PROCEEDINGS

Seventh International Symposium on

COAL SLURRY FUELS PREPARATION AND UTILIZATION

May 21-24, 1985
New Orleans, Louisiana

Hosted by:

Pittsburgh Energy Technology Center
United States Department of Energy
# TABLE OF CONTENTS

## SESSION 1
**FUNDAMENTALS OF COAL SLURRYABILITY**

*Chairman: R. M. Turian  
University of Illinois/Chicago*  
*Vice Chairman: J. E. Funk  
Alfred University*

SESSION 2
SLURRY FUEL RHEOLOGY

Chairman: S.K. Friedman
Witco Chemical Corporation
Vice Chairman: J. Ekmann
U.S. DOE, Pittsburgh Energy Technology Center

Determination of Particle Size Distribution for Coal-Water Mixtures for Optimum Stability and Hydraulic Handling Characteristics
O. Yucel and T. Dabak
Virginia Polytechnic Institute & State Univ. ......................................................... 91

*Correlation of Coal-Water Slurry Fuel Solids Loadings with Coal Characteristics
M.H. Berggren and A.K. Bhasin
AMAX Extractive Research & Development, Inc. ....................................................... 103

A Study of Yield Stress of CWF
E.T. McHale, H.L. Heaton, M.E. Morgan and R.S. Scheffee
Atlantic Research Corporation ................................................................. 104

*Time and Stress Dependent Rheology of Coal Water Dispersions
S.R. Phulgaonkar
CoalLiquid, Inc. ..................................................................................... 114

Viscosity Prediction of Highly Concentrated Polymodal Coal-Water slurries
R.F. Probstein and M.Z. Sengun
Massachusetts Institute of Technology ............................................................. 115

*Rheological Evaluations of Proprietary and Generic Coal Water Fuels
G.A. Maier
Florida Power & Light Company
N. Malicki, D. Wright, T. Greis, D. Cote,
B. Gilmartin and J. Dooher
Adelphi Center for Energy Studies ............................................................ 120

PUBLICATIONS ONLY

Stability of Concentrated Coal Water Slurry
L. Jiang and M. Cai
Academia Sinica ................................................................. 122

New Additive for Low-Viscosity COM and New Parameter of Coal for Predicting COM-Viscosity
S. Maeda, T. Takeshita and S. Kanamori
Kagoshima University ................................................................. 126

Effects of Coal Property and Additive on the Rheological Characteristics of Coal Water Mixture
M. Seki, K. Kiyama and J. Nishino
Ishikawajima Harima Heavy Industries, Ltd. .................................................. 136

A Novel Viscosimeter for Rheology Study of CWM
L. Juntai and Z. Rong Zeng
China Institute of Mining ................................................................ 146
Effect of Selected Additives on the Stability and Rheology of Coal-Water Mixtures
J.A. Williams, W.O. Akoto and C.C. Tagoe
Northeastern University .............................................. 155

The Influences of the Porosity of CWM on its Viscosity and its Combustion Performance
Z.X. Huang and J.H. Shao
Academia Sinica ......................................................... 164

*Effect of Polymeric Stabilizers on the Rheology and Storage Properties of Coal-Water Slurry
J.P. Dooher, N. Malicki and D. DiMeo
Adelphi Research Center
D. Pettit
KELCO ................................................................. 174

SESSION 3

SLURRY FUEL RHEOLOGY AND FUEL SPECIFICATIONS

Chairman: B. Davis
Gulf Research & Development Corporation
Vice Chairman: G. Botsaris
Tufts University

Rheological Transient Model of Dense Coal/Water Suspensions
J.K. Szymanski
Canada Centre for Mineral and Energy Tech.
N. Mansour
(CANMET), Energy Mines and Resources, Canada .................. 177

*The Impact of Beneficiation on Coal Surface Properties Affecting the Rheology of Coal-Water Mixtures
D.J. Wildman and J.M. Ekmann
U.S. DOE/Pittsburgh Energy Technology Center .................. 185

*Effect of Coal Properties on Coal-Water Fuel Quality
J.J. Warchol, R.F. DeVault, S. Shiao and S.J. Vecci
Babcock & Wilcox ..................................................... 186

Standard Laboratory Procedures for Coal-Water Fuels - Results of a Workshop
T.C. Derbidge and R.K. Manfred
Electric Power Research Institute
J.J. Warchol
Babcock & Wilcox ..................................................... 187

