Contents

Volume 1

Preface

1 PLENARY SESSIONS

1.0 Opening Addresses

Opening Remarks at the 9th European Bioenergy Conference 5
Svend Auken

Bioenergy Policy in the Nordic Countries 9
Stefan Hultberg

Opening Remarks at the 9th EU Biomass Conference 25
Peter Gæmelke

1.1 Primary Production of Biomass

Agricultural Crops

Agricultural Experience as a Supplier of Biomass 29
Niels Th. Ilsøe

Biomass Production and Pretreatment; Perspective Strategies 36
E. J. M. T. van den Heuvel

Performance of C4 Plant Species as Energy Sources and their Possible Impact on Environment and Climate 42
N. El Bassam
Contents

Miscanthus Yields in Denmark 48
Uffe Jørgensen

Water and Nitrogen Effects on Sweet Sorghum Growth and Productivity 54
N. Dercas, C. Panoutsou and C. Dalianis

Quality of Solid Biomass Fuels — Influence of Crop Management 61
I. Lewandowski

Reed Canary Grass — A New European Energy Crop which can Meet the Demands from Both Agricultural and Energy Sector 66
Rolf Olsson

Experiments in the Production of Giant Reed (Arundo donax L.) Biomass 70
Massimo Vecchiet and Roberto Jodice

Forestry and Short Rotation Crops

The European Bioenergy Policy in Forestry 78
D. Asplund

Eucalypt Plantations for Production of Raw-Material for Industry and Energy in Europe 84

Municipal Wastewater Recycling in Energy Forestry 90
Kenth Hasselgren

Twenty Years of Research on Poplar Biomass Production in the Netherlands 96
L. C. Kuiper and H. W. Kolster

Short Rotation Forest Productivity Using Sewage Sludge as a Nutrient Source 103
D. M. Riddell-Black, C. Rowlands and A. Snelson
1.2 Provision and Production of Solid Biomass Fuels

Overview of the Development in the Provision and Production of Solid Biomass Fuels
Jan Erik Mattsson

Results on Wood Fuel Research of the Finnish Bioenergy Research Programme
D. Asplund

Logistics for Harvest, Transportation and Storage of Willow (Salix)
Jørgen Hinge, Kjeld V. Nielsen, Erik R. Schmidt and Jens M. Jensen

Evaluation of Short Rotation Forestry Harvesters in Europe
C. P. Mitchell and C. M. Angus-Hankin

Economics and Logistics for Upgraded Biofuels with Experience from the Swedish Market
C. J. M. Vinterbäck

Crop Residues as a Source for Decentralised Heat and Power Production in Rural Areas. The Case Study of Thrace
L. Kallivroussis, St. Rozakis, V. Vassilatos, V. Mellides, D. Petouni and Sp. Kyritsis

Process for RDF’s Production and Recycling
M. Bao Iglesias and J. L. Rodríguez Rodríguez

1.3. Processes for Large Central Power Plants

Large Scale Power Production from Biomass and Waste
Gian Luca Ferrero, Kyriakos Maniatis and Emmanuel Xenakis

General Overview over Recent Results and Plans Concerning Co-combustion of Biomass and Coal
Ingvar Rasmussen and Peter Overgaard

Recent Results and Plans Concerning Co-gasification of Biomass and Coal—An Overview
E. Kurkela
Safe Handling of Biomass Fuels in IGCC Power Production
C. Wilén and A. Rautalin

Biomass IGCC Overview and the Värnamo Power Plant
Krister Ståhl

General Overview over Recent Results and Plans for Large Biomass Boilers in Denmark
Merete Sørensen and Peer Jespersen

Fouling and Corrosion in Straw and Coal-Straw Fired USC Plants
Niels Henriksen and Ole Hede Larsen

Ash Deposit Chemistry and Structure Influences on Physical and Transport Properties
Larry L. Baxter, Bryan Jenkins, Thomas Gale, Scott Sinquefield and Gian Sclippa

1.4 Processes for Decentralized Heat and Power Production

General

Promising Biomass Conversion Technologies for Local Systems
Jürgen Sachau

Combustion

Experiences from 61 Straw-fired District Heating Plants in Denmark
Anders Evald and Mogens G. Larsen

Demonstration of Advanced Cogeneration of Heat and Power Based on Various Types of Biomass Using Fluidized Bed Combustion and Fuel Drying
Mikael Forss and Mikko Muoniovaara

Emissions from Commercial Small-scale Boilers Fired with Logs of Wood – Measurements and Modelling of Gas Phase Reactions
J. Larfeldt, S. Andersson, B. Leckner, M. Axell and L. Gustavsson
Contents

Gasification a.o.

Gasification Technologies for Heat and Power from Biomass 228
*A. A. C. M. Beenackers and K. Maniatis*

An Externally Fired Evaporative Gas Turbine Cycle for Small Scale Biomass Gasification 260
*J. De Ruyck, G. Allard and K. Maniatis*

Development of an Integrated Small Scale Combined Heat/Power Fixed Bed Gasification System Fuelled by Standard Gasifier Fuel 266
*H. A. M. Knoef and H. E. M. Stassen*

Combined Heat and Power Production Based on Gasification of Straw and Woodchips 272
*Ole Kristensen*

Stirling Engines for Biomass: State-of-the-Art with Focus on Results from Danish Projects 278
*H. Carlsen*

Biogas

Anaerobic Digestion – Yesterday, Today and Tomorrow 284
*Philip D. Lusk and Mark A. Moser*

Codigestion of Olive Oil Mill Wastewaters together with Manure, Household Waste or Sewage Sludge 290
*I. Angelidaki and B. K. Ahring*

