Interactive Multimedia '97

August 20-22, 1997
Arlington, Virginia

Sponsored by
Society for Applied Learning Technology®

SALT®

50 Culpeper Street, Warrenton, Virginia 20186
Title Index

Development Track

The Impact of Imagery on Emotion and Cognition: An Exploratory Investigation of Interactive Multimedia Interface Designs
Patrick Callaghan ................................................................. DV-Wed(10:30)-1

Big, Blended and Beautiful: Reengineering Training for Customer Call Centers Using Multimedia
Sara Barton, Gretchen Porkert ...................................................... DV-Wed(11:15)-1

Teaching and Learning in Cyberspace
Ann Barron, Ed.D. ........................................................................ DV-Wed(2:00)-1

Speeding Development and Reducing Costs
Rex Woolard ................................................................................... DV-Wed(2:45)-1

Learning Oriented Instructional Development (ID) Tools
M. David Merrill ........................................................................... DV-Wed(4:00)-1

Using Adobe PhotoShop to Create Graphics for Multimedia
James Mohler ................................................................................ DV-Wed(4:45)-1

Browserless Internet Training: Challenging Plug-In Technology
Bryan L. Chapman ........................................................................ DV-Thur(8:30)-1

Multi Point Interactive Video Conference Training
Doris McIlwain ............................................................................. DV-Thur(9:15)-1

Innovative Technology for Multimedia Learning Systems
Mary E. Sand, Courtney Cox ....................................................... DV-Thur(10:30)-1

Improving Perceptual Skills With 3-Dimensional Animations
Janet F. Johns, J.M. Brander ........................................................... DV-Thur(11:15)-1

How AMD Used In-House Developed CBT to Make Mandated Training More Effective, Efficient, and Fun for Employees
Bijan Masumian, Ph.D. ................................................................. DV-Thur(2:00)-1

Converting Existing Training Into Multimedia
Robert D. Griffith, James Z. Li, Ph.D. ............................................ DV-Thur(2:45)-1

An Overview of Multimedia and the Law
David Boelzner ........................................................................... DV-Thur(4:00)-1

Authoring Confluent Presentation Strategies Into Computer Based Training Programs
Mark Eaton, Ph.D., Mike Huffine, M.S. ........................................... DV-Fri(8:30)-1

High Fidelity Images and Graphics — How They Affect Learning and Training
Ann Kwinn, Ph.D. .......................................................................... DV-Fri(9:15)-1

Interactive Instruction Materials Development
Preeti Tuteja ................................................................................... DV-Fri(10:30)-1

Development of a Hypermedia Based C++ Learning System on an Integrated Multimedia Distance Education Environment: DooRae
Jung S. Sung, Dae J. Hwang ........................................................... DV-Fri(11:15)-1
Distance Learning Track

**Intranet and Video Teleconferencing CME**
Tom Nielsen, Ph.D. ................................................................. DL-Wed(10:30)-1

**A Case Study: To Internet or Not to Internet**
Doug Boynton, Jared M. Carman ................................................ DL-Wed(11:15)-1

**Intranet Knowledge Management**
Elizabeth E. Wright, Ed.D., Steven M. Rae ................................. DL-Wed(2:00)-1

**Instructional Design and the Internet: Issues and Implementation**
Richard A. Walker Ph.D., Tali Bray ........................................... DL-Wed(4:00)-1

**Practical Approaches to Intranet Multimedia Corporate Communications and Training**
Clifford Reid ................................................................. DL-Wed(4:45)-1

**Learning Via Videoconferencing at Motorola**
Marianne Rigo-Shea ............................................................ DL-Thur(8:30)-1

**Web Based Training - How to Really Do It**
David Stone, Ph.D., Clarke A. Bishop ....................................... DL-Thur(9:15)-1

**A Distance Learning Case Study**
Patricia M. Boord .............................................................. DL-Thur(10:30)-1

**Once for All (and All - for Once): Java Solutions for Web-Based Training**
Thomas Berry ................................................................. DL-Thur(11:15)-1

**Innovative Technology for Multimedia/Distance Learning Systems**
James O'Keefe ................................................................. DL-Thur(2:00)-1

**You Want It When?!! And For How Much??!!**
Dudley Molina ................................................................. DL-Thur(2:45)-1

**Delivering Training by Desktop Video Conferencing**
Nicholas L. Chandler ............................................................ DL-Thur(4:00)-1

**Interactive Distance Learning Over the Internet: A Hybrid Solution**
Teresa Jackson, Daniel Lorenc, Luciano Iorizzo Jr. ....................... DL-Thur(4:45)-1