Quality Control Methods for the Production of ARC-Coal in a Commercial Plant
N.P. Rossmeissl, P.J. Dussia and R.A. Passman
Atlantic Research Corporation ........................................... 194

Coal Water Fuels - Development of Commercially Meaningful Specifications
R.M. Goodman, M.M. Mathiesen and J.E. Persson
Carbogel Inc. ............................................................. 205

Coal Water Slurry - Pilot Plant Scale Preparation by the Carbogel Process
H. Yanagimachi, M. Tsurui and N. Hashimoto
JGC Corporation
M. Shimamura
Carbogel Japan, Inc. ................................................... 215
SESSION 4
CLEANED COAL AND OTHER SLURRY FUEL FORMS

Chairman: H. Feibus
U.S. Department of Energy
Vice Chairman: F. Karlson
Electric Power Research Institute

Impact of Advanced Coal Beneficiation on Utilization of Coal Slurry Fuels
C.J. Santhanam and V. Vejins
Arthur D. Little, Inc. .......................... 227

Beneficiation and Fine Grinding of Coal for Slurry Fuel Preparation
O. Trass and V.R. Koka
University of Toronto
G. Papachristodoulou
General Commination, Inc. ..................... 240

A New Way to Handle Pulverized Coal: The Pumpable Coal/Water/Air Mixtures (C-WAM)
G. Antonini, O. Francois, J. Gomont and A. Touret
Universite de Compiegne ......................... 256

Production and Combustion of Hot-Water-Dried Lignite Slurries
W.B. Hauserman, R.C. Patel and W.G. Willson
The University of North Dakota .................. 268

*Coal Beneficiation by Aggregative Flotation
A.M.A. Taweel, W. Wojcik and B. DeLory
Technical University of Nova Scotia .......... 282

Evaluation of Anthracite Coal Water Slurries
M. Borden, M.G. Klett and J.C. Cutting
Gilbert/Commonwealth, Inc. ........................ 283

PUBLICATIONS ONLY

Coal Beneficiation by Expansion of a Supercritical Coal/Water Slurry
G. Carli
Foster Wheeler Development Corp. ............. 306

Chlorinated Solvents for Coal Beneficiating
R.J. Nankee
Dow Chemical U.S.A. ........................... 316

An Approach to Deashing of Some Chinese Coals by Oil Agglomeration Method
C.-T. Guo, S.-F. Li, F.-Y. Li and X.-Q. Ruan
Tianjin University .............................. 325

Coal-Sludge Mixtures - A Sensible Coal Slurry Fuel
R. Ashworth
Florida Progress Corporation .................. 333
SESSION 5
SLURRY FUEL ATOMIZATION

Chairman: N. Chigier
Carnegie-Mellon University
Vice Chairman: K.R. Olen
Florida Power & Light Company

Achieving High Combustion Efficiency Burning
Coal-Water Fuels
J.H. Pohl
Energy and Environmental Research Corporation
J. Sepulveda and L.B. Rothfeld
Anaconda Minerals Company ................................................................. 343

Correlation of the Spray Characteristics of Coal-Water Fuels
J.H. Pohl
Energy and Environmental Research Corp.
J. Sepulveda and L.B. Rothfeld
Anaconda Minerals Company ................................................................. 357

Droplet Size Distribution Changes During the
Atomization of a Coal Water Slurry
A.B. Hedley and S.M. Yiu
Sheffield University ................................................................. 377

Atomization of Coal Water Mixtures
J.W. Allen, A.G. Rennie and M.C. Welbourne
NEI International ................................................................. 392

Photographic and Malvern Analysis of Coal-Water
Slurry Atomization
N. Chigier and P.L. Meyer
Carnegie-Mellon University ................................................................. 402

The Effect of Fuel Formulation on the Atomization
Characteristics of Coal-Water Mixtures
P.J. Winters
Babcock & Wilcox Research and Development
K.R. Olen
Florida Power & Light Co.
R.T. Bailey
Babcock & Wilcox ................................................................. 430

*Secondary Atomization of Coal-Water Slurry Fuels
J.M. Beer, T.-U. Yu, M. Togan, P.M. Walsh and A.F. Sarofim
Massachusetts Institute of Technology ................................................................. 440

SESSION 6
FUNDAMENTALS OF COAL SLURRY FUEL COMBUSTION

Chairman: A.F. Sarofim
Massachusetts Institute of Technology
Vice Chairman: M. Heap
Energy & Environmental Research Corporation

