PROCEEDINGS
of the
NINTH PACIFIC SCIENCE CONGRESS
of the
PACIFIC SCIENCE ASSOCIATION

Held at Chulalongkorn University
Bangkok, Thailand
November 18th to December 9th, 1957

Under the auspices
of
HIS MAJESTY'S GOVERNMENT OF THAILAND
and
THE SCIENCE SOCIETY OF THAILAND

VOLUME 17
PUBLIC HEALTH and MEDICAL SCIENCES

Published by the
SECRETARIAT, NINTH PACIFIC SCIENCE CONGRESS
DEPARTMENT OF SCIENCE
BANGKOK, THAILAND
1962
CONTENTS

Editor’s Note ................................................................. i
Abbreviations ............................................................... ii
Participants ................................................................. iii

Standing Committee Reports
MEYER, F. KARL, Report of the Chairman of the Standing Committee on Public Health and Medical Sciences in the Pacific Area .................................. 1
MACFARLANE, W.V., Public Health Problems in Australia ......................... 10
FRYBERG, A., Rural Health Problems ........................................ 12
LEE, RICHARD K.C., Public Health Problems in Hawaii ......................... 15
HERCUS, SIR CHARLES, Public Health Problems in New Zealand ............ 16
AUDY, J.R., Some General Aspects of the Public Problem in Malaya .......... 18
MOCHTAR, R., Public Health Problems in Indonesia ................................ 22
LARA, HILARIO, Public Health Problems of the Philippines ................ 28
KOBAYASHI, R., Health Administration in Japan ............................... 31

Symposium on Arthropod-Borne Virus and Rickettsial Diseases
BUESCHER, EDWARD L., Japanese Encephalitis (Abstract) ...................... 37
JOHNSON, HARALD N., The Rio Bravo Virus: A Virus Identified with Group B Arthropod-Borne Viruses by Hemagglutination Inhibition and Complement Fixation Tests ........................................ 39
WEBB, H.E. and ELISBERG, BENNETT L., Preliminary Observation on Viral Encephalitic-Type Illnesses in Singapore (Abstract) ........................................ 42
TAMIYA, TAKEO, HAZATO, HIKOZAE, KITAOKA, MASAMI, SHIMIZU, SUMIHIKO and KANO, ROKURO, Scrub Typhus in Japan ............................................. 44
PANDIT, C.G., WORK, TELFORD H., Japanese B Encephalitis in India ...... 56

Symposium on General Ecology of Man, Animal and Arthropods in Relation to Disease
HALE, J.H. and LIM, K.A., Japanese B Encephalitis in Singapore ................ 60
ANDERSON, S.G., Recent Investigations of Murray Valley Encephalitis ...... 63

SMITH, C.E. GORDON and TURNER, L.H., The Yellow Fever Hazard: Virological Aspects in Malaya .......................................................................................................................... 73

WISSEMAN, CHARLES L. JR., SWEET, BENJAMIN H. and KITAOKA, MASAMI, Broadened Neutralizing Antibody Spectrum Induced by 17-D Yellow Fever Vaccine in Human Subjects previously Infected with Japanese Encephalitis Virus (Abstract) .......................................................... 75

HAMMON, W. MCD., SATHER, G.E. and SCHRACK, W.D., Serological Survey of Philippine Sera Against 15 Arthropod-Borne Viruses (Abstract) ........................................... 77

SMITH, C.E. GORDON, The Incidence and Distribution of Infections with some Arthropod-Borne Viruses Known to Occur in Malaya ................................................................. 78

WORK, TELFORD H., TRAPIDO, HAROLD, Kyasanur Forest Disease: A New Infection of Man and Monkeys in Tropical India by a Virus of the Russian Spring-Summer Complex .................................................. 80

TRAPIDO, HAROLD, WORK, TELFORD H., Non-Human Vertabrates as Hosts and Disseminators of Kyasanur Forest Disease .................................................................................. 85

VARMA, M.G.R., TRAPIDO, HAROLD and RAJAGOPALAN, P.K., Studies on Ticks as Possible Vectors of Kyasanur Forest Disease ............................................................... 88

AUDY, J.R., Mosaic Vegetation in Relation to Medical Ecology (Abstract) ................................................................. 91

HARRISON, J.L., Ecology of Field Rats as Reservoirs of Disease with Special Reference to Scrub Typhus ........................................................................................................ 92

SMITH, C.E. GORDON and BROOM, J.C., Wild Animal Reservoirs of Leptospirosis in Malaya ........................................ 97

JOHNSON, HARALD N., The Ecology of Western Equine Virus in California, U.S.A. The Virus in Resident and Migratory Birds ................................................................. 99

REEVES, W.C., BELLAMY, R.E., HUTSON, G. and SCRIVANI, R., Arthropods and Vertebrates as long-term Reservoirs of the Encephalitis Viruses (Abstract) ................ 100

MCCLURE, H. ELLIOTT, Ecology of Japanese B Encephalitis ......................................................................................... 101

MAY, JACQUES M., Methodology of Medical Ecology (Abstract) .............................................................................. 104

SASA, MANABU, On Relationships between Ecology of Trombiculid Mites and Epidemiology of Tsutsugamushi Disease in Japan .............................................................. 105

SMITH, C.E., GORDON, Some Pointers to the Ecology of Group B (Casals) Arthropod-Borne Viruses in Malaya ......................................................................................... 112

Virus Diseases on 1. Influenza

YAMARAT, CHARAS, UJJIN, PAIRATANA and SITHICHAI, PRADITH, Some Aspects of Serologic Epidemiology of Influenza in a Group of Soldiers (Abstract) .............. 114
VANREENEN, MAJOR, R.M., ELISBERG, BENNETT L., WEBB, PATRICIA A., TRAUB, RENEE G., and TRAUB, LT. COL. ROBERT, Far East Influenza in the Army in Malaya (Abstract) .......................... 115

