

Emerging Solutions to VOC & Air Toxics Control

Proceedings of a Specialty Conference Sponsored by the
Air & Waste Management Association
February 26-28, 1997
San Diego, CA

The Proceedings of a Specialty Conference Sponsored by

AIR & WASTE MANAGEMENT
ASSOCIATION

SINCE 1917

TABLE OF CONTENTS

TABLE OF CONTENTS	iii
CONFERENCE COMMITTEES	vii
LUNCHEON PRESENTATION	ix
New Federal Ambient Air Quality Standards for Ozone and Particulate: How Will They Affect You? <i>David Howekamp, Regional Air Director, U.S. Environmental Protection Agency, Region IX</i>	
Session 1 - Emerging and Innovative Technologies Chair: Christine Vineyard, U.S. Environmental Protection Agency, Region IX Vice Chair: John Sudnick, Eckenfelder, Inc.	
Conversion of a Regenerative Oxidizer Into Catalytic Unit <i>Yurii Sh. Matros, Grigorii A. Bunimovich, Vadim O. Strots, Doug J. Denne, James J. Garmaker, Richard W. Uhr, Bruce Bullough, Chris R. Roach, and Casper F. Kovarik</i>	3
Applications of Manganese Oxides Based Catalyst for the Destruction of VOCs <i>Nirmal Singh, Kenneth S. Pisarczyk, and Joseph J. Sigmund</i>	15
Low Temperature Oxidation Catalyst for Control of VOC Emissions <i>Cristian Libanati, M.S. Ziebarth, J.W. Beekman, M.M. Koranne, M. Uberoi</i>	30
High VOC Loadings in Biofilters—Industrial Applications <i>William C. Stewart and Randall R. Thom</i>	38
The Engineered Biofiltration System <i>Dina A. Pisotti</i>	66
Quantitative Structure-Activity Relationships for Prediction of Removal Efficiency in Air-Phase Biofilters <i>Joseph S. Devinny, Duk-Soo Choi, and Todd S. Webster</i>	76
Air Emission Control Equipment The New Challenge for Equipment Suppliers <i>Frank H. Lobb</i>	88
Reduction of VOC Emissions from Aeration Basins Using Mobile Hoods and Circulating Aeration <i>Hongwei Zhu, Tim C. Keener, Paul L. Bishop, Tim L. Orton, Soon J. Khang, and Kaniz Siddiqui</i>	97

Session 2 - Regulatory Issues and Hybrid Technologies

Chair: Bill Powers, Powers Engineering

Vice Chair: Norman Kaplan, U.S. Environmental Protection Agency

Comparison of VOC Regulations in the United States and Key European Countries <i>Kenneth R. Woodside</i>	109
Assessment of the Feasibility of Reducing Emissions from Gasoline and LPG Industrial Equipment <i>Marijke Bekken and Michelle Shultz Wood</i>	124
Controlling Emissions from a Black Liquor Fluidized Bed Evaporator (Copeland Reactor) Using a Regenerative Thermal Oxidizer and a Prefilter <i>Richard Grzanka</i>	136
Controlling VOC and Air Toxic Emissions from Aircraft Refinishing Facilities—A New Approach <i>Jacqueline Ayer</i>	143
Legal Requirements for Proving the Fugitive VOCs Emissions Defense to an Alleged PSD Permit Violation: Developing Admissible Evidence and Expert Testimony on “Not Reasonably Pass Through” and “Industry Practice” <i>Rolf R. von Oppenfeld, Eric L. Hiser, and Diane M. Evans</i>	150
The Oil and Gas Exploration and Production Industry in Texas: Reducing Emissions, Making and Saving Money, Minimizing Regulation <i>Duncan F. Stewart</i>	161
Implementation of a Solvent Management Program to Control Paint Shop Volatile Organic Compounds <i>Marvin M. Floer and Brian H. Hicks</i>	166
Control of Hazardous Air Emissions from Secondary Aluminum Casting Furnace Operations Through a Combination of: Upstream Pollution Prevention Measures, Process Modifications and End-of-Pipe Controls <i>Patrick J. Blau and Bill Powers</i>	176

Session 3 - Compliance for Coatings Operations

Chair: Cherif Youssef, Southern California Gas Company

Vice Chair: Carlos Nuñez, U.S. Environmental Protection Agency

Evaluation of Volatile Organic Compound Reduction Technologies for Metal Coatings <i>Yijin Wang and Eddy W. Huang</i>	191
U.S. Navy Environmental Compliance and Engineering for Reduced Maintenance <i>Alex Kaznoff and James Rudroff</i>	203