**Delivering Training to an International Audience**
Ray Owens ................................................................. DL-Fri(8:30)-1

**Anywhere, Anytime Learning Through ALNs**
John Sener ................................................................. DL-Fri(9:15)-1

**Design Considerations in Converting a Stand-Up Training Class to Web-Based Training: Some Guidelines From Cognitive Flexibility Theory**
Nancee Simonson ............................................................. DL-Fri(10:30)-1

**Multimedia Training in the Philippines and Southeast Asia**
Janice Brodman, Ph.D. .......................................................... DL-Fri(11:15)-1
Education Track

Exploiting the Best New Technologies: Internet Hybrids for Science Instruction
Jeannette Gautier-Downes ................................................ ED-Wed(10:30)-1

How to Design, Produce, and Marry Media:
   Art in Public Places CD-ROM & Videodisc
Kristi Lozano .......................................................... ED-Wed(11:15)-1

Nobody Reads the Manuals
Darryl Freedman .......................................................... ED-Wed(2:00)-1

Edutainment: How & Why Gaming Helps Learning
Marita Decker, John Faier ........................................... ED-Wed(2:45)-1

Interactive Multimedia “Situated” Learning for Professionals: An Example
   From HIV/AIDS Care
Joseph V. Henderson, MD ........................................... ED-Wed(4:00)-1

Lifelong Learning in Cyberspace: A New Paradigm for Distance Learning
Gabriel D. Ofiesh, Ed.D. .............................................. ED-Wed(4:45)-1

An Interactive Model for Pricing Multimedia Projects
Harold J. Bailey, Ph.D., Daniel C. Pantaleo ...................... ED-Thur(8:30)-1

Effectiveness of Online Education: Results of a Comparative Study of
   Traditional and Online (Internet-Based) Graduate MBA Courses
Abigail Hubbard, Theresa Strong, Kent Neupert, Ph.D. ........ ED-Thur(9:15)-1

Public and University Education
Joan M. Dasher .......................................................... ED-Thur(10:30)-1

Training Teachers for Standards’ Curriculum Redesign Using
   Interactive Multimedia
Elizabeth L. Haslam, Ph.D. ........................................... ED-Thur(11:15)-1

Front End Planning for Training System Teledelivery
George Kunz ............................................................ ED-Thur(2:00)-1

Easy as 1, 2, 3-Dimensional Simulations: Integrating 3-Dimensional
   Simulations Into a Total Learning Strategy
Nina Adams ................................................................ ED-Thur(2:45)-1

Building a Patient Care Simulation System
Marshall Lewis, Lynn Johnson, Ph.D. .............................. ED-Thur(4:00)-1

CLIN Connecticut: Implementing the First Self-supporting Shared-usage
   Community Distance Learning Sites in the United States
Colonel Bruce S. Byrne, Ph.D. ....................................... ED-Thur(4:45)-1

How CBI Developers Can Benefit From Skill Standards
Mark Sorensen ............................................................ ED-Fri(8:30)-1

Emerging Technologies for Instructional Systems: Graduate Level Course
   Delivered on the Internet
George K. Fornshell, Ph.D. ............................................ ED-Fri(9:15)-1

Create an On-line Course in a Day
Susan Polyson ........................................................... ED-Fri(10:30)-1

Virtual Reality in Education: The Emerging Innovative Technology for Delivery
   of Public and Home Based Instructional Materials
Olivia Freeman .......................................................... ED-Fri(11:15)-1
Performance Support Track

Performance Support Systems: An Overview
Gloria J. Gery ................................................................. PS-Wed(10:30)-1

Diminishing Costs, Greater Returns: Off-Loading Training to
Performance Support
Jennifer M. Lippincott ..................................................... PS-Wed(2:00)-1

EPSS for the Outside World: Creating Performance Support for a Large
Commercial Application
Renee L. Vetere, Hal D. Christensen, Donna Timpone .................................. PS-Wed(2:45)-1

Creating an Electronic Performance Support System in a
Multi-Platform Environment
Carol J. Paquette ............................................................. PS-Wed(4:00)-1

Powder Priming Chrysler Vehicles With the Help of CD-ROM-Based
Multimedia Training
Richard M. Cavagnol .......................................................... PS-Wed(4:45)-1

Developing EPSS That Supports a Business Process Performance Infrastructure
Mary B. Austin ................................................................. PS-Thur(8:30)-1