Scale-Up of Coal-Water Fuels Experiments in Pilot Furnaces
for Evaluation of Utility Boiler Performance
W. Richter and J.H. Pohl
Energy & Environmental Research Corporation ................................................................. 443
Analysis on Droplet Burning Histories of Different Coal Liquid Mixtures
Z.X. Huang, J. Gao and Y.Q. Yao
Academia Sinica ................................................................. 463

*Application of Ultra-Clean Coal-Water Mixtures in Gas-Turbine Combustion Systems
S.A. Johnson, A.A. Boni and A.R. Garman
Physical Sciences Inc.
J. Thames
U.S. DOE/Morgantown Energy Technology Center ..................... 479

*Agglomeration and Subsequent Fragmentation Sequence of Coal Particles in Coal-Water Slurry Combustion
J.M. Beer, K.W. Brendley and A.F. Sarofim
Massachusetts Institute of Technology ..................................... 480

Comparative Combustion Studies of Ultrafine Coal/Water Slurries and Pulverized Coal
D.J. Holve
Sandia National Laboratories
K. Gomi and T.J. Fletcher
Carnegie-Mellon University ................................................... 481

Agglomeration, Evaporation and Devolatilization of Coal Water Mixtures
K. Cen, M. Ni, Z. Huang, X. Cao, G. Huang and Y. Cao
Zhejiang University ............................................................. 497

SESSION 7
SMALL-SCALE COMBUSTION TESTS
(CORROSION, EROSION AND DEPOSITS)

Chairman: R.E. Sommerlad
F.W. Enviresponse, Inc.
Vice Chairman: R.W. Borio
Combustion Engineering, Inc.

*Characterization of Coal-Water Fuel Properties
A.A. Levasseur and R.C. LaFlesh
Combustion Engineering, Inc. ................................................. 507

Combustion Trials on Coal Water Slurry and Petroleum

Coke Water Slurry
F. Grinzi and G. Romani
Snamprogetti S.p.A.
B. Mills and S.J. Turner
Peabody Holmes ................................................................. 508

A Study on the Ways of Raising Combustion Efficiency and Intensity of Coal-Water Slurry
K. Cen, D. Lu, X. Cao and M. Zie
Zhejiang University ............................................................. 519

Combustion Characteristics of Coal and Pet-Coke Water Mixtures
G. De Michele, M. Graziadio, S. Ligasacchi and R. Belli
ENEL-CRTN .......................................................... 599
*Combustion of CWS in a Coal Slurry Burner
D. Bouchez and B. Lamy
Elf Aquitaine
P. Abril, F. Bury and V. Geoffroy
Pillard .......................................................... 542

Pilot-Scale Combustion Tests of CWM for a Modified
Water-Tube Package Oil Boiler at KIER
Korea Institute of Energy and Resources .................. 543

PUBLICATIONS ONLY

Size and Composition of Particulate Emissions from the
Combustion of Coal Slurries
R.L. Savage and S.C. Zronek
Ohio University .............................................. 558

Characterization and Combustion of Low Rank Coal-water Slurries
G.J. Germane
Brigham Young University
L.D. Smoot, D.C. Rawlins, R.G. Jones and C.N. Eatough
Brigham Young University, Combustion Laboratory .......... 568

Modeling Coal-Water-Mixture Spray Collective Combustion
G. Berry
Argonne National Laboratory
U.S. Choi and H.H. Chiu
University of Illinois at Chicago .......................... 579

*A Combustion Test Facility for Evaluation of the Optimum
Ash Content In Coal-Water Fuels for Use in Utility Boilers
Originally Designed for Oil-Firing
K.V. Thambimuthu and I.D. Covill
Canada Centre for Mineral & Energy Technology
M.J. Pegg
Centre for Energy Studies .................................. 592

SESSION 8

SLURRY FUEL BURNERS/COMBUSTORS

Chairman: D.R. Hardesty
Sandia National Laboratories
Vice Chairman: C. McCann
U.S. DOE, Pittsburgh Energy Technology Center

*TRW Slagging Combustor Application to Coal Slurry Fuels
J.D. Kuenzly, W. Nurick and A. Egense
TRW .......................................................... 595

Comparison of the Performance of a Cross-Section of
Commercial CWF Burners
R.C. LaFlesh, M.J. Rini, Y.V. Lachowicz and A.A. Levasseur
Combustion Engineering, Inc. ............................. 596

Feasibility of Wet Oxidation for Combustion of Coal Slurries
V.S. Engleman ................................................. 607
Fluidized-Bed Combustion of Coal-Water Slurry
D.R. Rowley
Babcock & Wilcox Company

I.T. Lau and F.D. Friedrich
DOE, Mines & Resources, Energy Res. Lab., CANMET 612

*Dispersion and Reaction of Slurry Fuels in a Fluidized Bed Combustor
U. Arena, L. Massimilla and M. Miccio
Instituto de Ricerche sulla Combustione, C.N.R.

