PROCEEDINGS —
Fifteenth Annual Meeting

Theme:
“Transportation in Focus”

October 10-11-12, 1974
Fairmont Hotel
San Francisco, California

Volume XV • Number 1 1974
# Table of Contents

**FOREWORD**  
Edward K. Morlok .......................................................... v

**OCTOBER 10-11-12, 1974 MEETING TRANSPORTATION RESEARCH FORUM**

**NATIONAL TRANSPORTATION POLICY**

- **FACTORS PROMOTING CONCENTRATION OF MOTOR CARRIERS UNDER DEREGULATION**  
  D. Daryl Wyckoff .......................................................... 1

- **STRUCTURED FLEXIBILITY IN THE AIR FARE AS A MEANS TO MORE PRUDENT REGULATION**  
  Nawal K. Taneja .......................................................... 7

- **BALKANIZATION IN THE RAILROAD INDUSTRY**  
  Alexander L. Morton ...................................................... 14

- **NATIONAL TRANSPORTATION POLICY: THE NEED FOR A CLEAR CONCEPT**  
  Thomas A. Till .......................................................... 18

**FORUM ON DETERMINING THE OPTIMAL RAILROAD ROUTE STRUCTURE**

- **HOW TO DETERMINE THE OPTIMUM RAILROAD ROUTE STRUCTURE?**  
  Herbert E. Bixler .......................................................... 23

- **TOWARDS A NATIONAL POLICY OF SUPER RAILROADS**  
  James R. Blaze .......................................................... 25

- **SERVICE CHARACTERISTICS OF AN INTERSTATE RAIL NETWORK**  
  Carl D. Martland .......................................................... 34

**AIR SERVICE TO SMALL COMMUNITIES**

- **AIR SERVICE TO SMALL COMMUNITIES: THE PAST, THE PRESENT, THE FUTURE**  
  Joseph F. Vittek, Jr. .................................................... 40

- **LOW DENSITY AIR TRANSPORTATION IN DEVELOPING COUNTRIES**  
  Raymond A. Ausrotas .................................................... 47

- **PERSPECTIVES ON FEDERAL GOVERNMENT POLICY TOWARD AIR CARRIER SERVICE TO SMALL COMMUNITIES**  
  James J. Gansle .......................................................... 54
AIR SERVICE TO SMALL COMMUNITIES—MARKET ISSUES AND AIRCRAFT TECHNOLOGY IMPLICATIONS
Susan Norman ................................................. 58

COMMUTER AIRLINES CAN IMPROVE AIR SERVICE TO SMALL COMMUNITIES
Janet St. Mark .................................................. 65

STATE POLICY AND PLANS FOR AIR SERVICE TO SMALL COMMUNITIES
William F. Shea ............................................... 70

FINANCING URBAN TRANSIT SYSTEMS
TRANSIT OPERATING SUBSIDIES — 1974
Ernest R. Gerlach .............................................. 73

TECHNICAL ANALYSIS AND POLITICAL ACTIONS
Robert A. Keith ............................................... 80

AN EVALUATION OF THE PROCEDURES FOR ALLOCATING OPERATING DEFICITS FROM URBAN TRANSIT SYSTEMS
Dr. Harvey A. Levine ....................................... 87

BOUNDING URBAN TRANSPORTATION ANALYSIS AND ITS EFFECT ON BOTH FINDINGS AND FINANCING
John W. Drake .................................................... 96

PORT PLANNING AND OPERATIONS
MULTIMODAL TRANSPORTATION NEEDS AT PORT SITES — A POLICY PROGRAMMING FRAMEWORK
Dr. Lonnie E. Haefner ...................................... 100

FUNCTIONAL CLASSIFICATION OF GREAT LAKES COMMERCIAL PORTS
Pedro S. Hurtendo and Frederick J. Wegmann .................. 104

