PROCEEDINGS OF

THE 1977 TOKYO JOINT GAS TURBINE CONGRESS

MAY 22-27
## CONTENTS

**GREETINGS by Ichiro Watanabe, Chairman of the Organizing Committee** ........................................... 1
**FOREWORD by Nagao Mizumachi, Chairman of the Executive Committee** ........................................... 9
**ORGANIZING COMMITTEE** .................................................................................................................. 13
**EXECUTIVE COMMITTEE** ................................................................................................................... 13
**SPONSORS** ........................................................................................................................................... 14
**COOPERATIVE SOCIETIES** .................................................................................................................. 14

## SPECIAL LECTURES

Special Lecture I

"Recent Status of Research and Development of FJR 710 Turbofan Engine"
by M. Matsuki ........................................................................................................................................... 1

Special Lecture II

"The Industrial Application of the Gas Turbine"
by I.G. Rice ............................................................................................................................................... 12

## TECHNICAL PAPERS

### Session A-1 Heat Transfer

Chairmen: T. Morishita, J.W. Patten

- "Measurements of Film Cooling Effectiveness Distributions for Exhausting through a Double Row of Holes"
  by N. Hirata ........................................................................................................................................... 20
- "Near-Hole Region Heat Transfer in Full-Coverage Film Cooling"
  by T. Morimatsu, M. Hirata, I. Katsumata .................................................................................................. 24
- "Film Cooling of a Gas Turbine Blade"
  by S. Ito, R.J. Goldstein, E.R.G. Eckert ................................................................................................... 50
- "Temperature Profiles of Rotating Cooled Blade"
  by Y. Shiota, Y. Nagashima, Y. Morigami, T. Tsuboi ........................................................................... 38
- "On the Nature of Jets Entering a Turbulent Flow"
  Part A: "Jet-Mainstream Interaction" by K. Kadotani, R.J. Goldstein .................................................... 46
  Part B: "Film Cooling Performance" by K. Kadotani, R.J. Goldstein ................................................... 55

### Session A-2 Heat Transfer & Regenerator

Chairmen: M. Hirata, P. Walzer

- "Experimental Verification of a Blade Cooling System and Comparison with Design Calculation"
  by D.K. Mukherjee, A. Suzuki, K. Aizawa ................................................................................................. 60
- "Impingement Cooling and its Application to Combustor Design"
  by C.O. Folayan, J.H. Whitelaw ............................................................................................................ 69
- "Perforated-Fin Type Compact Heat Exchangers for Gas Turbines"
  by C.Y. Liang, W.J. Yang, W.Y. Hung ..................................................................................................... 77
- "The Static and Dynamic Performance of Rotary Regenerators"
  - An Analytical Solution for Steady-State and the Derivation of Transfer Functions —
    by A. Umeda, S. Hayama ................................................................................................................... 86
- "The Development of a Regenerator Seal for Vehicular Use"
  by M. Kitano, H. Okano, T. Otani, Y. Kondo ...................................................................................... 97
- "Aluminous Keatite"
  - A Durable Ceramic Material for Rotary Regenerator Cores —
    by D.G. Grossman, J.G. Lanning ......................................................................................................... 105
### Session A-3: Combustor
Chairmen: P. Pucci, Y. Mizutani

   by T. Kameoka, Y. Sakamoto, K. Konishi, M. Suyari  
   Page 111
2. "Development of the Can-type Gas Turbine Combustors"  
   by K. Mori, J. Kitajima, S. Kajita, H. Sone  
   Page 120
3. "Experimental Investigation on the Scale Effects of Gas Turbine Combustion Chambers"  
   Page 129
4. "A Study on a Premixed Combustor for a Vehicular Gas Turbine"  
   by T. Morishita, K. Nakamura, Y. Tanasawa  
   Page 137
5. "A new Air Blast Type Combustor; Design, Performance and Emission"  
   by T. Tamaru, K. Suzuki, H. Yamada, S. Nakano  
   Page 143

### Session A-4: Fuel & Combustion
Chairmen: K. Suzuki, O.Y. Yang

1. "Properties and Evaporation of Jet-Engine Fuels at Pressurized Conditions"  
   by T. Aiba, Y. Enzaki  
   Page 152
2. "Vaporization and Combustion of Binary Liquid Drops on Heated Surfaces"  
   by W.J. Yang  
   Page 161

### Session A-5: Emission
Chairmen: R.A. Harmon, O. Kawaguchi

1. "A Mechanistic Model of Gas Turbine Combustors for Predicting CO and NO Emissions"  
   by M. Katsuki, Y. Mizutani  
   Page 168
2. "An Experimental Study of NOx Emission Control of Gas Turbine Combustors"  
   by K. Suzuki, A. Ishii, T. Saito, N. Sasaki  
   Page 175
3. "Smoke and Nitric Oxide Control for Gas Turbine Engines Burning Light/Heavy Fuels"  
   by K. Kawaguchi, C. Turuto, N. Sato  
   Page 184