G. De Michele
ENEL - Centro Ricerca Termica e Nucleare 629

*Improved AFBC System Performance by the Use of Coal Water Fuel
G.S. Trivett, G.D.M. MacKay and A. Taweel
Centre for Energy Studies 630

Combustion Technology of Coal Water Mixtures
T. Kiga, H. Saitoh, S. Miyamae, K. Takahashi and T. Kataoka
Ishikawajima Harima Heavy Industries Co., Ltd. 631

PUBLICATIONS ONLY

Experience with the NRC Burner Assembly
K.A. Jonasson, A. Bennett, C.E. Capes and W.L. Thayer
National Research Council of Canada

K.F. Burrill and D. Burnett
CLM Technologies Limited

K.V. Thambimuthu
Energy, Mines and Resources 642

*A Comparison of the Combustion and Heat Transfer Characteristics
of Heavy Fuel Oil and Coal-Water Flames Using the
Lezzen Burner Nozzle
H.M. Casey, A.E. Todd, K.V. Thambimuthu and W.A. Walsh
Canada Centre for Mineral & Energy Technology

M.J. Pegg
Centre for Energy Studies 651

SESSION

ULTRAFINE COAL SLURRIES AND
HEAT ENGINE APPLICATIONS

Chairman: N. Coates
Mitre Corporation

Vice Chairman: N. Schilmoeller
Stone & Webster Engineering Corporation

Combustion of Coal Water Slurry in a Gas Turbine Combustor
Y.-S. Wang, Z.-M. Qi, R.-X. Ma, J.-W. Gu, X.-Q. Zhang,
L.-J. Gao, J. Cao, C.-M. Zhang and G.-Y. Xiao
Academia Sinica 655

Piston Engine for Coal-Water Slurry Fuel
H.A. Trucco
General Applied Science Lab., Inc. 662

Use of Coal-Water Fuels in a Contemporary Steam Locomotive
R.B. Ryan
Systematics General Corporation

I.S. Gordon
SESSION 10

LARGE-SCALE COMBUSTION TESTS

Chairman: J.A. Barsin
Babcock & Wilcox Company

Vice Chairman: S. Kerho
KVB, Inc.

*Coal-Water Fuel (CWF) Firing in an Industrial Size Boiler
R.J. Batyko, R.A. Cartwright, P.H. Schueler and R.W. Zahirsky
Babcock & Wilcox Company ........................................... 733

Coal-Water Mixture Firing in an Industrial Package Boiler —
A User's Perspective
T.M. Sommer and B.E. Taylor
Pyro Engineering
J. Wagner, Jr.
Valleymade Packers, Inc.
S.A. Johnson
Physical Sciences, Inc. ................................................... 734

P4 - The Sundbyberg Coal-Water-Fuel Fired Boiler - Experiences
Gained Between the 6th and the 7th International Symposium
on Coal Slurry Fuels
S.A. Carlsson .............................................................. 751

NYCOL AB .................................................................

Experimental Study on Coal Water Slurry Combustion on a
20T/H Oil-Fired Boiler
K. Cen, M.Xie, D. Lu and X. Cao
Zhejiang University
Z. Wang and F. Chen
China Assoc. for Coal Processing & Util.
C. Wy and C. Guo

Beijing No. 1 Paper Plant ................................................ 761

*Firing a Rotary Cement Kiln with a Coal/Water Slurry
P.H. Cooke
Canada Cement Lafarge Ltd. ........................................... 774
Coal-Water-Fuel Firing Experience at Chatham #2
D.A. Cook
C-E Canada
J.D. Kerns, M.J. Rini and R.C. LaFlesh
Combustion Engineering, Inc. ................................. 775

SESSION 11
DEMONSTRATION PROJECTS
Chairman: R.P. Perkins
E.I. DuPont de Nemours and Company
Vice Chairman: J. Philipp
Burns and Roe, Inc.