Virus Diseases on 2. Filariasis and Malaria

BACKHOUSE, T.C., Aedes (Ochlerotatus) Vigilax in Relation to the Transmission of Wuchereria Bancrofti (Abstract) .......................................................... 117

ROZEBOOM, LLOYD E., The Filariasis Problem in the Rural Areas of the Philippines .................................................. 118

WHARTON, R.H. and EDESON, J.F.B., Experimental Control of Filariasis Due to Wuchereria Malayi in Malaya (Abstract) ................. 120

EDESON, J.F.B. and WHARTON, R.H., The Experimental Transmission of Wuchereria Malayi from Man to Various Animals in Malaya (Abstract) .................................. 121

AYURAKIT-KOSOL, Luang and GRIFFITH, MELVIN E., Progress toward Malaria Eradication in Thailand .................................................. 122

TANSATHIT, P., THAVARAMARA, B., CHALAWYOO, S. and KAMPANARDSAENYAKARA, C., Malaria in Sattahib Naval Base, Thailand ........................................................................... 137

THURMAN, ERNESTINE B., The Mosquito Fauna of Thailand (Diptera: Culicidae) .................................................. 144

Symposium on Socio-Medical Ecology, with Emphasis of Parasite Diseases

AUDY, J.R., The Social Aspects of Disease: Man Contrasted with other Animals .................................................. 155

UNHANAND, MANASVI, Socio-Medical Influences of Geography on Yaws Endemicity as Illustrated in Thailand .................................................. 159

SANDOSHAM, A.A., The Distribution of Certain Helminth Infections in the Oriental Region (Abstract) .................................................. 161

MIYAZAKI, ICHIRO, Gnathostomiasis in Japan .................................................. 162

HARINASUTA, CHAMLONG, Socio-Medical Influences of Geography on the Distribution of some Important Helminthic Infections in Thailand (Abstract) .................................................. 165

HARINASUTA, CHAMLONG and VAJRASTHIRA, SUVAJRA, Study on Opisthorchiasis in Thailand: Survey of the Incidence of Opisthorchiasis in Patients of Fifteen Hospitals in the Northeast .................................................. 166

OKABE, KOYO, Schistosomiasis Japonica in Japan .................................................. 172

YOGORE, JR., M.G., CABRERA, B.D., ARAULLO, T.P. and CABALTEJA E.F., Studies on Paragonimiasis: VIII. On the Excystation of Paragonimus Metacercariae .................................................. 174

DOLMAN, C.E., Type E (Fish-Borne) Botulism .................................................. 185

EDSALL, GEOFFREY, Current Status of the Control of Typhoid Fever (Abstract) .................................................. 190

Symposium on Parasite Diseases

CHU, GEORGE W.T.C., Pacific Area Distribution of Freshwater and Marine Cercarial Dermatitis .................................................. 191

SADUN, ELVIO H., Recent Advances in the Diagnosis of the Most Prevalent Human Trematode Infections in Asia .................................................. 193
HARINASUTA, CHAMLONG and VAJRASTHIRA, SUVAJRA, Study on Opisthorchiasis in Thailand: Investigation of Endemic Areas in The Northeast ............................................. 198

VAJRASTHIRA, SUVAJRA, MAIPHOOM, CHETNA and HARINASUTA, CHAMLONG, Study on Helminthic Infections in Thailand 2. The Incidence of Paragonimiasis in the First Recognized Endemic Area ......................................................... 208

Symposium on General Aspects of Public Health

POLLITZER, R., Notes on the Present State of the Laboratory Diagnosis and Treatment of Cholera ................................................................. 213

MOCHTAR, R. and SOEDARJONO, R., A General Public Health Survey within the Demonstration and Study Centre for Public Health and Preventive Medicine in Djarkarta City .................. 217

MOCHTAR, R., Rural Sanitation in Indonesia .................................................. 244

FRAKE, CAROLYN M., Health Practices and Concepts of Disease — A Pagan Group in Zamboanga Del Norte, Philippines .................................. 246

UNAKUL, SOMNUEK, Sanitation and Sanitary Engineers in Thailand ................ 249

TANSURAT, PRADIT, Causes of Deaths in Siriraj Hospital (Abstract) ............. 251

SCHULZE, HARTWIN A., Some Practical Considerations in Immunization Programs ................................................................. 252

MACFARLANE, W.V., Rural Sanitation in Australia ......................................... 254

PRADATSUNDARASAR, ANOND, Raillietina Infection in Thailand (Abstract) ... 255

Symposium on Mental Health

PRIESTLEY, K.E., Research in Mental Health in Hong Kong .......................... 260

RATANAKORN, PRASOP, The Nature of Schizophrenia in Thailand ............... 263

WRIGHT, BERLY R., Psycho-Social Factors in Juvenile Maladjustment in Hong Kong ................................................................. 266

CHEN, ANITA, An Approach to Mental Health in a Plural Society .................. 269

Symposium on Community Health Organization and Training of Health Workers

DAENGSVANG, SVASTI, General Aspects of the Problems of Public Health and Medical Science in Thailand ......................................................... 271

HAYNAL, ANDREW P., The Role of Public Health in a Community Development Program ................................................................. 275

UNAKUL, SOMNUEK, Thailand Offers a Solution to Solve your Sanitation Problems in Rural Areas ................................................................. 278

KRAIVICHEN, KIEN, Training of Auxiliary Health Workers ............................ 281

KANITTHAYON, KITIMA, The Pilot Project in Community Health at Ban Thong Chai in Korat Province ................................................................. 283
