Duplex Stainless Steels 97
5th World Conference

BOOK 1
• Plenary Sessions
• Fabrication / Manufacturing
• Welding
Table of Contents

**BOOK 1**
2 Steering Committee
3 Preface
5 Summary

7 **Plenary Sessions**
9 Application of duplex stainless steel in the chemical process industry
   G. Notten
17 Welding duplex and superduplex stainless steel. An update of the guide for industry
   L. van Nassau, H. Meelker, F. Neessen, J. Hilkes
29 Why and where duplex stainless steels
   J. Charles
43 Duplex stainless steel weld metals – effects of secondary phases
   L. Karlsson
59 Corrosion of duplex stainless steels in seawater
   B. Wallén
73 The physical metallurgy of duplex stainless steels
   J-O. Nilsson
83 Performance of duplex stainless steels in hydrogen sulphide-containing environments
95 L.M. Smith, C.M. Fowler
   Application of duplex stainless steel in the offshore industry
   M. Tystad
101 Procurement, logistics and construction of duplex stainless steel piping for the NAM UGS Grijpskerk project
   D.B. Sauer

115 **Fabrication/Manufacturing**
117 Production of heavy section duplex stainless steel forgings with the assistance of micromechanical modelling
   G. Hochörtlér, G. Zeiler, F.D. Fischer, W. Daves
123 The utilisation of longitudinally electric fusion welded super duplex stainless steel linepipe for sub-sea flowline applications using the ‘reel’ fabrication and installation technique
137 Metal surface treatment of duplex stainless steel
   G.J.A.A. Koolhaas, W.R. Maas
141 Qualification of suppliers. Experiences from a qualification programme
   K.A. Johansson
147 Heavy section duplex and super-duplex stainless steels forgings for use in the oil and gas industry
   J.M. Lardon, R. Cozar
159 Experience in fabrication of large tanks from austenitic-ferritic steel of the 21-6-2 type
   K.A. Yushchenko, Yu.N. Kakhovsky, A.K. Avdeeva, G.V. Fadeeva
163 Heat treatment of X2CrNiMoCuN 25.06.03 super duplex steel. Influence on characteristics and microstructure. Evidence of preprecipitation stages
   F. Cortial, A. Buchon, F. Danoix, M. Hedin
175 Tool performance in continuous cutting of duplex stainless steel
   G. Pellegrini, G. Di Caprio, R. Pacagnella
181 Machinability of SANMAC SAF 2205
   A. Roos
187  Weld defects – inside the pipe – duplex material
Å. Gunleiksrud, Ø. Strandmyr, O. Andersen, L. Marken, E. Aune

191  Quality improvements on duplex and superduplex cast and forged products for offshore applications: producer and user viewpoints
T. Havn, A. Morini, H. Salbu, Ø. Strandmyr

201  Weldment toughness of duplex stainless heavy steel castings at –40°C
E.I. Kivineva, J.I. Eriksson, H. Åström

207  Dual phase stainless steel and its effect on mechanical properties and formability
D. Aldama, D.M.K. de Grinberg

213  Influence of heat treatment on the characteristics of X2 Cr Ni Mo N 25-07 super duplex steel – Comparison of two heavy section pieces
T. Millot, J.M. Corrieu

219  Update from the ‘Duplex Bakers’ – practical experiences from PLEXCON '94 till present day
R. Cordewener, J. Akkermans, M. Bors, J. Camp, R. Hamersma

227  Engineering critical assessment and repair welding of 22 Cr duplex stainless steel pressure vessels
R. Taule

235  Critical review of testing methods applied to duplex stainless steels
J.D. Redmond, R.M. Davison

245  Centrifugally cast and cold worked duplex and superduplex stainless steel pipes
M.V. Nicodemi, E. Gariboldi, W. Nicodemi, R. Roberti

255  Wear and corrosion protection by plasma-cladding of hardmaterial reinforced ‘duplex’protective layers
B. Bouaifi, U. Draugelates, F. Schreiber

263  Noricrom® (G-X 150 CrNiMo 40 6) – a new corrosion and wear resistant triplex stainless steel
A. Dwars, W. Prechtl, J. Schröpfer

