| SPE 21361 | AVO Techniques for Carbonate Reservoir Characterization | 219 |
SPE 21362 The Role of 3D Seismic on the Future Development of the Idd el Shargi Field, Offshore Qatar ........................................ 227
A.F. Jubralla and K.A. Hamam, QGPC (Offshore Operations)

SPE 21364 Hydrogen Sulfide Cracking of Downhole Tubulars .................................. 237
B. Kermani, J.W. Martin, and D.F. Waite, BP Research

SPE 21365 Corrosion-Resistant Tubulars for Prolonging GWI Well Life .................... 247
M.A.S.Z. Farooqui and S. Holland, Saudi Aramco

SPE 21366 Dukhan Field Multiwell Corrosion Study ........................................... 257
A.E.R. Sharshar and R.L. Nutt, QGPC (Onshore Operations), and P.M. Smith
and P.A. Crossouard, Schlumberger

SPE 21367 Microbial Corrosion and Biologically Induced New Products Example
From a Seawater Injection System, Umm Shaif Field, UAE ............................... 271
P.A. Lapointe and M.A. Muhsin, ADMA-OPCO, and A.F. Maurin, Total-CFP

SPE 21369 Data and Data Hierarchy ................................................................. 279
N.G. Saleri, R.M. Toronyi, and D.E. Snyder, Chevron E&P Services Co.

SPE 21370 Case Study: Performance of a Complex Carbonate Reservoir Under Peripheral
Water Injection ......................................................................................... 293
M. Rahman, M.B. Sunbul, and M.D. McGuire, Saudi Aramco

SPE 21371 Evaluation of Residual Oil Saturation After Waterflood
in a Carbonate Reservoir ........................................................................ 305
M.K. Verma, Qatar General Petroleum Corp., and M.A.G. Boucherit and L. Bouvier, Total-CFP

SPE 21372 Monitoring Sweep in Peripheral Waterflood: A Case History .................. 321
B.J. Rouser, Saudi Aramco/Exxon, and Y.A. Al-Askar and T.H. Hassoun, Saudi Aramco

SPE 21374 Three-Phase Relative Permeability of Limestones Having Bimodal
Pore-Size Distribution .......................................................................... 333
B.F. Marek, K.J. Hartman, and A.E. McDonald, Mobil Oil Corp.

SPE 21376 Hydrocarbon Generation and Migration in the Palaeozoic Sequence
of Saudi Arabia .................................................................................... 345

SPE 21377 Fracture Patterns of Natih Formation Outcrops and Their Implications for the
Reservoir Modelling of the Natih Field, North Oman .................................. 357
C.G. Mercadier, Petroleum Development Oman, and G.H. Mäkel, N.V. Turkse Shell

SPE 21380 Tectonics, Stratigraphy, and Hydrocarbon Exploration in the Strait of Hormuz .. 369
R.J. Pauken and D.O. Hemer, Mobil New Exploration Ventures Co.

SPE 21382 Horizontal Drilling vs. Acid Fracturing: A Review of Results in the
Upper Zakum Field ............................................................................. 381
A.S. Fada‘q and Y.K. Al-Tamimi, Zakum Development Co.

SPE 21383 Maximum Allowable Production Rates From Openhole Horizontal Wells ...... 395
A.A.H. El-Sayed, GUPCO

SPE 21384 Horizontal Well Technology: Performance Evaluation and
Technoeconomic Assessment ................................................................. 407
R.S. Singh, Oil & Natural Gas Commission

SPE 21385 Use of Oil-Base Gel System for Multiple Proppant Fracturing of
Horizontal Wells ............................................................................... 413
M.A. McCabe, Halliburton Services; J-L. Champetier, Elf Aquitaine; and
M.G.R. Edwards, Halliburton Ltd.

SPE 21386 Casing Design Considerations for Horizontal Wells .............................. 421
A.H. El-Sayed, Cairo U., and F. Khalaf, GUPCO

SPE 21387 The Role of Reservoir Simulation in Identifying Secondary
Development Prospects ....................................................................... 429
M.A. Tosdevin and S. Kumar, QGPC (Offshore Operations)

SPE 21391 Use of Orthogonal and Nonorthogonal Grids for the Simulation of a
Faulted Reservoir .............................................................................. 443
M.K. Abdou, H.D. Pham, and A.S. Al-Aqueeli, Abu Dhabi for Onshore Operation
SPE 21392  The Application of Local Grid Refinement To Simulate a Large Hydrocarbon Reservoir as an Alternative to a Two-Model Approach ................................. 457
H.S. Al-Towailib and J.S. Liu, Saudi Aramco

SPE 21393  Geology and Hydrocarbon Potential of the Tihama Basin, Republic of Yemen ... 471
J.C. Doornenbal, Geological Survey of the Netherlands; P.F.L. DeGroot; S.M. Saif, Ministry of Oil and Mineral Resources; and B.M. Schroot, Geological Survey of the Netherlands

SPE 21394  Subsurface Stratigraphy, Depositional History, and Reservoir Development of the Early-to-Late Permian Unayzah Formation in Central Saudi Arabia ............. 487
G.S. Ferguson and T.M. Chambers, Saudi Arabian Oil Co.