Hygiene and Sanitation Requirements in Danish Biogas Plants 296
*H. J. Bendixen*

Pyrolysis

Pyrolysis Oils for Power Plants and Boilers 302
Experiences on Production and Combustion of Bio-oils from Biomass
Advanced Pyrolysis Process
C. Rossi, G. Trebbi and G. Pedrelli

1.5 Processes for Production of Transportation Fuels

General

EC Funded Agro-industrial Research for Integrated Production of Fuels and Industrial Products
B. Kerckow

Pyrolysis

Biomass Fast Pyrolysis Systems
A. V. Bridgwater

Stabilisation by Mild Catalytic Hydrotreating of Bio-oils Produced by Flash Pyrolysis
Rosanna Maggi, Aristóbulo Centeno and Bernard Delmon

Vegetable Oils and Ethanol

The Costs of Liquid Biofuels in the French Context
J. C. Sourie, J. P. Gaouyer and S. Labrousse

New Profitable Developments in Biodiesel
W. Körbitz

Rape Biofuel Production in Poland – Overview of Actual Situation and Perspectives
A. Grzybek, M. Rogulska and A. Roszkowski

Techno-economic Assessment of the Pretreatment and Hydrolysis of Wood for Ethanol Production
J. N. Saddler and D. J. Gregg

Progress on Ethanol Production from Lignocellulosic Biomass
Charles E. Wyman
Conversion of Wheat Straw to Ethanol: Wet Oxidation Pretreatment followed by Anaerobic Thermophilic Fermentation of the Hemicellulose Fraction
B. K. Ahring, D. Licht, P. Nielsen, A. S. Schmidt and A. B. Bjerre

1.6. Market, Economic and Environmental Aspects of Bioenergy

Environment
LCA of Biofuels under Different Environmental Aspects
M. Kaltschmitt, G. A. Reinhardt and T. Stelzer

Sustainability of Production and Use of Biomass for European Energy Supply
G. van der Bijl

Environmental and Energy Policies in Sweden and the Effects on Bioenergy Development
Kent Nyström

Methodologies for Environmental, Micro- and Macro-economic Evaluation of Bioenergy Systems
R. van den Broek and A. van Wijk

Economy and Markets
Price Trends for Wood Fuels in Sweden
Bengt Hillring

Financing of Bioenergy Projects
Lars Baadstorp

An Assessment of the Externalities of Biomass for Electricity Production in Spain
R. M. Saez, J. Leal and P. Linares

Potential Impact of Bioenergy Activity on Employment
G. Grassi
1.7 Non-technical Barriers

European Agriculture and Forestry Biomass Network AFB-NETT 427
C. A. Foster and A. L. Lamb

An Initial Market for Electricity from Biomass 432
R. A. Kettle

Type Approval and Financial Investment Subsidies for Small Biofuel Boilers in Denmark 435
L. G. Pedersen

Biomass in the Netherlands 441
K. W. Kwant, G. J. J. Smakman and S. I. Bestebroer

A Preliminary Analysis of Mechanisms to Improve Biomass-origin Co-generation in Brazil 446
Suani Teixeira Coelho and David Zylbersztajn

Policy Measures to Overcome Barriers of Bioenergy Use in Poland 459
G. Wisniewski, M. Rogulska, A. Grzybek, S. Golebiowski and S. Burgess

2 POSTER SESSIONS

2.1 Primary Production of Biomass

Agricultural Crops and Waste

Nutrient Extraction by the Harvestable Biomass 467
J. Fernandez, M. D. Curt and M. Hidalgo

Effect of Nitrogen Fertilization on Biomass Production and Macronutrients Extraction of Sweet Sorghum cv. Keller 473
M. D. Curt, J. Fernandez and M. Martinez

Adaption of Tree Tobacco Nicotiana glauca R.C. Graham to Warm-arid Conditions with Set-aside Land Use Purposes: Photosynthetic Responses 479
M. D. Curt, J. Fernandez and P. L. Aguado

The Case of Ginestra as an Innovative Energy Multi-purpose Crop 485
Carlo Baldelli
Fuel Data for Danish Biofuels and Improvement of the Quality of Straw and Whole Crops 490
B. Sander

A. Probabilistic Approach in Modelling Biomass Production 496
L. Merlo, B. Morgana, M. Pennisi and V. Sardo

Characterization of Miscanthus sinensis Potential as an Industrial and Energy Feedstock 504
M. G. Papatheofanous, E. G. Koukios, G. Marton and J. Dencs

Evaluation of Annual Cereal Species and Varieties as Energy Crops 509
J. R. Jørgensen, P. Flengmark and C.C. Olsen

Delayed Harvest of Wheat Straw for Combustion 513
J. R. Jørgensen and P. Flengmark

Nutrient Demand and Translocation Processes of Miscanthus x giganteus 517
S. Jodl, A. Hotz and D. G. Christian

Screening of Different Miscanthus Cultivars in Respect of Yield Production and Usability as a Raw Material for Energy and Industry 523
A. Hotz, W. Kuhn and S. Jodl

Production of Energy Crops in Summerdry Regions of Southwest-Germany for Solid Fuel 528
R. Vetter and J. Maier

Bioremoval of Heavy Metals from Soil by Miscanthus sinensis giganteus 531
Ana Fernando, Paula Duarte and J. F. S. Oliveira

Application of WIMOVAC to the Miscanthus Crop in Portugal 537
Paula Duarte, Ana Fernando, Gerard Bailey and J. F. S. Oliveira

Correlation Between Productivity Parameters and Climate for the Miscanthus Crop in Portugal 543
Ana Fernando, Paula Duarte, Gerard Bailey and J. F. S. Oliveira

