Proceedings
of the

IX. INTERNATIONAL CONFERENCE ON
ELECTRICAL BIO-IMPEDANCE

in conjunction with the

European Community
Concerted Action on
Impedance Tomography

September 26 - 30, 1995, Heidelberg / Germany

Organized on behalf of the

International Committee for Promotion of Research in Bio-Impedance

and the

Concerted Action on Impedance Tomography (CAIT)

Financially supported by:

Deutsche Forschungsgemeinschaft
European Union
CONTENTS

1.0 Invited Lectures  A1

2.0 Scientific Sessions  A2

2.1 Electrodes  A2

2.2 Instrumentation and Methods  A2

2.3 Cells and Cell Cultures  A2

2.4 Brain Impedance  A3

2.5 Lung Impedance  A3

2.6 Cardiac Impedance  A4

2.7 Organ State  A5

2.8 Tumour Tissue  A5

2.9 Body Composition and Fluid  A6

2.10 Blood and Blood Flow  A7

2.11 Functional Investigations  A7

2.12 Skin Impedance  A7

2.13 Various Applications  A8

2.14 Modelling  A9

2.15 EIT Basics and Methods  A9

2.16 EIT Hardware  A10

2.17 EIT Applications  A11

2.18 EIT Modelling  A12

2.19 EIT Image Reconstruction  A12

3.0 Index of Authors  539
Scientific Sessions

Electrodes

New Electrode Design using Electroconductive Carbon Fibre Material for Electrical Impedance Tomography
Cheran L., Gheorghe M., Dascalu D. 25

An Impedance Measurement Probe for Live Tissue
Paulson K.S., Pidcock M.K., McLeod C.N. 30

Measurement of the Electrical Impedance of Biological Tissues in the Frequency Range from 0.1Hz to 10 Mhz - Investigation of the Electrode Interface and Presentation of a New Probe
Schäfer M., Gersing E., Schultheiß B., Gebhard M.M. 32

Effect of Surface Morphology on Electrode Impedance - A New Approach to a Low Polarisation Electrode
Schmidt K., Fröhlich R., Bolz A., Schaldach M. 36

Instrumentation and Methods

An Instrument for Measurement of Vector Parameters of Electrical Bio-Impedance
Min M., Parve T., Eek A., Märtin H. 40

Measurement of the Complex Electrical Bio-Impedance Using a New Multifrequency Device
Palko T., Weglarz J., Pawlicki G.W. 44

Application of Neural Networks for the Processing of Field Plethysmography Signals
Nussbaum C., Pfützner H. 47

Fast and Accurate Sinusoidal Waveform Detector for Impedance Mammography
Wtorek J., Lacki P., Stelter J. 51

Cells and Cell Cultures

Characterizing Cellular Effects of Different Stimuli by Means of Dielectric Spectroscopy
Gheorghiu E., Fugaru V. 55

On-Line Estimation of Biomass in Free and Immobilized Cell Cultures Using Two-Frequency Measurements
Bragós R., Riu P.J., Cairó J., Montesinos J.L., Tintó A. 59

A Non Invasive Method to Evaluate Stress Effects at Cellular Level
Mehedintu M., Gheorghiu E., Mihai C.M. 63

Application of Laser Optical Methods in Dielectric Particle Spectroscopy
Prüger B., Eppmann P., Gimsa J., Donath E. 67

</table>
The Change of Diastolic Index (HD/HS) in Pulmonary Emphysema
Kangxin H., Laiqiu L., Fuchang W., Pingping L.

Cardiac Impedance

High-Frequency Impedance Cardiography
Goovaerts H.G., Raaijmakers E., Heethaar R.M.

Thoracic Electrical Bioimpedance Assessment of Left Ventricular Diastolic Function
Kerkkamp H.J.J., Heethaar R.M.

Assessment of the Central and Peripheral Cardiovascular System in Beat to Beat Mode by Impedance Method
Walichnoswski W., Skibniewski F., Pich F., Pekalski R.

Unipolar Intracardiac Impedance: An Optimal Biosensor for Closed-Loop Rate-Responsive Cardiac Pacing
Schaldach M., Urbaszek A.

Critical Application of Bioimpedance in Anaesthesiology
Castor G., Helms C., Pilz A., Niedermark I., Simon J.

The Aortic Flow Contribution to Intrathoracic Impedance - A Simplified Model and Results
McLeod C.N., Baker A.B., Roxburgh A.J., Bannister P.

