INDUSTRIAL ENERGY TECHNOLOGY
CONFERENCE AND EXHIBITION

PROCEEDINGS OF THE 1985 CONFERENCE

VOLUME II

Hotel InterContinental
Houston, Texas
May 12-15, 1985

Presented by the
Public Utility Commission of Texas
VOLUME II

INCREASING OVERALL COMBUSTION EFFICIENCIES

Session Chairman: David Pasquinelli, John Zink Company, Naperville, IL

COMBUSTION CATALYSTS IN INDUSTRY - AN UPDATE, Gene A. Merrell and Richard S. Knight, Betz Laboratories, Inc., Trevose, PA 334

FLOW METERING AND OXYGEN TRIM CONTROL REDUCE DAIRY STEAM PLANT FUEL COSTS, Edward L. Foster, Dairy Farm Products, Orrville, OH and Robert L. Nelson, Westinghouse Combustion Control Division, Orrville, OH 341

AN ADVANCED OXYGEN TRIM CONTROL SYSTEM, James G. Miller, Econics Corp., Sunnyvale, CA 348

MAXIMIZING COMBUSTION EFFICIENCY THROUGH SELECTION OF OPTIMUM CO CONTROL LEVELS, Gerald F. McGowan and Ronald L. Ketchem, Lear Siegler, Inc., Englewood, CO 353

FLUID BED COMBUSTION APPLIED TO INDUSTRIAL WASTE, John F. Mullen and R. J. Sneyd, Dorr-Oliver Inc., Stamford, CT 364

ENERGY MANAGEMENT AND STRATEGIES

Session Chairman: Douglas Darby, Deere & Company, Moline, IL

COMMUNICATIONS AND THE ENERGY MANAGER, John I. Cooper, Miles Laboratory, Inc., Elkhart, IN 372

EMPLOYEE PARTICIPATION THROUGH HIGH STANDARDS AND INFORMATION FEEDBACK, Marvin Weisenthal, Good Impressions, Inc., Troy, MI 378

THREE PATHS TO ENERGY SAVINGS, Vernon N. Weiss, General Electric Company, Schenectady, NY 380

A MANAGER'S APPROACH TO ENERGY COST MANAGEMENT, Robert J. Spencer, General Motors Corporation, Detroit, MI 383

BEHAVIORAL ENERGY MANAGEMENT: IMPROVING CONSERVATION BEHAVIOR AND ATTITUDES WITH OPERANT CONDITIONING, Timothy Eibes, John Deere and Allen Jedlicka, University of Northern Iowa, Cedar Falls, Iowa 387
STEAM AND CONDENSATE SYSTEMS

Session Chairman: Art M. Robinson, Union Carbide Corp., Hahnville, LA

STEAM TRAPS - THE OFT FORGOTTEN ENERGY CONSERVATION TREASURE, Francis S. Pychewicz, Monsanto Company, Springfield, MA

STEAM TRAP MANAGEMENT, J. J. Murphy, Yarway Corporation, Houston, TX and H. H. Hittner and R. D. Atlas, Yarway Corporation, Blue Bell, PA

THE ELIMINATION OF STEAM TRAPS, Frank Dickman, Engineering Resources, Inc., Chicago, IL

ENERGY CONSERVATION - AS IT APPLIES TO CONDENSATE RETURN SYSTEMS, Michael L. Sneary, The Johnson Corporation, Three Rivers, MI

ENERGY SAVING BY RECOVERY OF CONDENSATE FROM STEAM HEATING SYSTEMS, Wu Shu Cheng and Jinan Bai Ron Chun, the Fifth Design & Research Institute of Norinco and Cheng Shan Zhi, Shandong Chemical Plant, Beijing, China

COGENERATION - ASSESSMENT, ECONOMICS AND APPLICATION

Session Chairman: Cyrus Meyer-Homji, Boyce Engineering, Houston, TX

AN INTEGRATED APPROACH TO EVALUATING THE TECHNICAL AND COMMERCIAL OPTIONS FOR COGENERATION FACILITIES IN THE PROCESS INDUSTRY, D. H. Cooke and R. H. McCue, Stone & Webster Engineering Corp., Houston, TX

THE ECONOMICS OF COGENERATION SELECTION, Robert W. Fisk, Eldon W. Hall and James H. Sweeney, III, General Electric Co., Schenectady, NY

*COGENERATION SYSTEM DESIGN OPTIONS, Joel S. Gilbert, Dames & Moore, Bethesda, MD