Growth and Biomass Productivity of Miscanthus sinensis giganteus under Optimum Cultural Management in North-eastern Greece 548
N. G. Danalatos, C. Dalianis and S. Kyritsis
Contents

Effect of Sweet Sorghum Bagasse Compost on Sweet Sorghum Productivity in Plots Under Different Irrigation Conditions 554
M. J. Negro, J. E. Carrasco, P. Ciria, A. Cabanas, A. Navarro and M. L. Solano

Growth and Productivity of Non-conventional Energy Source: J. curcas 560
Shikha Roy

Growth and Productivity of Kenaf Under Greek Conditions 566
C. Dalianis and E. Alexopoulou

Radiation Use Efficiency, Plant Composition and Fuel Quality of Miscanthus sinensis x giganteus 571
N. Dercas, M. Christou and C. Dalianis

Comparative Studies of Fiber and Sweet Sorghum 577
C. Dalianis, C. Panoutsou and N. Dercas

Effect of Plant Density on Growth, Productivity and Sugar Yields of Sweet Sorghum in Greece 582
C. Dalianis, E. Alexopoulou, N. Dercas and Ch. Sooter

Adaptation and Productivity of New Varieties of Sweet Sorghum in Mediterranean Semi-arid Environments 588
P. Iannelli, A. R. Rivelli and A. Sacca

The Potential of Graminaceous Biomass Crops for Energy Production in the UK: An Overview 592
M. J. Bullard, D. G. Christian and C. Wilkins

Potential Yield of Jerusalem Artichoke (Helianthus tuberosus L.) in the Mediterranean Conditions 598
N. Losavio, N. Lamascese and A. V. Vonella

The French Fibre Sorghum Network: First Results 603
Claire Charonnat, Christophe Hevin and Ghislain Gosse

Miscanthus sinensis Plantations in Galicia, N.W. of Spain. Results and Experience over the last Three Years 608
M. Bao Iglesias, J. L. Rodriguez Rodriguez, I. Crespo Rodriguez and J. Lamas Alvarino
Comparative Growth Analysis as Applied to Paper Sorghum and Kenaf: CGR Partitioning between Leaf Area Index and Net Assimilation Rate 613
M. Monteleone and P. Gherbin

Growth and Yield of C\textsubscript{4} Species for Biomass Production in Mediterranean Environment 616
Salvatore Foti, Salvatore L. Cosentino, Cristina Patanè and Paolo Guarnaccia

Biomass Crops for Energy of Possible Introduction to Sicily 622
Valerio Abbate and Cristina Patanè

The Potential of \textit{Miscanthus} as an Energy Crop in Ireland 628
J. C. Clifton-Brown, B. M. Neilson and M. B. Jones

Energy Balance of the Thermic Use of \textit{Miscanthus} in Comparison with Wood and Fuel Oil 634
L. Lambert, G. Gaillard and J.-L. Hersener

Conflicts between Ecological Farming and Energy Use of Biomass from Agriculture 638
N. I. Meyer, V. Nielsen, B. T. Christensen, P. Kølster and C. Søgaard

Agronomic Research on Giant Reed (\textit{Arundo donax} L.). Management System and Cultivation of Two Different Provenances 644
Massimo Vecchiet, Roberto Jodice and Giorgio Schenone

Research in Selection of Giant Reed (\textit{Arundo donax} L.) Genotypes 649
Massimo Vecchiet, Roberto Jodice and Giorgio Schenone

Techniques and Costs in the Production of Giant Reed (\textit{Arundo donax} L.) Rhizomes 654
Massimo Vecchiet, Roberto Jodice, Luigi Pari and Giorgio Schenone

Evaluation of Giant Reed (\textit{Arundo donax} L.) Productivity in North and Central Italy under Two Different Irrigation Regimes 660
Massimo Vecchiet, Roberto Jodice, Carla Petrini, Roberta Bazzocchi and Giorgio Schenone

Spanish Thistle Artichoke, \textit{Cynara cardunculus} L., under Greek Conditions 663
C. Dalianis, C. Panoutsou and N. Dercas

Contents

A Dynamics-as-usual Development as Bordercondition for the Implementation of Global Biomass Energy Strategies 793
G. Ahamer, S. Schleicher and P. Read

Biomass Production for Energy and Industry in the Far South West of England 799
Carolyn Wilkins and Sara Redstone

Modelling Biomass Systems in Hungary 807
L. Szokonya, Gy. Marton and J. Denes

Potential for Biomass Energy in Wallonia 813
J. F. Van Belle, P. Lemaire and Y. Schenkel

Bio-energy Plantations: A Model System for Restoration of Semi-arid Regions 819
Ashwani Kumar

The Role of Biomass in a Sustainable Energy System for Austria 825
M. Lauer and J. Spitzer

Conversion Technologies from Biomass to Power in the Toscana Region 829
A. Tiso, D. Chiaramonti and H. P. Grimm

Delayed Harvest Improves Yield and Quality of Reed Canary Grass for Bioenergy (Abstract only) 835
Staffan Landström

Volume 2

Preface

2.2 Provision and Production of Solid Biomass Fuels

Harvesting, Storage and Transportation

The Self-propelled Briquetting Machine for Biofuels – Features and Chances of the “Haimer-Biotruck 2000” 839
Hans Hartmann
Contents

Harvesting and Handling of Energy Grain 845
_Erik Fløjgaard Kristensen and Villy Nielsen_

Quality of Chips from Fresh Felled and Summerdried Norway Spruce on Poor Sandy Soil and Rich Loamy Soil 851
_K. Suadicani_