Low-VOC Wood Floor Varnishes from Waterborne Oil-Modified Urethanes <i>David M. Ingle and Glenn H. Petschke</i>	209
Demonstration of No-VOC/No-HAP Wood Furniture Coating System <i>Eddy W. Huang, Ruiling Guan, and Robert C. McCrillis</i>	220
UV/EB Curable Coatings and Inks Substantially Reduce VOCs <i>Kenneth R. Lawson</i>	232
Outdoor Durability of Radiation-Cured Coatings <i>Richard Holman and Richard Kennedy</i>	238
An Affordable VOC Abatement System for Auto Refinish Spray Booths <i>Thomas E. Grime</i>	248
Assessment of Control and Pollution Prevention Technologies for Meeting MACT Compliance Requirements <i>Gunseli Sagun Shareef, Susan Miller, Kathy Ferry, Lee Sullivan, and David Brooks</i>	258
Session 4 - Air Management for Least-Cost Abatement	
Chair: Jim Berry, Berry Environmental	
Vice Chair: Victor Engleman, Engleman Associates, Inc.	
Five Design Options for Permanent Total Enclosures (PTEs) <i>Michael Lukey</i>	275
Rotary Concentrator Followed by Thermal or Catalytic Oxidation—A Hybrid Approach to Economical Styrene Abatement <i>Ajay Gupta</i>	286
The Permanent Total Enclosure: A Useful Tool in Pollution Prevention and Streamlined Regulatory Permitting <i>Steven C. Hawkins</i>	305
Practical Considerations for Permanent Total Enclosures <i>Mike Worrall</i>	317
An Innovative Permanent Total Enclosure for Blast Cleaning and Painting Ships in Drydock <i>Charles Garland and Michael Lukey</i>	328
Enclosures and Other Air Flow Management Techniques to Reduce the Size and Cost of Controls for the Fiber-Reinforced Plastics Industry <i>Mark Bahner, Robert Wright, Keith Leese, Geddes Ramsey, and Carlos Nuñez</i>	344
Reduce Air, Reduce Compliance Cost New Patented Spray Booth Technology <i>Gerald Bowe and Frank McGinnis</i>	358

A Pilot Test Experience of a Fluidized Bed Concentrator System Holds Great Promise
for Cost Effective Control of High Volume, Low Concentration VOC-Laden Emissions
Edward L. Biedell and Hal Cowles 367

Session 5 - Case Histories

Chair: Jim Garmaker, 3M Company

Vice Chair: David Brooks, Industrial Center

A Case History on an Innovative Solution for VOC and Air Toxics Control Designed
for a Medical Prosthetic Manufacturer of Silicon Breast Implants 381
Patty Quan-Handley

Styrene Emission Abatement in a Bathtub Manufacturing Plant 393
Debra M. Niezgodski

VOC Emissions Controls for Aluminum Cold Rolling Mills 399
A. Lee Genoble, David J. Lagoe, and Wayne J.R. Wasyluk

Treatment of Munitions Manufacturing Airborne VOCs by Biofiltration 410
Blaine F. Severin, Leslie M. Neilson, and Byung J. Kim

Advanced Regenerative Thermal Oxidation (RTO) Technology for Air Toxics
Control—Selected Case Histories 421
Joseph J. Seiwert, Jr.

VOC and Air Toxics Control Using Biofiltration: 2 Full-Scale System Case Studies 430
*William J. Fucich, A. Paul Togna, Robert E. Loudon, Yonghua Yang, Michael Del Vecchio,
Dennis Barshter, A.J. Nadeau, and Dominique Alibeckoff*

Investigation of Passive Control Options for VOC Emissions from Industrial Process Drains 452
Justin K. Stubbe, Richard L. Corsi, and David Olson

Options for VOC Reduction in a Regenerative Thermal Oxidizer (RTO) 462
Peter J. Waldern, Peter Nutcher, and David Lewandowski

Decomposition Mechanisms in Non-Thermal Plasma Processing of Air Pollutants 484
*B.M. Penetrante, M.C. Hsiao, J.N. Bardsley, B.T. Merritt, G.E. Vogtlin, A. Kuthi,
C.P. Burkhart, and J.R. Bayless*
