CONTENTS

Human Factors & Simulation

101 The Advanced Daimler-Benz Driving Simulator ......................................................... 1
   Wilfried KADING (Daimler-Benz AG, Germany)

102 Database Development for Real Time Driving Simulation ........................................... 7
   James W. STONER (University of Iowa, U.S.A.), Douglas F. EVANS
   (MultiGen, Inc., U.S.A.)

103 Research on Forward Direct Field of View of Truck .................................................. 13
   – Drivable Field of View Required for Urban Road Driving –
   Yukio SHIOSAKA (Japan Automobile Research Institute Inc., Japan)

104 The Effect of Supplementary Lights Installed to Oncoming Cars on Driver Behavior during Right Turns
   Akira KABASAWA, Yutaka OKAMOTO, Takeshi KOBAYASHI, Tatsuo IWABE
   (Honda R&D Co., Ltd., Japan)

105 A Transient Tire Model for Cornering Simulations of Vehicles ................................... 25
   Gwanghun GIM ( Hankook Tire Mfg. Co., Ltd., Korea)

Warning Systems

106 Detection of Driver's Low Arousal Level to Prevent Traffic Accident .......................... 31
   Nobuo DAIMON ( Isuzu Advanced Engineering Center, Ltd., Japan), Satoki P. NINOMIJA
   (Aoyama Gakuin University, Japan)

107 The Application of Neural Network for Estimation of Wakefulness and Pleasantness from EEG Fluctuation
   Yukio KURODA (Toyota Motor Corp., Japan), Tomoyuki YOSHIDA
   (National Institute of Bioscience and Human - Technology, Japan)

108 Maintaining Driver's Vigilance for Preventive Safety ................................................ 43
   Kenji ISHIDA, Akinori HORIGUCHI, Yoshihisa OKAMOTO, Shuji HATA
   ( Mazda Motor Corp., Japan)

Safety

110 Bumper Heights and Bumper Height Mismatch .......................................................... 49
   H. Fred CHEN ( S.E.A., Inc., U.S.A.), Dennis A. GUENTHER (Ohio State University, U.S.A.)

111 RACV’s Role in Promoting Occupant Protection and the Australian New Car Assessment Program
   Michael CASE, John T. SANDERSON (Royal Automobile Club of Victoria (RACV) Ltd., Australia)

112 Fundamental Analysis of the Barrier-Crash Dynamics for Heavy Duty Trucks ................ 61
   Yasuhiro SUZUKI, Masaaki MORISAWA (Musashi Institute of Technology, Japan)

113 Computational Analysis of Passenger Car Structures in Side Impact .......................... 67
   Seog Gil HONG, Chang Soo CHOI, Sung Oh HONG (Kia Motors Corp., Korea)

Diesel Injection Systems & Fuel Spray

114 Heavy Duty Diesel Engine with Common Rail Type Fuel Injection System .................... 73
   Yoshihisa YAMAKI, Kazutoshi MORI, Susumu KOHKETSU, Koji MORI, Tetsuro KATO
   (Mitsubishi Motors Corp., Japan)

115 The Effect of the Higher Pressured Injection System on the Optimization of Fuel Consumption and Emissions of Heavy Duty Diesel Engine
   Han Joo KIM, Soo Ho CHO, Jin Ho LEE ( Daewoo Heavy Industries Ltd., Korea)
116 Trajectory and Dispersion of a Spray Impinging on a Combustion Chamber Wall
in a Direct Injection Diesel Engine
Takuo YOSHIZAKI, Keiya NISHIDA, Hiroyuki HIROYASU, Masami MIYAZAKI,
Seiji KOMAGUCHI (University of Hiroshima, Japan)

117 Modeling of Cavitation Phenomena in Fuel Injection System of Diesel Engines by
Use of Experimental Results
Hajime FUJIMOTO, Yukinori OTA, Kenji MATSUSHIMA, Shuzo ITO, Jiro SENDA
(Doshisha University, Japan)