Comparison of Five Configurations of Electrodes' Array, FEM Model Studies
Wtorek J., Polinski A., Siebert J.

Clinical Relevance of the Impedance Cardiographic Indices Reflecting Diastolic Function in Different Circulation Patterns
Kerekes L.

Accuracy and Precision of Systolic Heart Function Measured by Bioimpedance Cardiography, Thermodilution, Doppler and 2D Echocardiography
Kerkkamp H.J.J., Kerkkamp H.E.M.

Application of Impedance Cardiography for Continuous Measurement of Cardiac Output and Stroke Volume During Pharmacological Stress-Echocardiography
Scherrag A., Pfieger S., Schreckenberger A., Staedt U., Heene D.L.

Use of Electrical Bio-Impedance as a Diagnostic and Monitoring Tool for Percutaneous Transvenous Mitral Valvuloplasty
Ye M.J., Ling P.C.D., Choy T.T.C., Woo K.S., Chan H.S., Song D.D.

Hemodynamic Monitoring of Ventricular Tachycardia by Impedance Cardiography
Merkely B., Vecsey T., Székely E., Kiss O., Gyöngy T., Nyikos G., Bodor E., Nemes A.

Research on Nonlinear Calculated Method in Measuring Cardiac Output by Impedance Plethysmography
Kuang Mingxing, Peng Lusheng, Huang Xuesun
Technical Analysis of Differential Loops of Electrical Admittance
Cui C.Y., Yang L.F., Pan T.

A New Formula (with Qout>0) for Calculating Stroke Volume by Electrical Bio-
Impedance Method
Kuang Zhiwen, Zheng Jianguang, Nie Huiqing

Investigation into the Validity of the Cylinder Model in Impedance Cardiography

Wireless Transmission of TEB Signals in Freely Moving Subjects by Means of a
Telemetric Apparatus: Sports Physiology Applications
Concu A., Tintrup F., Ciuti C., Marcello C., Carbone D., Kalb A., Macis A.

Impedance Cardiography Gives a Complete Picture of Cardiac Performance
De Vries P.M.J.M., Woltjer H.H., Van der Meer B.J.M., Vonk Noordegraaf A.,
Bogaard H.J.

Evaluation of Autonomic Heart Rate Control and Hemodynamic Responses to
Different Tests Using Computerized Rhythmography and Impedance Cardiography
Zermaityte D., Varoneckas G., Ozeraitis E., Zakarevicius L., Valvoniene V.

Hemodynamic Regulation during Postural Tilt - Reproducibility Assessed by
Impedance Cardiography as a Function of Age
Tank J., Baevsky R.M., Capek I., Sinz V., Ploewka K.

Central Hemodynamic Changes with Graded Simulated Orthostatic Loading
(Lower Body Negative Pressure) in Healthy Men
László Z., Rössler A., Wrónski B., Hinghofer-Szalkay H.

Organ State

Impedance Monitoring of Myocardial Tissue and Heart Function in Pigs Induced
Brain Death
Jossinet J., Ferrara R., Saad K., Forrat R., Hadour G.

The Electrical Impedance of the Ischemic Heart at Low Frequencies
Linhart H.G., Gersing E., Schäfer M., Gebhard M.M.

Comparison of Impedance and Ultrasound Spectroscopy by Investigations of
Ischemia caused Alterations in Organ Tissue
Jenderka K.V., Schultz M., Gersing E., Millner R.

Tumour Tissue

In vivo Impedance Spectrometry of MCF-7 Tumors in Nude Mice: Measurement
Problems and Examples
Chauveau N., Dumont P., Aligne C., Rigaud B., Cros S., Morucci J.P.
Bioimpedance Spectrometric Variations of B16 Tumor in Mice during Regression Induced by DC Current
Morucci J.P., Aligne C., Chauveau N., Dumont P., Rigaud B., Cros S. 219

Impedance Spectra of Tumour Tissue in Comparison with Normal Tissue; a Possible Clinical Application for Electrical Impedance Tomography
Blad B., Baledorp B. 223

Electrical Impedance Spectroscopy for in vivo Detection of Structural Changes in Experimental Tumors during Local Hyperthermia
Krüger W., Gersing E., Vaupel P. 225

Body Composition and Fluid

Weight-Independent Body Composition Estimators Based on Multifrequency Electrical Impedance Measurements
Riu P.J., Rosell J., Lozano A., Fernandez M. 229