COGENERATION PLANNING, Martin A. Mozzo, American Standard Inc., New York, NY

MOTOR EFFICIENCY OPTIMIZATION AND DEMAND CONTROL

Session Chairman: John Gardner, Tennessee Valley Authority, Chattanooga, TN

* CASE STUDIES OF HIGH EFFICIENCY ELECTRIC MOTOR APPLICABILITY, Joseph R. Wagner, Mechanical Technology Inc., Latham, NY

* ADJUSTABLE SPEED - A TOOL FOR SAVING ENERGY LOSSES IN PUMPS, FANS, BLOWERS AND COMPRESSORS, Herbert N. Hickok, General Electric Co., Houston, TX

CASE HISTORIES OF ENERGY EFFICIENT MOTORS, William T. Comiskey and James C. Riley, BF Goodrich Company, Fort Neches, TX

GRAPHICAL METHODS IN ENERGY CONSERVATION, James McAllister, Arkansas Power & Light Company, Little Rock, AR

*Oral Presentation, Abstract Only
ADVANCED INDUSTRIAL HEAT PUMPS

Session Chairman: Wilfred J. Rebello, Par Enterprises, Inc., Fairfax, VA

ADVANCED MECHANICAL HEAT PUMP TECHNOLOGIES FOR INDUSTRIAL APPLICATIONS, James I. Mills and D. S. Plaster, EG&G Idaho, Inc., Idaho Falls, Idaho and Robert N. Chappell, Department of Energy, Idaho Falls, Idaho 471

AN ECONOMIC ANALYSIS OF INDUSTRIAL ABSORPTION HEAT PUMPS, Horacio Perez-Bianco, S. I. Kaplan and W. R. Huntley, Oak Ridge National Laboratory, Oak Ridge, TN 479

APPLICATION OF REVERSIBLE CHEMICAL REACTIONS FOR TEMPERATURE AMPLIFICATION, Moonis R. Ally and Wilfred J. Rebello, PAR Enterprises, Inc., Fairfax, VA 489

OPPORTUNITIES FOR IMPROVING ENERGY EFFICIENCIES

Session Chairman: William A. Hogeland, Roy F. Weston, Inc., West Chester, PA

LITTLE SILVER BULLETS, Robert D. Korich, Texas A&M University System, College Station, TX 495

OUR FAVORITE ENERGY MANAGEMENT OPPORTUNITIES - A REVIEW OF OVER 150 ENERGY AUDITS OF INDUSTRIAL FIRMS, Richard E. Webb, Martin Lewis, Vann Spivey and Nick Knight, Oklahoma State University, Stillwater, OK and Wayne C. Turner, Montana State University, Bozeman, MT 498

LOW CAPITAL ENERGY CONSERVATION RETROSETS AT TEMPLE-EASTEX, James L. Hedleston, Silsbee, TX 502

INDUSTRIAL ENERGY CONSERVATION IN CENTRAL AMERICA AND PANAMA, Mark J. Oven and P. Alan Pashkevich, Georgia Tech Research Institute, Atlanta, GA 504

*ENERGY SAVINGS + EMPLOYEE COMFORT, John Takach, General Motors Corp., Euclid, OH 511

Tuesday Afternoon, May 14

PROCESS INTEGRATION TECHNOLOGY

Session Chairman: Don R. Vredeveeld, Union Carbide Corp., South Charleston, W. VA

*INTEGRATED DESIGN OF CHEMICAL PROCESSES AND UTILITY SYSTEMS, Bodo Linnhoff, University of Manchester Institute of Science and Technology, Manchester, England 512

PROCESS INTEGRATION - WHAT IS THE INCENTIVE?, Daniel Declercq and D. I. Gerd Kaibel, BASF, West Germany 513

*INTEGRATED COMPUTER SOFTWARE FOR PROCESS DESIGN METHODOLOGY, Rajeev Gautam, Union Carbide Corp., South Charleston, W. VA 518

*PROCESS INTEGRATION: DESIGNING FOR ENERGY, CAPITAL AND OPERABILITY, Bodo Linnhoff, University of Manchester Institute of Science and Technology, Manchester, England 518

*Oral Presentation, Abstract Only
COGENERATION PROSPECTS
A SHIRT-SLEEVE SESSION
Session Chairman: Dilip R. Limaye, President, Synergic Resources Corp.,
Bala Cynwyd, PA
No formal presentations made; discussion by panel members only.

HOW TO AVOID UNDERMINING YOUR OWN ENERGY CONSERVATION PROGRAM
A SHIRT-SLEEVE SESSION
Session Chairman: Robert Butler, Editor in Chief, Energy User News,
New York, NY
No formal presentations made; discussion by panel members only.

