ISTM/97
2nd International Symposium on Test and Measurement

Sponsored by
Chinese Society of Modern Technical Equipments
CONTENTS

Sunday, June 1, PM

1. Noise and Vibration Measurement
A Comparative Study of Noise Characteristics for BAW and SAW Oscillators
A.M.Elmahdi, *T.E.Taha, **A.S.Refa
Faculty of Eng. Zagazig Univ., Cairo, Egypt
*Faculty of Electronic Eng. Menoufia Univ., Menouf, Egypt
**Egyptian Electricity Authority Financial and Administrative Center, Egypt ........................................... 1

Analysis of Vibration Signal Processing
Yang Jianjun, Guo Nailin, Han Xiaoming
Air Force Missile Institute, Sanyuan, Shaanxi, China ................................................................. 5

Model-Reference Adaptive Algorithm for Zero-shift Compensation of Shock Waveforms
Chen Xuan, Lian Yan, Gu Ping
Nanchang Institute of Aeronautical Technology, Nanchang, China ................................................... 9

Vibration Control Based on Neural Network Theories
Gu Caikang, Fan Dongqi, Zhang Shujing
Shanghai Tiedao University, Shanghai, China ..................................................................................... 12

The Study of Speech Enhancement of Aircraft Pilot Based Adaptive Filter
Jianqun Huang, *Minxiong Zhu, Yuanchang Zhu, Yanxiang Di
Shijiazhuang Institute of Mechanical Engineering, Shijiazhuang, China
*Beijing University of Aeronautics and Astronautics, Beijing, China .................................................. 15

Periodogram Spectral Estimate and AR Spectral Estimate
Zheng Zhaorui
Taiyuan University of Technology, Taiyuan, China ........................................................................... 19

Application of Artificial Neural Network to Vibration Measurement and Control
F.M. Wang, *Yutian Pan, Z.L. Zhao
Xi’an Jiaotong University, Xi’an, China
*North China Institute of Technology, Taiyuan, China ........................................................................... 22

A Comparison of Coefficient Identification with Experiment of Squeeze Film Dynamics
Lu Gang, *E.De Langre, *Ph.Piteau
Xi’an Jiaotong University, Xi’an, China
*DYN/SEMT/DMT/CEN Saclay, Paris, France .................................................................................... 26

The New Method on Sound Intensity Measurement
Zhang Yixing, Zheng Haiqi
The 80811 Troops, Beijing, China
*The Ordnance Engineering Institute, Shijiazhuang, China ................................................................ 30

Vibration Measurement of Viscoelastic Composite Trusses and Optimal Placement of Dampers
Lu Gang, Zhang Jinhui, Lu Feng, Li Junbao
Xi’an Jiaotong University, Xi’an, China ................................................................................................. 34
A New Technique of Structure Modal Measurement in the Water
Li Shuming, *Li Xianglian
Xi'an Jiaotong University, Xi'an, Shaanxi, China
*Shandong Institute of Technology, Zibo, Shandong, China

2. Image and Information Processing
Efficient Application of B-Spline to Enlargement or Reduction of Digital Images
Hou Weibing, Dong Yonggui, Feng Guanping
Tsinghua University, Beijing, China

Analysis and Discussion on Several Subpixel Registration Algorithms
Zheng Zhaorui
Taiyuan University of Technology, Taiyuan, China

Research of Multidimensional Communication for the Multiprocessor Test System
Jinyong Ma, Qunxing Su, Xien Zhang
Shijiazhuang Mechanics Engineering College, Shijiazhuang, China

A Robust Kalman Filter and Its Realization in the Multiprocessor Test System
Jinyong Ma, Qunxing Su, Zizhang Wang, Shucai Tang, Xien Zhang
Shijiazhuang Mechanics Engineering College, Shijiazhuang, China

Information Criterion for the Detection of Short-range Target Signal
North China Institute of Technology, Taiyuan, China
*Ordnance Engineering College, Shijiazhuang, China

Application of Computer Vision in Automatic Instrument Metrology and Calibration
Gao Shihai, Zhao Shaoping
The Second Artillery Institute of Engineering, Xi'an, China

A Study of Computer Graphic Numerical Control Dynamic Simulation
Guo Shunsheng, Hu Yefa
Wuhan Automotive Polytechnic University, Wuhan, China

Pictorial Measurement and Its' Application to the Aircraft and Spacecraft Instrument
Huang Junqin
Beijing University of Aeronautics and Astronautics, Beijing, China

Research on a Non-contact Optoelectronic Shadowgraph Auto-inspecting Instrument for Size
An Zhiyong, Zhang Guoyu, Ma Hong, Song Lu
Changchun Institute of Optics and Fine Mechanics, Changchun, China

3. Laser and Optics Fiber
Research on Precision Location Method Using Holographic Raster and Laser Beat Frequency Technology
Chen Wenyan, Guo Yanzhen
Xi'an Mining Institute, Xi'an, China

