RESEARCH-AIRPLANE-COMMITTEE REPORT ON CONFERENCE

ON THE PROGRESS OF THE X-15 PROJECT

A Compilation of the Papers Presented

NASA Flight Research Center
Edwards Air Force Base, California

November 20-21, 1961
TABLE OF CONTENTS

INTRODUCTION .................................................. vii

LIST OF CONFEREES ............................................. ix

TECHNICAL PAPERS PRESENTED

November 20, 1961

Session Chairman: De E. Beeler (NASA Flight Research Center)

1. STATUS OF X-15 RESEARCH PROGRAM (U) by De E. Beeler and
   Thomas A. Toll (NASA Flight Research Center) ........ 1

2. PRELIMINARY RESULTS OF AERODYNAMIC HEATING STUDIES ON THE
   X-15 (U) by Richard D. Banner, Albert E. Kuhl, and
   Robert D. Quinn (NASA Flight Research Center) ......... 11

3. STRUCTURAL HEATING EXPERIENCES OF THE X-15 (U) by Eldon
   E. Kordes, Robert D. Reed (NASA Flight Research Center),
   and Alpha L. Dawdy (North American Aviation, Inc.) .... 29

4. STRUCTURAL DYNAMIC EXPERIENCES OF THE X-15 (U) by Gareth
   H. Jordan, Norman J. McLeod (NASA Flight Research Center),
   and Lawrence D. Guy (NASA Langley Research Center) .... 47

Session Chairman: Edwin W. Johnston (North American Aviation, Inc.)

5. LANDING LOADS AND DYNAMICS OF THE X-15 AIRPLANE (U) by
   James M. McKay and Eldon E. Kordes (NASA Flight Research
   Center) ............................................... 61

6. AERODYNAMIC FORCES ON COMPONENTS OF THE X-15 (U) by Earl
   R. Keener and Chris Pembo (NASA Flight Research Center) ... 73

7. A COMPARISON OF FULL-SCALE X-15 LIFT AND DRAG CHARACTER-
   ISTICS WITH WIND-TUNNEL RESULTS AND THEORY (U) by
   Edward J. Hopkins (NASA Ames Research Center), David
   E. Fetterman, Jr. (NASA Langley Research Center),
   and Edwin J. Saltzman (NASA Flight Research Center) .... 83

Preceding page blank
8. STABILITY AND CONTROL DERIVATIVE CHARACTERISTICS OF THE X-15 (U) by Harold J. Walker and Chester H. Wolowicz (NASA Flight Research Center) ........................................ 99

9. RÉSUMÉ OF X-15 HANDLING QUALITIES (U) by Robert M. White (Air Force Flight Test Center), Glenn H. Robinson, and Gene J. Matranga (NASA Flight Research Center) ................................. 113

10. LATERAL DIRECTIONAL CONTROL CHARACTERISTICS (U) by Forrest S. Petersen, Herman A. Rediess, and Joseph Weil (NASA Flight Research Center) ................................. 131

11. X-15 MISSION PLANNING AND OPERATIONAL PROCEDURES (U) by Robert G. Hoey (Air Force Flight Test Center) and Richard E. Day (NASA Flight Research Center) ................................. 155

November 21, 1961

12. X-15 STABILITY AUGMENTATION SYSTEM (U) by Lawrence W. Taylor, Jr. (NASA Flight Research Center) and George B. Merrick (North American Aviation, Inc.) ............. 171

14. FLIGHT CHARACTERISTICS OF X-15 HYPERSONIC FLOW-DIRECTION SENSOR (U) by William D. Mace (NASA Langley Research Center) and Jon L. Ball (NASA Flight Research Center) .... 195

15. FLIGHT EXPERIENCE WITH X-15 INERTIAL DATA SYSTEM (U) by Jay V. Christensen (NASA Ames Research Center) and John A. Dodgen (NASA Langley Research Center) ......................... 203

16. XLR99 ENGINE OPERATING EXPERIENCE (U) by Richard G. Leiby (Air Force Flight Test Center), Donald R. Bellman, and Norman E. DeMar (NASA Flight Research Center) ....... 215
17. DEVELOPMENT OF IMPROVED CERAMIC COATINGS TO INCREASE THE LIFE OF XLR99 THRUST CHAMBER by Lawrence N. Hjelm (Aeronautical Systems Division, U.S. Air Force) and Bernard R. Bornhorst (Air Force Flight Test Center) ... 227

18. BIOASTRONAUTICS SUPPORT OF THE X-15 PROGRAM by Burt Rowen, Ralph N. Richardson (Air Force Flight Test Center), and Garrison P. Layton, Jr. (NASA Flight Research Center) ... 255

19. X-15 PROPULSION SUBSYSTEM COMPONENT DEVELOPMENT by Robert L. Wiswell, Phillip Olekszyk (Air Force Flight Test Center), and John W. Gibb (North American Aviation, Inc.) ... 265

Session Chairman: John V. Becker (NASA Langley Research Center)

20. OPERATIONAL RELIABILITY EXPERIENCE WITH THE X-15 AIRCRAFT by James E. Love and John A. Palmer (NASA Flight Research Center) ... 277

22. A PILOT'S IMPRESSION OF THE X-15 PROGRAM by Joseph A. Walker (NASA Flight Research Center) ... 303

24. FUTURE PLANS FOR THE X-15 by Paul F. Bikle (NASA Flight Research Center) and Edwin F. Pezda (Aeronautical Systems Division, U.S. Air Force) ... 329