Chip and Roundwood Method in Young Norway Spruce 857
_K. Suadicani_

Storage Trials with Willow from Short Rotation 863
_Pieter D. Kofman_

Energy Consumption and Costs of the Production Chains of _Miscanthus x giganteus_ 867
_J. A. Molenaar, W. Huisman and P. Venturi_

Large-Scale Production of Wood Chips from Forest for Energy 873
_T. Saksa_

Harvesting Short Rotation Coppice for Gasification in the Framework of the TtCR GAZEL Project 878
_Gautier Quenon and Yves Schenkel_

Innovative Harvesting and Sugar-Juice Separating Machine for Sweet Sorghum and Fiber Sorghum 884
_L. Pasquali, M. Taviani, D. Chiaramonti and F. Martelli_

First Trials on _Arundo donax_ and _Miscanthus_ Rhizomes Harvesting 889
_Luigi Pari_

_Cynara cardunculus_ Harvesting Mechanization 895
_Luigi Pari_

Harvesting, Storage and Logistic of Short Rotation Forestry for Fuel Production 901
_Luigi Pari_

Recent Developing on Sweet Sorghum Harvesting Mechanization 907
_Luigi Pari_
Contents

Harvesting, Storage and Logistics of Herbaceous Biomass Crops for Fuel Production 913
Luigi Pari

Fractionation of Straw and Reed 918
P. Vilppunen, J. Sohlo and H. Aaltonen

Pretreatment and Drying

Use of Dried Biomass in Borås – Present Experiences and Future Plans 923
Maria Münter

Bed Mixing Dryer for High Moisture Content Fuels 929
Mikael Forss

A Demonstration Site for a Yard to Chipping and Drying the Tree Wood Chips 931
E. Costantini and N. M. Tommasini

Pressurized Steam Drying of Biofuel 937
Arne Sloth Jensen

Upgraded Fuels

Short-rotation Poplar Bark Utilization for the Production of Light Briquettes 942
G. Danon, T. Stevanovic Janezic, B. Bujanovic and G. Stanojevic

Processing of Energy-Rich Packaging Wastes for Thermal Recovery 948
L. Hietanen, K. Hänninen and J. Juvonen

Energy from Wastes of Harvest in Tectona grandis Plantation 954
A. P. Dyer, G. Moya and L. Silva

Cork Powder (Waste) as Biomass Fuel 960
Luis Gil

Quality, Fuel Properties a.o.

Refining of Agricultural Wastes to Energy and Industrial Feedstocks 963
D. P. Koullas, M. Papatheofanous, H. G. Teas, F. Zannikos and E. G. Koukios
2.3 Processes for Large Central Power Plants

Co-combustion

Decision Theory and Biofuels – Application of Decision Theory for Plant Comparisons and Assessment of Technical Risks
Helle Junker and Karl Erik Widell

Combined Combustion of Biomass, Municipal Sewage Sludge and Coal in an Atmospheric Fluidised Bed Installation
J. van Doorn, P. Bruyn and P. Vermeij

Straw-firing Tests at Amager and Kyndby Power Stations
Jan Christensen and Peer Jespersen

Co-combustion of Biomass Pretreated in a Fluid Bed Pyrolysis Unit
M. W. Hansen, U. Henriksen and S. Houmoller

Preparation and Co-combustion of Cereals with Hard Coal in a 500 kW Pulverized-Fuel Test Unit
Volker Siegle, Bertram Schweitzer, Hartmut Sliethoff and Klaus R. G. Hein
Combustion

Optimisation of Full-Scale Biomass Fired Superheater Using CFD-modelling and Enhanced Process Design 1033
Reto Michael Hummelshøj

Reburning of a Pulverised Coal Flame with an LHV Gas 1039
Niklas Berge

Processes for Large, Central Power Stations 1045
Peer Jespersen and Jan Christensen

Gasification and IGCC

Updraft Gasification of Municipal Waste Simulation 1051
M. Bao Iglesias, J. L. Rodríguez Rodríguez, I. Crespo Rodríguez and M. C. López Leitón

Upgrading and Cleaning of Gas from Biomass Gasification for Advanced Applications 1056
M. Berg, J. Koningen, T. Nilsson, K. Sjöström and L. Waldheim

Gasification of Biomass and Coal for Power Production in Denmark 1062
Michael Madsen and Erland Christensen

An IGCC Plant for Power Generation from Biomass 1068
P. Barbucci and G. Neri

Results on Bioenergy Use and Conversion in the Finnish Bioenergy Research Programme 1074
D. A. Asplund and S. A. Helynen

High-temperature Cleaning of Biomass-Derived Fuel Gas 1080
M. Nieminen, P. Simell, J. Leppälähti, P. Ståhlberg and E. Kurkela

BIO-IGCC Biofuel Gasification Combined Cycle 1086
Gerth Karlsson, Leif Liinanki, Kari Salo and Heikki Keränen

Gasification of Biomass Wastes and Residues for Electricity Production 1090
André Faaij, Ad van Wijk, René van Ree, André Oudhuis, Lars Waldheim, Eva Olsson and Cees Daey-Ouwens
The Development of a Gasification Plant Utilising Short Rotation Coppice; Project ARBRE
Keith Pitcher and Henrik Lundberg

Contents

The Development of a Gasification Plant Utilising Short Rotation Coppice; Project ARBRE 1096
Keith Pitcher and Henrik Lundberg

Corrosion, Fouling and Alkali

Co-firing Coal and Straw in a 150 MW<sub>e</sub> Utility Boiler: Deposition Propensities 1102
K. H. Andersen, P. F. B. Hansen, K. Wieck-Hansen, F. Frandsen and K. Dam-Johansen

