BMVC’96

Proceedings of the 7th
British Machine Vision Conference

Volume 2

9 – 12 September 1996
The University of Edinburgh

Edited by:
Robert B. Fisher
Emanuele Trucco
Session 6: Deformable Models

Active Shape Model Search using Pairwise Geometric Histograms
Di Mauro, E C; Cootes, T F; Taylor, C J and Lanitis, A,
University of Manchester ................................. 353

Automated B-Spline Curve Representation with MDL-based Active Contours
Cham, T-J and Cipolla, R, University of Cambridge .................. 363

Training PDMs on Models: The Case of Deformable Superellipses
Pilu, M; Fitzgibbon, A W and Fisher, R B, University of Edinburgh ...... 373

Data Driven Refinement of Active Shape Model Search
Cootes, T F and Taylor, C J, University of Manchester .................. 383

Index ............................................................ 393

Volume II

Session 7: Tracking

Zooming while Tracking Using Affine Transfer
Hayman, E; Reid, I D and Murray, D W, University of Oxford ............ 395

Neural Networks in Human Motion Tracking - An Experimental Study
Xu, Li-Qun and Hogg, D, University of Abertay and University of Leeds ... 405

Detecting and Tracking Linear Features Efficiently
Clarke, J C; Carlsson, S and Zisserman, A,
University of Oxford and Royal Institute of Technology, Stockholm .... 415

Affine Visual Servoing
Cross, G M T and Cipolla, R, University of Cambridge .................. 425

Poster Session 2

Self Calibration and 3D Reconstruction from Lines with a Single Translating
Camera
Thirion, E and Ronse, C, Université Louis Pasteur .......................... 435

Analysing Error of Fit Functions for Ellipses
Rosin, P, Brunel University ......................................... 445

Face Recognition using Radial Basis Function Neural Networks
Howell, J A and Buxton, H, University of Sussex .......................... 455
Spatial-Temporal Reasoning Based on Object Motion
Teal, M K and Ellis, T J, University of Bournemouth .......................... 465

Automatically Locating an Area of Interest and Maintaining a Reference Image to Aid the Real-Time Tracking of Objects
Cornish, M T and Wakefield, J P, University of Huddersfield .................. 475

Automatic Measurement of Inhibition Zones in Petri Dish Samples
Steinbakk, H S and Palmer, P L, University of Surrey ........................... 485

Region Template Correlation for FLIR Target Tracking
Parry, H S; Marshall, A D and Markham, K C,
University of Wales and British Aerospace (Dynamics) Ltd .................... 495

A Model-Driven Stereo Correspondence Algorithm Using Dynamic Programming
Shao, Y and Mayhew, J E W, University of Sheffield ............................ 505

Slaving Head and Eye Movements for Visual Telepresence
Heuring, J J and Murray, D W, University of Oxford ............................ 515

On Uncalibrated Motion-Based Inspection for Conveyor-Belt Systems
Pascoletti, A and Trucco, E, Università di Udine and Heriot-Watt University 525

Independent 3D Motion Detection through Robust Regression in Depth Layers
Argyros, A A; Lourakis, M I A; Trahanias, P E and Orphanoudakis, S C,
FORTH and University of Crete .......................................................... 535

Uncalibrated Visual Servoing
Spratling, M and Cipolla, R, University of Cambridge ............................ 545

Error Propagation for 2D-to-3D Matching with Application to Underwater Navigation
Christmas, W J; Kittler, J and Petrou, M, University of Surrey .................. 555

Visual Motion Estimation for Tumbling Satellite Capture
Zampato, M; Pistellato, R and Maddalena, D, Tecnomare, Italy .................. 565

Multiresolution Active Contour Models in Textured-Stereo Images
Grace, A E and Pycock, D, University of Birmingham ............................ 575

Estimating Motion in Noisy, Textured Images: Optical Flow in Medical Ultrasound
Cooper, D H and Graham, J, University of Manchester ............................ 585

On Accurate and Robust Estimation of Fundamental Matrix
Bober, M; Georgis, N and Kittler, J, University of Surrey ........................ 595
Knowledge-Based Anisotropic Diffusion of Vector-Valued 4-Dimensional Cardiac MR Images
Sanchez-Ortiz, G I; Rueckert, D and Burger, P, Imperial College .............. 605

Filter for Car Tracking Based on Acceleration and Steering Angle
Maybank, S J; Worrall, A D and Sullivan, G D, University of Reading ...... 615

A Proposal of Pattern Space Trajectory for Gesture Spotting Recognition
Nagaya, S; Seki, S and Oka, R, Tsukuba Research Center, Japan ............ 625

Session 8: Motion and Active Vision

Steering and Navigation Behaviours Using Fixation
Murray, D W; Reid, I D and Davison, A J, University of Oxford .............. 635

Correcting Motion-Induced Registration Errors in 3-D Ultrasound Images
Rohling, R and Gee, A, University of Cambridge ............................ 645

Robust Parameterization and Computation of the Trifocal Tensor
Torr, P H S and Zisserman, A, University of Oxford .......................... 655

Linear Projective Reconstruction from Matching Tensors
Triggs, B, INRIA Rhone-Alpes, France ........................................ 665

Self-Calibration of a Moving Camera by Pre-Calibration
Sturm, P, GRAVIR-IMAG and INRIA Rhone-Alpes, France .................. 675

Session 9: Applications

Registering Incomplete Radar Images using the EM Algorithm
Moss, S and Hancock, E R, University of York .............................. 685

Model-based Vehicle Detection and Classification using Orthographic Approximations
Sullivan, G D; Baker, K D; Worrall, A D; Attwood, C I and Remagnino, P M, University of Reading .......................... 695

Automatic Measurement of Vertebral Shape using Active Shape Models
Smyth, P P; Taylor, C J and Adams, J E, University of Manchester ......... 705

Finding Orientated Line Patterns in Digital Mammographic Images
Zwiggelaar, R; Parr, T C and Taylor, C J, University of Manchester ...... 715
Session 10: Faces

Estimation of Face Position and Pose with Labeled Graphs
Kruger, N; Potzsch, M; Maurer, T and Rinne, M,
Ruhr-Universität Bochum, Germany

Scale and Orientation Invariance in Human Face Detection
Yow, K C and Cipolla, R, University of Cambridge

Face Tracking and Pose Representation
McKenna, S; Gong, S and Collins, J J, Queen Mary and Westfield College

Statistical Models of Face Images: Recent Advances
Edwards, G J; Lanitis, A; Taylor, C J and Cootes, T F,
University of Manchester

Index