— x —
Measuring Angular Dispersion of Liquid Drop Streams at Vacuum Environment
Huimin Guo, Shaosheng Qian, Leping Huang
Tsinghua University, Beijing, China

Application of the High Sensitivity Photodetector in the system of the Laser Far Distance Target Recognition and the Laser Digital Communication
Chen Guifen, Yang Wenku
Changchun Institute of Optics and Fine Mechanics, Changchun, China

Reliability Analysis on the System Engineering Sample Machine
Chen Guifen, Yang Wenku
Changchun Institute of Optics and Fine Mechanics, Changchun, China

Study for the System with Holographic Grating and Laser Diode
Zhang Jun, Han Xiaoming
Air Force Missile Institute, Sanyuan, Shaanxi, China

Interferometric Optical-Fiber Sensing for Two Parameters
Ma Tiehua, *Yuan Xuan, Fan Jinbiao
North China Institute of Technology, Taiyuan, China
*China Academy of Ordnance Science and Technology, Beijing, China

The Application of Statistic Quality Control in a Laser Scanning Dimension On-line Measuring Instrument
Zhang Guoyu, An Zhiyong, Li Chengzhi
*Gao Yujun, *Wang Zhihong
*Changchun Institute of Optics and Fine Mechanics, Changchun, China

CCPD — Laser Guiding System Used for the Unmanned Automatic Control Carrier Vehicle
Zhang Jinfeng, Yin Fuchang
Changchun Institute of Optics and Fine Mechanics, Changchun, China

Study on the Intellectualization Laser Digital Communication System
Zhang Jinfeng, Yang Wenku
Changchun Institute of Optics and Fine Mechanics, Changchun, China

4. Light and Radiation Detection
Retrieval of the Main Factor Affecting the Accuracy of Horizontal Monitoring — Aerosol Optical Thickness over Uniform Underlying Surface Using AVHRR Data and Case Study
Liu Guangyuan, *Sun Yiyi
Nanjing University, Nanjing, China
*Institute of Environment Signature, Yantai University, Yantai, Shandong, China

Measurement of the Components of One Flying Vehicle Propellant Using Single-chip Microcomputer
Wang Xuezhi, Liu Jianshe, Li Tifang
The Missile Institute of Air Force, Sanyuan, Shaanxi, China

Study of Direct Method for Measurement of Straightness & Muzzle Angle of Straight Barrel by Using PSD
Yuan Hongxing, Lu Anmin, He Anzhi
Nanjing University of Science and Technology, Nanjing, China
Study of the Pressure Coefficient Measurement for the Optical Glass Refraction Index
Yang Wenku, Deng Wenrong, *Yang Yujing
Changchun Institute of Optics and Fine Mechanics, Changchun, China
*Jilin Vocational Teacher’s College, Changchun, China.................................................. 121

Measurement and Calculation of Waveband Responsivity and Detectivity
Cheng Kaifang, Yang Xiongchao, Feng Wenqing
Kunming Physics Institute, Kunming, China ................................................................. 125

Research of Mine Dust Measurement with Double Wavelength Light Extinction
Tang Gang
China University of Mining & Technology, Xuzhou, Jiangsu, China............................ 129

Intra-red Electronic Distance Measurement System with a DSP Phase Detector
Liu Jianguo, Wei Qingnong
Anhui Institute of Optics and Fine Mechanics, Hefei, China............................................. 133

Researches on Muzzle Flash Measurement
Kong Deren, Meng Yingyun, Li Yongxin, Zhang Yue, He Ying
Nanjing University of Science and Technology, Nanjing, China...................................... 136

Channel-changeable Ultra-narrow Bandwidth Atomic Optical Filter
Hu Zhilin, Zeng Xizhi
Wuhan Institute of Physics & Mathematics, The Chinese Academy of Sciences, Wuhan, China........ 140

Photoelectric Measurement System Using PSD to Measure Multi-objective Plane Movement
Li Ke, Shi Xiaojing, Zhu Mingwu, Li Yongxin, Sun Haibo
Nanjing University of Science and Technology, Nanjing, China....................................... 144

Auto-Adjusting Light System of CCD Camera
Wang Xiaoman, Song Lu, *Wang Liwei
Changchun Institute of Optics and Fine Mechanics, Changchun, China
*Computer Department of First Auto. Works of China, China........................................ 147

An Polarographic Analysis Method for Determining Dinitrotoluene in Coated Propellants
Wang Xuangjun, Wang Zeshan
Nanjing University of Science and Technology, Nanjing, China...................................... 150

Application of PSD in Photoelectric Precision Measurement
Zhang Congzhou, Yang Jiandong, *Wang Liwei
Changchun Institute of Optics and Fine Mechanics, Changchun, China
*Computer Department of First Auto. Works of China, Changchun, China....................... 154

The Application of PSD Measurement System in Small Weapon
Shi Xiaojing, Li ke, Kong Deren, Sun Haibo, Wu Xianghai
Nanjing University of Science and Technology, Nanjing, China...................................... 157