FINANCING ENERGY EFFICIENCY, COGENERATION AND ALTERNATIVE ENERGY PRODUCTS
Session Chairman: Marlene Michaelson, Lane & Edson P.C., Washington, D.C.

*MINIMIZING PROJECT RISKS THROUGH FINANCING STRATEGIES, Marlene
Michaelson, Lane & Edson P.C., Washington, D.C. ................................. 519

**SOURCES OF CAPITAL FOR ENERGY PROJECTS, Jeffrey B. Weinress, Energy
Factors, San Diego, CA .................................................................

CALCULATING THE FINANCIAL BENEFITS OF AN ENERGY EFFICIENCY PROJECT:
THE BUILDING OWNERS AND INVESTORS PERSPECTIVE, James K. Watson,
Energy Investment, Inc., Monton, Mass. .................................................. 520

*SHORT CUTS TO FINANCIAL ANALYSIS, Robert J. Larson, Monsanto Company,
St. Louis, MO ................................................................. 526

Wednesday Morning, May 15

COGENERATION - A UTILITY PERSPECTIVE
Session Chairman: James Richardson, Gulf States Utilities Co., Beaumont, TX

EVALUATION OF TECHNOLOGY RISK IN PROJECTING COGENERATION PROJECT
RETURNS, Clemens M. Thoennes, General Electric Co., Schenectady, NY ........ 527

A UTILITY-AFFILIATED COGENERATION DEVELOPER PERSPECTIVE, Terry A.
Ferrar, Central and South West Services, Inc., Dallas, TX ........................ 533

NEGOTIATING A FAVORABLE COGENERATION CONTRACT WITH YOUR UTILITY, Don
H. Lark, Energetics Systems, San Diego, CA and Jack Flynn, Utility
Savings Unlimited, San Diego, CA ..................................................... 536

*UTILITY VIEW OF RISK ASSESSMENT, John Bickham, Houston Lighting and
Power Company, Houston, TX .......................................................... 539

COGENERATION OPERATIONAL ISSUES, Malcolm M. Williams, Gulf States
Utilities Company, Beaumont, TX ....................................................... 540

*Oral Presentation, Abstract Only
**Oral Presentation Only
STEAM DISTRIBUTION SYSTEMS

Session Chairman: Robert L. Nelson, Westinghouse Electric Corporation, Orrville, Ohio

LOWEST PRESSURE STEAM SAVES MORE BTU'S THAN YOU THINK, S. J. Vallery, Armstrong International, Inc., New Braunfels, TX ........................................ 548

THE ECONOMICS OF STEAM VS. ELECTRIC PIPE HEATING, Robert E. Schilling, Eaton Corporation, Aurora, Ohio ......................................................... 551

*ECONOMICS OF STEAM PRESSURE REDUCTION, Dennis M. Sylva, AT&T Technology, Reading, PA ................................................................. 566

INDUSTRIAL HEAT PUMPS

Session Chairman: Joseph R. Wagner, Mechanical Technology Inc., Latham, NY

*INDUSTRIAL HEAT PUMP DESIGN OPTIONS, Joel S. Gilbert, Dames & Moore, Bethesda, MD. ............................................................... 573

INDUSTRIAL HEAT PUMP CASE STUDY, Joseph R. Wagner, Mechanical Technology Inc., Latham, NY and Frank C. Brush, Kraft, Inc., Norwich, NY ........................................ 574

HYBRID HEAT PUMP DESIGN AND APPLICATION, Joseph R. Wagner and William F. Koebbeman, Mechanical Technology Inc., Latham, NY .......................... 580

HEAT RECOVERY II

Session Chairman: William O'Brien, Exxon Chemical Co., Florham Park, NJ

PRESENT AND FUTURE USES OF INDUSTRIAL ABSORPTION HEAT PUMPS, Donald C. Erickson and William F. Davidson, Energy Concepts Co., Annopolis, MD ........ 587

ABSORPTION HEAT PUMPING - HAVE YOU TRIED IT?, Richard C. Davis, Carrier International Corp., Syracuse, NY ...................................................... 594

APPLICATION AND OPERATION OF A 2MW ORGANIC RANKINE CYCLE SYSTEM ON A REFINERY FCC UNIT, Richard L. Drake, Mechanical Technology Inc., Latham, NY ........................................................................................................ 603

HEAT RECOVERY BOILERS FOR PROCESS APPLICATIONS, V. Ganapathy, Jack Rentz and Dave Flanagan, ABCO Industries, Inc., Abilene, TX .......................... 610