Coal-Water Fuel Developments in Eastern Canada: The
Chatham and Charlottetown Demonstrations and Beyond
H. Whaley and P.J.M. Read
Energy, Mines and Resources Canada
D.M. Rankin
New Brunswick Electric Power Commission
I.D. Covill
Nova Scotia Power Corporation .................................. 789

*Operation Results of Coal-Oil-Mixture Burning at the
Yokosuka Thermal Power Station
R. Shirato
Tokyo Electric Power Company, Inc. ............................ 798

*Burner Assessment and Boiler Performance Prediction for
S. Gilla Demonstration Tests
G. De Michele, M. Graziadio, S. Ligasacchi and S. Pasini
ENEL - CRTN ......................................................... 799

Advance of the SSCT's CWF Project in China
Z. Wang, China Association for Coal Processing & Util.
K. Cen, Ministry of Coal Industry
F. Hao, Zhejiang University
R. Zhang, China Institute of Mining
Z. Zhang, Fushun Coal Administration
C. Kou, The First Beijing Paper Mill ............................. 800

*The Conversion and Operation of a Rotary Aggregate
Dryer Using Coal-Water Fuel
Babcock & Wilcox Company ...................................... 810

Introducing Indigenous Coal-Water-Mix Fuels to the
Philippines: Assessment of Project Feasibility
C. Bliss, U.S. Agency for International Development
E. Landis, U.S. Geological Survey
T. Butcher, Brookhaven National Laboratory
E. Kimel, Burns and Roe, Inc.
M. Gordon, Development Sciences, Inc.
P. Festin, Economical Development Foundations ............... 811

PUBLICATIONS ONLY
Demonstration and Various Test Applications of COM in Israel
M. Keren and M. Wetzstein
Coal United Company, Ltd. ...................................... 828
SESSION 12
SLURRY FUEL RETROFIT ENGINEERING

Chairman: E. Chao
EBASCO Services Corp.
Vice Chairman: M. Pomerantz
Fuel Development Group, Inc.

Coal Slurry Fuel Supply, Retrofit, Economics, Environment and Transportation
F.W. Bauer and E.R. Zabolotny
Stone & Webster Engineering Corporation

Hydraulics Data and Materials Performance from Phase I Testing of Coal-Water Mixtures
E.P. Motley, R.A. Meyers, C.C. Shih, J.F. Jones and W.Y. Lim
TRW Energy Division

Performance Characteristics of Coal-Water Fuels and Their Impact on Boiler Operation
M.J. Hargrove, A.A. Levasseur, L.S. Miemiec, B.F. Griffith and O.K. Chow
Combustion Engineering, Inc.

Analysis of Utility Boilers for Coal-Water Slurry Tests
E.A. Kimel
Burns and Roe, Inc.
T.C. Derbidge and R.K. Manfred
Electric Power Research Institute

Design Considerations for Coal-Water-Slurry Handling Systems at Utility and Industrial Plants
H. Causilla and E. Liu
Bechtel Power Corporation

Retrofit Considerations for Adding Coal-Water-Mixture Fuel Capability at Houston Lighting & Power's Sam Bertron Plant
B.R. Arora
Houston Lighting & Power

SESSION 13
SLURRY PREPARATION PROCESSES/COMMERCIAL VENTURES

Chairman: R. Manfred
Electric Power Research Institute
Vice Chairman: C. Foster
U.S. Department of Energy

Progress in the Design of Coal-Water Fuel Plants
R.R. Reed
Atlantic Research Corporation
C. Carlton
Bechtel Power Corporation
The Slurry Characteristics of Various Overseas Coal Bases on the Pilot Scale Test
Y. Nakabayashi
Electric Power Development Co., Ltd.
N. Kimura
Electric Power Development Co., Ltd. ........................................... 913

Preparation Test of HCWS at a Pilot Plant in 1984
N. Sato, M. Sakata, N. Suzuki and T. Katahata
Kawasaki Heavy Industries, Ltd. ...................................................... 921

*HCWS Bench Scale Preparation Test in Wakamatsu HCWS Pilot Plant
Y. Nakabayashi
Electric Power Development Co., Ltd.
T. Matsuo and I. Motomura
Mitsubishi Heavy Industries, Ltd. ..................................................... 933

Slurry Characteristics of CWS with Highcoal F-3225 in Pilot Scale Production Test
A. Naka, S. Honjo, H. Sugiyama and Y. Nishida
Dai-Ichi Kogyo Seiyaku Co., Ltd.
Y. Ogura
NEOS Co., Ltd. .................................................................................... 934