118 A High Pressure Fuel Control and its Injection Characteristics
Yonggyu LEE, Sangho KIM, Jaeup KIM, Eungseo KIM (Seoul National University, Korea)

Alternative Fuels
119 Technology Comparison of Methanol, Natural Gas and Electric Vehicles
Nobuo IWAI (Japan Automobile Research Institute, Inc., Japan)

120 Butanol as Alternative Fuel in SI Engine
Phulporn SAENGBANGPLA (Chulalongkorn University, Thailand)

121 NOx Reduction Effect of Alumina Catalyst Applied to the Methanol Fueled Diesel Engine
Toshiro YAMAMOTO, Akira NODA, Takashi SAKAMOTO, Yoshio SATO
(Ministry of Transport, Japan)

122 A Study on Performance Characteristics of Gasoline-Alcohol Blends
J.O. CHAE (Inha University, Korea), S.C. CHUNG (National Industrial Technology
Institute, Korea), Y.S. JEONG (Seoul National University, Korea)

Exhaust Gas Emissions: Diesel Engine (1)
124 The Effect of Fuel Temperature and Humidity on Diesel Engine
Tawatchai NAKPIPAT, Mongkol MONGKOLWONGROJN (King Mongkut's Institute of
Technology Ladkrabang, Thailand)

125 Measurement of Transient Nitric Oxide Emission in a Turbocharged Diesel
Exhaust Using a Conventional Chemiluminescent Analyser
Siew Hwa CHAN, Seow Chay LOW, Xiang Song CHEN (Nanyang Technological
University, Singapore)

126 Diesel Particulate and NOx Reduction: The Effects of a Moving Bottom Auxiliary
Combustion Chamber
Akira MURAKAMI (MITI, Japan)

Exhaust Gas Emissions: Diesel Engine (2)
127 Modeling of NO Formation and Emission through Turbulent Mixing and Chemical
Processes in Diesel Combustion
Yoshinobu YOSHIHARA, Kazuie NISHIWAKI, Eiji MATSUKAWA
(Ritsumeikan University, Japan)

128 Development of Heavy-duty Diesel Engines for Low Emissions Using Exhaust Gas
Recirculation (EGR)
Christopher SUCH, John NEEDHAM, Simon EDWARDS, Hamish FREEMAN
(Ricardo Consulting Engineers Ltd., U.K.)

129 Computational Simulation for Regeneration of Wall-flow Monolith Diesel Particulate
Filter Trap
Jung-Kyu PARK, Gwang-Hyun KIM (Kon-Kuk University, Korea)

Electronic Engine Control
130 Present Status and Future Direction of Electronic Control Technology for S.I. Engines
Nobutaka TAKAHASHI, Toshio MATSUMURA (Nissan Motor Co., Ltd., Japan)
131 Engine Speed Control based on H-infinity Control Theory ........................................... 169
Hiroyuki NiSHIZAWA, Masataka OSAWA, Masatoshi YAMADA (Toyota Central R&D Labs., Inc., Japan), Atsuo YAMAMOTO (Toyota Automatic Loom Works, Ltd., Japan), Yoshikazu SUEMATSU (Nagoya University., Japan)

132 Determining the Threshold Value of Knock Intensity for a Knock Control System in Spark Ignition Engines
Tubagus Ahmad Fauzi SOELAIMAN (Bandung Institute of Technology, Indonesia), David B. KITTELSON (University of Minnesota, U.S.A.)