Equilibrium Considerations During Ash Deposition in Biomass Boilers 1108
Larry L. Baxter, Bryan Jenkins, Milton Blander, David Dayton and Thomas A. Milne

Inorganic Material Deposition in Biomass Boilers 1114

Corrosion and Fouling in Boilers of Biomass Combustion Plants 1123
R. Riedl and I. Obernberger

Alkali Metal Partitioning in Hot Flue Gases – Aspects of Equilibrium Modeling 1130
F. J. Frandsen, L. A. Hansen, H. P. Michelsen and K. Dam-Johansen

2.4 Processes for Decentralized Heat and Power Production

Biogas

Comparison Study of Three Fixed-Bed Digestors Using Different Baked Clay as Biomass Supports 1139
S. Gourari and A. Achkari-Begdouri

Decentralized Energy Production from Landfill Gas Plants 1145
H. C. Willumsen

Biogas Generation Plant in Existing Liquid Manure Storage Tank 1151
Klaus Ellehauge and Bjarne Lykkemark
Contents

Biogas Plant with 15% Higher Energy Efficiency Obtained by Exploitation of the Undigested Fibre Fraction as Additional Fuel 1157
F. Bertelsen and E. B. Kristensen

Construction of Power Plants on Anaerobic Processing and Utilization of Liquid Manure Effluents in Belarus 1163
V. M. Dorogouch and V. F. Pulyaev

First Lithuanian Biogas Plant: Experience and Problems 1166
G. Sargunas and J. Savickas

A Model for Anaerobic Digestion of Waste Slurries 1172
B. Linke

New International Sectoral Pilot Project for Promotion of Anaerobic Wastewater and Solid Waste Treatment 1178
H. Euler, L. Hulshof-Pol and A. Eitner

Treatment of Agricultural Wastes with Energy and Compost Production 1181
Wactaw Romaniuk

Batch Anaerobic Digestion of Agricultural and Municipal Solid Wastes 1187
Yves Membrez and Michel Glauser

THERMIE Project BM 77/94, “Grindsted Municipality Waste Water Treatment Plant”: CPH Generation Based upon Co-digestion of MSW and Sewage Sludge 1192
M. Hedegaard, T. Christensen and G. Petrozawodsky

Combustion

Measuring Performance of Fuelwood Fueled Small Boilers: Results and Methodological Aspects 1198
C. A. Peres and L. A. Horta Nogueira

Biomass Power Plant, Forssa, Finland, 17.2 MW_e + 48 MW_heat 1204
M. Puhakka
Two Stage Combustion – The Basis for Decentralized Power Production 1208
Nils Peter Astrupgaard

Advantages and Disadvantages of Biomass Fuels on a Fundamental Combustion Basis in Fluidized Beds 1215
Christian Wartha, Franz Winter and Hermann Hofbauer

Wood Stoves – Emission Reduction 1221
H. Hofbauer, T. Schiffer and G. Baumgartner

Ash Behaviour in Thermal Fluidised-Bed Conversion Processes of Woody and Herbaceous Biomass 1227
A. Moilanen, M. Nieminen, K. Sipilä and E. Kurkela

Biomass at CHP Plants – Experience and Development 1233
Per Holmgård and Arafa El'Kholy

Development of a Cogeneration Plant by Combustion of Biomass in an AFB Combustor and Heat Conversion into Electricity—a Stirling Engine V-160 1239
J. M. Martínez, R. Escalada, J. M. Murillo, L. S. Esteban and J. E. Carrasco

Fractionated Heavy Metal Separation in Biomass Combustion Plants as a Primary Measure for a Sustainable Ash Utilization 1245
I. Obernberger and F. Biedermann

Gas Chromatography and Mass Spectrometer (GC–MS) for Measurement of Polycyclic Aromatic Hydrocarbons from Biomass Combustion (Cynara cardunculus) 1252
Araceli Cabanas, Felicia Saez, Alberto Gonzalez and Ricardo Escalada

Practical Experiences with a Flue Gas Condensing System in a Wood Chip Heating Plant 1258
R. Stiglbrunner, K. Könighofer and J. Spitzer

Flue Gas Scrubbing and Condensing at District Heating Plants 1263
K. H. Oravainen

New Technologies for NOx Reduction and Ash Utilization for Biomass Combustion Plants 1269
T. Brunner and I. Obernberger
Contents

The Layer-flame Method of Bark Burning
F. Z. Fincker, Yu. A. Rundygin and I. B. Kubyshkin 1276

40 kW Stirling Engine Powered by Wood Chips
E. Münster 1280

Gasification

Catalytic Tar Cracking of Gas from Agricultural Residues and Biomass
C. Myrén, C. Hörnell, K. Sjöström, Q. Yu, C. Brage and E. Björnbom 1283

Small Scale Gasification of Short Rotation Coppice Willow for Electricity Generation
W. M. Dawson, G. Forbes and A. R. McCracken 1289

Fundamentals of Pressurized Gasification of Biomass
C. Rosen, E. Björnbom, C. Brage, G. Chen, Q. Yu and K. Sjöström 1295

Pressurised Combustion of Biomass-derived, Low Calorific Value, Fuel Gas
J. Andries, P. D. J. Hoppesteyn and K. R. G. Hein 1301

Co-gasification of Biomass and Coal in a Pressurised Fluidised Bed Gasifier
J. Andries and K. R. G. Hein 1306

Catalytic Cleaning and Hot Gas Filtration
Karsten Pedersen, Bjørn Malmgren-Hansen and Finn Petersen 1312