5. Acoustic and Ultrasonic Measurement
On Testing for Acoustic Emission Monitoring
Yu Longji, *Qi Baosen, *Chen Fangsheng, *Peng Qifeng, **Mo Zhimin, ***Peng Jiong
Zibo Staff University, Zibo, Shandong, China
*Shandong University of Technology, Jinan, China
**Shandong University, Jinan, China
***University of Arizona, Tucson, U.S.A................................................................. 160
Extraction of the Mathematical Features on the Classification of the Adhesive Strength
Han Yan, Lu Hongnian, Yuan Yi
North China Institute of Technology, Taiyuan, China .......................... 163

Sonic Testing Study of Ductile Iron Intrinsic Quality
Bai Fengming, Liu Weina, Pan Yuxue, Yin Guiqin, Li Guoping
Changchun Institute of Optics and Fine Mechanics, Changchun, China .......... 166

Digital Image Enhancement for Industrial Ultrasonic Flaw Detection
Dong Bing Gu, Hong Zhou Li, Gui Fen Chen
Changchun Institute of Optics and Fine Mechanics, Changchun, China .......... 170

6. ADC, DAC and Data Acquisition I

Experimental Study on Ignition Characteristics of Regenerative Spray Combustion Process
Guangsheng Zhu, Junyi Lin, Yuelin Zhang
Nanjing University of Science and Technology, Nanjing, China .................. 174

Application of Virtual Instrument in Digital Signal Processing
Shen Zhongru, Qian Zheng, Wang Zhongmin, Guo Futian
Xi'an Jiaotong University, Xi'an, China .............................................. 177

Missile-Carried Storage and Test Technique for Narrow-Pulse Signal
Li Qin, Jing Zu, Yonghong Li, Wendong Zhang, Jijun Xiong
North China Institute of Technology, Taiyuan, China .............................. 180

Development of an Acceleration Measuring and Testing Device in the Plate Impact Process of Projectile
Hong Chen, Xiyun Shang
North China Institute of Technology, Taiyuan, China .............................. 184

Fuzzy Objective Function Clustering Algorithm in Data Fusion
Chen Zhenping, Liu Qianglin
Air Force Antiaircraft Artillery Academy, Guilin, China .......................... 187

Distribution Storage, Association Memory and Information Relative Infinite Compress with Field-Based Units
Zhou Jin, Zu Jing, Wang Hua, Yang Shuping
North China Institute of Technology, Taiyuan, China .............................. 190

Modular Data Acquisition System
Jun Liu, Ping Wang, Wendong Zhang, Xinglai Wang, Yingchuan Chen
North China Institute of Technology, Taiyuan, China .............................. 193

The Separation and Fusion of Dynamic Measurement Data in Weapon Systems
Zhijie Zhang, Jing Zu, Zhigang Yang, Xiangnan Shen
North China Institute of Technology, Taiyuan, China .............................. 196

The Development of Data Acquisition Software of NEFF System
Wang Li, Fan Bo, *Xiaojuan Wang, Changhui Tian, Malin Qu
Air Force Missile Institute, Sanyuan, Shaanxi, China ............................ 200

Du Haiping, Xu Yueding, Liu Woye, Zhang Yingtang
Shijiazhuang Institute of Mechanical Engineering, Shijiazhuang, China .......... 203
Pseudorandom Signal Generator On-board
Li Qin, Ji Cao, Wendong Zhang, Derong Chen, Bin Zhang
North China Institute of Technology, Taiyuan, China ............................................. 207

Dynamic Modeling for Series System
Pu Xiongzhu, Wu Zhilin, Zhu Mingwu
Nanjing University of Science and Technology, Nanjing, China ............................... 210

Information Theory Research Applied in the Storage Testing System
Yanping Bai, Ji Cao, Wendong Zhang
North China Institute of Technology, Taiyuan, China ............................................... 214

Electronic Memory Detecting Platform
Yonghong Li, Wendong Zhang, Junwu Yan, Zhiqiang Li
North China Institute of Technology, Taiyuan, China ............................................... 218

Design of a Kind of Data Storage Device Carried by Rocket
Wang Xinglai
Department of Telemetry of Systems Engineering Division, China Academy of Launch Vehicle
Technology, Beijing, China ............................................................................................. 221

Monday, June 2, AM

6. ADC, DAC and Data Acquisition II

Real-time Recording System for PCM Telemetering Data
Chengrui Zhai, Ji Cao, Zhengfeng Lin, Huajie Wang
North China Institute of Technology, Taiyuan, China ................................................... 225

Computer-aided Data Acquisition and Analysis for Electro-hydraulic Servo Structural Testing System
Y.B. He, J.Y. Sun, M.G. Xue, *F.M. Wang, **Y.Q. Liu, **G.R. Yan
The Second Artillery Engineering Institute, Xi’an, China
*North China Institute of Technology, Taiyuan, China
**Xi’an Jiaotong University, Xi’an, China ......................................................................... 228

The Development of Acceleration Recorder on Board of the Airborne Bomb
Hong Chen, Xiyun Shang
North China Institute of Technology, Taiyuan, China .................................................... 232