133 Misfire Detection Using the Variation of the Crankshaft Speed ......................................... 181
Sangsoo PAE, Inkeon LIM, Jongbum PARK, Eungseo KIM (Seoul National University, Korea), Byeongjin LIM (Turbo and Power Machinery Research Center, Korea)

Takashi SASAKI, Wataru HAMADA (Honda R&D Co., Ltd., Japan)

Intake Systems

135 A Theoretical and Experimental Study on the Optimal Design for the Intake System of the MPI Spark Ignition Engines
Jae-Soon LEE, Sung-Kwan LEE, Sung-Du LEE (Kon-kuk University, Korea), Keon-Sik YOON (Changwon National University, Korea)

136 Building up a Linked System of CAD/CAM/CAE in the Design of Motorcycle Inlet Port
Takashi WATANABE, Takayoshi SHIBATA, Masatoshi FUKAMACHI, Isao TSUDA, Shigehisa FUJITA (Honda R&D Co., Ltd., Japan)

137 Visualization of Internal Flow in the Intake Manifold of an In-line Six Cylinder
Haruyuki YOKOTA, Yoshihide TAKENAKA, Hiroshi NAKAJIMA, Yuzo AOYAGI (Hino Motors Ltd., Japan)

Gasoline Engine Combustion (1)

139 Effect of Charge Motion on Flame Kernel Behavior and Flame Propagation ....................... 211
Kyung-Hwan LEE, Deok-Kyu PARK, Chai-Soo KIM (Hyundai Motor Co., Korea)

140 Measurement of Flame Propagation in a 4-Valves/Cylinder Spark-ignition Engine Using Optical Fibers
Deok-Kyu PARK, Young-Jun CHEON, Kwang Min CHUN (Yonsei University, Korea)

141 Study of the ‘Caldera’ Stable Combustion Method in DI Gasoline Engine
Seiko KONO (Mazda Motor Corp., Japan)

192 Flame Visualization in Gasoline Engines - New Tools in Engine Development .................. 229
Ernst WINKLHOFER, Günter K. FRAIDL, Reinhard TATSCHL (AVL List GmbH, Austria)

Gasoline Engine Combustion (2)

142 A Study of the Mixture Preparation Process on Spark Ignited, Direct Fuel Injection 235
Engine
Takuya SHIRAISHI, Mamoru FUJIEDA, Minoru OHSUGA, Yoshishige OHYAMA (Hitachi Research Laboratory, Japan)

143 Development of a New 1.5L 4-Valve DOHC Lean-burn Engine with the Wider Air/Fuel Ratio Three Way Catalyst
Kenji OKA, Misao FUJIMOTO, Tomohisa FUJIKAWA, Noriaki MITOBE, Isao SHIMIZU, Akihito NAGAO (Mazda Motor Corp., Japan)

144 Measurement of Gasoline Injection Rate by means of LDV and Momentum Method ............. 247
Nobutoshi YOSHIDA, Kazuo YAMAGUCHI, Akio TAKAMURA (Ono Sokki Co., Ltd., Japan)
Environments (1)

145 Micro-Scale Model of Air Pollution Dispersion Generated by Vehicles Exhaust Gas .................................................. 251
   Rachmat Kentardjo BACHRUN, Sri Hartati SOENARMO, Novi LEKWANDI,
   Chakimulmal YASJKUR, Priyono Eko SANYOTO (Bandung Institute of Technology, Indonesia)

146 Emission and Emission Regulations in Thailand .......................................................... 257
   Phulporn SAENGBANGPLA (Chulalongkorn University, Thailand)

147 Emission Behavior of Motor Vehicles in Use .......................................................... 263
   Peter HUPFER (TÜV Bayern Holding AG, Germany)

148 The Zinc-Air-Energy-System-The Future Battery for Commercial Fleets? ............... 269
   Peter HUPFER (TÜV Bayern Holding AG, Germany), Günter W. TUMM
   (Deutsche Post AG, Germany)

Recycling

150 Development of the Bumper Recycling Program .................................................. 275
   Takeshi INOUE (Honda Motor Co., Ltd., Japan)

151 Plastics Recycling Concept - Part 1 - Multi-layer Extrusion Molding Process .................. 281
   Junichi KASAI, Toshiyuki KANESAKA (Isuzu Motors Ltd., Japan)