Heat and Power from Small Scale Biomass Plants in Rural Regions – A Typical Application Case Study in Mecklenburg-Vorpommern, Germany
U. Hansen, J. Adam and P. Wickboldt 1318

Gasification of Forestry Biomass in a Bubbling Fluidized Bed Gasifier
I. Gulyurtlu, C. Franco, E. Frade and I. Cabrita 1324

Mathematical Modeling and Exergy Analysis of Chemical Schemes for Complex Biomass Conversion
V. I. Anikeev, A. V. Gudkov and A. Yermakova 1330

## Contents

Gasification of Biomass in a Fluidised Bed Reactor: The Influence of Temperature and Biomass Particle Size 1404  
*S. Rapagna and P.U. Foscolo*

- High Temperature Catalytic Gas Cleaning for Pressurized Gasification Processes 1410  
  *H. Aldén, P. Hagström, A. Hallgren and L. Waldheim*

- Catalytic Tar Removal from Biomass Producer Gas with *in situ* Catalyst Regeneration 1416  
  *G. Lammers, A. Orio and A. A. C. M. Beenackers*

### Other Thermal Processes, Waste

- Modeling Biomass Gasification Units 1423  
  *Vincenzo Esposito and Colomba Di Blasi*

- High-Temperature Drying of Biomass Fuels 1429  
  *Colomba Di Blasi*

- Production of Bioelectricity from Rape Methyl Ester (RME) 1435  
  *P. Mauguin, E. Poitrat, J.-P. Gaouyer, C. Charonnat and G. Gosse*

- Co-combustion of Forestry Biomass with Tyres in a Circulating Fluidised Bed Combustor 1441  
  *I. Gulyurtlu, I. Cabrita, E. Penha, E. Frade and F. Figueiredo*

- Greenhouse Heating by Using Olive Oil Wastes on the Island of Corfu 1447  
  *Ch. Sooter, C. Dalianis, P. Choudalis and D. Papavassiliou*

- Life Cycle Analysis of District Heating with Biomass 1451  
  *H. Stockinger and I. Obernberger*

- Small Scale Cogeneration in Biomass Furnaces with a Stirling Engine 1457  
  *E. Podesser, H. Dermouz, M. Lauer and T. Wenzel*

- Co-combustion of *Miscanthus* and Coal 1460  
  *P. Visser*

- Fuel Cells for Electrical Energy from Gasified Biomass 1462  
  *A. Heinzel, V. Formanski, K. Ledjeff-Hey and G. Schaumberg*
Waste Water Treatment from Agro-based Biomass Waste Upgrading Pollutants Elimination Associated to Energy Generation
L. Vergnet, P. Rousset, A. M. Vergnet and G. Antonini

Volume 3

2.5 Processes for Production of Transportation Fuels

Chemical and Biological Processes

Production of Ethanol and Invertase by S. cerevisiae Grown in Blackstrap Molasses
Michele Vitolo

Solubilization of Pinus pinaster Wood by Acetic Acid
G. Vazquez, G. Antorrena, J. Gonzalez, S. Freire and S. Lopez

Alkaline Extraction of Acetosolv Eucalyptus Pulps as a Pretreatment for Peroxide Bleaching
G. Vazquez, G. Antorrena, J. Gonzalez and S. Freire

Structure and Composition of Sweet Sorghum Stalk Components
Evaggeli Billa, Dimitris P. Koullas, Bernard Monties and Emmanuel G. Koukios

Innovative Concepts in Agricultural Residues Utilisation for Subsustainable Development in Developing Countries (Icarus)

Comparison of Parameters of CES Biosynthesis by Fungal Species Aimed at Partial Biomass Liquefaction to Fuel Ethanol: A Survey of Balkan Studies on the Subject
S. D. Vlaev, G. Djejeva, V. Raykovska, A. P. Atev, E. G. Koukios, D. P. Koullas and D. Kekos

Comparison of Wet Oxidation and Steaming for Solubilization of the Hemicellulose Fraction in Wheat Straw and Birch Wood
Anette Skammelsén Schmidt, Jürgen Puls and Anne Belinda Bjerre
Charcoal and Glucose/Ethanol Production from Oil Palm and Cocoa Plantation Wastes 1516
K. O. Lim

Chemicals and Liquid Fuels from Biomass: The Acetone-Butanol-Ethanol (ABE) Fermentation 1522

Comparison of Neutral and Alkaline Cellulase Activities of Selected Fungi and Streptomycetes 1526
L. G. Vasilchenko, J. Ariunaa, B. Tsetseg, A. A. Pristavka and M. L. Rabinovich

Simulation of a Maize to Ethanol Process 1534
James C. Craig, Andrew J. McAloon and Frank Taylor

Sugar Beet Pulp as a Source of Pectin and Fermentable Substrates 1539

Bioethanol Production from Mixtures of Glucose and Xylose by Co-immobilized Yeast Cultures 1545
T. Lebeau, T. Jouenne and G. A. Junter

Project of a Demonstration Unit for Ethanol Production from Sweet Sorghum and Sugar Beet in Wallonia 1551
E. Meekers, P. Otte, C. Scheuren, J. Chapelle and J.-Ch. Jacquemin

Acid Hydrolysis of the Waste from the Pruning of the Olive Tree 1555
S. Sánchez, M. Moya, E. Castro, A. J. Moya, M. I. Romero, V. Bravo and F. Camacho

Anaerobic Bioreactors Producing Chemicals and Fuels—Innovations and Engineering Database 1560
M. S. Todorovic, E. N. Boyce, F. Kosi and L. J. Simic

