Geosynthetic landfill cap: Laboratory and field tests, design and construction
J.P. Giroud, R.H. Swan, Jr., P.J. Richer & P.R. Spooner

Long term filter function of nonwoven geotextiles in landfills
J. Kisskalt & E. Gartung

Water-table pollution control by bituminous geomembranes
C. Bienaimé & R. Herment

Geomembranes for vertical waste containment sealing
H. Brandl

Computer evaluation of the stability of composite liners
B. Soyez, Ph. Delmas, Ch. Herr & J.C. Berche

Geocomposite waste cell capping system for steep slopes
Ronald K. Frobel

Deformation of geomembranes in landfills due to settlement and other causes
Albert Borea

Improvements in the geomechanical performance of membrane liners
R. Krause

Stability of solid waste on geosynthetic lining system
J.P. Giroud, J.F. Beech & A. Khatami

Liner systems of landfills – Stability of steep slopes
G. Heerten & C. Scheu

8. Geomembrane properties and testing

Perforations in P.E.M. liners and the effectiveness of sealings
H. Steffen

HDPE seam test histories and bonding factors
G.M. Hudgins & C. F. Cobb

Tests of geomembranes water permeability
Y.H. Faure, P. Pierson, O. Artières & F. Goussé

Understanding and preventing 'shattering' failures of polyethylene geomembranes
Ian D. Peggs, Daniel S. Carlson & Sasha J. Peggs

On-site liner-waste compatibility test
H. E. Haxo, Jr.

Durability of PVC geomembranes and resistance to mechanical puncturing
D. Fayoux

Sealing systems – Tests on friction and punctiform loading
F. Saathoff, S. Kohlhase & F.-F. Zitscher

Bursting test: Validation by 2D-tension test and infrared thermography
M. P. Luong & C. Bernhard

Contribution to the choice of a single tensile test on geomembrane
J. P. Gourc, H. Perrier, J. B. Bemeton, B. Leclercq

Large-scale testing of waste containment sealing under point loading in high pressure testing device
Joachim T. Pape & Li Huang

Application of geotextiles in combination sealings for the protection of polymeric flexible membranes
H. Steffen

Examination of the microstructure of geomembranes and seams by light transmission microscopy
Ian D. Peggs & Daniel S. Carlson

Measure of radionuclides (Cs, Co, Sr...) diffusion coefficients through a coating of radioactive wastes using epoxic resins
G. Beaudoing, C. Signoret & C. de Tassigny

The relation of high pressure OIT to oven aging for HDPE liners
M. W. Cadwallader
9. Mechanical damage

The installation survivability of geotextiles and geogrids
George R. Koerner & Robert M. Koerner

Site damage trials on geotextiles
G.R. Watts & K.C. Brady

Influence of weaving structure and coating on the degree of mechanical damage of reinforcing mats and woven geogrids, caused by different fills, during installation
G.H. Troost & N.A. Ploeg

Summary and evaluation of construction related damage to geotextiles in reinforcing applications
John N. Paulson

Chemical and mechanical durability of geotextiles
J.W. Billing, J.H. Greenwood & G.D. Small

Installation problems with geotextiles, an overview of producer's experience with designers and contractors
W. Voskamp, H.A.M. Wichern & W. van Wijk

Abrasion damage to geotextiles used in gravel road pavements on frost-damaged roads in Sweden
Einar Lindh

Damage on geotextile during rockfills placing
F. Antoine, H. Perrier & G. Druelle

Field trials to evaluate geotextile puncture resistance
J.H. Dixon & S. Osborn

10. Creep and durability

The creep of geotextiles
J.H. Greenwood

Designing soil reinforcement with woven geotextiles – The effect of mechanical damage and chemical ageing on the long-term performance of polyester fibres and fabrics
D.J. Viezee, W. Voskamp, G. den Hoedt, G.H. Troost & H.M. Schmidt

Creep of geotextiles at different temperatures
J. Müller-Rochholz & Reinhard Kirschner

Creep of geotextiles: Soil reinforcement applications
Y. Matichard, B. Leclercq & M. Segouin

Plane strain tensile strength and creep of spun-bonded non-wovens
H. Miki, Y. Hayashi, K. Yamada, T. Takasago & H. Shido

Variation of long term design strength of geosynthetics in temperatures up to 40°C
D.I. Bush

