia Natl. Laboratories; and T.B. Wright, Resources Engineering Systems Inc.

SPE 36453 Performance of Longitudinally Fractured Horizontal Wells in High-Permeability Anisotropic Formations ....................... 363
M.E. Villegas, R.A. Wattenbarger, P. Valkó, and M.J. Economides, Texas A&M U.

SPE 36454 Use of Longitudinally Fractured Horizontal Wells in a Multi-Zone Sandstone Formation ........................................... 371
C.M. Pearson, Arco Alaska Inc.; M.D. Clonts, Arco E&P Technology; and N.R. Vaughn, Arco Alaska Inc.
SPE 36456  Frac Packs—State of the Art ................................................. 381

SPE 36457  Fracturing, Frac-Packing and Formation Failure Control: Can Screenless
Completions Prevent Sand Production? ............................................. 391
Nobuo Morita, Waseda U., and Bob Burton and Eric Davis, Conoco Inc.

SPE 36458  Investigation of Height Growth in Frac Pack Completions ................. 403
M.E. Mullen, Pennzoil E&P; W.D. Norman and J.D. Wine, Dowell; and B.R. Stewart,
Schlumberger

SPE 36459  Water Frac Applications in High Island 384 Field .......................... 419
E.B. Claiborne Jr., Oryx Energy Co.; R. Saucier, Baker Hughes INTEQ Consultant; and
T.W. Wilkinson, Oryx Energy Co.

SPE 36460  Analysis of Post Audits for Gulf of Mexico Completions Leads to Continuous
Improvement in Completion Practices ............................................. 435
M.A. Pashen and H.O. McLeod Jr., Conoco Inc.

SPE 36461  Hydraulic Fracturing for Control of Sand Production and Asphaltene Deposition
in Deep Hot Wells ............................................................................ 449

SPE 36462  Drilling and Underreaming Simultaneously: A Cost-Effective Option .... 465

SPE 36463  Shallow Gas Well Drilling With Coiled Tubing in the San Juan Basin .... 469
R.G. Moon, Halliburton Energy Services; R.W. Ovitz, Amoco Production Co.; G.J. Guild and
M.D. Biggs, Halliburton Energy Services

SPE 36464  The Effect of Fluid Flow on Coiled Tubing Reach ................................ 479
K. Bhalla and I.C. Walton, Schlumberger Dowell

SPE 36465  Remote Arctic Drilling Operations in Russia, Case History of Ardalin Field
Operations, Timan Pechora Basin ..................................................... 491
E.M. Reyna, S. Nicholson, and S. Brady, Conoco Inc.

SPE 36466  Opón Gas Field, Colombia: Part I—Geoscience Description, Well Design,
and Well Test Performance ............................................................. 507
D.M. Stone, W.A. Huffmyer, J.M. Greener, and B.S. Mamerow, Amoco E&P Co.

SPE 36467  Opón Gas Field, Colombia: Part II—Drilling Case History ..................... 515

SPE 36468  Production Enhancement Through Aggressive Flowback Procedures in the
Codell Formation ............................................................................ 525
A.J. Anderson and P.J.N. Ashton, Dowell; J. Lang, Amoco E&P Co.; M.L. Samuelson, Dowell

SPE 36469  Integrated Reservoir Fracturing and Completion Study To Maximize Productivity
of Individual Niobrara Wells in Yuma County, Colorado ................. 531
R.E. Blauer, Resource Service Intl. Inc.; B.D. Brady, Evergreen Resources Inc.; D.L. Holcomb,
ProTechnics Intl. Inc.; and F.L. Robinson, Thermo Project Management Inc.

SPE 36470  The Application of Hydraulic Fracturing Models in Conjunction With Tracer
Surveys To Characterize and Optimize Fracture Treatments in the Brushy Canyon
Formation, Southeastern New Mexico ............................................. 543

SPE 36471  Fracture Treatment Design and Evaluation in the Pakenham Field:
A Real-Data Approach ................................................................... 559
C.A. Wright and L. Weijers, Pinnacle Technologies; G.A. Germani, K.H. MacIvor, and
M.K. Wilson, Chevron U.S.A.; and B.A. Whitman, BJ Services Co.

SPE 36472  Novel Fracture Technology Proves Marginal Viking Prospect Economic,
Part I: Implementation of Fracture Treatments ................................. 571
M. Rylance, BP Exploration; S.I. Haidar, HES; G. Sykes, CUKL; and J. Pyecroft, HES

SPE 36473  Novel Fracture Technology Proves Marginal Viking Prospect Economic,
Part II: Well Clean-up, Flowback, and Testing ................................. 587
S. Haidar, HES; M. Rylance, BP Exploration; G. Tybergø, CUKL; and
J.D. Van-Batenburg, HES

SPE 36493 Fracturing Fluid Leakoff Under Dynamic Conditions, Part 2: Effect of Shear Rate, Permeability, and Pressure ............................................ 821
S. Vitthal and J.M. McGowen, Halliburton Energy Services

SPE 36494 Field Investigation of Heat Transfer in Hydraulic Fractures and the Effect of Heat Transfer on Fracturing Fluid Design ........................................... 837

SPE 36495 Effects of High Temperature on Polymer Degradation and Cleanup ......................................................... 849
M.L. Samuelson and V.G. Constien, Dowell

SPE 36496 Characterization of Breaker Efficiency Based Upon Size Distribution of Polymeric Fragments Resulting From Degradation of Crosslinked Fracturing Fluids ............. 857

SPE 36761 Buckling Analysis in Deviated Wells: A Practical Method ......................................................... 871
R.F. Mitchell, Enertech Engineering & Research Co.

POSTERS

SPE 36670 The Influence of Drilling Variables on Barite Sag ................................................................. 887
P.A. Bern, BP Exploration; M. Zamora and K.S. Slater, M-I Drilling Fluids; and P.J. Hearn, BP Exploration

SPE 36671 Technical Innovations Cut Sidetracking Time/Costs ............................................................... 895

SPE 36673 Application and Evaluation of Advanced Completion Optimization Technology in the Black Warrior Basin ................................................................. 901

SPE 36674 Using 3D Fracture Simulation Alone May Result in Incorrect Fracture-Geometry Determination and Unreliable Real-Time Fracture Analysis ........................................ 915

SPE 36675 Hydraulic Fracture Diagnosis Using Chemical Tracers ................................................................. 925
C.J. Gardien, G.A. Pope, and A.D. Hill, U. of Texas at Austin

SPE 36676 Development and Field Application of a New Fluid-Loss Control Material ...................... 933
P.D. Nguyen, J.D. Weaver, R.C. Cole, and C.R. Schulze, Halliburton Energy Services

SPE 36678 Comparison of Perforating and Notching a Horizontal Wellbore for Hydraulic Fracturing .............. 943
P.J. Underwood, Halliburton Energy Services

No manuscript received for the following:

SPE 36427 Water-Based Drilling Fluids for Minimizing Cost and Environmental Impact
S. Young, Anchor M-I Drilling Fluids A/S

SPE 36445 Use of Wellbore Stability Analysis to Optimize Horizontal Drilling and Openhole Completion in Carbonate Reservoir
G. Fuh, Conoco Inc., and D.A. Clark and T.M. Bealessio, Dubai Petroleum Co.

SPE 36455 Practical Issues in Multi-Lateral Horizontal Well Completions
D.N. Meehan, Union Pacific Resources Co., and M.R. Chambers, Mobil E&P Technology Center