Segmental Body Fluid Shift Estimation during HDT Positions by Electrical Impedance Measurements
Lozano A., Rosell J., Riu P.J., Pallás-Areny R. 233

Multi-Segment Hemodynamic and Volume Assessment with Impedance Plethysmography: Aerospace Applications
Ku Y.E., Montgomery L.D. 237

Influence of Ionic Shifts and Postural Changes during Dialysis on Volume Estimations with Multifrequency Impedance Analysis

Predicting Intra and Extracellular Fluid Volumes with Complex Impedance
Matthie J.R., Withers P.O. 245

Modelling Whole Body and Segmental Complex Impedance Data
Matthie J.R., Withers P.O. 249

Estimation of Human Whole Body Fat Volume by Impedance Method
Sakamoto K., Fuji M., Kanai H. 253

The Determination of Body Fat in 100 Healthy Females
Yu Xin, Li Zao Nan 257

Multisite Multifrequency Measurement and Analysis of Bioimpedance Changes at High Altitude
Yesilleten F., Egi S.M., Ülgen Y. 259

Evaluation of Changes in Body Fluid by Hemofiltration (HF) Using Multi-Frequency Bio-Impedance Method (MFB)
Maruyama Y., Sugano H. 264

Change in Electric Bio-Impedance Following Surgery for Femoral Neck Fractures in Elderly
Palmo A., Gavassa G., Prota F., Cuccia L., Boschetti S. 268
Blood and Blood Flow

Electrical Impedance of Human Blood
Zhao T.X. 272

Electrical Properties of Sinusoidal Flowing Blood
Kanai H., Fujii M., Sakamoto K. 276

Assessment of the Relationship between Doppler and Impedance Signals for the Calculation of Pulse Wave Velocity
Lavandier B., Risacher F., Jossinet J. 280

Comparison of Global and Local Pulse Wave Velocity in Man Measured by Multichannel Impedance Plethysmography
Risacher F., Jossinet J., Schmitt M. 283

Functional Investigations

Stroke Volume and Heart Rate Power Spectral Analysis in the Patient before and 6 Weeks after Coronary Artery Bypass Grafting
Siebert J., Wtorek J., Bellwon J., Smietanski M. 287

Multielectrode Bioimpedance Monitor for Analysis of Gastric Emptying
De Lorenzo A., Holowacz J., Ettinger K. 291

Improving the Accuracy of Venous Occlusion Plethysmography with Impedance Method
Schüler R. 295

An Importance of Anisotropy of Tissue's Complex Permittivity in Plethysmographic Sensitivity Estimation
Wtorek J., Polinski A. 299

Correlation between Volume Pulse Curves obtained by Impedance-Rheography and the Ankle-Brachial Pressure Index
Schuhfried O., Quittan M., Preisinger E. 303

Studies on the Impedance Rheography of Healthy Cows during Lactation
Hongbin W., Linan W. 306

Skin Impedance

Skin Impedance: An Historical Overview
McAdams E.T., Jossinet J. 309

Two-Layer Bioelectrical Modelling of Human Skin in Noninvasive Probing with an Open-Ended Coaxial Line
Alanen E., Tirkkonen A., Lahtinen T., Nuutinen J., Tenhunen M., Tamura T. 311
Detection of Subcutaneous Fibrosis by Electrical Bioimpedance

Counterion Polarization in Microporous Membranes
Martinsen O.G., Grimnes S. 319

pH Impedimetric Measurements of Skin Exudation
Gheorghe M., Cheran L., Dascalu D. 322

Allergic Contact Skin Reactions Detected with an Improved Electrical Impedance Technique
Nyrén M., Nicander I., Emtestam L., Ollmar S. 326

Electrode-Skin Impedance from a Dielectric Viewpoint
Calderwood J.H. 330

Simple Descriptors of Skin Reactions and Conditions
Ollmar S., Nicander I., Emtestam L. 332

Changes in the Passive Electrical Properties of Human Stratum Corneum Due to Electroporation
Pliquett U., Weaver J.C. 336

Time Dependent Changes in Passive Electrical Properties of Human Skin in vitro after Separation
Pliquett F., Pliquett U. 340

In vivo AC Impedance Monitoring of Percutaneous Drug Delivery

Electrical Admittance of Human Skin, Hair and Nail
Martinsen O.G., Grimnes S., Kongshaug E. 348