### Session A-6: Performance of Gas Turbine-1
Chairmen: K. D.K. Mukherjee, K. Shirato

1. "The Design and Performance of High Temperature Turbines in Turbofan Engines"  
   by G.L. Wilde  
   Page 194
2. "Aerodynamic and Cooling Performances of a Film Cooled Turbine"  
   by H. Nouse, K. Takahara, Y. Yoshida, A. Yamamoto, K. Sakata, S. Inoue,  
   F. Mimura, H. Usui  
   Page 206
3. "Experiment on Aerodynamic and Heat Transfer Characteristics of a Cooled Turbine  
   Cascade Losing a Few Blades"  
   by K. Hiraoka, T. Morishita, S. Kan  
   Page 215

### Session A-7: Development of Gas Turbine
Chairmen: H.G. Münzberg, K. Takeya

1. "Development of the Experimental Gas Turbine Bus"  
   by S. Yamazaki, T. Itoh  
   Page 223
2. "Advantages of 3-Shaft KTT Gas Turbine Configurations for Automotive Applications"  
   by S.O. Kronogard  
   Page 231
3. "A Development of Advanced Radial Gas Turbine for Automobile"  
   by S. Sasaki, M. Takizawa, N. Mizumachi  
   Page 241

### Session A-8: Performance of Gas Turbine-II
Chairmen: S. Hayami, I.G. Rice

1. "Energy Economy with High Temperature Gas Turbine"  
   by H.G. Münzberg  
   Page 249
"Thermodynamical Performances of Closed-Cycle Gas-Turbine"
by T. Shirakura, S. Awano ........................................... 260

"On the Characteristics of the Suction-Cooling Gas Turbine Cycles
Using Ammonia-Refrigerator"
by J.K. Kim ............................................................. 271

"Energy Considerations on Performance of Gas Turbine in Combination with
Turbo-Absorption Refrigerating Systems"
by Y. Hanaoka ......................................................... 279

Session B-1 Internal Flow (Steady-I)
Chairmen: H. Ohashi, P. Pucci

"Calculation of Cascade Flow by Means of Spline Fit Singularity"
by M. Inoue, M. Kuroumaru ........................................ 288

"Numerical Analysis of Flow through Turbine Cascade by the Modified FLIC Method"
by T. Nagayama, T. Adachi ........................................... 296

"Three-Dimensional and Relaminarization Effects in Turbine Blade Cascades"
— An Experimental Study —
by L. Běřík ............................................................... 301

"Development of Velocity Profile through a Stage of Axial Flow Turbomachinery"
by T. Ikui, M. Inoue, M. Kuroumaru ............................... 311

"An Experimental Study of the Annular Diffusers in Axial-Flow Compressors and Turbines"
by A. Takehira, M. Tanaka, T. Kawashima, H. Hanabusa ......... 319

"Radial Equilibrium of Flows in Shock-in-Rotor Type Rotors"
by T. Hashimoto, S. Otsuka .......................................... 329

Session B-2 Internal Flow (Steady-II)
Chairmen: A. Hamed, K. Fujie

"A Research on Centrifugal Compressor for Small Gas Turbine"
— The Effect of Recirculating Flow —
by S. Higuchi, K. Nakamura .......................................... 337

"Pressure at Shroud and Flow in a Supersonic Centrifugal Impeller"
by Y. Seno, Y. Kinoshita, H. Hayami, K. Hara, T. Ishiuchi, H. Kobayashi ............. 344

"Investigation of Flow in Centrifugal Impeller with Tandem Inducer"
by M.P. Boyce, A. Nishida ........................................... 353

"The Effect of Free-Stream Turbulence in the Mixing Process"
by M. Saiy .............................................................. 363

"Leakage Characteristics of Labyrinth Seals with High Rotating Speed"
by K. Komotori, K. Miyake .......................................... 371

Session B-3 Internal Flow (Unsteady-I)
Chairmen: M.P. Boyce, M. Namba

"Surge Responsibility and Range Characteristics of Centrifugal Compressors"
by T. Yoshinaka ....................................................... 381

"A Study on Performance of a Radial Exhaust Turbine Driven by Pulsating Flow"
by H. Yoshiki, N. Mizumachi, T. Endoh, S. Morishita .................. 391

"Theoretical Analysis of Performance and Behavior of Exhaust Gas Pulse Turbines in
Engine Cycle Simulation"
by T. Azuma, H. Yamashita .......................................... 400

Session B-4 Internal Flow (Unsteady-II)
Chairmen: M.P. Boyce, M. Namba

"Unsteady Dynamic Responses of Subsonic Cascades to Sinusoidal Gust
(3rd Report — Stator and Rotor Blade Cascades in Oscillation)
by T. Nishiyama, T. Kobayashi ....................................... 409
"A Modification of Flutter Characteristics by Changing Elastic Nature of Neighbouring Blades in Cascade"
by Y. Hanamura, H. Tanaka .......................................................... 418