SPE 21395  Effect of Stochastic Faults on Reservoir Permeabilities in Presence of Stochastic Shales ......................................................... 497
O.B. Abu-Elbashar, GPC of Sudan, and T.S. Daltaban, C.G. Wall, and J.S. Archer, Imperial College

SPE 21396  The Western Rub’ Al-Khali Infracambrian Graben System .......................... 505
R.A. Dyer and M. Huseine, Saudi Aramco

SPE 21397  Prediction of Stratigraphic and Areal Occurrences of Jilh High Pressure in Bahrain Field ............................................................. 513
A.N.M. Mohamed and A.S. Khalaf, Bahrain Natl. Oil Co.

SPE 21398  Sabkha vs. Salt Basin Model for the Arab Formation Understanding in the Umm Shaif Field, UAE ............................................. 523
P.A. Lapointe, ADMA-OPCO

SPE 21400  Determination of Fracture Volume and Closure Pressure From Pump-In/Flowback Tests ......................................................... 535
M.Y. Soliman and A.A. Daneshy, Halliburton Services

SPE 21401  Non-Darcy Flow Behavior in Partially Penetrating Gas Wells ..................... 543
S. Erarslan and C. Ayan, Middle East Technical U., and W.J. Lee, Texas A&M U.

SPE 21402  Further Investigation on the Analytic Solutions for Finite-Conductivity Vertical Fractures ....................................................... 559
M. Azari, W.O. Wooden, and L.E. Cole, Halliburton Reservoir Services

SPE 21403  Wellbore Storage and Skin Effects on Horizontal Well Pressure Behavior ...... 577
K.O. Temeng, Mobil E&P Services Inc.

SPE 21404  New Correlations for Time Lags and Pressure Response Amplitude in Pulse-Test Analysis ......................................................... 589
N.A.F. El-Khatib, King Saud U.

SPE 21407  Status and Scope for EOR Development in Oman ..................................... 599
M.S. Al-Adawy and M. Nandyal, Ministry of Petroleum & Minerals, Oman

SPE 21409  A Laboratory Study of CO₂-Foam Process for Bati Raman Field, Turkey ...... 617
H. Alkan, A. Goktekin, and A. Satman, Istanbul Technical U.

SPE 21410  Performance Evaluation of Caustic Pilot Project of North Gujarat Oil Field, India ................................................................. 629

SPE 21411  Quantitative Monitoring of Gas Flooding in Oil-Bearing Reservoirs Using a Pulsed Neutron Tool ....................................................... 639
N. Ruhovets and D.F. Wyatt Jr., Halliburton Logging Services

SPE 21412  Development of Response Transforms From Comparative Study of Commercial Pulsed Neutron Capture Logging Systems ........................................ 645
G.N. Salaita, Chevron Oil Field Research Co., and W.E. Youngblood, Saudi Aramco

SPE 21413  A New Through-Tubing Oil-Saturation Measurement System ..................... 659

SPE 21414  Gas Saturation Monitoring in North Oman Reservoir Using a Borehole Gravimeter ................................................................. 669
S.J. Adams, Petroleum Development Oman
SPE 21444 Petrophysical Approach to Description of a Producing Fractured Basement Reservoir ................................................. 903
M.M. Khalil and J. Pigaht, Suez Oil Co.

SPE 21446 A Synergistic Approach to Characterisation of Reservoir Permeability: A Conditional Kriging Method .......................................................... 915
M.H. Al Rumhy, Sultan Qaboos U., and J.S. Archer and S.T. Daltaban, Imperial College

SPE 21447 Evaluation of Jurassic Arab D Reservoir Quality in Low-Relief Traps in Qatar .... 925
E.N. Wilson, Amoco Production Co.

SPE 21448 Geological Controls on Reservoir Quality of Arab Formation in Satah Field .... 933
K-I. Kawaguchi, Zakum Development Co.

SPE 21449 Stratigraphy of the Wajid Sandstone of Southwestern Saudi Arabia ............... 947
D.S. Evans, R.B. Lathon, M. Senalp, and T.C. Connally, Saudi Aramco

SPE 21450 Review on the National and Regional Response to Oil Spill in the Arabian Gulf ................................................................. 961
K.M. Fakhro, Environment Protection, Ministry of Health, Government of Bahrain

SPE 21454 Impact of Oil Spill on Intertidal Organisms in Bahrain ........................................ 975
S.A. Mohamed, U. of Bahrain

SPE 21455 Shallow Gas Blowout Kill Operations ................................................................. 979
N.J. Adams and L.G. Kuhlman, Neal Adams Firefighters

SPE 21457 Lithology Determination From Well Logs in Carbonate and Clastic Reservoirs, Saudi Arabia ................................................................. 991
H.M. Al-Sabti, Saudi Aramco
