Transactions of the 14th International Conference on Structural Mechanics in Reactor Technology Lyon, France, August 17-22, 1997

VOLUME 6
Division J
Structural Dynamics and Extreme Load Analysis

Coordinators
P. Chellapandi
A. Godoy
J. Marti

French Correspondent
E. de Langre

Editor
Michel Livolant

The International Association for Structural Mechanics in Reactor Technology (IASMIRT) and Commissariat à l'Energie Atomique (CEA) Electricité de France (EDF) FRAMATOME Institut National des Sciences Appliquées de Lyon (INSA)
# TABLE OF CONTENTS

DIVISION J: Structural Dynamics and Extreme Load Analysis

III
J03/3 - Study of a 900 MW PWR by a substructuring method - Spectral response to a seismic excitation & comparison with a beam model.................. 103
Rousseau G., Bianchini-Burlot B., Bosselut D., Jacquart G., Viallet E.

J03/4 - Impact of certain PWR internal degradations on their vibratory modes... 111
Schlupp P., Bosselut D., Vare Ch., Trenty A.

J03/7 - Some issues on the identification of experimental fluid-elastic forces.. 119
Bennett G., Antunes J., Mendes J., Piteau Ph.

J04/1 - Flow induced vibration of a thin cylindrical weir due to fluid discharge .................................................................................. 129
Hirota K., Ito T., Kanzaki Y., Ohhata H.

J04/2 - Vibrations and instabilities acting in a pipe flowing fluid................. 137
Pedroso L.J., Brito J.L.V., de Morais M.V.G.

J04/4 - Damping from axial coolant flow in the response of PWR fuel assemblies to horizontal seismic loads .................................................. 145
Fardeau P., Barbier D., de Langre E., Rigaudeau J.

J04/5 - Analysis of vortex-induced vibration of cylindrical tubes in a cross flow ...................................................................................... 153
Massih A.R., Forsberg K., Plobeck L.

J05/1 - Some characteristics of the fluctuating wall pressure field in tube banks .................................................................................. 161
Endres L.A.M., Möller S.V.

J05/2 - Flow induced vibrations for PWR fuel rods under local jets : resonance amplitude in the stability range........................................... 173
Jacques Y., Barbier D., Boulanger P.

J05/3 - FIV of PWR fuel rods under local jets : instability threshold and influence of jet configuration......................................................... 181
Boulanger P., Fardeau P., Rigaudeau J.

J05/6 - Safety margin of stability ratio in tube bundles by a probabilistic approach...................................................................................... 189
Payen Th., Debec E., Goetsch D.

J06/1 - VVER-440/V213 bubbler condenser strength evaluation for design base LOCA conditions .............................................................. 197
Katona T., Ratkai S., Dobo J., Sebestyen F., Györgyi J., Lenkei P.

J06/2 - Structural investigation on the potential leakage spots of a VVER-440/V213 NPP containment ......................................................... 205
Katona T., Ratkai S., Sebestyen F., Györgyi J., Lenkei P.
J06/3 - Structural response analysis of the confinement system of the Ignalina NPP
Petkevicius K., Dundulis G., Uspuras E., Marchertas A.

J07/2 - 3D flow analysis on upper plenum of PWR nuclear power station
Yao Z., Wang X., Shen M.

J07/3 - The dynamic loads during CRDM operation
Yang R., Yao W., Jiang N., Zhu J.

J07/5 - Dynamic interaction effects between reactor vessel and CEDM
Jin C.E., Kim I.Y., Shin T.M., Choi T.S.

J07/7 - A scram analysis under accident conditions for a reactor control rod system
Dou Y., Yao W., Jiang N., Yang R., Wang Y.

J08/1 - Simulation of structural response for extreme loads in the primary circuit of a PWR
Grebner H., Höfler A., Schimpfke T., Stevers J., Beliczey S.

J08/2 - Postulated pipe rupture design load for dynamic analysis of feedwater system
Chang K.Y., Eom B.S.

J08/3 - Guillotine failure of fixed-end pipes
Shewfelt R.S.W., Leitch B.W., Godin D.P.

J08/4 - Force and moment analysis of pipe system for a double-end break loss-of-coolant accident in primary circuit of PWR
Zhang X., Hao P., He Feng, Wang X.

J08/5 - Calculations of the pressure waves in a water cooled nuclear reactor induced by transients
Pedroso L.J., Barbosa A.N., de Morais M.V.G., Romariz L.A.

J09/2 - Dynamic response of thin shells subjected to base excitations
Ravi R., Selvaraj T., Chellapandi P., Chetal S.C., Bhoje S.B., Srinivasulu P.

J09/3 - Coupled fluid-structure interaction analysis of pressurised heavy water reactor calandria for sloshing and impulsive loads
Singh R.K., Kushwaha H.S.

J09/4 - Derivation and application of a flow-solid coupling dynamic similarity criteria for NPP components
Yao W., Shi G., Jiang N., Yang R.
J09/6 - Structural analysis of the core shroud of Tarapur Atomic Power Station (TAPS) reactor under accident conditions .............................................................................................................. 315
Khatua G.M., Bhasin V., Mukhopadhyay D., Gupta S.K., Kushwaha H.S.

JSP/3 - Dynamic analysis of the European Pressurized Water Reactor (EPR) under earthquake and airplane impact loading .............................................................................................................. 323
Halbritter A., Schillberg H., Le Breton F.

JSP/4 - Vibrational conductivity approach to vibration in a power plant subjected to aircraft impact .............................................................................................................................. 331
Belyaev A.K., Blumenschein E., Blumenschein S., Gerstmayr J.

JSP/5 - Design of the roof slab of a radioactive waste building with special requirements for aircraft impact .................................................................................................................. 339
Tinic-Kizildogan S.

JSP/6 - A review of rheological concrete models for aircraft impact problems in nuclear power plant .................................................................................................................. 347
de Gayffier A., Duval C.

JSP/7 - A critical review of methods to evaluate response of structures subjected to aircraft impact .................................................................................................................. 355
Tripathi B.P., Hossain Q.A.

JSP/8 - Experimental tests and finite element analyses of the aircraft impact resistance of CASTOR transport and storage casks .................................................................................. 363
Dreier G., Völzer W., Hüggenberg R.