Signal Reconstruction in dynamic Measurement
Xuan Yuan, *Zhijie Zhang, *Jing Zu
China Academy of Ordnance Science and Technology, Beijing, China
*North China Institute of Technology, Taiyuan, China .................................................. 235

Soft Technology in Storage Testing
Yang Shuping, Zhou Jin, Zu Jing, Wang Hua
North China Institute of Technology, Taiyuan, China ................................................... 239

A New Type of Dynamic Data Compression Chip
Jijun Xiong, Wendong Zhang, Ji Cao, Xuan Yuan, Shuzheng Song
North China Institute of Technology, Taiyuan, China ................................................... 243
Dynamic Test System for Automobile Working Condition Monitoring
Caiqin Lu, Chengrui Zhai
North China Institute of Technology, Taiyuan, China ........................................... 246

Fabrication Technique for the Storage Testing Circuit
Xie Zhankui, Zhang Wendong, Shen Xiangnan
North China Institute of Technology, Taiyuan, China ........................................... 249

A System of Real Time Acquiring and Displaying Signals with Low Changing Rate
An Fulin, Niu Yanping
Mechanical Engineering College, Shijiazhuang, China ........................................... 252

A Method to Increase the Measuring Precision of Optical Encoders
Hongqing Peng, Wenshen Hua, Jin Liu
Mechanical Engineering College, Shijiazhuang, China ........................................... 256

7. Artificial Intelligence, Nerve Net Work

Intelligent ATE for Measuring Railway AC-Counting Code
Shen Zhongru, Feng Aigang, Wang Zhongmin
Xi'an Jiaotong University, Xi'an, China ................................................................. 258

Application of Neural Network to Determination of Laser Stripe Center in Vision Inspection System
Weining Wen, Zhaoying Zhou, Jiandong Ruan, Zhongwei Liu
Tsinghua University, Beijing, China ................................................................. 262

Intellectualization Torque Measurement System
Song Lu, Yang Wenku, Zhu Lei
Changchun Institute of Optics and Fine Mechanics, Changchun, China ....................... 265

Research of the Intellectualized Target Identification Technology for Surface to Air Missile Anti-TBM
Wang Zhaoyu, Yan Cong, Wang Hongkuan, Wan Shaosong
The Air Force Institute of Missile, Sanyuan, Shaanxi, China ........................................ 268

Study on the Intellectualization Transfer Film Device of 70/35mm Judging and Reading Instrument
Song Lu, Wang Xiaoman
Changchun Institute of Optics and Fine Mechanics, Changchun, China ....................... 271

The Study of Analyzing Fuzzy Set on the Tolerance in the Analog Circuit Fault Diagnosis
Shucai Tang, Ganlin Shan, Zhongrong Liu
Mechanics Engineering College, Shijiazhuang, China ............................................. 275

An Intelligent Data Sample System
Ziqiang Zhang, Yonghai Ning,* Zhijun Jiang
Luoyang Institute of Technology, Luoyang, Henan, China
*Shanghai Factory of Electric Cable, Shanghai, China ............................................. 279

Auto-Monitoring System for Producing Multiple Wedge Belts
Wang Xiaoman, Yang Wenku, Zhu Lei
Changchun Institute of Optics and Fine Mechanics, Changchun, China ....................... 283

Study of a Practical Auto-Rectification Method of PID Control Parameters
Yao Zhuting, Wang Xianchao, Chu Zhong
North China Institute of Technology, Taiyuan, China ............................................. 286
Flow Control Problems in Computer Networks
M.A. EL-GAZZAR
Egyptian Air Academy, 44632 Belbies, Sharkia, Egypt .......................................................... 290

Study on the Model and Algorithm of Backpropagation Network
Woye Liu, Zhanhai Meng
Machinery Engineering College, Shijiazhuang, China .............................................................. 291

Neural Network Adaptive Predictive Controller for Electro-hydraulic Servo Structural Testing System
Y.B. He, J.Y. Sun, M.G. Xue, W. Sheng, *Y.Q. Liu, *G.R. Yan
The Second Artillery Engineering Institute, Xi’an, China
*Xian Jiaotong University, Xi’an, China .......................................................................................... 294

Sensor Failure Detection Based on On-line Learning Neural Predictor
Zhao Xinmin, Niu Yongsheng
Harbin Institute of Technology, Harbin, China ............................................................................. 298

Development on Parallel Operation and Real-time Communication of TCP Network
A.P. Yu, J.P. Yu, G.M. Yang, Y.Z. Wang, W. Sheng
The Second Artillery Engineering Institute, Xi’an, China .............................................................. 302

On the Problem Event Pretreatment
Luo Qing, Yu Yi
Shanghai Tiedao University, Shanghai, China ................................................................................ 306

8. Electronic Magnetic Measurement
Design Considerations for Testing and Evaluating the Performance of SS7 Networks
Cai Junfu, *Zhang Xihong, *Zhang Shujing
Ministry of Railway, Luoyang, Henan, China
*Shanghai Tiedao University, Shanghai, China ............................................................................. 310