152 Plastics Recycling Concept - Part 2 - Multi-layer SANDWICH Injection Molding Process .................. 287
   Tatsuji KITAMURA, Nobuyuki AZAGAMI, Tetsuya TAKAHASHI (Isuzu Motors Ltd., Japan)

153 Recycling Technology of FRP Automotive Parts .................................................. 293
   Masahiro NARITA, Kiyotaka NAKAI (Aisin Seiki Co., Ltd., Japan), Hirokazu YAMADA,
   Takashi TOMIYAMA (Dainippon Ink and Chemicals, Inc., Japan)

Environments (2)

154 Automobile Emission Gases and Urban Environment .................................................. 299
   Kiyoyuki MINATO (Japan Automobile Research Institute, Inc., Japan)

155 Analysis of Fuel Consumption Structure in Real Traffic Situations ............................ 305
   Takashi OGUCHI, Masaaki TANIGUCHI, Satoshi OKAMOTO (Nissan Motor Co., Ltd., Japan)

156 Experimental Study of Automobile Driving Resistance on Dynamometer Roll ............... 311
   Xiujing WEI, Gongyu PAN (Jingsu University of Science and Technology, P.R. China)

193 Energy-saving Power Steering Systems in Vehicles .................................................. 315
   Alois SEEWALD (TRW SSS, Europe, Germany), James MANISCALCO (TRW Inc., U.S.A.)

Environments (3)

157 A Study into the Effects on a Vehicle of Australian Coarse Road Surface Textures .................. 321
   Graeme GAMBOLD, Kozo OYAMA (Toyota Motor Corp., Australia)

158 Investigation on Automobile Corrosion Environment in Thailand ................................. 327
   Praphun LEEMATAWEKOOL (Isuzu Technical Center (Thailand) Co., Ltd., Thailand),
   Hiroshi UCHIGATA (Isuzu Motors Ltd., Japan)

159 Evaluation Method of Thermal Environment in the Vehicle ........................................ 333
   Itsuhei KOHRI, Takuya KATAOKA, Yasuji FUSADA (Mitsubishi Motors Corp., Japan)

Natural Gas Engines

160 Reviews on the Current Technologies of HD Natural Gas Engines for Automotive Use ........ 339
   Takayuki SAKAI (Japan Automobile Research Institute, Inc., Japan)

161 A Study of a Low-NOx Lean-burning Natural-gas-engine ........................................ 345
   Masahiro SHIOJI, Makoto IKEGAMI (Kyoto University, Japan), Qi-Ming ZHU
   (State University of New York, U.S.A.), Ken'ichiro SATO (Toyota Motors Corp., Japan)

Electronic Control for NGV

| 165  | Theoretical and Experimental Study of Electronically Controlled CNG Injection Kit for Natural Gas Vehicle (NGV) | Rachmat K. BACHRUN, Arief HARYANTO, Priyono E. SANYOTO, Chakimulmal YASJKUR (Bandung Institute of Technology, Indonesia) |
| 167  | Development of a CNG Engine Electronic Control System for Commercial Vehicles | Tatsuji MIYATA, Ikurou NOTSU, Sadahiro TAKAHASHI, Yoshito WATANABE (Nissan Diesel Motor Co., Ltd., Japan) |

Two Stroke Engines

| 169  | Influence of a Controlled Exhaust Gas Wave Reflector in a Two Stroke Single Cylinder Engine to the Engine Performance | Chakimulmal YASJKUR, Rachmat Kentardjo BACHRUN, Wiranto ARIS Mumandar, Sugih NUGRAHA, Priyono Eko SANYOTO (Bandung Institute of Technology, Indonesia) |
| 171  | Characteristics of Scavenging and Combustion in a Two-cycle Uniflow Spark-ignition Engine | Masakazu OKAI (Tamagawa University, Japan), Michikata KONO (The University of Tokyo, Japan), Hisashi INAGA (Kioritz Corp., Japan), Seichiro KUMAGAI (Noritz Corp., Japan) |
| 172  | Time-series Analysis of Pressure Variation Effect on HC Emission in a Two-stroke Engine | Tetsuya OHIRA (Suzuki Motor Corp., Japan), Yuji IKEDA, Tsuyoshi NAKAJIMA (Kobe University, Japan) |