THE FOREIGN TRADE ECONOMETRIC MODEL
Jerome Gilbert, Nai-Ching Sun, Amos Ilan and Michael C. Bunamo ...... 115

STATE AND LOCAL PORT PLANNING—INSTITUTIONAL AND ORGANIZATIONAL ALTERNATIVES
Frank L. Hendrix, Gary N. Dicer and James G. Lane .................... 125

LESSONS FROM THE CANADIAN DEREGULATION EXPERIENCE
DEREGULATION OF TRANSPORTATION: ITS PROBABLE RAMIFICATIONS
James C. Johnson .............................................. 133

ISSUES IN TRUCKING AND URBAN GOODS MOVEMENT
FACTORS INFLUENCING SHIPPING MODE CHOICE FOR INTERCITY FREIGHT: A DISAGGREGATE APPROACH
Peter L. Watson, James C. Hartwig and William E. Linton ............... 138
BUS AND TAXI PACKAGE EXPRESS—
A MAJOR COMPONENT OF URBAN GOODS MOVEMENT
Frank W. Davis, Jr., Kenneth W. Heathington,
Richard T. Symons and Stephen C. Griese ........................................ 145

URBAN TRANSPORTATION SYSTEMS

INCOME-DISTRIBUTIONAL CONSEQUENCES
OF ROADWAY PRICING
Damian J. Kulash ................................................................. 153

SOME IMPLICATIONS OF A FLAT BUS FARE STRUCTURE
Hoyt G. Wilson and G. John Kurgan ........................................ 160

RELIABILITY ANALYSIS OF ORIGIN-DESTINATION SURVEYS
AND DETERMINATION OF OPTIMAL SAMPLE SIZE
Gary G. Makowski, Arun Chatterjee and Kumares C. Sinha ............. 166

MARKING AND LIGHTING FOR
PASSENGER TRAIN VISIBILITY
Mark Hovind ................................................................. 177

TRANSPORTATION OF SOLIDS BY PIPELINE:
ECONOMIC ISSUES

FUTURE OF PIPELINE—BEYOND LIQUID AND GAS
Iraj Zandi ................................................................. 187

ECONOMICS OF SLURRY PIPELINE SYSTEMS
T. C. Aude, T. L. Thompson and E. J. Wasp ................................ 194

THE CASE FOR CAPSULE PIPELINING IN LIQUID MEDIA
Erik J. Jensen ................................................................. 203

PNEUMATIC CAPSULE PIPELINE
M. R. Carstens and B. E. Freeze ........................................... 206

SAFETY AND SECURITY IN PUBLIC TRANSPORTATION

PERSONAL SECURITY ON PUBLIC TRANSIT
Neil D. Ferrari and Michael F. Trentacoste ................................ 214

MASS TRANSIT SECURITY IN CHICAGO
Ronald C. Johnson ................................................................. 224

CENTRAL ISSUES IN TRANSIT SECURITY
Robert Shellow ................................................................. 235

PLANNING AND DEVELOPMENT OF THE
BART POLICE SERVICES DEPARTMENT
Keith Bernard ................................................................. 240

ROBBERY AND ASSAULT OF BUS DRIVERS REVISITED
Paul Gray ................................................................. 244
### Should Railroad Accounting Be Revised?

**WHY RETIREMENT-REPLACEMENT-BETTERMENT ACCOUNTING SHOULD CONTINUE TO BE APPLIED TO RAILROAD TRACK STRUCTURE**  
Robert J. Casey .................................................. 246

**A NEW TOOL FOR RAIL OPERATIONS—STANDARD COST**  
Jay A. Smith, Jr. .................................................. 254

**FUNCTIONAL RAILWAY COST ACCOUNTING**  
Herbert O. Whitten ........................................... 263

### The National Transportation Study

**THE NATIONAL TRANSPORTATION STUDY: ITS USE AT THE FEDERAL GOVERNMENT LEVEL**  
Carl N. Swerdloff and Arrigo Mongini ........................... 276