Creep behavior of geotextiles
Braja M. Das

Evaluation of creep-rupture properties of geosynthetics
D.E. Duvall & P.D. Egan

Durability of geotextiles: Pragmatic approach used in France
B. Leclercq, M. Schaefffner, J.C. Blivet, Ph. Delmas & Y. Matichard

Recent advances in chemical compatibility evaluation of geosynthetic materials
P.E. Cassidy, M. Mores, D.J. Kerwick & D.C. Koeck

Hydrolysis of HT polyester yams in water at moderate temperatures
P. Risseeuw & H. M. Schmidt

Evaluation of the life expectancy of polypropylene geotextiles used in bottom protection structures around the Ooster Schelde storm surge barrier: A case study
J.D.M. Wisse, C.J.M. Broos & W.H. Boels
Conclusions of an extensive BR1 IE-research programme on ageing
Lieva Van Langenhove

Physicochemical changes in laboratory-aged orientated polypropylene tapes – The effects of stress and humidity
A.Richard Horrocks & Jennifer A.D’Souza

An overview of practices used in the United States to determine the compatibility of geosynthetics with chemical waste

The weathering of fourteen different geotextiles in temperate, tropical, desert and permafrost conditions
P.R. Rankilor

Durability testing and prediction of geotextiles and related products
H. Schneider

Kinetic models for the life prediction in PET hygrothermal ageing: A critical survey
J-M. Jailloux & J. Verdu

11. Miscellaneous tests

Pullout evaluation of geosynthetics in cohesive soils
B.R. Christopher & R.R. Berg

Direct shear and pullout frictional resistance at the geotextile-mud interface
K. Garbulewski

Large scale pull-out tests on geotextiles and geogrids
E.M. Palmeira & G.W.E. Milligan

Observations of photo-elastic pullout tests on geotextiles and geogrids

Improving design through the use of in-soil testing
A.B. Fourie, N.G. Bentley & K. Fabian

Super large triaxial compression tests on reinforced sand with high strength geogrid
M. Futaki, H. Suzuki & S. Yamato

Multiaxial stress rupture and puncture testing of geotextiles
G. Werner, G. Pühringer & R. K. Frobel

Towards a standard tensile test: Evaluated results of Dutch interlab test programme

Testing and application of geotextiles in Hungary
T. László, A. Schneider & S. Tombor

Certification of geotextiles
J. Perfetti & R. Biguet

Research of influence of test conditions on the tensile strength of geotextile
Wang Anjiang, Zhang Bin & Lu Lihua

Strength and survivability evaluation of some Indian geotextiles
G. Venkatappa Rao, J.M. Kate & K.K. Gupta

Analysis of the flexibility of geotextiles
J. Gielly, C. Coutet & B. Lamri

Cubical and cylindrical tests for measuring in-soil load-extension properties of geotextiles
Jonathan T.H. Wu & Vasken Arabian

Design of a fixture for determining the puncture strength of geo-fabrics
S.N. Pandey & A.K. Majumder

The compressibility of needle-punched non-woven geotextiles
H. Novais-Ferreira

Efficiency of different reinforcing materials on the bearing capacity of soil
M.O. Al-Ashou & M. Al-Jebouri
Measurement of friction characteristics in contact with geomembranes
H.Girard & G.Mathieu

Assessment of sand-geotextile friction
J.Alenowicz & E.Dembicki

Geosynthetics skin-friction: Influence of the equipment on the measure
J.P.Gourc, J.Gballou, J.C.Blivet, J.Puig & G.Mathieu

Investigation of frictional characteristics between sandy soils and non-woven fabrics
R.H.Chen, M.S.Chen & B.A.Gong

Interface friction evaluation of some Indian geotextiles
G.Venkatappa Rao & J.M.Kate

Friction characteristics of polypropylene reinforcing straps in sand and p.f.a. fills
T.W.Finlay & A.Bouazza

Sand-geotextile interaction by direct shear testing
G.A.Athanassopoulos, D.K.Atmatzidis & P.Z.Bousias

Direct shear tests: A Brazilian experience
D.Vidal, M.A.R.Costalonga & S.H.de Mello Jr.

