FLAVOUR PERCEPTION
AROMA EVALUATION

Proceedings of the 5th Wartburg Aroma Symposium
Eisenach, March 17-20, 1997

edited by

H.-P. Kruse and M. Rothe

Universität Potsdam
1997
# Contents

## Topic I: Flavour perception

Correlation between sweet taste and chemical structure in some series of natural compounds 161
A. Dimoglo and Nathaly M. Shvets

Topic II : Aroma evaluation 171

Development and uses of odor thresholds
R. Teranishi

Flavour of white bread 179
W. Grosch

Determination of the volatile and aroma active compounds of black chokeberry fruits (Aronia melanocarpa) 193
E. Leitner, A. W. Strigl, I. Mayer and W. Pfannhauser

Determination and origin of the aroma impact compounds of yoghurt flavour 203
A. Ott, L. B. Fay and A. Chaintreau

Influence of processing and storage on the formation of the metallic smelling (E,Z)-2,6-nonadienol in buttermilk 213
P. Schieberle and Claudia Heiler

The importance of a GC retention index database for flavour analysis demonstrated by identification of aroma active compounds of re-cooked dried hen meat 221
P. Farkas, W. Pfannhauser, Jana Sadecka, J. Pet'ka, M. Kovac, Barbara Siegmund and E. Leitner

Identification of the key odorants of basil (Ocimum basilicum L.) - Effect of different drying procedures on the overall flavour 233
H. Guth and A.-M. Murgoci

Strange and undesirable flavours in wine: identification, evaluation and determination 243
A. Rapp and G. Versini

Use of the bound forms profile for improving the variety discrimination capability of monoterpenes in wines for some floral and non-floral groups of cultivars: the case of Rhine Riesling crosses 269
G. Versini, A. Rapp, Anita Dalla Serra and G. Nicolini
Flavour analysis in plant breeding - solid phase micro extraction of strawberry aroma compounds
*D. Ulrich, Edelgard Hoberg, A. Rapp and G. Sandke*

283

Flavour of some in Lithuania cultivated aromatic herbs: instrumental and sensory analysis
*P. R. Venskutonis*

295

Aroma characteristics of dill seed varieties grown in Poland
*E. Wasowicz, Renata Zawirska-Wojtasiak, H. Jelen, E. Kaminski and P. Blazczak*

307

The bitter orange tree - a source of different essential oils
*A. Mosandl and D. Juchelka*

321

Blood orange juice - blond orange juice: a comparison
*Regula Näf and A. Velluz*

333

Influence of the heating conditions on the formation of key odorants in cysteine/ribose reaction flavours
*T. Hofmann and P. Schieberle*

345

Strategies towards an efficient biotechnology of aromas
*B. Abraham, J. Onken, G. Reil and R. G. Berger*

357

Future impact of recombinant DNA technology in the flavor industry
*A. Häusler and B. Schilling*

375

Biosynthesis and metabolism of C₆-diols in apples
*T. Beuerle and W. Schwab*

381

Biosynthesis of enantiomeric aroma compounds
*T. Haffner, L.-A. Garbe, H. Lange and R. Tressl*

391

Alicyclic glycols and ethers as synthetic aroma substances and intermediates
*Elmira Souleimanova, K. Alimardanov, M. Abbasov and A. Akkurdova*

397

Interactions between hydrocolloids and aroma compounds using sensory, rheological and headspace analysis
*C. Yven, Elisabeth Guichard, A. Giboreau and Deborah Roberts*

411

Flavour binding by β-lactoglobulin: different approaches
*K. Sostmann, Beatrice Bernal, Isabelle Andriot and Elisabeth Guichard*

425
Sorption of essential oil components by corn starch sponge obtained by freezing
*Rimma V. Golovnya and Tamara Misharina*

Influence of the conditions of aromatization on texture and flavour of food products
*Cécile Druaux, Isabelle Lesschaeve, Sylvie Issanchou and Andrée Voilley*

Volatile sesquiterpenes as an indicator for toxigenic fungi contamination
*H. Jelen, E. Kaminski and E. Wasowicz*

**Poster contributions**

Relations between consumer preference, quantitative descriptive analysis and analytical data of tomatoes
*Helga Auerswald, Carla Kornelson and Angelika Krumbein*

Glucosidic precursors of β-damascenone in Riesling wine
*Beate Baderschneider, G. Skouroumounis and P. Winterhalter*

Simple GC/MS method for the evaluation of surface aroma contained in solid carriers
*K. Bal, Alicia Niesluchowska, Anna Nagielska and Sylwia Skapska*

Interaction of flavours in vegetable/fruit mixed nectars
*Nina Barylko-Pikielna, Irena Matuszewska and Jadwiga Radzanowska*

Evaporative light scattering detector (ELSD): versatile tool for the analysis of flavour precursors
*T. Beuerle, B. Withopf and W. Schwab*

Comparison of sensory profiles of different brands of Moravian wines
*Markéta Filipu, Helena Valentová and J. Pokorný*

Stability of flavor compounds in yoghurt
*K. Gassenmeier and W. Grab*

Quality of microwave dried herbs
*W. D. Koller, Th. Kerner and B. Raghavan*

Aroma volatiles in broccoli dependent on sample preparation
*Angelika Krumbein, Merete Hansen and Anne Maria Hansen*
The microstructure of whey protein gels and its effect on the release of added aroma compounds
*Maud Langton and A. Leufvén*

Correlation between sensory, chemical and microbiological characteristics of a milk dessert during prolonged storage
*Anne Menert*

Content of volatile substances in tea bags with fruit odour during storage
*Tamara A. Misharina and Rimma V. Golovnya*

Characterisation of volatile components in beet-based sugar solutions
*P. Pihlsgård, M. Larsson, A. Leufvén and H. Lingnert*

Ligand release from chocolate simulating matrices
*S. M. van Ruth, Aagje Legger-Huysman and J. P. Roozen*

New β-diketones in vanilla extracts (Vanilla planifolia)
*W. Schroll and H. Klein*

Determination of the sensorial properties of a convenient hen-broth
*Barbara Siegmund, I. Mayer, E. Leitner, W. Pfannhauser, P. Farkas, Jana Sadecka and M. Kovac*

Retention of lemon oil during spray-drying
*Sylwia Skapska, Ewa Kostrzewa and K. Bal*

Searching for buttery flavour in low-fat spreads - a methodological approach
*Anna Szczecińska and Nina Barylko-Pikielna*

Quality evaluation of shrimp flavourings by GC and sensory methods
*Margarita B. Terenina, Tamara A. Misharina and Rimma V. Golovnya*

Instrumental and sensory investigation of the flavour of sour cherry juices and nectars
*Marianna Tóth-Marcus, F. Boross and Zsuzsanna Vamos-Falusi*

Patterns of 1-11 classes school children flavour description - psychological and linguistic aspects
*Katherine Y. Ugoleva and D. A. Ugolev*

Changes of the odour profile of limonene on storage
*Helena Valentova, F. Pudil, Jitka Prokopova, Jana Volfova and J. Pokorny*