A New Temperature Measurement Method by Phase Locked Loop
Ren Hongbin, Jian Jinlei, Cui Zhishe, Ma Fuzhou, *Zhou Dengyu
The Air Force Institute of Missile, Sanyuan, Shaanxi, China
*China Xian International Economic Technical Trade Corporation, Shaanxi, China ................. 314

Measurements of Body Impedance for ESD
Wu Zhancheng, Lu Shanghe
Shijiazhuang Mechanical College, Shijiazhuang, China ................................................................ 318

Manometer for Measuring Restoring Pressure of Oil Wells
Shuping Yang, Hua Wang, Zhankui Xie, Xing Song, Shusheng Li
North China Institute of Technology, Taiyuan, China .................................................................... 321

Projectile Velocity Measurement Under Interfered Environments
He Rongjian, Fen Ximin
The Institute of Structural Mechanics CAEP, Chengdu, China .................................................... 324

Unity of Two Kinds of Analog Circuit Fault Test and Diagnosis Methods
Jingwei Zhang, Mingyuan Wang, Xu Yong, Zongbao Zhao
Air Force Missile Institute, Sanyuan, Shaanxi, China .................................................................... 328
Measurement of the Semiconductor Film Resistance
Yang Wenko, Chen Guifen, *Yang Yujing, **Deng Wenrong
Changchun Institute of Optics and Fine Mechanics, Changchun, China
*Jilin Vocational Teacher’s College, Changchun, China
**Changchun Institute of Optics and Fine Mechanics, Academia Sinica, Changchun, China

A Method for Inspecting Ballistic Performance of Ammunition
Zhanhai Meng, Xinjun Cui
Teaching and Researching Section of Ballistics, Mechanical Engineering College, Shijiazhuang, China

The Magnetic Field Distribution in Ferromagnetic Material Magnetized by a U–Shape Permanent Magnet
Wang Qingguo, Zhang Lingzhen, Liu Zhicheng, Xu Zhangsui
Mechanical Engineering College, Shijiazhuang, China

The Realization of Measuring Automatically the Parameters of the Multi-Cored Seismic Cable
C.Y. He, S.Y. Hu, J.H. Zhang
Xi’an Jiaotong University, Xi’an, China

Testing Device for the Scanning Parameters of the Terminal Sensitive Projectile
Jinming Li, Ji Cao, Wendong Zhang, Lingjun Meng
North China Institute of Technology, Taiyuan, China

The Double Washers Impedance Converter Used to Match a Load
Zhen Shuchun, Ju Zhiqin, Li Ke
Air Force Missile Institute, Sanyuan, Shaanxi, China

Test and Analysis of Magnetic Leakage Field of Internal Defects in Ferromagnetic Materials
Zhang Lingzhen, Wang Qingguo, Liu Zhicheng, Xu Zhangsui
Mechanical Engineering College, Shijiazhuang, China

Particle Simulation of Free Electron Laser Stimulated by a Static Electric Wiggler
Malin Qu, Changhui Tian, Wang Li, *Xiaojuan Wang
Air Force Missile Institute, Sanyuan, Shaanxi, China

9. Flow Distribution and Visualization
A Thermal Environment Monitor
Song Chen, Kenzo Watanabe
Research Institute of Electronics, Shizuoka University, Hamamatsu, Japan

LDA Measurement and Numerical Simulation of Air Motion in a Bell Type Swirl Chamber
Guangsheng Zhu, Yuelin Zhang, Qian Wang
Nanjing University of Science and Technology, Nanjing, China

Experimental and Theoretical Study on Regenerative Spray Combustion Process
Guangsheng Zhu, Junyi Lin, Yuelin Zhang
Nanjing University of Science and Technology, Nanjing, China

Optical Analysis Method for Particulate Emission Monitoring
Chen Anshi, Zu Jing, Li Bin, Miao Yansong
North China Institute of Technology, Taiyuan, China
Test and Measurement Study for the Air Flow Resistance Characteristic of the Vehicle Cooling System
Zhu Zheng, Li Yu
North Vehicle Research Institute, Beijing, China ................................................................. 374

High Speed Photography Method for the Measurement of the Fire Burning in the Internal-Combustion Engine
Yang Wenku, Chen Guifen, *Deng Wenrong, **Yang Yujing
Changchun Institute of Optics and Fine Mechanics, Changchun, China
*Changchun Institute of Optics and Fine Mechanics, Academia Sinica, Changchun, China
**Jilin Vocational Teacher's College, Changchun, China ................................................................. 378

10. Sensor and Display Transducer

K-SHEAR Accelerometers
T. Berther, *J. Kubler, G.H. Gautschi
Kistler Instrumente AG, CH-8408 Winterthur, Switzerland
*Kistler Instrument Corp., Amherst, NY, USA ................................................................. 381

Matching Customer Application Requirements with Cost Effective Sensor Packaging
Harold Joseph, Vladimir Vaganov
EG&G IC Sensors-Milpitas, CA, USA ................................................................. 385