The mechanical effect of inclination of geotextiles in sands
R.H.Chen & R.G.Lee

Strength comparison of fiber and geomesh reinforced clay
Raid R.Al-Omari

Anchorage resistance of geogrid reinforced soil systems: Large-scale tests
G.E.Bauer, A.O.A.El Halim & Q.Shang

Pull-out behaviour – Experimental study
Y.Bourdeau, J.P.Gourc, P.H.Gotteland & H.Perrier

The effect of grid geometry and aggregate size on the stress transfer mechanism
G.E.Bauer & Y.M.Mowqfy

Geogrid pull-out test in clay
M.A.R.Costalonga

Effect of compaction moisture contents on pullout of steel geogrids with weathered clay backfill
D.T.Bergado, C.B.Cisneros, C.L.Sampaco, M.C.Alfaro & R.Shivashankar

12. Special products and applications

Ground vibration isolation using gas cushions
F.De Cock & C.Legrand

Contribution of geosynthetics to the damping characteristics of sport grounds
J.M.Rigo, J.Wiertz, G.Hunebelle, P.Goblet & M.Gillard

The fundamental definition and classification of warp knitted D.S.F. geotextiles for civil engineering end uses
S.Raz & P.R.Rankilor

Testing of asphalt concrete pavement with fabric interlayer and long term observation
I.Yamaoka, H.Miyai, K.Yasuda & T.Hara

Computer aided design of geotextiles by functions
O.Gicot, J.M.Rigo, K.Smolders, Y.Mathieu, E.Alexandre & C.Legrand

Potential for use of natural fibres in geotextile engineering
J.N.Mandal & M.V.R.Murti

Soil-reinforcement interaction under a joint of buried conduit
J.Sohn, W.J.Lee & B.S.Lee

Geotextile for improving the bases under joint of precast road pavements
V.D.Kazarnovsky, A.G.Polunovsky & N.V.Tabakov

Geotextiles for backfilling on deep level mines
M.G.Dickson & C.S.Strydom
Geotextiles as tie-backs and deep vertical screens
Paul G.M. Silence, Eric Van den Eede & Jan Himpe

Translucent P.V.C. water-proofing geomembranes for underground works
J.L.Mahuet & J.F.Jaby

Soil reinforced by waste plastic material
C.Coulet, D.Daudon & J.D.Rakotondr manitra

Reinforcement with fabrics and geonets
Svante Johansson

Intelligent earth anchor systems on the basis of heavy duty composite fiber materials
Reinhard Wolff & Hans-Joachim Miesseler

Road reinforcement with a geotextile fabric: Prevention of karstic sink holes
H.Perrier, P.Ducol, M.Simon & M.Lacroix

Application of polymer-grid foundation mattress to buildings on sulfate-contained grounds
H.Ochiai, S.Hayashi, J.Otani & K.Matsui

Effective applications of natural-fibre geotextiles
J.C.Thomson

The use of slit film geotextiles in China
Liu Zong-Yao

Application and research on polyolefine geotextiles
Dagang Zhou, Yansheng Wu & Zhiqun Yang

Geotextiles and geomembranes – Partners in Australian project development
M.A.Saddler & T.Webb

Geosynthetics provide innovative solution to mine establishment problems
Neil Finn & Tim Webb

Application of hyper-geocomposite to improve the quality of concrete
N.Miura, H.Kinosita & S.Yamato

20 years’ experience with asphalt reinforcements made of polyester fabrics
R.Kirschner

Results after five years of use of a system of asphalt overlay fabric with bitumen to retard reflective cracking in pavements
J.Puig, M.Patier & J.Vecoven

Polypropylene grid reinforced asphalt overlays
P.J.Cearns & J.H.Dixon

Repairing a cracked concrete pavement with a thin asphalt rubber concrete overlay on a geotextile
D.Thouret, J.Puig & C.Martin

Drainage and waterproofing of cracked roadway
P.M.Spillemaecker & J.Puig

Geotextiles to prevent reflective cracking in road – Assessment in France, future prospects
J.Vecoven, J.P.Benaben, G.Colombier, G.Morel & M.Verhee

The effect of compaction technique on asphalt concrete reinforced by a geogrid
A.O.A.El Halim & Otto J.Svec

Thermal resistance of polypropylene geotextiles used in interlayers retarding the reflective cracking in pavements
J.M.Rigo

Marine pipeline stabilisation by means of concrete/fabric gravity mats
P.de Geeter & H.J.Dunnewind

Use of steel-reinforced fabric strips for de-bogging of vehicles
P.de Geeter & H.J.Dunnewind