Empowering Knowledge Workers Via Cognitive Apprenticeships:
Performance Support Systems in Action
Deborah Stone, Steven W. Villachica .................................. PS-Thur(9:15)-1

Internet Strategies for High Impact, Low Maintenance EPSS
Janet J. Cichelli, Tom Nielsen, Ph.D. ........................................ PS-Thur(10:30)-1

Interpersonal Selling and Management Skills Training Delivered on CD-ROM
Multimedia Doesn't Work! ... Unless ...
Steve V. Bainbridge ......................................................... PS-Thur(11:15)-1

Using Gaming Strategies to Enhance Instruction
Cammie Soderquist ............................................................ PS-Thur(2:00)-1

Intelligent Tutoring Systems for Maintenance Troubleshooting
Chris Marsh ................................................................. PS-Thur(2:45)-1

How to Dramatically Increase Your ROI in Designing and Developing
Courseware - A New EPSS for Designers of the New Millennium
Kathleen Weber, Robert Spears, Ph.D. ........................................ PS-Thur(4:00)-1

Multimedia Development and Support Half-Way ‘Round the World
Travis L. Piper ................................................................. PS-Thur(4:45)-1

Case Studies on Using CBT to Train Court and Legal Personnel
Christopher C. Bell .......................................................... PS-Fri(8:30)-1

Beyond HTML: Design Issues for Web-Based CBT and EPSS Systems
Sven Laurik ................................................................. PS-Fri(9:15)-1

Using Real Time Simulations in Computer-Based Training:
A Look Into Component Reusability
BJ Singh .................................................................. PS-Fri(10:30)-1

Interactive Manuals: Using Multimedia for the Development of Interactive
Technical Documentation
Marcelo Milrad ................................................................. PS-Fri(11:15)-1
World Wide Web Track

Strategic Approaches: Marketing and Customer Education on the Internet
William J. Comcowich .................................................. WW-Wed(10:30)-1

Using the Internet to Deliver Training — Why?
David Foulis ................................................................. WW-Wed(11:15)-1

Next Generation Multimedia - Distance Learning on the Internet
Jan Utterstrom ............................................................. WW-Wed(2:00)-1

Web Site Management Issues for Administrators
Sam Segran ................................................................. WW-Wed(2:45)-1

Sorting It All Out: What to Look for in a Web-Based Training Delivery Solution
Peter Duffey ................................................................. WW-Wed(4:00)-1

Quiz Building on the Web Without CGI or Java Programming
Liane Tarouco, Ph.D., Luiz Gustavo Pereira ......................... WW-Wed(4:45)-1

Learners’ Perceptions on Learning Through the Web
Yanyan Yong, Ph.D. ......................................................... WW-Thur(8:30)-1

Evaluation of Web-Based Tools for Building Distance Education Systems
Christine Jacqmot, Elie Milgrom, Ph.D. ............................... WW-Thur(9:15)-1

Web-Based Learning Systems
Michael R. Dulworth, John Morris, Ph.D. ........................... WW-Thur(10:30)-1

Multimedia Integration Into Training Delivered Via Desktop Video Conferencing and the Internet
Fred W. Reneau, Ed.D. ...................................................... WW-Thur(11:15)-1

From Blackboards to Multimedia to Internet: Going Up the Technology Curve Without Falling Off
Andrew E. Snider .......................................................... WW-Thur(2:00)-1

Integrated Web-Based Performance Support Systems
Michael Gallagher .......................................................... WW-Thur(2:45)-1

Designing, Developing, and Implementing the Alcoa Metallurgical Sourcebook
Millie Sass ................................................................. WW-Thur(4:00)-1

Alexandria: Intranet-Based Performance Support
Bob Weatherwax, Matt Kolan .............................................. WW-Thur(4:45)-1

Experience With Multimedia on the Internet and Intranet
James Z. Li, Ph.D. .......................................................... WW-Fri(8:30)-1

Strategies for Introducing Faculty With Limited Computer Skills to Web-Based Instructional Projects: Case Studies in Drama and the Classics
John Paul Ashenfelter ...................................................... WW-Fri(9:15)-1

Designing Hybrid CD-ROM / Web-Based Training Using a Hybrid Media Development Model
Curt Shreiner, Ed.D. .......................................................... WW-Fri(10:30)-1

New Instructional Design Models for Web-Based Training
Robert L. Bodine, Ph.D. .................................................. WW-Fri(11:15)-1

Additional Papers

Paperless Production in the Digital Domain, from Design to Delivery
John E. Bomhoff ............................................................ AP-Bomhoff-1