The Microinstruments for Acceleration
Wendong Zhang, JiJun Xiong, Zhaoying Zhou, Xiongying Ye, Xiaohao Wang
Tsinghua University, Beijing, China ................................................................. 392

Study for the Quartz Resonator Force Sensor with Energy Trapping Theory
Wang Xiaohong, Feng Guanping, Zhu Huizhong, Dong Yonggui
Tsinghua University, Beijing, China ................................................................. 395

Medical Applications for MEMS Devices
Harold Joseph, Bob Swafford, Stephen Terry
EG&G IC Sensors-Milpitas, CA, USA ................................................................. 399

A SAW Passive Temperature Sensor Using Remote Sensing System
Yuan Li, Tianhuai Ding, Guanping Feng, *Bin Li, *Minfeng Chen
Tsinghua University, Beijing, China
*SAW Company, Chang Feng Corporation, Beijing, China ................................................................. 405

Differential Eddy Current Sensor
Cong Hua, Zhao Hongbin, An Gang
Tsinghua University, Beijing, China ................................................................. 409

The Bandwidth of a Multilayer Transducer
North China Institute of Technology, Taiyuan, China ................................................................. 413

The Application of Chip Microprocessor in Producing Oral Liquids
Jianshe Liu, Yali Gao
The Missile Institute of Air Force, Sanyuan, Shaanxi, China ................................................................. 417
Conditioning Circuit for Hot-film Crosswind Sensors
Chen Anshi, Zu Jing, Li Bin, *Zu Wen
North China Institute of Technology, Taiyuan, China
*Chinese Ordnance Industries Crop., Beijing, China

The Study of Transducer for Measuring Gun Vibration
Fan Maojun, Pu Xiongzhu, Wu Zhilin, Li Hui
Nanjing University of Science and Technology, Nanjing, China

Self-Temperature-Testing of the Quartz Resonant Force Sensor
Yonggui Dong, Jinsong Wang, Guanping Feng, Xiaohong Wang
Tsinghua University, Beijing, China

Interface for Capacitive Sensor
Hua Wang, Lifan Meng, Wendong Zhang, Zhankui Xie
North China Institute of Technology, Taiyuan, China

The Study of a New Type of Piezoresistive Acceleration Transducer
Fan Maojun, Pu Xiongzhu, Zhu Mingwu, Wang Ping, Zhan Jiuguo
Nanjing University of Science and Technology, Nanjing, China

A Special Approach with Field-Based Units
Zhou Jin, Zu Jing, Wang Hua, Yang Shuping
North China Institute of Technology, Taiyuan, China

Piezoresistive Measurement System for Measuring Gunpoint Noise
Kong Deren, Li Yongxin, Zhang Yue, He Ying, Pu Xiongzhu
Nanjing University of Science and Technology, Nanjing, China

The General Technique Research of Gun Launched Missile for Testing
Wang Ping, Wendong Zhang, Liu Jun
North China Institute of Technology, Taiyuan, China

A Study on Liquid Crystal Infrared Sensor
Hongqing Feng, Jin Liu, Wenshen Hua
Mechanical Engineering College, Shijiazhuang, China

Monday, June 2, PM

11. Nondestructive Testing

Some Work on Firearms' Shoulder Force Measurement
Sun Haibo, Kong Deren, Li Yongxin, Zhu Minwu, Liu Guangliao
Nanjing University of Science and Technology, Nanjing, China

Mechanical Admittance Analysis of Rifle-Shoulder System
Kong Deren, Sun Haibo, Li Yongxin, Zhu Minwu, Liu Guangliao
Nanjing University of Science and Technology, Nanjing, China

A Method of Obtaining Bore Pressure Curve with Transfer Function
Xinjun Cui, Zhanhai Meng
Teaching and Researching Section of Ballistics,
Mechanical College of Engineering, Shijiazhuang, China
Optical Fiber Noncontact Measurement for the Thread
Dongbing Gu, Hongzhuo Li, Guifen Chen
Changchun Optics and Fine Mechanics Institute of Technology, Chanchun, China .......................... 464

