Duplex Stainless Steels 97 5th World Conference

BOOK 2
- Corrosion
- Service & Application
- Metallurgy
BOOK 2

552 Steering Committee
553 Preface
555 Summary

557 Corrosion
559 Materials for wellhead equipment exposed to chlorinated & natural seawater
M.N. Maligas
565 Corrosion performance of duplex stainless steels for kraft pulp digesters application
J-P. Audouard
573 Presentation of corrosion data for end-users
A. Delblanc Bauer, U. Lundell, H. Eriksson
585 Ranking the resistance of duplex stainless steels to chloride-induced stress corrosion cracking
R.F.A. Jargelius-Pettersson, J. Linder, S. Hertzman
597 Performance of duplex stainless steel coupled to carbon steel in oilfield environments
A.J. Griffiths, A. Turnbull
607 Hydrogen embrittlement of duplex grades UNS S32750 and UNS S31803 in connection with cathodic protection in chloride solutions
P. Olsson, A. Delblanc Bauer, H. Eriksson
619 Corrosion behaviour of duplex stainless steels for concrete reinforcement application
M. Rosso, G. Melotti, D. Gypaz, M. Comoglio
627 Crevice corrosion resistance of duplex stainless steels in chloride containing waters
R.M. Kain
639 The modified EPR-test: A new tool for examination of corrosion susceptibility of duplex stainless steels
S. Schulzke, J. Göllner, K. Eick, P. Veit, I. Garz
649 Comparison of SCC behaviour in hot caustic solutions of duplex and austenitic stainless steels
G. Rondelli, B. Vicentini, E. Sivieri
657 Effect of sigma phase on the pitting corrosion of 22/5 duplex stainless steel
F. Elshawbesh, N. Elahresh, A. Elhoud
661 Remote crevice corrosion testing of weld simulated duplex stainless steels
H. Hoffmeister, G. Lothongkum
671 Comparison of duplex and modified 13Cr martensitic stainless steels in high temperature, slightly sour conditions
M.J. Schofield, P. Felton
677 SSC resistance of HIPped P/M super duplex stainless steels in sour H2S environments
K. Saarinen, H. Hänninen, E. Hämäläinen, J. Liimatainen
683 The influence of copper on the pitting corrosion of duplex stainless steels in saline and acid media
C.D.S. Tuck, L.F. Garfias-Mesias, J.M. Sykes
693 The use of temperature scan testing for the evaluation of stainless alloys
J. Heselmans

703 Service & Application
705 High-carbon ferritic-austenitic duplex-stainless steels for use in hydroabrasive media
F. Wischnowski, M. Pohl
713 New process centrifugal compressor in superduplex stainless steel
F. Millet, J-M. Pugnet, A. Franzl, B. Bonnefois, J-M. Lardon
723 The world of duplex steels. Supply and demand of a heavy duty group of steels
M.A. Moll

Stainless Steel World © 1997 KCI Publishing
727 Duplex stainless steels for chemical tankers
J. Charles, B. Vincent

737 Two large duplex stainless steel manifolds for the NAM Norg UGS project
G.J. Scholten, E. Smith, D.W. Armet

761 Experiences of 2205 for pulp digesters and other pressure vessels
J. Olsson, B. Leffler, C. Jörgensen

767 Use of 22% chromium duplex stainless steel for chemical cargo vessels and tank trailers
T.L. Ladwein, V. Groß, H. Heuser, C. Koerber

775 Performance of duplex stainless steels in organic acids
P. Kangas, M. Newman

785 Advantages and limitations of 2205 and other duplex stainless steels for the transport of chemicals
B. Leffler, H. Groth, A. Bergquist

793 Performance of Mo-free X2CrNiN 23 4 DSS in chemical process plant
J.G.A. Aerts, J.J.G. Thoelen, J.J.M. Caanen

801 SCC of type 2205 duplex stainless steel – a practical case in the chemical industry
G. Grötsch

809 A critical assessment of the use of duplex stainless steel in chemical carriers
N.A. McPherson, M. Creechan, T.N. Baker

817 Meeting today’s U.S. environmental requirements. Duplex stainless steels for Valdez Marine Terminal vapour control system

831 Duplex steel used for designing wellstream containment at not normally manned offshore installations
T. Havn, B. Dybevik

837 Radial friction welding for offshore pipelines
G. Hutt

845 Properties and examples of practical applications of superduplex stainless steels
M. Verneau, J-P. Audouard, J. Charles

857 North American pulp mill applications of duplex stainless steels
G. Coates, D.E. Bardsley

865 A duplex stainless steel application subjected to local buckling
H.L. Groth, J. Sundvall

871 Duplex explosion clad plates. Technical properties and commercial applications
A. Nobili, A. Demangeot

877 Safe use limits for stainless alloys in oil and gas production environments
J. Heselhans, R.D. Kane, D. Abayarithna

889 Metallurgy

891 The influence of changing the microstructure on the plastic deformation of duplex stainless steels after thermal cycling
M. Pohl, A. Bracke

897 Microstructure and corrosion resistance of super duplex stainless steels
R.A. Perren, P.J. Uggowitzer, M.O. Speidel

903 Effect of partial substitution of W for Mo on the intermetallic phase precipitation in super duplex stainless steels
K.T. Kim, Y.H. Lee, Y.D. Lee

911 Effect of boron on structure and properties of austenitic-ferritic steels
K.A. Yushchenko, A.K. Avdeeva, Y.N. Kakhovsky

915 Effects of alloying elements on sigma-related phase precipitation in super duplex stainless steels
T. Mori, K. Kondo, M. Igarashi, Y. Murata, K. Horiuchi

923 Corrosion resistance of cast DSS in the FGD-process containing fluoride
M. Hagen, W. Schöffler, W. Bolliger

931 Microstructure and mechanical properties of solution nitried duplex steels
R.L. Juse, H. Berns
939  A study of the effects of W vs CU additions on the CPT and structural stability of super duplex stainless steel weld metals
    S.R. Jana

949  Impact and corrosion resistance properties variability of Duplex4462 plates in function of liquid steel operations
    J-J. Dufrane

953  Cast components in duplex- and superduplex stainless steel: ruling of influences due to varying wall thickness
    B.R. Schiborr, M. Laske

957  Ferrite measurement in duplex stainless welds
    D.J. Kotecki

967  A comparison of predicted and measured ferrite levels in duplex and super-duplex weld metal
    J.C.M. Farrar, A.W. Marshall, Z. Zhang

979  Toughness requirements for duplex and super duplex stainless steels
    C.S. Wiesner

991  Material characteristics and strain rate effects in duplex stainless steel
    H.L. Groth, J. Czujko, K. Johannessen

1005  Toughness and pitting corrosion of duplex stainless steel weld heat-affected zone microstructures containing secondary austenite
    J.C. Lippold, A.M. Al-Rumaih

1011  Effect of alloying elements and impurity on hot ductility of 23% Cr 4% Ni stainless steel
    M.G. Mecozzi, M. Barteri

1017  UR 35 N Cu: a low alloyed duplex stainless steel with improved machinability and corrosion-abrasion resistance
    L. Coudreuse, J.Ch. Gagnepain, J. Charles
