Contents

Numerical Index ........................................... ix
Author Index ............................................. xi
Author Affiliation Index ................................ xiii
Subject Index ............................................... xv
Operating Section Awards ............................... xvii

AUTOMATION AND TELECOMMUNICATIONS

Mobile Data Applications in the Gas Industry (95-OP-088)—Jon Pilon ........................................ 3
Load Center Consolidation Project—Pacific Gas and Electric Company (95-OP-116)—John Groppetti ........... 6
Installation, Start-up and Operation of MOPICO Compressor and Controls (95-OP-050)—
Michael D. Spencer P.E ..................................... 10
A Field Experiment to Evaluate the Practical Benefits of the Utility Communications Architecture for Gas
Utility Applications (95-OP-031)—Kiran M. Kothari and Barry W. Dial ........................................ 13

COMPRESSOR

New High Efficiency Separable Compressors (95-OP-111)—Greg Phillippi and Keith Burley ................. 18
The SIP Combustion System for NOx Reductions on Existing Dresser-Rand Gas Engines (95-OP-080)—
Alan C. Anderson ........................................ 26
An Update of the A.G.A. Pipeline Research Committee Noise Related Research Projects (95-OP-085)—
Brian R. Hellebuyck ........................................ 39
Emissions Retrofit Technologies for a Family of Large-Bore Spark-Gas Engines (95-OP-068)—
Allen D. Gillette ........................................... 44
U.S. Operating Permit Program: Guidance for Gas Turbine Users (95-OP-019)—Michelle Long .............. 54
The Use of Pipe Bends in Compressor Stations and Pipelines (95-OP-108)—Robert M. Meierhoff .......... 66
Emission Control for Gas Fuelled Engines (95-OP-049)—Bo L. Mikkelsen and R.G. Mitchell .......... 78
The Use of Electronic Gas Admission Valves in Power Cylinders and In-Cylinder Pressure
Sensors to Auto-Balance an Engine (95-OP-033)—Steve Hawley ........................................ 82

CORROSION CONTROL

Saving Money Through Cathodic Protection (95-OP-042)—Ralph W. Stephens ................................ 85
Basic Corrosion Concepts for Non-Corrosion Personnel (95-OP-073)—David H. Kroon ................. 89
Acceptable Levels of Cathodic Protection (95-OP-016)—Virgil L. Johnston .............................. 92
Pipeline Rehabilitation Planning and Project Execution (95-OP-056)—Daniel P. Werner ..................... 96

CUSTOMER SERVICE & UTILIZATION

CG&E's Customer Service System (95-OP-053)—Arthur L. Davidson ...................................... 100
Service Department—Take Home Vehicle Program (95-OP-058)—Richard Conlin, Jr. .............. 107
Assessment of Home Based Service Vehicles at Piedmont Natural Gas Company, Inc. (95-OP-028)—S. Pinkney Bynum 108
Gas Industry Impact from Interior Gas Distribution Products (95-OP-109)—Renny Norman and Robert Torbin 116
Odoration—Instruments for Field Monitoring (95-OP-002)—G.S. Lomax .................................. 120

DISTRIBUTION CONSTRUCTION & MAINTENANCE

Pipeline Safety Regulation (95-OP-004)—Cesar De Leon .................................................. 127
DOT's Proposed Operator Qualification Rule (95-OP-094)—John Erickson ...................... 131
Federal Pipeline Safety Legislation Update (95-OP-095)—Doug Preberg ..................... 140
A.G.A. Operating Best Practices Benchmarking (95-OP-023)—John W. Bayko ............................ 150
What's New in Vacuum Excavation Technology (95-OP-062)—Joseph Marazzo and Clara D. Giustino 160
CIMOS Revisited (95-OP-035)—Dr. Renny S. Norman 164
Automated Work Management (95-OP-027)—Joseph De Furia 166
The Effects of Lightning on Buried Polyethylene Distribution Piping (95-OP-025)—Arthur C. Eberle, P.E., Sudheer M. Pimputkar and Joseph A. Stets 168
PECO Energy “Lining for the Future” (95-OP-063)—T. Mark Andra 171
Pipeline Rehabilitation Using a Soft Lining Process (95-OP-024)—T.F. Bonner 173
Driving Down Main Replacement Costs by 50 Percent (95-OP-090)—Stuckey J. Stoudemire 176

DISTRIBUTION ENGINEERING

Integrating Residential Value of Service Results into the Facility Planning Process (95-OP-043)—Lisa Cooper, Davis C. Flaten-Falltrick and Simon C. Salcedo 180
Changing Design Considerations under the New Gas Supply Unbundling (95-OP-109)—Thomas E. Smith 187
Engineering Skill-Based Training & Compensation (95-OP-117)—Lindsay C. Lindgren 191
Pipeline Construction in Wetlands: Lessons Learned (95-OP-051)—Kristin K. Luginbuhl and Donald K. Gartman 193
Design and Project Management Considerations Involved with Horizontal Directional Drilling (95-OP-014)—John D. Hair, P.E 197
Gas Utility Mapping Practices (95-OP-022)—John C. Place 202