Low Frequency Electrical Susceptance and the Effect of Skin Moisturizers
Martinsen O.G., Grimnes S., Henriksen I. 352

Various Applications

Dielectric Properties of Female Breast Tumors
Heinitz J., Minet O. 356

Coagulation Related Impedance Changes during Trans-Urethral Resection of the Prostate
Mestas J.L., Devonec M., Perrin P., Jossinet J. 360

The Power Spectral Analysis of REG in Patients with Hypertension and the Control Subjects
Chen D. 364

Passive Electrical Properties of Meat as a Characteristic of ist Quality
Freywald K., Pliquett F., Schöberlein L., Pliquett U. 366
The Application of Electrical Impedance Spectroscopy in Assessing the Frost Hardness of Scots Pine
Repo T., Leinonen M., Pääkkönen T. 370

Multifrequency Impedance Measurement for Fruit Quality Evaluation
Varlan A.R., Sansen W. 374

Modelling

Intracardiac Impedance Reflecting Contractility - A Three-Dimensional Finite Element Modelling Study
Wetzig T., Urbaszek A., Bolz A., Moshage W., Schultheiß B., Stoykov N., Henning G., Schaldach M. 376

A Model for the in vivo Dielectric Properties of Human Lung Tissue as a Function of Frequency and Air Content
Nopp P., Harris N.D., Zhao T.X., Brown B.H. 380

Macroscopic Models of the Electrical Tissue Impedance in Humans: Requirements, Creation and Application
Sachse F.B., Müller M., Meyer-Waarden, K. 384

Tissue Modelling for Bio-Impedance Analysis
Goovaerts H.G., Faes T.J.C., Heethaar R.M. 388

Current Density Distribution in Human Skin under the Grounding Electrode of Electrosurgery
Nessler N.H. 392

Analogies when Modelling the Dielectric Properties of Biological Materials and Electrode Polarisation Phenomena
Mahner B., König A., Müller C. 396

The Biological Relevance of Truncated Models on Dielectric Behaviour of Cell Suspension
Mihai C.M., Gheorghiu E., Mehedintu M. 400

EIT Basics and Methods

Systematic Errors, Noise and Artefact in Sheffield MK3 Electrical Impedance Tomographic Spectroscope System
Wang W., Brown B.H., Barber D.C. 404

Dependence of Measured EIT-Data on the Vertical Position of a Test Object in a Tank Related to the Electrode Plane
Osypka M., Gersing E. 406

Chest Impedance Imaging Using Trig. Current Patterns
Measurement of Cardiac Related Changes in Sheffield MK3A EIT Images with a Advanced Signal Processing Technique
Wang W., Zhao T.X., Brown B.H., Barber D.C., Nopp P. 410

Analysis of the Information Contained within Pixels of Multiple Frequency EIT Images Formed from Nonhomogeneous Reference Sets

Some Practical Biological Objects for Calibrating Multifrequency EIT Systems in Liquid Filled Tanks
Holder D.S., Hanquan Y., Rao A. 414

Static Imaging Using Single Frequency EIT
Taktak A., Record P., Gadd R., Rolfe P. 416

Use of Magnetic Field Generated By Internal Distribution of Injected Currents for Electrical Impedance Tomography
Birgül Ö., Ider Y.Z. 418

Use of MRI for Measuring AC Internal Currents of EIT: A Feasibility Study
Ider Y.Z., Müftüler T., Birgül Ö. 420

Electromagnetic Tomography (EMT) System Design with Rotating Parallel Field
Yu Z.Z., Lyon G., Al-Zeibak S., Peyton A.J., Beck M.S. 422

A Feasibility Study of Electromagnetic Inductance Tomography
Al-Zeibak S., Goss D., Lyon G., Yu Z.Z., Peyton A.J., Beck M.S. 426

The Electrical Impedance Tomograph: New Capabilities
Cherepenin V.A., Korjenevsky A.V., Kornienko V.N., Kultiasov Y.S., Kultiasov M.Y. 430

A Technical University of Gdansk Electroimpedance Mammograph
Nowakowski A., Wtorek J., Stelter J. 434

EIT Hardware

High Speed Adaptive Current Setting: Calibration and in vivo Results
Shi Y., Denyer C.W., McLeod C.N., Lidgey F.J. 438

A 3D Electrical Impedance Tomograph
Denyer C.W., McLeod C.N., Paulson K.S., Rose M. 440

Multifrequency Serial EIT System
Ayeva B., Chauveau N., Rigaud B., Morucci J.P. 442

