INTERNATIONAL MARITIME ASSOCIATION OF THE MEDITERRANEAN (IMAM)

IMAM'93

VI CONGRESS

Proceedings of the VI-th Congress of the IMAM

Edited by Peter A. Bogdanov

VOLUME II

15 - 20 NOVEMBER, 1993
Varna, BULGARIA
TABLE OF CONTENTS - VOLUME II

SECTION 1. SHIP AND OTHER FLOATING STRUCTURES DESIGN

SOME CONSIDERATIONS FOR BETTER HULL STRUCTURAL DESIGN 3
M. Mano
Kinki University, Tokyo, JAPAN

SOME NEWS AND FEATURES IN 29 000 TDW/1 800 TEU CONTAINER VESSEL WITH MULTIPURPOSE IMPLEMENTATION 11
K. Abadgiev
Institute of Shipbuilding, Varna BULGARIA

MONOHULL, CATAMARAN AND CATAFOIL COMPARISON 17
Gordana Semijalac, Antun Gamulin
Brodarski Institute, Zagreb, Croatia

SECTION 2. RESISTANCE AND FLOW AROUND THE HULL

ANALYSIS OF THE HYDRODYNAMIC CRITERIA OF SHIP SURFACE OPTIMIZATION 25
I. Mizin, G. Savinov, N. Waldman
FORMA LTD., St. Peterburg, RUSSIA

A BOUNDARY ELEMENT METHOD APPLIED TO THE DETERMINATION OF THE POTENTIAL FLOW AROUND A HULL SUBMITTED TO REGULAR SEA WAVES EXCITATION 35
M. Szajnbok, M. de Conti
University of Sao Paulo, BRAZIL

A GENERAL PROCEDURE FOR WAVE PATTERN RESISTANCE EXPERIMENTAL CALCULATION 45
I. Zotti
University of Trieste, ITALY

WAVE - FORMATION BY THE MOTION OF A SURFACE SHIP HYDRODYNAMIC COMPLEX NEAR THE FREE BOUNDARY. CLASSIFICATION OF NONLINEAR WAVES. WAVE - VORTEX RESONANCE 51
M. A. Basin
FORMA LTD., St. Peterburg, RUSSIA
SECTION 3. SHIP PROPELLERS AND PROPELLORS

APPLICATION OF THE LIFT - BASED PROPELLER SCALE EFFECT CORRECTIONS TO EVALUATION OF THE SHIP PROPULSIVE CHARACTERISTICS

S. Miranda
University of Naples, ITALY
J. Szantyr
Institute of Fluid Flow Machinery, Gdansk, POLAND

PHYSICAL MODELLING OF MARINE PROPELLER CAVITATION NOISE USING A ROTATING ROD AS CAVITATION GENERATOR

R. Latorre
University of New Orleans, USA

SECTION 4. STABILITY AND SAFETY OF SHIPPING

FISHING VESSEL SAFETY AGAINST CAPSIZING AND I.M.O. STABILITY CRITERIA

G. Boccadamo, P. Cassella, S. Mauro, A. Scamardella
University of Naples "FEDERICO II", ITALY

ANALYTICAL INVESTIGATION OF NONLINEAR ROLLING FOR VESSELS WITH "SOFT" AND "HARD" STABILITY DIAGRAMS

Y. L. Vorobyov
Odessa Institute of Marine Engineering
V. G. Sizov
Odessa State Maritime Academy, THE UKRAINE

PRACTICAL RECOMMENDATIONS FOR ENSURING SAFE SHIP OPERATION IN FOLLOWING SEAS

S. Dimitrova, R. Kishev
Bulgarian Ship Hydrodynamics Centre, Varna, BULGARIA
A. Bogdanov, V. Lipis
Central Marine and Design Institute, St. Peterburg, RUSSIA