271  Welding

273  Application of flux cored wires for improved productivity in offshore duplex pipework
S. Studholme

279  The significance of filler metal type on the stress corrosion cracking and fracture toughness of welded 2205 duplex stainless steel
C. Baxter, L. Tuveson-Carlsström, L. Svensson, A. Brorson

289  A new shielding gas range for the TIG, plasma and MIG welding of duplex and superduplex stainless steels
P. Rouault, C. Bonnet

297  Make the duplex and superduplex welding easier through metallurgical and -practical simple recommendations!
P. Rouault, C. Bonnet

305  Optimising the shielding gas selection for GMAW of duplex and super-duplex stainless steels
O. Runnerstam, K-A. Persson

311  Properties of resistance and laser welds in UNS S32304 duplex stainless steel
T.G. Gooch, B.J. Ginn

321  Characteristic profiles of modern filler materials for duplex stainless steel welding
E. Perteneder, J. Tösch, J. Zieerhofer, G. Rabensteiner

329  Properties of flux cored wire for duplex stainless steel
Y. Matsushita, S. Nishiyama, T. Maruyama

335  Intermetallic formation in superduplex stainless steel heat affected zones
R.N. Gunn

347  Hot cracking problems with submerged arc welding of heavy wall components from 22% chromium duplex stainless steels
H. Heuser, V. Groß, T. Ladwein

353  Properties of weldments in superduplex stainless steels with various filler metals
T.L. Ladwein, V. Groß, H. Heuser

Stainless Steel World – © 1997 KCI Publishing
357 Impact properties and susceptibility to solidification cracking of the weld in 22 Cr duplex stainless steel

369 Welding tests on stainless steel with the Paton A-TIG method
J. Eriksson, H. Limu, N.E. Hannerz, M.M. Savitskii, D.V. Kovalenko

377 Pitting corrosion and strength of butt resistance welded stainless wires
N.E. Hannerz, H. Limu

387 Fracture toughness of welded thick walled duplex stainless steels
E. Deleu, A. Dhooge

395 Computer control of dual arc seam welding of duplex stainless steel pipes on continuous train
A.V. Maloletkov, R.A. Perkovski, E.A. Gladkov

401 Effect of heat input on the microstructure of welded joints of duplex stainless steel-SAF 2205
S.M. Khafagy, J.C. Suarez, F. Molleda

405 Precipitation of intermetallic phases and chromium nitride in simulated multipass HAZ of duplex and super-duplex stainless steels
S.D. Brandi, A.J. Ramirez Londono

411 The corrosion resistance of simulated multipass welds of duplex and super-duplex stainless steels
S.D. Brandi, J.C. Lippold, W. Lin

419 How to control hydrogen level in (super) duplex stainless steel weldments using the GTAW or GMAW process

433 Welding superduplex stainless steels with Ni-base consumables. Optimising toughness and corrosion resistance
L. Karlsson, S.L. Andersson, S. Rigdal

445 Effect of nitrogen on microstructure and pitting corrosion of hyperbaric plasma keyhole welds of a duplex stainless steel
H. Hoffmeister, C. Eisenschmidt, G. Huismann

455 Experiences from using cored wire when welding super duplex stainless steels
R. Pedersen

465 Development in submerged arc welding of duplex and superduplex stainless steels
T. Huhtala, L-E. Svensson, S. Rigdal

471 Hot tapping of 22% Cr duplex stainless steels
D.N. Noble, W.A. Bruce, R.N. Gunn

483 Fracture toughness of duplex and superduplex stainless steel welds
P.C. Gough, J.C.M. Farrar

491 Statistical system of prediction for duplex and super duplex welds properties
B. Bonnefois, P. Soulignac, J. Charles

499 Welding of super duplex steels: new efficient solutions for joining using Ni alloys filler materials
B. Bonnefois, J. Charles, A. Bruyere, R. Cozar

509 Non-destructive testing of duplex welds
F.H. Dijkstra, J.A. de Raad

519 Full GMAW proved for CRA pipeline welding
A. Belloni

525 Nitrogen loss and its prevention during welding of Zeron 100, super duplex stainless steel
G. Warburton, T. Healis, C.J. Mockler

533 Strip cladding of duplex stainless steels. A summary of developments
J-P. Depessemier

545 Influence GMAW-welding on the properties of the weld metal of superduplex materials
T. Wurm, A. Schram, U. Draugelates