Structure: Analysis & Optimization

| 176  | A Study of the Effect of Interference Force on Design Sensitivity | Jungsun PARK (Hankook Aviation University, Korea), Mahnsik KIM (Daewoo Motor Co., Korea) |
| 177  | Strength of a Passenger Car Body with Relocated Seat Belt Anchorage Points | Young-Woo CHU, Young-Jin YUM, Seok-Jae CHU (University of Ulsan, Korea), Young-Woo LEE, Sang-Woo LEE (Hyundai Motor Co., Korea) |
| 179  | An Investigation on the Application of the Intelligent-signal-generation Principle in Fatigue Testing | Ignatius Pulung NURPRASETIO, Andi Isra MAHYUDDIN, Stephanus Nugroho KRISTONO, Djoko SUHARTO (Bandung Institute of Technology, Indonesia) |
| 180  | Effects of Test Conditions on Vehicle Structural Accelerated Testing | Ming YU (Dingyuan Automotive Proving Ground, P.R. China), Jihai ZHAO (Changcun Automotive Research Institute, P.R. China), Huile WU (Beijing Institute of Technology, P.R. China) |
Spring

181 Characteristic of Hysteresis Curve of the Leaf Spring ................................................................. 431
Toshio HAMANO, Eiji YAMAMOTO, Hideto ENOMOTO (NHK Spring Co., Ltd., Japan),
Ikuo NUMAZAKI (Isuzu Advanced Engineering Center, Ltd., Japan)

183 Experimental Study of Leaf Spring Life Affected by U-bolt Restrained Degree .......................... 437
Xiujing WEI, Mingzhong ZHAN, Ruoping WANG (Jiangsu University of Science and Technology, P.R. China)

184 Failure Analysis and Measures of Improvement for Laminated Spring of Alter-cross .............. 441
Section
Li Qiu ZHANG, Wei LI (Inst. of Dong Feng Automobile Engineering Research, P.R. China)

Powertrains (1)

186 A Study of Smooth Gear Shift Control System with Torque Feedback ........................................ 445
Ken'ichirou KURATA, Toshimichi MINOWA, Jun'ichi ISHII, Masahiko IBAMOTO
(Hitachi, Ltd., Japan)

187 The Fuzzy Control for a Clutch of an Electronically Controlled Automatic Mechanical Transmission (AMT)......................................................... 451
Shui Wen SHEN, An Lin GE, Bang Jie LUO, Tian Yi ZHANG, Jue Xin FAN
(Jilin University of Technology, P.R. China)

188 Research on Life Calculation of Automobile Clutch ................................................................. 457
Xingrong LIU, Jinwen WANG, Jun LI (Jiangsu University of Science and Technology, P.R. China)

195 New Control and Shift Strategies as Dual Functions for Continuously Variable Transmissions -CVTip- Jürgen JUNKER, Josef PETERSMANN, Willi SEIDEL, Patrick LARDY
(Dr.Ing.hc.F.Porsche AG, Germany)

Powertrains (2)

189 Compact 6-Speed Transmission for Passenger Cars and Light Commercial Vehicles ............. 467
Edmund SANDER, Jürgen JUNKER (Dr.Ing.hc.F.Porsche AG, Germany)

190 Optimization of the Solenoid Duty Control Parameters of a Passenger Car Automatic Transmission
Young Heub KIM (Hyundai Motor Company, Korea), Jang Moo LEE
(Seoul National University, Korea)

191 Drive-By-Wire (DBW) Control of Power Train System During the Automatic Shifting ............. 479
Anlin GE, Guihe QIN, Shun GE, Huansong LI (Jilin University of Technology, P.R. China)