A Bidisperse Model to Study the Production of Ethanol from Starch Using Enzyme and Yeast Coimmobilized in Pectin Gel 1566
Luciana R. B. Gonçalves, Roberto C. Giordano and Raquel L. C. Giordano
Development of a Highly Efficient Process with High Cell Density for the Long-Time Continuous Production of Ethanol from Industrial Substrate

Y. L. Yang, J. G. Yoon, J. M. Kim and C. Y. Choi

Thermochemical Processes

Production of Transportation Fuels by Upgrading of Biomass Flash Pyrolysis Liquids Via FCC Technology

M. C. Samolada and I. A. Vasalos

Rapid Pyrolysis of Olive Waste at High Temperature

R. Zanzi, K. Sjöström and E. Björnbom

Co-pyrolysis of Biomass with Plastics: A Way to Process Pollutant Residues into Valuable Products

F. Pinto, I. Gulyurtlu, I. Cabrita and M. Gonçalves

Biomass Gasification for Fuel Process in the Fischer–Tropsch Synthesis

V. I. Anikeev, A. V. Gudkov and A. Yermakova

Premium Grade Hydrocarbons from the Catalytic Treatment of Pyrolysis Vapours Derived from Biomass

P. A. Horne and P. T. Williams

The Pyrolysis of Municipal Solid Waste in a Fluidised Bed Reactor

Elizabeth A. Williams and Paul T. Williams

Liquid Biofuel for Diesel Power Production: A Techno-economic Assessment

Anders Ahnger and Robert G. Graham

Regimes of Ablative and Non-ablative Pyrolysis of Cellulosic Materials

Colomba Di Blasi

Bio Crude Oil Upgrading by in situ Electronic Stimulation of Flash Pyrolysis Vapours

J. Köhler, M. Jäger, R. Schmidt, F. Toci and F. Brunori
Contents

Comparison of Ablative and Fluid Bed Fast Pyrolysis Products: Yields and Analyses

On the Kinetics of the Flash Pyrolysis of Cellulose and Xylan
Mario Lanzetta, Colomba Di Blasi and Federico Buonanno

Vegetable Oil-based Processes a.o.

Mixed Vegetable and Diesel Oil as Fuel
J. Zubr and R. Matzen

Decentralized Production of Biodegradable Lubricants and Renewable Fuels from Oil Crops on the Production-Site, in Mobile Units
U. C. Knopf

Exhaust Gas Emissions and Effects of Environment and Human Health of Rape Seed Oil Based Fuels
J. Krahl, H. Seidel and J. Bünger

The Bio-ultracarbofluid Process
C. Skarvelakis, M. Hazi and G. Antonini

Biohydrogen

Investigations to Apply Biologically Produced Photohydrogen as a Future Energy Source
R. Wünschiers, J. Appel, K. Stangier, S. Phunpruch and R. Schulz

Photobiological Hydrogen Production Using Immobilized Rhodobacteria: Biofilm Formation in a Loop Reactor
S. Tramm-Werner, M. Weng, W. Hartmeier and M. Modigell

2.6 Market, Economic and Environmental Aspects of Bioenergy

Economics

External Costs of the Biomass Fuel Cycle Under Greek Conditions
Nick D. Diamantidis, Stylianos Arvelakis and Emmanuel G. Koukios
Contents

Economic Assessment of Straw and Energy Crops for Agriculture and Carbon Dioxide Reduction

*Michael S. Parsby*

Centralized Biogas Plants; Economic Potential

*K. Hjort-Gregersen*

Environmental Issues

The Effect of N$_2$O Emission on the Net CO$_2$-Displacement by Energy Crop Production

*R. N. Jørgensen and B. J. Jørgensen*

Demonstration Project for the Use of Rape Methyl Ester in Ecologically Sensitive Aquatic Areas

*Ulf Hansen, Rolf Strenziok and Thomas Schröder*

Biomass Utilization—Emission Situation and Limits in Czech Republic

*David Andert and Jaroslav Kára*

NO$_x$ Emission Reduction in Biomass Combustion Systems

*R. Bilbao, M. U. Alzueta, L. Prada and A. Millera*

Environmental Consequences of Intensive Harvesting

*Karin Hansen, Niels Heding, Per Gundersen and Inge Stupak Møller*

Sustainable Land Use in the European Union—Available Area for Biomass Production in a Sustainable Land Use Scenario

*Harry Lehmann, Roland Paryke, Annabell Pfluger and Torsten Reetz*

The Effect of Rational Management of Biological Resources and Systems on National Carbon Dioxide Balance—the Case of Greece

*D. P. Koullas and E. G. Koukios*

Use of Woody Biomass and Ash Recycling

*Åsa Granquist*

Biomass Energy Production: the Global Potential and the Net Influence on the CO$_2$ Concentration

*G. Ahamer*
Contents

Possibilities and Limitations for Biomass as a Means of CO₂ Reduction in the Danish Heat and Power Production 1748
*Hakon Mosbech and Klaus Jakobsen*

The Take Up of Heavy Metals by Wood Fuel Crops—Implications for Emissions and Economics 1754
*D. M. Riddell-Black, C. Rowlands and A. Snelson*

Environmental Aspects of the Use of Biofuels 1760
*M. Wiheraari*

Carbon Balances of Land Use and Bioenergy Options (Abstract) 1765
*B. Schlamadinger*

The Energetic Independence of Italian Agriculture—Possible Italian Biomass Program 1766
*R. Avella, C. Baldelli, V. Bartolelli, G. Caserta, R. Di Benedetto and R. Visentin*