**INSTITUTIONAL CONSTRAINTS ON COMPREHENSIVE TRANSPORTATION PLANNING AT THE FEDERAL LEVEL**  
Paul W. Shuldiner ........................................... 285

**A NATIONAL SURVEY OF INDUSTRIAL SHIPPERS CONCERNING TRANSPORTATION SYSTEM PERFORMANCE**  
J. Richard Jones ........................................... 290

### Air Transportation Systems Analysis

**A THEORY FOR DOMESTIC AIRLINE ECONOMICS**  
Robert W. Simpson ........................................... 295

**A DESCRIPTIVE ECONOMIC MODEL FOR RATIONALIZING AIRLINE ROUTE STRUCTURES**  
Yupo Chan .................................................. 309

**AIRLINE MAINTENANCE AND THE FLIGHT SCHEDULE**  
Maximilian M. Etschmaler and Marvin Rothstein ............... 321

### Developments in Travel Demand Analysis

**PREFERENCES FOR TRANSIT SERVICE BY HOMOGENEOUS GROUPS OF INDIVIDUALS**  
Ricardo Dobson and Gregory C. Nicolaidis .................... 326

**AN AGGREGATE ACCESS SUPPLY MODEL**  
Antti Talvitie and Neil Hilsen ................................ 336

**THE IMPACT OF FARES-FREE PUBLIC TRANSPORT UPON URBAN RESIDENTIAL LOCATION**  
M. Batty, P. G. Hall and D. N. M. Starkie .................. 347

**RESEARCH ON TRANSPORT DEMAND MODELS**  
A. J. Daly .................................................. 354

**ON ASSESSING INDIVIDUALS' ATTITUDES TOWARDS POTENTIAL TRAVEL DESTINATIONS: A RESEARCH STRATEGY**  
Susan Hanson .................................................. 368
TRANSPORTATION OF SOLIDS BY PIPELINE:
TECHNOLOGICAL ISSUES

A REVIEW OF PRACTICAL EXPERIENCE
WITH SOLID PIPELINES
Kyong Sup Kim .................................................. 371

AN EVALUATION OF PIPELINE TRANSPORTATION
OF COAL IN MINES
Joseph R. Reed, Richard A. Hartman and Robert Stefank o .......... 381

SNG TRANSMISSION FROM COAL COMPLEXES IN
APPALACHIA TO EASTERN URBAN CENTERS:
A PIPELINE SYSTEM DESIGN ANALYSIS
S. Subhawong and D. G. Nichols .................................. 398

URBAN TRANSPORTATION SYSTEM EVALUATION

TOWARD THE DEVELOPMENT OF A GENERALIZED
STRUCTURE OF TRANSPORTATION SERVICE MEASURES
H. W. Bruck and James T. Kneafsey ................................. 399

PREDICTING RURAL PUBLIC TRANSPORTATION
SYSTEM EFFECTIVENESS
Arthur Saltzman, Marion Blair, Joyce Johnson and Jon Burkhardt .... 406

A COMPREHENSIVE EVALUATION OF TRANSPORTATION
ALTERNATIVES FOR A LARGE URBAN AREA
John Hoffman and Martin E. Goldsmith ................................ 413

THE TAXICAB INDUSTRY IN WISCONSIN: AN INVENTORY
AND LOOK AT REGULATORY POLICY
John A. Zachar and Edward A. Beimborn ................................ 428

A CONCEPTUAL FRAMEWORK FOR ASSESSING
EQUITY IN URBAN MASS TRANSIT SYSTEMS
Neville A. Parker .................................................... 434

TRANSPORTATION COST MEASUREMENT FOR
DECISION MAKING

THE ECONOMIC EFFICIENCY OF PRIVATE
MOTOR TRANSPORTATION
Bernard V. Sigg ..................................................... 439