SECOND LAW OPTIMIZATION OF HEAT EXCHANGERS, Larry C. Witte, University of Houston, Houston, TX ...................................................... 620

*Oral Presentation, Abstract Only
APPLICATIONS OF STATE-OF-THE-ART TECHNOLOGIES

Session Chairman: Robert Larson, Monsanto Company, St. Louis, MO

**THE PERSONAL COMPUTER ON THE INDUSTRIAL FLOOR WITH REMOTE I/O, G.
William Morgan, Tetra Control Systems, Austin, TX .......................... 625

A NEW CONCEPT IN DRYER CONTROL, John W. Robinson, Kirby Forest Industries,
Inc., Silsbee, TX ................................................................. 635

DESIGN AND ECONOMIC EVALUATION OF THERMIONIC COGENERATION IN A CHLORINE-
CAUSTIC PLANT, Gabor Miskolczy and Dean Morgan, Thermo Electron Corp.,
Waltham, MA and Roger Turner, Crawford and Russell, Inc., Stamford, CA. 635

AUTOMATIC CONTROL SYSTEM OF A CAR-BOTTOM REHEATING FURNACE, Mei Xueqiao
and Xu Weilian, No. 2 Machine-building Plant, Baotou, Inner Mongolia,
China and Zhang Hongchen, China North Industries Corp., NORINCO. .... 642

IMPROVING FACILITY ENERGY EFFICIENCIES II

Session Chairman: Wayne H. Johnson, U.S. Department of Energy (Retired)
Albuquerque, NM

MASTER PLAN FOR IMPROVING ENERGY EFFICIENCY, Wayne H. Johnson, U.S.
Department of Energy (Retired), Albuquerque, NM. ............................. 648

INDUSTRIAL LIGHTING TECHNIQUES AND NEW DEVELOPMENTS, Michael A.
Colotti, GTE Products Corp., Danvers, MA ....................................... 652

VARIABLE FLOW CHILLED WATER SYSTEMS, David A. Baldwin, Pacific Gas &
Electric Company, Sunnyvale, CA .............................................. 657

LOAD MANAGEMENT ACCOMPLISHMENTS AT INTERNATIONAL BUSINESS MACHINES
CORPORATION RESEARCH TRIANGLE PARK, NORTH CAROLINA, Michael G. Gumla,
Duke Power Co., Burlington, NC ............................................... 663

COGENERATION CONSIDERATIONS, ECONOMICS AND CASE STUDY

Session Chairman: Gerald D. Decker, Decker Energy International, Inc.,
Winter Park, FL

*THE DEVELOPER'S ROLE IN THE COGENERATION BUSINESS, Macauley Whiting, Jr.
Decker Energy International, Inc., Winter Park, FL ............................ 668

COGENERATION ECONOMICS FOR PROCESS PLANTS, David J. Ahner, General
Electric Co., Schenectady, NY ............................................... 669

*HEAT RECOVERY DESIGN CONSIDERATIONS FOR COGENERATION SYSTEMS, David
Pasquinelli, John Zink Company, Chicago, IL and Edward Burns, John
Zink Company, Tulsa, OK ..................................................... 674

*THE DYNAMICS OF COGENERATION OR "THE PURPA AMOEBA," Michael P. Polsky,
Fluor Engineers, Inc., Chicago, IL .......................................... 674

COMBINED CYCLE COGENERATION AT NALCO CHEMICAL, Cabot B. Thunem and
Kenneth W. Jacobs, Stanley Consultants, Inc., Muscatine, Iowa and
William Hanzel, Naico Chemical Co., Naperville, IL .......................... 675

*Oral Presentation, Abstract Only
**Oral Presentation Only

xix
EFFICIENT COOLING WATER SYSTEMS

Session Chairman: Robert Burger, Burger Associates, Inc., Dallas, TX

*ENERGY STRATEGIES IN COLDER WATER AND PUMPING HEAD, Robert Burger, Burger Associates, Inc., Dallas, TX. ................................. 682

*OPTIMIZATION OF COOLING WATER, Jack Matson, University of Houston, Houston, TX ................................................................. 682

*FAN ENERGY SAVINGS DECISIONS, Robert C. Monroe, HudsonProducts Corp., Houston, TX ......................................................... 682

*REDUCTION OF WATER CONSUMPTION, John Adler, The Munters Corp., Ft. Myers, FL 683

*AIR MOVERS OF THE EIGHTIES, George Miller, Motion Industries, Inc. Pasadena, TX ................................................................. 683

*Oral Presentation, Abstract Only