Session B-5 Noise
Chairmen: T. Adachi, G.L. Wilde

"Some Considerations on Pure Tone Noise Generation in an Axial-Flow Fan"
by S. Fujii, H. Nishiwaki, M. Watanabe, H. Kobayashi .................. 428
"A Study on Fan-Rotating Noise Reduction"
by K. Ishizawa, R. Sasaki, M. Uyama, K. Higashi ......................... 437
"Noise Control Analysis for Gas Turbine Installations"
by F.Y. Tsuchiya ................................................................. 444
"Noise from Separated Flow of Flat Plate"
by Y. Maruta, S. Kotake, K. Takeda ......................................... 449

Session B-6 Instrumentation, Control & Mechanical Design
Chairmen: J.F. Jones, T. Torisaki

"An Automatic Processing System for Vibration Data Analysis of Gas Turbine Engines"
by K. Jinboh, H. Aono, T. Kawashima ...................................... 455
"A Laser Doppler Velocimeter with Variable Frequency Shift for Combustion Flow Measurement"
by N. Nakatani, T. Konishi, R. Yorisue, T. Yamada .................... 461
"Assessment of the Structural-Mechanical Design of Commercial Aircraft Gas Turbine Engines"
by K. Schuppisser ............................................................... 471
"Development of the Control Systems of Blast Furnace Gas Energy Recovery Turbine Plants"
by H. Yamamoto, O. Nagata, I. Morita, Y. Katori ...................... 484
"Research and Development of Digital Jet-Engine Controls"
by M. Endo, K. Nishio, N. Sugiyama, T. Koshinuma, Y. Matsuda ..... 493

Session B-7 Material & Thermal Stress
Chairmen: A. Sato, J.L. Mangan

"Evaluation of the Properties of Gas Turbine Blade Materials in Long-Time Operation"
by H. Susukida, I. Tsuji, H. Kawai, H. Itoh .............................. 502
"Effects of Titanium, Niobium and Misch Metal on High-Temperature Strength and Ductility of Cobalt Base Superalloys"
by R. Sasaki, F. Hataya, Y. Fukui, T. Kashimura ....................... 511
"An Analysis on the Unsteady Fields of Temperature and Thermal Stresses in a Rotating Disk of Thermal Axial-Flow Turbines"
by E. Tuliszka ................................................................. 519
"Recent Developments in the Application of High-Rate Sputtering Technology to the Formation of Hot Corrosion-Resistant Metallic Coatings on Marine Gas Turbine First-Stage Vanes and Blades"
by J.W. Patten, D.D. Hays, R.W. Moss, J.W. Fairbanks ............. 527

Session B-8 Material
Chairmen: J.G. Lanning, S. Yamazaki

"Silicon Nitride Ceramics for Gas Turbine Engines"
by K. Komeya, A. Tsuge, H. Hashimoto, T. Kubo, T. Ochiai ............ 538
"Properties of Thermal Barrier Coatings for Combustion Liner"
by T. Uemura, Y. Nishiyama, S. Nagai .................................... 544
Session B-9  Air Cleaner, Deposit & Erosion
Chairmen: J.G. Lanning, S. Yamazaki

"Development of Ceramic Components for an Automotive Gas Turbine"
by P. Walzer, S. Förster ................................................. 550

"Application of Self-Cleaning Air Cleaners to Aircraft and Vehicular Gas Turbines"
by G. Bishop ........................................................................ 559

"An Experiment of Deposit Formation on Surface of an Air-Cooled Gas-Turbine Blade"
by M. Nomura, T. Morishita, S. Kan ...................................... 566

"Aerodynamic Effects on Erosion in Turbomachinery"
by W. Tabakoff, A. Hamed .................................................. 574

CONGRESS RECORD

Congress Schedule .............................................................. 585
General Review of the Congress ......................................... 587
Table of Participant Number ............................................. 593
Organizing Committee Members ...................................... 594
Working Committee .......................................................... 597
Working Members for Ladies Meetings ............................. 597
Supporting Organizations .................................................. 598
Participants List ................................................................. 599
Accompanying Persons List .............................................. 618

Remarks:
The following three technical papers were scheduled to be presented during the Congress. However, they were not read in the sessions and are not included in the "Proceedings".

"The ERDA Automotive Gas Turbine Program"
by C.S. Chen

"Performance Calculation Technique for Two-Shaft Gas Turbine with Variable Geometry Power Turbine"
by S. Bednarski

"Analysis and Performance of a Fluidic Temperature Sensor for Gas Turbine Temperature Measurement"
by M.G. Deshpande, A. Padhye, S. Kar