*Foster Wheeler Tennessee, Inc. - Coal Water Fuel Production
V.M. Dolan
Foster Wheeler Energy Corporation .................................................. 950

Fluidcarbon Fuel Production and Utilization in Sweden
L.L. Stigsson
Fluidcarbon International AB .............................................................. 951

Commercial Slurry Fuel Developments at COMCO
D.G. Beshore
COMCO ............................................................................................... 957

A Flexible Approach to Expanding Production Capacity for NYCOL
E. Taernfors
NYCOL AB .......................................................................................... 963

The CoaLiquid, Inc. Coal Slurry Fuels Commercial Program - 1985
G.T. Hawkins
CoaLiquid, Inc. ..................................................................................... 973

PUBLICATIONS ONLY

Production of Coal-Water Slurry Fuel with Low-Ash Western Bituminous Coal
L.B. Rothfeld, J.L. Sepulveda and R.F. Yap
Anaconda Minerals Company .............................................................. 992

The Cape Breton Development Corporation’s Carbogel Coal Water Fuel Project
A. White, J.C. Campbell and R. Nicholson
Cape Breton Development Corporation
G. Landry and R. Kazmel
Carbogel .............................................................................................. 1001

Use of Intensive Mixing in the Preparation of CWS
U.J. Wickard
Finish Machines Ltd. ........................................................................... 1011
SESSION 14
SLURRY FUEL DELIVERY/TRANSPORTATION

Chairman: J. Dudlak
GATX
Vice Chairman: G. Browsh
Midland Affiliated Company

*Barge Transportation of Coal-Water Mixtures
D.F. Sampsell
Ingram Industries Inc. .................................................. 1017

*Coal Slurry Fuels Transportation Alternatives
T.C. Derbidge and R.K. Manfred
Electric Power Research Institute
O.A Rogers
Texas Eastern Corporation ............................................. 1018

Energy Efficiency Comparison of Coal Slurry
Transportation Systems
K.-I. Nagata, T. Yano, S. Nagamori and T. Yamada
Mitsui Engineering and Shipbuilding Company .................. 1019

Delivering Coal Without the Dust and Noise
L.H. Weiss
Energy Technology Associates
J.A. Cartner
Phillips Cartner & Co., Inc. ............................................. 1032

Coal Water Slurry Barge Delivery to Boston Edison
Mystic 4 for a Demonstration Test Burn
A.R. Faulkner, Bechtel Power Corporation
M.R. Schmid, Atlantic Research Corporation
H.W. O'Connor, Boston Edison Company .......................... 1047

Handling Properties of Coal Water Slurry Fuels
J.P. Dooher, D. Cote, N. Malicki, D. Wright and D. DiMeo
Adelphi Center for Energy Studies .................................. 1057

PUBLICATIONS ONLY

Western Resource Transport Project
A Liquid Carbon Dioxide/Coal Slurry Pipeline
W.E. Fite
U.S. Department of the Interior
B. Johnson
Western Resource Transport, Inc. ................................. 1072
SESSION 15
FUEL SWITCHING ECONOMICS

Chairman: H. Hagler
Hagler-Bailey
Vice Chairman: E. Kimel
Burns and Roe, Inc.

Capital and Operating Costs for Commercial Scale Coal-Water Slurry Preparation Plants
R.C. Furman
Consulting Engineer ......................................................... 1083

Coal Slurry Production Costs
D.A. Linnig
Fluor Technology, Inc. ......................................................... 1098

*The Effects of Coal Loading on Economics of Burning Coal-Water Slurries in Power Boilers
K.R. Anast, M.H. Berggren and A.K. Bhasin
AMAX Extractive R&D Inc.
P.W. Woessner
AMAX Coal Company ......................................................... 1108

*The Economic Incentive for Conversion of an Industrial Boiler to Coal-Water Fuels
A.A. Zagrodnik, P.H. Schueler, D.H. Markert and R.A. Grams
Babcock & Wilcox Company .................................................. 1109

*Coal Water Fuel Industrial Boiler Conversion and Economics: User Considerations
B.K. Moffat
OXCE Fuel Company ......................................................... 1110

Improved Combustion of Coal Water Mixtures
A.E.S. Green
University of Florida ......................................................... 1111

Authors Index ................................................................. 1129