ECONOMIC EFFICIENCY OF MEAT
AND LIVESTOCK TRUCKING FIRMS
Dale G. Anderson and Wayne W. Budt ............................... 443

THE RELATIONSHIP BETWEEN FREIGHT CAR
COSTS AND TRAFFIC
Jack S. Ventura ..................................................... 452

MARKETING PUBLIC TRANSPORT SERVICES

THE EFFECT OF INCOME ON THE USAGE
AND VALUATION OF TRANSPORT MODES
Peter L. Watson and Peter R. Stopher ................................ 460
ON THE EVALUATION OF COMFORT AND CONVENIENCE IN URBAN TRANSPORTATION—A CHOICE ANALYTIC APPROACH
Staffan Algers, Stein Hansen and Goran Tegnér ........................................ 470

MODAL SHIFT BEHAVIOR OF STRIKE AFFECTED BUS COMMUTERS
Andrew Bata ........................................................................................................ 482

AN ANALYSIS OF TRAVEL DEMAND CHARACTERISTICS OF THE ELDERLY—THE CASE OF A SMALL URBAN AREA
Arnim H. Meyburg ............................................................................................. 490

THE EFFECTS OF ATLANTA'S SHORT-RANGE TRANSIT IMPROVEMENT PROGRAM ON SYSTEM RIDERSHIP
Michael A. Kemp .................................................................................................. 496

INTERACTIVE GRAPHIC TOOLS FOR TRANSPORTATION PLANNING

COMPUTER GRAPHICS IN TRANSPORTATION PLANNING
Robert H. Hinckley ............................................................................................... 505

TRANSPORTATION PLANNING APPLICATION OF THE GEO-DATA ANALYSIS AND DISPLAY SYSTEM
P. E. Mantey ............................................................................................................ 512

AN INTERACTIVE GRAPHICS SYSTEM FOR RESOLVING PUPIL ASSIGNMENT, BUS ROUTING, AND RESOURCE ALLOCATION PROBLEMS IN URBAN SCHOOL SYSTEMS
Patrick D. Krolak and James H. Nelson ............................................................... 519

PRIZE-WINNING STUDENT PAPERS

— FIRST PRIZE WINNER —
MODELING AIRCRAFT FLOW IN AIR TRAFFIC CONTROL SYSTEMS
Neil W. Polhemus ................................................................................................. 526

— SECOND PRIZE WINNER —
DESIGN AND PLANNING OF MASS TRANSIT—ROOSEVELT ISLAND: A NEW TOWN 'INTOWN'
Charles A. Ehrhorn .............................................................................................. 540

— THIRD PRIZE WINNER —
THE FORMULATION OF A MODEL TO ALLOCATE COSTS OF A METROPOLITAN TRANSPORTATION IMPROVEMENT
John P. Poorman ................................................................................................. 549
MAY 12-15, 1974 MEETING
CANADIAN TRANSPORTATION RESEARCH FORUM

FUEL SHORTAGES AND PASSENGER TRANSPORTATION
Karl M. Ruppenthal ................................................................. 560

AN ECONOMIC ANALYSIS OF CONTROLS
ON THE DISCHARGE OF OIL AT SEA
Trevor D. Heaver and W. G. Waters II ........................................ 571

GAINS DE TEMPS ET ECONOMIES D'ENERGIE DANS
LES TRANSPORTS DE VOYAGEURS A GRANDE VITESSE
Y. Machefert-Tassin ................................................................. 582

ENERGY USE IN CANADIAN TRANSPORTATION:
THE PATTERNS OF FUTURE ADJUSTMENT
John M. Munro and G. A. Constable ............................................. 589

TRANSPORTATION COSTS: A STRAW
MAN IN REGIONAL DEVELOPMENT
Cheuk C. Wong, Gerald Hodge and James T. Girvan ......................... 603

THE DESIGN OF A REGIONAL PASSENGER
TRANSPORTATION SYSTEM
Gordon C. Shaw ................................................................. 611