12. Automatic and On-line Test
Monitor of Charging and Discharging Storage Battery in Service
Shen Zhongru, Lu Lu, Wang Zhongmin, Guo Futian
Xi'an Jiaotong University, Xi'an, China ................................................................. 468
The Development of an Ultra-low Humidity Instrumentation
Fan Bo, Shu Tao, Wang Li
Air Force Missile Institute, Sanyuan, Shaanxi, China ............................................. 471
Multisensor Battlefield Monitoring System and Its Signal Processing Simulation
Shi Yan, Hu Changzhen, Tan Huimin
Beijing Institute of Technology, Beijing, China ..................................................... 474
Single-Chip Microcomputer Temperature Fuzzy Control System
Wang Guanglong
Machinery Engineering College, Shijiazhuang, China ........................................... 478
The Instrument Inspector of the Flight Simulators
Chen Lei
The Second Aviation Academy, Changchun, China ................................................. 482
Design and Realization of Automatic Measurement and Control System in Fueling Equipment
Zhao Jincai, Wang Ruihong
P.O.Box 200-7#, Taiyuan, China ............................................................................ 485
Recording Instrument Based on Hard Disk
Chengrui Zhai, Chidong Yao, Wendong Zhang, Ping Wang
North China Institute of Technology, Taiyuan, China ............................................. 489
The On-line Quality Testing and Jet-printing for Graphite Electrode Controlled by Microcomputer
Zhou Guorong
Central South University of Technology, Changsha, China ................................ 492
Virtual Environment Application in Development of Weapon System
Huilian Han
North China Institute of Technology, Taiyuan, China ............................................. 496
The Study of a Method for Measurement of Roundness of Large-Scale Workpiece
Ma Xiaoli, Yuan Changliang
Taiyuan University of Technology, Taiyuan, China .............................................. 500
The Multifunction Electric Power Parameter Instrumentation
Fan Bo, Wang Li
Air Force Missile Institute, Sanyuan, Shaanxi, China ........................................... 504
A Fault Locating Method of Analog Circuits and Systems—Tree Structure Method
Chen Shengjian, *Wang Yuefang, Xue Zhoucheng
Shijiazhuang Mechanical Engineering College, Shijiazhuang, China
*Shijiazhuang Tourist Textiles Printing and Dyeing Mill, Shijiazhuang, China .......... 507
VXI Virtual Instrument Technique Analysis
Huilian Han, Lijing Xu
North China Institute of Technology, Taiyuan, China ........................................ 510

A Microcomputer-Controlled Measurement System of Exchange Protect Unit
Zhao Zhibin, *Zhao Jiong, *Zhou Qigang
Standard Measurement Bureau of Ninghai, Zhejiang, China
*Shanghai Tiedao University, Shanghai, China .................................................. 514

On-Line Test and Trouble Diagnosis to the Old-type Equipment
Zhang Yanbin, Wang Hong’en
Shijiazhuang Machinery Engineering College, Shijiazhuang, China ....................... 518

Automatic Metrology System Based on Windows Platform
Cao Peiwei, Chen Buyue, Zhang Chijun, Wang Chenhua, Zhao Qinggong
Missile Technical Logistics Institute of Air Force Logistics Department, Beijing, China ... 522

A Design Method of Built-In Self-Test for Fault Diagnosis in Analog Circuits LRU Level
Chen Shengjian, Wang Zhiyun, Huang Yunhua
Shijiazhuang Mechanical Engineering College, Shijiazhuang, China ....................... 526

A General Purpose Measurement & Verification System for Time & Frequency Meter Based on VXIbus
Gao Shihai, Tan Bo
Second Artillery Engineering Collage, Xi’an, China ........................................... 529

Realization of Automatic Verification of Mode KGYA DC Voltage Power Supply
Gao Shihai, Zheng Jan, Tan Bo
Second Artillery Engineering Collage, Xi’an, China ........................................... 533

Design and Realization of Computer Controlled Automatic Cement Compression Testing Machine
Zhong Mianxin, Tao Liying
Jinan Testing Machinery Manufacturing General Company, Jinan, China ................. 537

Learning Control System for a Ten-thousand-ton Hydraulic Press
Liu Kai, Yu Shouyi, He Jianjun, Gui Weihua
Central South University of Technology, Changsha, China ................................ 541

Computer Analogies of Work’s Vibration Effecting on Laser Scanning on Line Detection
Liu Weina, Bai Fengming, Chen Ling
Changchun Institute of Optics and Fine Mechanics, Changchun, China .................... 545

The Pressure Automatic Measuring System of the Rake Probe
Li Tifang, Wang Xuezhi, Zhang Zhifeng
The Air Force Institute of Missile, Sanyuan, Shaanxi, China ................................ 549

13. Microwave Measurement
The Application of Spread Spectrum Technology to Measurement
Ren Hongbin, Jian Jinlei, Cui Zhishe, *Zhou Dengyu
The Air Force Institute of Missile, Sanyuan, Shaanxi, China
*China Xi’an International Economic Technical Trade Corporation, Xi’an, China ........ 553
The Effect of Thickness Changing of Microwave Absorbing Materials upon Its Characteristics of Absorption
Changhui Tian, Malin Qu, Wang Li, Humin Lei
The Air Force Institute of Missile, Sanyuan, Shaanxi, China .................................................. 557

Application of Kalman Filter Technique Improve the Target Tracking Accuracy
Wei Maicheng, Wang Hongkuan
The Air Force Institute of Missile, Sanyuan, Shaanxi, China .................................................. 560

The Influence from Fed-Blocking to Gain for Paraboloid
Zheng Wutuan, Shen Maoxing
The Air Force Institute of Missile, Sanyuan, Shaanxi, China .................................................. 563

Focusing Technology of Phased Array Antenna
Wang Chaochi, Wang Chunyang, Zhang Jingwei, He Yanfen
Institute of Air Force Missile, Sanyuan, Shaanxi, China .................................................. 566