DISTRIBUTION MEASUREMENT

Mass Flow Meters for NGV Fueling Dispensers (95-OP-114)—Christopher F. Blazek, Patricia Freeman-Rowley and Kenneth Kiha 207
Evaluation of Repair vs. Replace Options for Class I Meters (95-OP-047)—William E. Doherty and Carl B. Priode 215
Ultrasonic Meter Trial at Consumers Gas (95-OP-078)—Donald Eagleson 224
New Ideas and Developments in Distribution Measurement (95-OP-072)—Paul J. Ziegler 231
Sonic Nozzle Proving in the Meter Shop (95-OP-101)—John D. Stephenson 244

ENVIRONMENTAL MATTERS

An Update on New PCB Rulemaking (95-OP-092)—Phyllis B. Levine 246
Status of the Enhanced Monitoring Rule (95-OP-093)—Lori S. Traweek 249
New Technology for Measuring Leak Rates (95-OP-040)—Robert A. Lott, Touche Howard and Michael Webb 251
Brooklyn Union’s Partnering Success with the EPA Results in a Star Studded Program (95-OP-045)—William Ireland 255
Con Edison’s Successful Experiences with the EPA Natural Gas STAR Program (95-OP-061)—Daniel Parrotta and Richard T. Brand 258
Handling Liquids in a Natural Gas Pipeline (95-OP-097)—John B. Milledge 260
Mercury-Contaminated Soil Remediation Technologies (95-OP-113)—James M. Evans, David S. Charlton, John A. Harju, Vit Kuhnel and Daniel J. Stepan 265
Working with Asbestos in Coal Tar Pipe Wrap (95-OP-048)—Michael J. Falise 274
Lead Exposure in Construction—OSHA 29 CFR Part 1926 (95-OP-071)—L. Skip Vernon J.D. 278
An Integrated Approach to MGP Issues (95-OP-046)—Lawrence H. Lies 280
Corporate Environmental Stewardship (95-OP-084)—Edmund P. Perry 295
Strategic Environmental Management (95-OP-067)—Gregory J. Odégar, Ph.D., J.D., Mark A. Fitch and Ben L. Parker 302
Environmental Audit and Voluntary Disclosure Privilege: What States Have Started, the 104th Congress Needs to Finish (95-OP-081)—Vincent D. Lajiness 306
PREvention: A Pipeline Needs PR (95-OP-091)—James E. Alderman 311

FLEET MANAGEMENT

Alternate Fuels Activities: A Report on Survey Results and OEM NGVs (95-OP-102)—John H. Stark 314
The Effect of Gas Quality on Natural Gas Vehicles (95-OP-115)—Christopher F. Blazek, Marek Czachorski and Patricia Freeman-Rowley 318
Aerial Lift Devices (95-OP-086)—Jerry Bohlinger 326
Benefits of Fleet Standardization and Life Cycle Programs (95-OP-066)—J. Michael Beach 332
Outsourcing Fleet Administration of Labor and Assets (95-OP-105)—Kelly Walker Associates 339
The Motor Transportation Information System (95-OP-077)—John A. Stratton 357
Vehicle and Equipment Chargeback System—The NEW Transporation Chargeback System Model in Use at Niagara Mohawk (95-OP-006)—Paul DeRoberts 365

GAS CONTROL

Issues in Training and Qualifying Gas Control Operators (95-OP-087)—Rene Baird 367
Do You Really Need A Gas Chromatograph? (95-OP-096)—John Lansing .................................................. 675
Protecting Customers From Unwanted Liquids (95-OP-112)—Henry W. Poellnitz, III, P.E. .......................... 687
Tracking Gas Quality (95-OP-018)—James C. Thelen and William H. Gabris ............................................. 691
Field Gas Chromatographs: Controller Update (95-OP-017)—Leighton Fields ........................................... 694
Gas Quality and Pipeline Pigging (95-OP-118)—Dwight J. Romig ............................................................... 699

UNDERGROUND STORAGE

Drilling Multiple Laterals From a Single Wellbore for Deliverability Enhancement (95-OP-021)—
Matt C. Rowan and Michael J. Whims .............................................. 703
Underground Storage of Hydrocarbons in Salt Formations (95-OP-020)—Joe L. Ratigan ...................... 710
Virtual Hydraulic Fracture (VHF) System, Using Computational Intelligence to Predict Storage
Well Deliverability After Hydraulic Fracture (95-OP-007)—Shahab Mohaghegh ................................. 719
Evolution and Development of a Deliverability Improvement Program for Gas Storage (95-OP-029)—
Timothy D. Maddox and Daniel L. Sikorski ......................................................................................... 724
Development of a Salt Dome Natural Gas Storage Project from Financing to Operation (95-OP-026)—
F.M. Cantrell, Jr. ............................................................................................... 732
A Slimhole Horizontal Well Application in a Gas Storage Reservoir: A Case Study (95-OP-069)—
Mark E. Gredell and Mark A. Benson ......................................................................................... 734
