## TABLE OF CONTENTS

### COALS FOR MARKETS

**Evaluation of Coal Quality Impacts on Power Plant Operations**  
Swadhin K. Chakraborti, Senior Engineer,  
H. Kevin Stogran, Senior Engineer, and Michael B. Doherty,  
American Electric Power Service Corp.  

**Coal Evaluation – Requirements for the Metallurgical Coal Producer**  
Hope D. Huntington, Manager, Technical Services,  
UEC Coal & Coke Lab, USX Engineers and Consultants  

### PLANT UPGRADES

**Jim Walter Resources Upgrades Prep Plants to Increase Productivity and Improve Cleaning Efficiencies**  
Jerry L. Marks, Manager of Quality Control/Processing, Jim Walter Resources, Inc., Larry A. Watters, President, and Richard L. Terry, Vice President of Marketing, Sedgman  

**Modification of the Central Coal Cleaning Plant**  
Shaning Yu, Senior Process Engineer, Mark Sharpe, Vice President Project Development, James V. Ghelderucci, Vice President, and Wally Schultz, Manager of Surface Engineering, Ziegler Coal Holding Company  

**The Mount Owen Project Innovation in Coal Preparation**  
Rod Fox, Manager, Coal Handling & Preparation Plant, Mt. Own Mine, Thiess Contractors Pty. Ltd.  

**Using the Labor Management Positive Change Process For Improvement at P&M Coal, North River Mine Preparation Plant**  
Michael W. Wray, Surface Operations Coordinator, P&M Coal North River Mine and John K. Alderman, Senior Preparation Engineer, Pittsburgh & Midway Coal Co.
NEW FINE COAL TECHNOLOGY

“Turbo Column” Floatation at Kleinkopje Colliery, South Africa 149
A.N. Terblanche, Product Manager, W.A. Grobler, Process Engineer, Multotec Process Equipment (Pty) Ltd. N.A. Matodes, Plant Manager, Kleinkopje Colliery, and M.J. Shaw, Senior Plant Manager, Kleinkopje Colliery

Horizontal Vacuum Belt Filters for the Dewatering of Fine Coal in Australia 169
G. J. Sanders, Principal and Managing Director, COALPROC Consulting

The Application of the GranuFlow Process to Centrifuge Dewatering at the Terry Eagle Plant 185
Wu-Wey Wen, Physical Scientist and Richard P. Killmeyer, Chemical Engineer, USDOE, FETC

Some Vibroacoustical Technologies for Coal Preparation 195
Stoytcho M. Stoeev, Professor, University of Mining & Geology, Bulgaria

COAL PREPARATION

Fine Coal Wet Sizing and Dewatering Using High Frequency Vibrating Screening Machines 207
Jeff Praczkajlo, Product Applications Manager, Derrick Screens

Banana Screen Applications 223
Rob Robertson, Senior Process Engineer, Sedgman

Coal Recovery from Slurry Ponds – Potential and Pitfalls 239
Joseph Davidson, Process Engineer, TraDet, Inc.

Best Practices in International Coal Preparation – A Benchmark Study 255
Mel J. Laurila, President, Quality Control, Inc.
ABRASION RESISTANT MATERIALS FOR HIGH WEAR APPLICATIONS

Abrasion Resistant Steel  James A. Davison, President, Jadco, Inc.  265

Ceramics  Paul A. Yandora, Vice President and General Manager, Coors Wear Products  289

UHMW  Pat Nelson, Territory Manager, Poly Hi Solidur  303

PAPER FROM 1997 CONFERENCE

Requirements, Chances and Possibilities for Brown Coal in the New States of the Federal Republic of Germany  Claus-Dieter Sieg, ZEMAG GmbH Zeitz  315

INDEX of 1985 – 1998 PROCEEDINGS