ON THE DYNAMIC INSTABILITY OF A SAILING CRAFT INDUCED BY AERODYNAMIC FORCES

G. Boccadamo, L. Lecce, E. Tortora
University of Naples, ITALY
## SECTION 5. EXTERNAL FORCES AND SHIP STRENGTH

**EXPERIMENTAL INVESTIGATION OF DECK WETNESS FOR A CONTAINER SHIP**

B. Hamoudi  
Glasgow University, Scotland, UNITED KINGDOM

**HYDRODYNAMIC FORCES ON A HIGH - SPEED CATAMARAN MOVING IN WAVES**

M. Ohkusu, S. Mizokami  
Kyushu University, JAPAN

## SECTION 7. ECOLOGY AND ENVIRONMENTAL PROTECTION

**THE QUALITY OF COASTAL SEA WATERS: THE EXPERIENCE OF THE REGIONAL MONITORING IN VENICE (ITALY)**

A. Baroni, E. Perissinotto, P. Turin, S. De Boni, A. Lonigo  
Hygiene Institute of Padua University, ITALY  
R. Bertaggia  
Ecology and Environment Protection Department of the Venice District, ITALY

**ANTHROPOGENIC INFLUENCE ON THE FISH RESOURCES IN THE BLACK SEA**

P. P. Kolarov  
Research Institute of Fisheries, Varna, BULGARIA

**ECOLOGICAL PROBLEMS OF SHIP POWER INSTALLATIONS**

P. T. Vangelov, I. D. Dimov  
Institute of Shipbuilding, Varna, BULGARIA

## SECTION 8. MARINE ENGINEERING AND SHIP EQUIPMENT

**LOADSHIP MULTIPoint LOADING INSTRUMENT**

V. Andonov, Z. Zakhariev  
Institute of Shipbuilding, Varna, BULGARIA

**SHIP ELECTRICAL PLANT CONTROL SYSTEM “PARALLEL”. FEATURES AND ADVANTAGES**

St. Chakarov, I. Parlapanov, A. Georgiev  
Institute of Shipbuilding, Varna, BULGARIA
SECTION 9. MANAGEMENT AND ECONOMICS OF SHIPPING AND SHIP OPERATIONS

A MODEL OF SCHEDULING TO SHIPS IN NETWORK OF ROUTES 169
R. Zobenica, V. Colic
University of Beograd, YUGOSLAVIA

FULL SCALE OBSERVATIONS ON BOARD TWO 19 000 TDW BULK CARRIER SISTER SHIPS
V. Rakitin, R. Kishev, J. Botev, S. Dimitrov, R. Nachev
Bulgarian Ship Hydrodynamics Centre, Varna, BULGARIA

THE IMPORTANCE OF THE TURKISH STRAITS 185
M. Yilmaz
Technical University of Istanbul, TURKEY

SECTION 10. OCEAN ENGINEERING AND TECHNOLOGY

SOME PROBLEMS OF SURFACE WAVE TRANSFORMATION BY CURRENT 193
I. G. Kantardgi
VENEV LTD., Moscow, RUSSIA

EVALUATION OF SEA WAVE PARAMETERS BY MEANS OF THE ENERGY CHARACTERISTICS OF THE REFLECTED RADIOLOCATION SIGNAL 201
T. D. Penkov
Naval Academy, Varna, BULGARIA

SECTION 11. COMPUTERIZED TOOLS AND EXPERT SYSTEMS

USE OF CAD DATA FOR FE MODELLING OF SHIP STRUCTURES 207
R. Bronsart, U. Rabien
Germanischer Lloyd, Hamburg, GERMANY

DESIGN AND ANALYSIS OF MARINE FRP STRUCTURES 219
R. A. Pereversev
Marine Technical University, St. Petersburg, RUSSIA
CHARACTERISTICS AND DEVELOPMENT OF CAD/CAM IN SHIP DESIGN AND PRODUCTION
A. M. Galli, G. Qualich
University of Genoa, ITALY

DEVELOPMENT OF CAD/CAE SYSTEM FOR SHIP DESIGN
SUITABLE FOR SMALL AND MEDIUM SHIPYARDS
J. L. J. Marchal, S. Rodrigues, A. Hage
University of Liege, BELGIUM

SECTION 12. EDUCATION, RESEARCH, DESIGN AND CONSULTANCY CAPABILITIES
AND ACTIVITIES

A REVIEW OF PROBLEMS WITHIN THE SHIP
MANAGEMENT INDUSTRY AND COMMENTS
WITH REGARDS TO THE ROLE OF
THE WORLD MARITIME UNIVERSITY
D. J. Mottram
World Maritime University, Malmo, SWEDEN

THE PATTERNS OF MARITIME EDUCATION AND TRAINING
S. Ozen, N. Guler, K. Rodopman, F. Turkay
Technical University of Istanbul, TURKEY
