Proceedings of

2nd International Congress on Metalloocene Polymers

Metallocrenes '96

6-7 March 1996
Düsseldorf Hilton Hotel
Düsseldorf, Germany

| Dr. Marco Serravalle, Patent Attorney  
Sama Patents S.P.I. | |
| CLAIMING METALLOCENES: HAVE PATENTS RESTRICTED OR ENHANCED YOUR BUSINESS OPPORTUNITIES? | 11 |
| John Wilson Jones, Partner  
Liddell, Sapp, Zivley, Hill & LaBoon, L.L.P. | |
| SECOND GENERATION POLYOLEFINS: CURRENT GLOBAL SITUATION AND OUTLOOK | 27 |
| Don F. Bari, Vice President, Technology  
Chem Systems Inc. | |
| UNIPOL® SSC METALLOCENE TECHNOLOGY FOR ENHANCED POLYETHYLENE | 59 |
| Dr. William A. Fraser, Director R&D, Polymers Group  
Union Carbide Corporation | |
| FROM CHROMIUM TO SINGLE SITE METALLOCENE POLYMERS IN FULL SCALE SLURRY LOOP REACTOR | 87 |
| Ingrid Sørum Melaaen, Ph.D., Senior Process Engineer  
Borealis A/S | |
| NEW POLYETHYLENE GRADES IN A LOOP SLURRY PROCESS | 97 |
| Jacques Everaert, Ph.D., Research Manager PE  
Fina Research S.A. | |
| PROSPECTS FOR METALLOCENE RESINS IN RIGID PACKAGING MARKETS | 111 |
| David W. Brooks, Team Leader - Materials Development  
CarnaudMetalbox plc | |
| PROSPECTS FOR METALLOCENE RESINS IN POLYPROPYLENE FILM DEVELOPMENT | 139 |
| Kevin Chandler, Packaging Development Manager  
Four Square | |
PROPERTIES AND POTENTIAL APPLICATIONS OF COMMERCIAL PRODUCED METALLOCENE- BASED SYNDIO- AND ISOTACTIC POLYPROPYLENES .................................................. 259
   Dr. Edwar Shamshoum, Manager, Polymer R&D
   Fina Oil and Chemical Company

OLEFIN POLYMERIZATION CATALYZED OVER ZEOLITE-SUPPORTED METALLOCENE CATALYSTS ............................................... 271
   Seong Ihl Woo, Ph.D., Professor
   Korea Advanced Institute of Science and Technology

COMBINATION OF ZIEGLER-NATTA AND METALLOCENE CATALYSTS: SYNTHESIS OF ISO-PP AND COPOLYMERS USING MAGNESIUM CHLORIDE-SUPPORTED HALF METALLOCENE CATALYSTS ACTIVATED BY ORDINARY AIR ........ 293
   Dr. Kazuo Soga, Professor
   Japan Advanced Institute of Science and Technology

CHROMIUM-BASED CATALYST: DERIVATIVES OF CHROMOCEN IN OLEFINS POLYMERISATION ........................................... 309
   Rino Messere, Professor
   University of Liège

STEREOSPECIFICITY AND GROWING CHAIN ISOMERIZATIONS IN METALLOCENE-CATALYZED 1-ALKENE POLYMERIZATIONS .......... 323
   Prof. Dr. Vincenzo Busico
   Università di Napoli "Federicoll"

ACTIVE SPECIES FORMATION AND OLEFIN POLYMERIZATION MECHANISM WITH HOMOGENEOUS ZN CATALYSTS:
THEORETICAL AND SPECTROSCOPICAL INVESTIGATION ................. 335
   Dr. Roberto Fusco, Scientist
   EniChem - Istituto Guido Donegani

GLOBAL MARKET POTENTIAL FOR METALLOCENE BASED POLYMERS ................................................................. 351
   Kenneth B. Sinclair, Principal
   STA Research
NEW DEVELOPMENTS IN METALLOCENE-BASED POLYOLEFIN ALLOYS, BLENDS AND COMPOUNDS .......................... 365
  Dr. Deen Chundury, Technical Director, R & D
  Ferro Corporation

EXCEED™ mLLDPE: A NEW GENERATION OF LINEAR POLYMERS FOR THE EUROPEAN FILM MARKET ............................... 381
  Peter N. Bailey, Development Engineer
  Exxon Chemical Europe Inc.

NEW SINGLE SITE CATALYST TECHNOLOGIES FOR USE IN SLURRY LOOP AND GAS PHASE PROCESSES .......................... 395
  Hilkka Knuuttila, Ph.D., Research Manager
  Borealis Polymers Oy

FOCUS APPLICATIONS FOR METALLOCENE-BASED ISOTACTIC POLYPROPYLENES ................................................. 403
  Dr. David Fischer, Project Manager
  BASF AG

METALLOCENE PLASTOMERS: PRACTICAL EXAMPLES OF USER-VALUE ................................................................. 427
  Jo Aendekerk, Market & Applications Development
  Exxon Chemical Europe Inc.