The Development and Test of DS and DFS Compound Microwave Absorbing Materials
Changhui Tian, Malin Qu, Wang Li, Humin Lei
Institute of Air Force Missile, Sanyuan, Shaanxi, China .................................................. 570

A Method to Improve the Directivity of Microstrip Line DIR COUP Greatly and Its Testing
Zheng Wutuan, Shen Maoxing
Air Force Missile Institute, Sanyuan, Shaanxi, China .................................................. 572

A Simple and Easy Measurement Way for Parameters of Paraboloid
Shen Maoxing, Zheng Wutuan
Air Force Missile Institute, Sanyuan, Shaanxi, China .................................................. 575

14. Remote Sensing and Telemetering
Local Realization of the Tele-Control Supervisor for Power System
L.X. Wang, Y.B. He, Y.N.Yao
Xi'an Jiaotong University, Xi'an, China .................................................. 578

NOAA Satellite Monitoring Oil Spill of Vessel
Li Qijun, Fu Yuhui, Huang Fengrong, Gao Chao, Wang Xingtiao
Dalian Maritime University, Dalian, China .................................................. 582

The Spread Spectrum Multi-target Telemetry
Jian Jinlei, Ren Hongbin, Cui Zhishe, Zhou Dengyu
The Air Force Institute of Missile, Sanyuan, Shaanxi, China .................................................. 586

*China Xian International Economic Technical Trade Corp., Shaanxi, China

Summarization and Assumption of Subpixel Registration Application
Zheng Zhaorui
Taiyuan University of Technology, Taiyuan, China .................................................. 590

Intelligent Distinguishing and Decoding of the Infrared Remote Control Command Code
An Fulin, Niu Yanping
Mechanical Engineering College, Shijiazhuang, China .................................................. 594

The Telemetric System in Wind Power Stations, Earthquake Stations and Observatory Stations
Zhonghan Pan
NIKANDROV.St., PAGRATI, Athens 11635, Greece .................................................. 597
15. Miscellaneous

Research of On-line Test Technique and Device for Measuring Steering Gear Shell Structure of Automobile
Renjie Zhang, Shuguang Dai, Ping’an Mu
University of Shanghai Science and Technology, Shanghai, China

Identification of a Shooting Load with Strain Response
Gu Deqiao, Liu Yaoyi, Qian Haosheng, Zheng Zhong
Beijing Institute of Technology, Beijing, China

A Study on the Horizontal Beam and the Vertical Column of Cantilever 3D CMM
Yingjian Zhao, Kaicheng Song, Guoxiong Zhang
Tianjin University, Tianjin, China

A New Generation of Cutting Force Dynamometers
X. Dai, G.H. Gautschi
Kistler Instrumente AG, Winterthur, Switzerland

Development of Shaving Dynamometer Taking Centre as Sensor
Lü Ming
Taiyuan University of Technology, Taiyuan, China

Measurement and Mathematical Model of Shaving Force
Lü Ming
Taiyuan University of Technology, Taiyuan, China

Study of the Intensity of Wing in Rocket
Changfan Xin, Jing Wen
North China Institute of Technology, Taiyuan, China

Error Analysis and Compensation of Precision Gear Grinding
Guo Wenliang, Ya Gang, Zheng Xiaohua, Liu Zhibo
Taiyuan University of Technology, Taiyuan, China

Tooth Thickness Measurement and a New Generality Checking Method of Shaving Wheel
Guo Wenliang, Zheng Xiaohua, Li Rui
Taiyuan University of Technology, Taiyuan, China

Infrared Wireless Computer Network
Lingjun Meng, Ji Cao, Wendong Zhang, *Yuanzhong Zhao
North China Institute of Technology, Taiyuan, China
*No. 203 Research Institute, Chang’an, Shaanxi, China

Thermal Stress Analogue Measurement and Analysis of Boiler Drum
Z.L. Zhao, F.M. Wang, *J.M. Han, *Y.S. Ren
Xi’an Jiaotong University, Xi’an, China
*Shanxi Mining Institute, Taiyuan, China

Measurement and Analysis of Stress in Thin-Walls Cartridge Case
Zengyou Liang, Xiuling Wu
North China Institute of Technology, Taiyuan, China
Observation of the Buckling Behavior of Cylindrical Shells Under Transient Axial Impulsive Loading
Dongxing Pei, Jing Zu, Zhaoli Zhang, Zhong Chu
North China Institute of Technology, Taiyuan, China ................................................................. 647

Numerical Analysis for a Three-Layer Ceramic-Lined Composite Gun Tube
Wang Fuxing, Sun Huadong, Li Baocheng
North China Institute of Technology, Taiyuan, China ................................................................. 651

A Method of Measuring System Errors for Gear Grinding Machine
Guo Wenliang, Zheng Xiaohua, Han Nianchen
Taiyuan University of Technology, Taiyuan, China ................................................................. 655

Automatic Measurement of the Torsion Spring's Stiffness
Changfan Xin, Zengyou Liang
North China Institute of Technology, Taiyuan, China ................................................................. 659