Broadband Quasi-Differential Multifrequency Electrical Impedance Imaging System
Riu P.J., Bragós R., Rosell J. 444

A Parallel Broad-Band Real-Time System for Electrical Impedance Tomography
Casas O., Rosell J., Bragós R., Lozano A., Riu P.J. 446
Fast Data Acquisition System with Active Electrodes for in vivo Multifrequency Electrical Impedance Tomography
Li J., Joppek C., Faust U. 448

The Development of a EIT Lung Ventilation Monitoring System for Prematurely Born Children
Jivet I., Ilie C. 450

Aspects of Application of D.D.S. in Multifrequency E.I.T. Systems
Koukourlis C.S., Plevridis J.E., Kyriacou C.A., Sahalos J.N. 452

EIT Applications

Gravity Dependent Phenomena in Lung Ventilation Determined by Functional EIT
Frerichs I., Hahn G., Hellige G. 454

Local Mechanics of Lung Tissue Determined by Functional EIT
Hahn G., Frerichs I., Kleyer M., Hellige G. 456

Neonatal Lung Imaging Using EIT
Taktak A., Record P., Gadd R., Rolfe P. 458

Cardiogenic Changes in Lung Resistivity as a Function of Frequency and Location

Can EIT Be Used to Detect Gastro Oesophageal Reflux?

The Validity and Reproducibility of Electrical Impedance Tomography for Measurement of Calf Blood in Healthy Subjects

A Tomo-Plethysmographic Method to Separate Arterial Pulse Waves in Human Lower Limb
Jossinet J., Castello P., Risacher F. 468

Electrical Impedance Tomography of Ocular Tissues: in vitro Measurements of the Cornea
Jürgens I., Rosell J., Riu P.J. 470

Imaging Sensory and Visual Evoked Responses in the Brain with Electrical Impedance Tomography and Cortical Electrodes
Rao A., Hanquan Y., Holder D.S. 472

Cervical Electrical Impedivity as a Method of Monitoring and Predicting the Onset of Labour
Avis N.J., Lindow S.W., Kleinermann F. 474

Application of Electrical Impedance Tomography in Physical Loading and Pathophysiological Studies
Shinkarenko V.S., Kostromina E.Y. 476
Mathematical Analysis of Electrical Impedance Tomographic Data in Venous Occlusion Plethysmography and Impedance Cardiography
Faes T.J.C., Vonk Noordegraaf A., Raaijmakers E., De Vries P.M.J.M., Heethaar R.M.  

EIT Modelling

A Three Dimensional FEM Model of the Human Torso for Electrical Impedance Applications
Kyriacou G.A., Alexiou M.A., Koukourlis C.S., Sahalos J.N.  

Analysing the Effect of the Frequency Range on Modelling Cole Parameters in an EITS System
Lu L., Brown B.H.  

Modelling of Cardiac Related Changes in Lung Resistivity Using EITS

The Electrical Impedance of the Human Head by Using a 3-D FEM Model
Sahalos J.N., Kyriacou G.A., Bonovas P., Rigas A., Koukourlis C.S.  

Electrical Models of Normal and Tumoral Tissue from in vivo Measurements of Electrical Bioimpedance
Aligne C., Chauveau N., Rigaud B., Morucci J.P.  

Modelling and Measurement of the Resistance Changes that Occur During the Depolarisation of Unmyelinated Nervous Tissue
Boone K.G., Bayford R.H., Holder D.S.  

EIT Image Reconstruction

A Resistivity Estimation Algorithm Constrained with a priori Information
Baysal U., Eyüboglu B.M.  

An Interleaved Drive Image Reconstruction Algorithm
Eyüboglu B.M.  

One Step Image Reconstruction in Electrical Impedance Tomography
Leblebicioglu K., Kuzuoglu M.  

Image Reconstruction by Neural Networks in Electrical Impedance Tomography
Kuzuoglu M., Leblebicioglu K.  

EIT Image Reconstruction Using Fine Mesh for the Forward Problem
Ülgen Y., Gökgöz M.B., Matur F.  

Improvement of the Positional Accuracy of EIT Images of the Head Using a Lagrange Multiplier Reconstruction Algorithm with Polar Drive Current
Bayford R.H., Boone K.G., Holder D.S.  

EIT Data Noise Evaluation and Optimal Data Filtering in Spectral Expansion Analysis
Meeson S., Blott B.H.