Use of Biomass for Energy Purposes in Poland in Aspect of CO₂ Emission Reduction 1771
*M. Rogulska, G. Wisniewski, A. Grzybek and S. Golebiowski*

Integrated Concepts and Systems

An Investigation of the Potential Market for Small Scale Energy Systems Fuelled by Short Rotation Coppice in Ireland 1776
*P. Buckley, P. Johnston and W. D. E. O'Sullivan*

Integrated Technologies in the Biomass Utilization 1782
*G. Marton, J. Dencs and E. G. Koukios*

Market Aspects

Biomass—Technologies in Austria: Market Study 1788
*A. Grübl, G. Dell and Ch. Egger*

Biomass to Energy: a Resource with Future 1794
*Sigrid I. Bestebroer, Gerard J. J. Smakman and Kees W. Kwant*
Contents xxxvii

Resource Mapping and Analysis of Potential Sites for Short Rotation Coppice in the UK—Assessing the Opportunities for Biomass-to-Energy Technologies 1811

Biomass Utilization to Energetical Purposes in the Czech Republic 1817
*Jaroslav Kára, Zdenek Pokorny and David Andert*

Fermentation of Bio-waste as a Source of Renewable Energy 1823
*Andrea Schultheis and Dieter Steinbach*

Concept of Utilization of the Forest Biomass for Energy in the Slovak Republic 1828
*M. Oravec, J. Ilavsky, E. Majer and A. Hollingdale*

Straw Procurement—A Real Life Biomass Experience 1834
*Aage Faurholt and Gert Schultz*

Forest Energy Project of Central Finland 1994–1996 1838
*P.-J. Kuitto and M. Paananen*

Small Scale Rapeseed Oil Production for Energy in France 1841
*J. C. Sourie, E. Poitrat and C. Dupic*

Supply and Demand of Biomass in Italy 1847
*Luigi Pari*

Prospects of Biomass Application in Eastern Europe and Belarus 1853
*A. A. Mikhalevich*

Expanding Centralized Biogas Plants in Denmark for Purposes of Energy Production, Reducing Greenhouse Gas Emissions, Waste Recycling, and Other Environmental and Agricultural Benefits 1859
*S. Tafdrup*

Economic and Environmental Aspects of Bio-energy Productivity 1865
*J. Singh*
Regional and National Studies

Manual for the Implementation of Biomass Projects in Regional Energy Planning—Application in Southern Bohemia, Czech Republic
A. Geisslhofer et al.
1869

Comparisons Between Fluid and Solid Biofuels—Results of a Technology Assessment Study
L. Leible and D. Wintzer
1875

Environmental and Economic Effects of Organic Biomass Energetic Utilization in Venice's Basin
Giuliano Bertoni and Stefano Tromboni
1881

Energetic Use of Biomass, Especially Wood, in Bavaria
A. Reichel, P. Lamp and F. Ziegler
1887

The Energy Use of the Olive-Husks in Southern Italy—A Feasibility Study of Low-Cost Production and Distribution
Mario Buttiglieri
1894

Decentralised Production of Electricity from Biomass in Slovakia, Slovenia and Romania
1900

Converting Oil and Gas Fuelled District and Block Heating Systems to Biomass Fuels
R. V. Siemons and P. Quaak
1906

Externalities of Bio-energy in Dutch and British Regions—a Preliminary Analysis
André Faaij, Ausilio Bauen, Berry Meuleman and Frank Rosillo-Calle
1909

Optimisation of the Final Waste Treatment System in the Netherlands
André Faaij, Marko Hekkert, Ernst Worrell and Ad van Wijk
1916

Retrofitted Irish Peat Plants with Willow as Fuel
Richard van den Broek, André Faaij, Ad van Wijk, Tom Kent, Mike Bulfin, Kevin Healion and Garrett Blaney
1922
Contents

DESERESCUE. Small Agro Energy Farm Scheme Implementation for Rescuing Deserting Land in Small Mediterranean Islands, Coastal Areas, Having Water and Agricultural Land Constraints. Feasibility Study

D. Chiaramonti, M. Cendagorta, H. P. Grimm and N. El Bassam

Biomass for Energy from Herbage and Wood

Jean-Louis Hersener

L. Zingale

Regional Integrated Management of Biomass and Waste for More Sustainable Developments; the Case of Ile-de-France (Paris and its region)

Catherine Boemare and Arthur Riedacker

Models

BEFAT (Biomass Energy Flow Analysis Tool): A Multi-dimensional Model for Analysing the Benefits of Biomass Energy

S. L. Hemstock, F. Rosillo-Calle and N. M. Barth

RECAP Service Centre

Alison Moore and Karen Dury

Regional Economy and Biofuels

A. Carlson and B. G. Karlsson

Calculation Method and Economy in Salix Production

Håkan Rosenqvist

Modelling Forest Biomass Production by Biomass Toolkit

R. Apalovic, R. Apalovicova, R. Petras, N. Kyriazis, K. Blatsoukas and E. Koukios

Integration of the Decision Support Tool “Biomass Toolkit” Using a New Economic Model

J. C. Sourie, J. C. Hautcolas, N. J. Kyriazis, K. G. Blatsoukas and E. G. Koukios
Contents

Integrated Forestry and Biofuel: Land and Labour Allocations, Global Modelling and European Prospects 1985
P. Read and G. Ahamer

A Regional-Scale GIS-Based Modeling System for Evaluating the Potential Cost and Supplies of Biomass from Biomass Crops 1991

Market Opportunities for Fast Pyrolysis in Electricity Generation 1997
A. J. Toft and A. V. Bridgwater

Decision Making Tool Adapted to Biomass Energy Technology Dissemination - ASEAN Case Study 2003
